Dear San José community, and city govt.,

To speak to finalizing ordinances, at this time - a thank you, to the current help, from the city of San Jose, with small, local businesses.

In what may only be, another year and a half, to feel we have more fully left, this current Covid-19 scenario - ab 3088, has created, at this time, the needs of action, at the local level.

David Chiu, Ash Kalra, and other assemblypersons, of the Bay area, worked much, this past summer - to create a simple funding system, where owner's could be offered, a guarantee, on their mortgages and bills.

From this, tenants would then not have to be, harassed or sued.

And would also be offered, their own rights and guarantees.

This would be a plan available to, owners & renters, alike, of small businesses and apt. dwellings.

From the meaningful work, of assemblypersons, this past summer, I hope we can all make the efforts, to expand the ideas & purpose, of ab 3088, this fall.

Sincerely,  
Blair Beekman
