If the program is discontinued, the terms and conditions of existing parking lease agreements will remain in full force and effect.
16. Effective November 1, 2011, the Director shall have the authority to provide businesses up to two and one half (2 ½) years of Free or fifty percent (50%) discounted parking for up to one hundred (100) parking permits when it is determined that the enhanced terms of the parking agreement between the business and City would be an overriding factor in the relocation or retention of a business in Downtown and the business meets one of the following conditions on or after November 1, 2011:

- a. New business enters into a new Downtown office or commercial retail building lease for a minimum of 10,000 square feet; or
- b. New business enters into a new Downtown office or commercial retail building lease and executes a parking agreement with the City for a minimum of thirty (30) parking permits for the duration of the parking agreement; or
- c. Existing Downtown business enters into a new office or commercial retail building lease and:
  - expands their operation Downtown by a minimum of 5,000 square feet; or
  - executes a parking agreement with the City for a minimum thirty (30) parking permits for the duration of the parking agreement if they are relocating their parking from a private parking facility to a City facility; or
  - executes a parking agreement with the City for a minimum additional thirty (30) parking permits for the duration of the parking agreement if they are already purchasing parking in a City facility.

A key factor the Director will use to determine if parking is an overriding factor in the decision of a business to locate or remain Downtown is whether the business has requested enhanced parking incentives from the City prior to executing their new Downtown office or commercial retail building lease.

All other terms and parameters of the Free and 50% Discounted Parking Incentive Programs set forth in this Resolution will be applicable to businesses that execute a parking agreement under the above enhanced terms.

17. Non-City and Non-Redevelopment Agency operated or funded Incubator Free Parking Incentive Program – Beginning on December 14, 2010 and ending on June 30, 2012, Director shall accept applications from Incubators to participate in the Incubator Free Parking Incentive Program. Each qualified Incubator will receive free parking in a Downtown Municipal Off-Street Parking Facility, as determined by the Director, for up to one-half the duration of the Incubator's written office lease agreement for Downtown building/office space, for a maximum of fifty (50) parking

permits and up to a maximum of thirty-six (36) months of free parking. The actual number of months of free parking will be equal to one-half the length of the parking agreement that is executed between the Incubator and City as set forth below. For example, a qualified Incubator that fully executes a seventy-two (72) month Downtown building/office lease agreement and a separate seventy-two (72) month parking agreement with City would be eligible to receive thirty-six (36) months of free parking and required to pay the regular monthly rate for the remaining thirty-six (36) months. Should the Incubator cease to use any, or all of the parking permits provided to them by City at any time during the term of their parking agreement, the Incubator may be released from the terms of the parking agreement requiring the purchase of parking permits during the paid portion of the parking agreement, as long as the Incubator provides written proof of maintaining office space within San José as an Incubator through the term of their parking agreement. The Director has the authority to negotiate and execute parking agreements, along with any amendments, with qualified Incubators.

- a. In order to be eligible for the program, qualified Incubators shall sign a parking agreement provided by the City that establishes the length of term, the number of months of free parking, the number of months of paid parking at the City's regular established rate, a one month deposit per parking permit at the regular monthly parking rate, and additional fees assessed as set forth in detail in **Exhibit VI**.
- b. Director shall assess which Municipal Off-Street Parking Facility the Incubator will use during the duration of the parking agreement. Director is authorized to extend the program, after June 30, 2012, on a year-to-year or month-to-month basis, if sufficient parking supply remains available to meet demand at the time of extension. Other factors that will be considered by Director in determining whether to extend the parking incentives include the fiscal status of the General Purpose Parking Fund and the economic need for the incentive programs in the Downtown. Additionally, if occupancy reaches eighty percent (80%) (either system wide or by facility) at any time during the program, the Director shall evaluate conditions including parking occupancy, office occupancy and other related indicators to determine if the program can continue or should be discontinued. If the program is discontinued, the terms and conditions of existing parking agreements will remain in full force and effect.

