<a href="#">AB 2</a>	<a href="#">Ward, D</a>	Recycling: solar photovoltaic modules.	06/28/2023 - Amended <a href="#">HTML PDF</a>	09/01/2023 - In committee: Held under submission.	08/14/2023 - Senate APPR. SUSPENSE FILE	The Electronic Waste Recycling Act of 2003 requires retailers to charge a recycling fee for certain electronic devices and batteries when they are sold. This fee is then put into a special fund, which is used to help cover the costs of recycling the devices and batteries and to pay back consumers for their recycling fees. This law is now being expanded to cover solar photovoltaic (PV) module products, meaning that when these products are bought, a recycling fee must be paid. This fee will also be put into the special fund and used in the same way. Starting in 2027 all solar photovoltaic modules must have an end-of-life plan in order to be recycled, refurbished, or reused. (Based on 06/28/2023 text)		Monitor

(Last location was TRANS. on 6/14/2023)(May be acted upon Jan 2024)	07/14/2023 - Senate 2 YEAR	Existing law requires certain transportation planning agencies to prepare and adopt regional transportation plans which must include a sustainable communities strategy, which aims to reduce greenhouse gas emissions from automobiles in the region. This new bill would require the state board to establish additional targets for 2035 and 2045 respectively. The bill would also require a metropolitan planning organization to submit the technical methodology used to estimate emissions before starting a public process and require the state board to review and approve the strategy within 180 business days. Additionally, the bill would require project nominations for the Solutions for Congested Corridors Program to demonstrate how the project would contribute to achieving the state's greenhouse gas emission reduction targets. Lastly, if the Commission on State Mandates determines the bill to contain costs mandated by the state, then the state is required to reimburse these costs. (Based on 03/16/2023 text)		Monitor

(Last location was APPR. SUSPENSE FILE on 8/14/2023)(May be acted upon Jan 2024)	09/01/2023 - Senate 2 YEAR	The existing law gives the California Department of Transportation (DOT) possession and control over the state highway system and related property. It also states that no roadside vegetation control operation can be done until certain conditions are met. This bill would require the DOT to adopt a statewide policy to use integrated pest management (IPM) on or before January 1, 2025, on roads and highways in cities and counties with IPM approaches. The DOT would need to consult with the Department of Pesticide Regulation and the University of California Statewide IPM Program. When operating in a city or county with an IPM policy stricter than the statewide policy, the DOT must operate in a way consistent with the local policy. It also requires the DOT to make publicly available on its internet website the amount location and type of pesticides, and to provide information of when it plans to apply the pesticide. Chaptered by Secretary of State - Chapter 761, Statutes of 2023.	10/11/2023 - Assembly CHAPTERED	CEQA is a law in California which requires the lead agency (a person in charge of a project) to prepare an Environmental Impact Report on a project if it may have a significant effect on the environment. The lead agency must prepare a Mitigated Negative Declaration if the project will have a significant effect but can be avoided or mitigated. This bill would offer an exemption from CEQA until 2033 for actions taken by a government agency related to affordable housing projects, if certain requirements are met. The lead agency must file a Notice of Exemption with the Office of Planning and Research or the County Clerk of each county in which the project is located. The bill also adds more responsibility to the lead agency which requires the state to reimburse local agencies and school districts, but no reimbursement is required by this act. (Last location was JUD. on 6/14/2023)(May be acted upon Jan 2024)	07/14/2023 - Senate 2 YEAR	This bill would affect the way that license plate reader technology, also known as automated license plate recognition (ALPR), is used in California. Law enforcement departments are authorized to retain data for up to 60 days, and to share that data with other law enforcement agencies. Public agencies need to implement usage and privacy policies to protect the information. The bill would require these policies to include a requirement to purge information that does not match the 'hot list' in 30 days. Additionally, the data can't be accessed if it is older than 60 days. Public agencies would not be allowed to sell, share, or transfer ALPR data to out-of-state or federal agencies without a court order or warrant. Finally, annual audits must be conducted to review and assess the searches done by the ALPR end-users to determine compliance with the usage and privacy policies. (Based on 07/03/2023 text)		Monitor

