TASK FORCE STRATEGIC

RECOMMENDATION

Approve the Mayor's Gang Prevention Task Force Strategic Work Plan for 2018-2020 and direct staff to add an additional objective, as listed below, to Goal#1 included in the 2018-2020 Mayors' Gang Prevention Task Force Strategic Work Plan.

Goal# 1 **Strengthen the Continuum of Care**

- Identify additional funding sources to expand sports programs and physical recreation facilities as a part of an evidence-based approach to reduce incidence of violence, crime, and victimization among youth and young adults

DISCUSSION

I recommend that we ensure that sports and physical recreation remain within the Mayor's Gang Prevention Task Force toolbox during the life of the current strategic work plan. Several external sources of potential funding have emerged that provide opportunities for us to create viable alternatives for youth to the life on the street, and a public safety strategy can emerge that aligns the MGPTF more closely with programs in the Parks, Recreation and Neighborhood Services Department.