18. Introductory Monthly Parking Rate – Businesses or individuals that have not purchased a monthly permit to park in a City facility for at least three (3) months prior to relocating to a City facility, are eligible for a 25% discounted monthly parking rate for a period of up to six (6) consecutive months at an Underutilized Municipal Parking Facility as determined by the Director. The Director is authorized to suspend the program system wide or by facility if occupancy reaches 80% (system wide or by facility) or if the Director determines the program should be suspended because of parking occupancy, office occupancy, and other related financial or parking indicators. If the introductory rate is suspended, the discount rate for existing participants will be continued for the full six (6) months.

Any parking permits issued by the City pursuant to this Resolution shall not be assigned, leased, or sold to any third party, except as specified herein.

- B. On-Street Parking. The rates for on-street parking as defined in Section 1 are shown on Exhibit IV, attached hereto and incorporated and made a part hereof as if fully set forth at length in this Resolution. Within the range of charges authorized for each Parking Meter Zone, the Director of Transportation is authorized to determine the rate to be charged at any particular meter at any particular time. Factors the director will consider in setting meter rates will include on-street occupancy levels, posted time restrictions, and proximity of off-street parking facilities and associated off-street parking rates.

Under the Clean-Air Vehicle Program, Clean-Air Vehicles registered or purchased in San José from a licensed auto dealership shall be entitled to free parking at all On-Street Parking Meters throughout the City. Each Clean-Air Vehicle must display a Clean-Air Vehicle permit provided by the Director signifying that it is a Clean-Air Vehicle. All Clean-Air Vehicles parking at On-Street Parking Meters shall adhere to the posted time restrictions.

- C. EV Charging Stations. The City Manager is hereby authorized to set and adjust rates for the use of EV Charging Stations as defined in Section 1 within the range of zero dollars (\$0.00) up to five dollars (\$5.00) per hour. The City Manager shall consider the following factors in setting the rates: the City's cost in providing, operating, and maintaining the EV Charging Stations, the number of monthly users and level of use of the EV Charging Stations, and the rate charged by other municipalities and third-party operators of EV Charging Stations.

### **SECTION 3. OFF-STREET RESIDENTIAL PARKING PROGRAM**

- A. The “Off-Street Residential Parking Program,” shall be administered by the Director pursuant to the requirements set forth herein.
- B. Upon proper application of an owner or tenant of a legal, residential unit that is located Downtown, the Director shall, subject to the requirements set forth herein, sell such person a Residential Parking Permit. The Residential Parking Permit shall authorize the permit holder to access the participating Municipal Off-Street Parking Facilities as follows: (1) between the hours of 5:00 p.m. to 8:00 a.m. weekdays, (2) all day on weekends and official government holidays, and (3) up to twenty (20) weekdays per year from the hours of 8:00 a.m. to 5:00 p.m.
- C. The Director is authorized to determine which Municipal Off-Street Parking Facilities will participate in the Off-Street Residential Parking Program. For each Municipal Off-Street Parking Facility, the Director shall make this determination based upon the demand for the Off-Street Residential Parking Program at that Facility, the availability of parking spaces to accommodate the Off-Street Residential Parking Program, and the appropriateness of this type of parking at the Facility.
- D. For each Municipal Off-Street Parking Facility participating in the Off-Street Residential Parking Program, the Director shall make available only the number of Residential Parking Permits that can be accommodated at the Facility without impacting other parking uses.
  - 1. The Director shall sell only one (1) Residential Parking Permit for each residential unit. The Director shall sell the Residential Parking Permits on a first-come, first-served basis.
  - 2. Notwithstanding the foregoing, if the Director determines that the number of Residential Parking Permits available at a participating Municipal Off-Street Parking Facility exceeds the number of residential units for which permits are sought, the Director may sell multiple permits to each residential unit. However, any Residential Parking Permits in excess of one permit shall be subject to immediate termination and revocation by the Director in the event the Director determines such termination and revocation is necessary to accommodate a subsequent increase in demand.
- E. The cost of the Residential Parking Permits for the participating Municipal Off-Street Parking Facilities is set forth in **Exhibit II**, attached and incorporated

herein. The monthly rate for the Off-Street Residential Parking Permit Program shall be 50% of the Monthly Rate for the Municipal Parking Facility.