Chaptered by Secretary of State - Chapter 729, Statutes of 2023.	10/10/2023 - Assembly CHAPTERED	The Santa Clara Valley Water District Act creates the Santa Clara Valley Water District, which is responsible for conserving and managing flood storm and recycled waters and other waters for beneficial uses. The bill additionally authorizes the district to take certain actions, in consultation with a city or Santa Clara County, to assist unsheltered people living along streams and in the district's jurisdiction. It also requires the district to submit reports to the state Legislature on actions taken to help these individuals by 2029 and 2034. Chaptered by Secretary of State - Chapter 764, Statutes of 2023.	10/11/2023 - Assembly CHAPTERED	This bill requires local officials to prioritize the funding of adaptive reuse projects in order to build more affordable housing in existing developed areas with public infrastructure. The bill adds to the Housing Accountability Act, which makes it illegal for local agencies to disapprove or condition a housing project that is intended to be used for very low-income, low-income, or moderate-income households, so long as it complies with objective, quantifiable written development standards. This bill requires these housing developments to have 100% of their units be dedicated to lower income households, with 50% of the units being dedicated to very low-income households. Local agencies would be required to determine if the proposed development meets these standards within a specific timeframe and would be prohibited from prohibiting an adaptive reuse model for an affordable housing project on the basis that it is an adaptive reuse project. A local source of funding would have to include adaptive reuse as an eligible project. (Last location was E.Q. on 2/1/2023)(May be acted upon Jan 2024)	04/28/2023 - Senate 2 YEAR	This bill would give special protection to housing development projects from additional legal action related to CEQA (environmental law) if they have already been subject to legal proceedings. It would prohibit the court from staying or enjoining the construction or operation of a project unless special findings have been made. It also would require that any claims regarding the lead agency's noncompliance with the legal proceedings must be made during the public comment period and would also limit those claims to how the lead agency responded to the legal proceedings. Finally, this bill requires any legal actions caused by a lead agency's certification of an EIR for certain projects such as public works and housing to be resolved within 365 days. It does this until 2030 and except in certain cases. (Based on 01/24/2023 text)		Monitor

If they find it not to be valid, it would be a trespass and people could be held liable for it. This new bill would change that. The Metropolitan Transportation Commission (MTC) is a regional agency in the 9-county San Francisco Bay area that helps with regional transportation planning. The Bay Area Toll Authority (BATA) is also governed by the same governing board as MTC. BATA is responsible for collecting the tolls on the state-owned toll bridges in the San Francisco Bay Area. This bill would increase the toll rate for crossing the bridges and transfer the revenues collected to MTC, which would allocate the money to local transit operators for their services. Additionally, the bill would reduce the maximum penalty for toll evasion violations on San Francisco Bay Area state-owned toll bridges. If the Commission on State Mandates determines that the bill contains costs mandated by the state, the state will reimburse local agencies and school districts for those costs. If a meeting is done via teleconference, local agencies must post agendas, inform participants of locations, make the meeting publicly accessible and have at least one member present from the jurisdiction. It is also allowing members to remotely participate on the condition that it is for "just cause", such as child/caregiver needs, or other specified relatives. In Senate. Consideration of Governor's veto pending.	10/08/2023 - Senate VETOED	This bill would change the law for franchise agreements between local governments and service providers for solid waste handling services - such as utilities, waste hauling, and cable television. On or after January 1, 2024, any new or substantially amended franchise agreement must include certain provisions in the case of a work stoppage related to a labor dispute. This bill also states that changes proposed by it are a matter of statewide concern, so it applies to all cities including charter cities. The state will reimburse local governments for the costs involved in this new law, as long as the Commission on State Mandates agrees with it. (Based on 09/19/2023 text)		Monitor