- F. The Director may terminate or revoke a Residential Parking Permit for any reason upon ninety (90) days' notice. The Director may terminate or revoke a Residential Parking Permit for cause upon thirty (30) days' notice. Notwithstanding the foregoing, the Director may terminate or revoke a Residential Parking Permit immediately for failure to pay or for the reason set forth in Section 3.D.2 of this Resolution. Residential Parking Permits shall be subject to renewal at the times specified by the Director, provided that such renewals shall occur within a maximum period of three (3) years after permit issuance.
- G. The Director is authorized to promulgate reasonable rules and regulations with regard to the administration of the Off-Street Residential Parking Program.

  - b. Downtown Cinema Validations are limited to redemption at parking facilities determined by the Director to serve the patron needs of the Downtown cinemas. The Director may add parking facilities to this list as they open and serve cinema/movie patron needs.

Currently, the following parking facilities have been determined to serve cinema patron needs, based on ease of access and capability to accommodate present usage by patrons of cinemas/movies:

- Fourth Street Garage,
- Market/San Pedro Square Garage,
- Pavilion Garage,
- Second/San Carlos Street Garage,
- Third/Santa Clara Garage (The Globe), and
- Third Street Garage.

The Director may remove any of the above facilities from the Downtown Cinema Validation Program if they close, are developed into non-parking facilities, or no longer meet cinema/movie patron needs.

- c. Downtown Cinema Validations are to be provided to patrons of Downtown cinemas/movies for scheduled showings at no charge.
  - d. Downtown Cinema Validations shall not be distributed to cinema employees, secondary uses within a cinema (such as café or restaurant patronage), or sold and/or distributed to any third party.

- C. The Director is authorized to promulgate reasonable rules and regulations with regard to the administration of each of the validation programs.

## **SECTION 5. ALTERNATE USE OF PARKING FACILITIES**

Pursuant to the “Guidelines for Events Held on City-Owned and City-Operated Parking Facilities, including Redevelopment Agency Public Parking Facilities,” adopted by the City Council on September 4, 2001 (hereinafter, “Guidelines”), events approved by the City’s Chief Development Officer may be authorized on certain City-owned and/or operated parking facilities. The daily rates for use of the parking facilities made available for events in accordance with the Guidelines are as follows:

- A. For all parking facilities except Almaden/Woz Parking Lot charging a flat daily rate, the daily fee will be twice the daily rate per space used.
- B. For parking facilities charging an hourly rate, the daily fee will be the established daily maximum rate per space used, but in no case less than \$6 per space.
- C. For parking facilities during periods when a facility primarily provides free parking, the daily fee will be \$6 per space.

## **SECTION 6. CAR SHARE PROGRAM**

- A. The Director may designate On-Street and Off-Street parking spaces City-wide for the exclusive parking privilege of Car Share Organization vehicles. The designation of On-Street parking spaces shall comply with California Vehicle Code Section 22507.1 including the requirement for the placement of signs and markings giving adequate notice of the exclusive parking privilege for the Car Share Vehicles.
- B. Criteria for Participation: The Car Share Vehicle shall be owned and operated by the Car Share Organization in a manner that features all of the following characteristics:
  - 1. Member-based service, where such service is available to members only. Demonstration of membership may include daily, monthly, or annual membership fees, or issuance of membership card to each member.

2. Car Share Vehicles are accessible to members at all times, 24 hours per day, seven days per week, on a self service basis.
3. Car Share Vehicles are available by reservation only. Reservations may be made by automated systems, such as by telephone, on the Internet, or on smart phone applications.
4. Car Share applicant must provide insurance, fuel and vehicle maintenance as part of the company's standard membership or usage fees.

City may require supporting information or documents from applicant to demonstrate that applicant meets the criteria set forth above to City's satisfaction.