(Last location was E.Q. on 3/29/2023)(May be acted upon Jan 2024)	04/28/2023 - Senate 2 YEAR	CEQA is a California law that regulates projects that may have a significant environmental impact. It requires agencies to prepare an environmental impact report and make sure any significant environmental effects are mitigated or avoided. It also requires mitigation of effects from vehicle miles traveled or similar metrics. This bill makes it so an "overriding consideration" for significant effects on the environment is not required if the lead agency has taken all feasible mitigation measures and has found no feasible alternatives to the project. (Last location was M. & V.A. on 6/8/2023)(May be acted upon Jan 2024)	07/14/2023 - Assembly 2 YEAR	The Veterans Affairs Department provides benefits to veterans including education and housing assistance. Currently in California, each county appoints a Veterans Service Officer to help veterans by investigating claims and carrying out tasks related to veteran aid. This bill, which is in effect until 2029, would create a pilot program in the counties of Los Angeles and Nevada to offer specialized training and certification in suicide prevention for people with military connections. The program would train individuals to recognize suicide risks and provide emergency intervention. The two counties involved in the program would hire a subject matter expert to create an individualized training curriculum and a system for collaboration and communication. Lastly, the counties would report their findings to the Legislature by 2026. (Based on 05/18/2023 text)		Monitor

In Senate. Consideration of Governor's veto pending.	09/30/2023 - Senate VETOED	Under existing law, people who become unemployed due to a trade dispute are not eligible for unemployment benefits. This bill would change that by restoring eligibility after two weeks and codifying the existing case law which states that employees who left work due to a lockout are eligible for benefits. Additionally, this bill would not diminish the eligibility for benefits for individuals that are deprived of work due to an employer lockout or similar action. This bill also involves the appropriation of money from a continuously appropriated fund. (Based on 09/19/2023 text)		Monitor

<a href="#">SBX1 1</a>	<a href="#">Jones, R</a>	Motor vehicle fuel tax: greenhouse gas reduction programs: suspension.	12/05/2022 - Introduced <a href="#">HTML</a> <a href="#">PDF</a>	03/28/2023 - From committee without further action.	12/05/2022 - Senate RLS.	The California Global Warming Solutions Act of 2006 sets up the State Air Resources Board as the agency responsible for controlling and regulating sources that release greenhouse gases. The act requires that the Board adopt regulations to reduce greenhouse gas emissions to 40% below the limit by 2030. To make sure this gets done, the Board adopted regulations called the Low Carbon Fuel Standard. This bill will stop the Board from using regulations to lower emissions for one year and would also give exemptions to transportation fuel suppliers. To make up for money lost, the bill would transfer money from the General Fund to the Greenhouse Gas Reduction Fund. It also suspends the Motor Vehicle Fuel Tax Law, which is a tax on motor fuel. It requires sellers of motor vehicle fuels to provide a receipt that shows the amount of tax that normally applies. It states that the money saved must be passed on to the end consumer and violation is an unfair competition law. The bill will take effect immediately. (Based on 12/05/2022 text)		Monitor

Chaptered by Secretary of State. Chapter 1, Statutes of 2023-24 First Extraordinary Session.	03/27/2023 - Senate CHAPTERED	This bill changes the existing law which requires operators of refineries in the state to submit a report to the State Energy Resources Conservation and Development Commission each month containing certain information related to their production of gasoline. It requires the commission to post certain information on its website and authorizes them to set a maximum gross gasoline refining margin and penalties for any refiner that exceed it. The bill also requires the commission to consider requests for exemption from the maximum margin and to deposit any penalties collected into the Price Gouging Penalty Fund. It also requires the California State Auditor to complete an audit and performance review of the maximum gross gasoline refining margin and penalty, as well as require commission and the State Air Resources Board to prepare a Transportation Fuels Transition Plan. In addition, it establishes the Division of Petroleum Market Oversight in the commission and the Independent Consumer Fuels Advisory Committee to advise them. Lastly, the bill changes the reporting requirement and increases the amount for civil penalties imposed. (Based on 03/28/2023 text)		Monitor