- C. As of March 14, 2016, interested and qualified Car Share Organizations may apply for an On- or Off-Street Parking Permit, on a form approved by Director, to reserve public parking spaces in the City. The applicant shall specify on the application the number and proposed location of the requested On-Street or Off-Street parking spaces for exclusive parking privilege. The requested locations shall not include any current red, green, white, yellow or blue curb zones, or otherwise currently restricted zones. The City will not reopen previously designated spaces for application, unless the current occupant elects to relinquish the space. Additionally, the following facilities will not be a part of the Car Share Pilot Program: City Hall, Convention Center, Fourth Street, and Fourth/St. John. The Director shall have the final determination of where Car Share Vehicle parking spaces will be located, and which spaces will be allocated to each Car Share Organization.
- D. If the Director approves the application, the Director will require each Car Share Organization to enter into a written agreement with the City setting forth the terms and conditions of the program, including, but not limited to, (1) authorizing the issuance of a parking permit for each Car Share parking space approved by the Director for each Car Share Organization; (2) requiring applicant to maintain general liability and automobile insurance coverage in amounts approved by City's Risk Manager for the duration of the agreement; (3) requiring indemnification of the City for any loss or damages arising out of or occurring from applicant's participation in the car share program, (4) maintenance responsibilities of applicant; (5) rules and regulations on the use of City parking garages and On-Street parking spaces; (6) requiring applicant to provide non-proprietary data requested by City periodically to assist City to determine the effectiveness of the Car Share Program ; and (7) other terms and conditions deemed relevant by Director for the use of City property. The Director is authorized to negotiate and execute any written agreements or amendments with each Car Share Organization for their participation in the program, and execution

of the agreement will be required prior to the City's distribution of parking permits under the program. The Director shall also have the authority to terminate the agreement at the Director's discretion. If the agreement is terminated during a period that has already been paid for by a Car Share Organization, the City will refund an appropriate amount to the Car Share Organization.

- E. The Car Share Organization will be required to pay a parking permit fee, based on the location of the designated parking space, as well as a one-time set-up and sign installation fee as follows:

Parking Permit	\$100 per month per Car Share Vehicle parking space in Downtown; \$50 per month per Car Share Vehicle parking space elsewhere in the City.
Signs/Markings	\$225 per sign installation and parking space markings for each location.

All required payments shall be made to the City prior to the final approval of any application and issuance of parking permits.

- F. Each parking space will be allocated for a two-year term. To include any new car sharing organizations in the City and to accommodate new street uses over time, after two years all spaces will be reviewed and reallocated if necessary. The City will not reopen previously designated spaces for application until two years after the commencement of this program, unless the current occupant elects to relinquish the space.
- G. Any signs installed as part of this pilot program shall comply with California Vehicle Code Section 22507.1, City's Sign Ordinance and applicable City Council policies, including but not limited to Council Policy 9-2, entitled "Off-Site Directional Signs for Public or Quasi-Public Facilities" and subject to the approval of the Director. The Director shall have the authority to remove any signs at the Director's discretion.
- H. Each Car Share Vehicle shall prominently display the issued parking permit on the front windshield at all times while parked in their designated parking space. The parking permits are non-transferable and shall not be sub-leased, transferred, or assigned in any manner to any other company, organization, entity or individual, and shall only be used for the Car Share Vehicle to which it has been assigned to park in the specific assigned space. Failure to comply with the requirements of this provision may be subject to a parking citation and immediate termination of the written agreement with the City.
- I. The Director is authorized to promulgate reasonable rules and regulations with regard to the administration of the Car Share Parking Pilot Program.

**SECTION 7. RULES AND REGULATIONS**

The Director is authorized to promulgate reasonable rules and regulations for operation of the parking facilities described in Section 1, including, but not limited to, collection procedures.

**SECTION 8. PRIOR AGREEMENTS**

Agreements which the City entered into pursuant to the terms of any prior Resolution establishing rates and charges for the use of parking facilities mentioned above shall remain in full force and effect until expiration or hereafter amended or terminated by the City.
