MEETING AGENDA

7:00 PM

May 16, 2024

San José City Hall
200 E. Santa Clara Street, San José, CA
Tower 17th Floor Room 1753

Meeting viewable at:

<https://zoom.us/j/99898100505?pwd=WUJKVk9qcUk2b0I5T21peUNxRHZzZz09>

- I. Welcome & Introductions**
- II. Call to Order & Orders of the Day**
- III. Public Record**
- IV. Open Forum**
(Meeting attendees are usually given two (2) minutes to speak on any discussion item and/or during open forum; the time limit is in the discretion of the Chair of the meeting and may be limited when appropriate.)
- V. Consent Calendar**
- VI. Reports and Information Only**
- VII. Old Business**
- VIII. New Business**
 - A. Introduction to Climate Smart
 - 1. Environmental Services Department Presentation – Introduction to Climate Smart (*Attachment A*)
Climate Smart Initiatives (*Attachment B*)
 - 2. Energy Department Presentation (*Attachment C*)
 - 3. Department of Transportation Presentation (*Attachment D*)
 - B. Climate Smart Outreach and Advocacy Strategy
 - 1. Climate Smart Outreach Plan - Draft (*Attachment E*)
 - 2. List of outreach organizations (*Attachment F*)
 - C. Commission Work Plan for Fiscal Year 23-24 and Fiscal Year 24-25 (*Attachment G*)
 - D. Annual Report for Fiscal Year 23-24 (*Attachment H*)
 - E. Recommendation to City Council for Set Time for Climate Smart Items
 - F. Development of Ad Hoc Committees
To consider the development of ad-hoc committees that focus on narrow topics of vital interest that will increase our Commission’s impact. The committee outlined

below is ready for discussion and vote to establish at the May Commission meeting. Details and governing requirements will be discussed. Additional Ad-Hoc committee topics can be discussed at our meeting for further consideration at the July meeting.

Ad-Hoc committee ready for a May meeting formation vote.

Title: Cool Roof Expansion in San Jose

Goals: Opportunities to increase awareness for Cool Roof benefits for climate and energy reduction along with reporting on current and possible incentive programs.

- G. Meeting schedule and agenda items
Potential agenda items for the next meeting

*The next regular meeting will be July 18, 2024, at 7pm in San José City Hall,
Tower Room 1753*

IX. Adjournment

The City of San José is committed to open and honest government and strives to consistently meet the community's expectations by providing excellent service, in a positive and timely manner, and in the full view of the public.

You may speak to the Commission about any discussion item that is on the agenda, and you may also speak during Public Comments on items that are not on the agenda and are within the subject matter jurisdiction of the Commission. Speakers using a translator will be given twice the time allotted to ensure non-English speakers receive the same opportunity to directly address the Committee, Board or Commission. Please be advised that, by law, the Commission is unable to discuss or take action on issues presented during Public Comments. Pursuant to Government Code Section 54954.2, no matter shall be acted upon by the Commission unless listed on the agenda, which has been posted not less than 72 hours prior to meeting.

Agendas, Staff Reports and some associated documents for the Commission items may be viewed on the Internet at <https://www.sanjoseca.gov/your-government/departments-offices/environmental-services/climate-advisory-commission-cac>.

Correspondence to the Climate Advisory Commission are public record and will become part of the City's electronic records, which are accessible through the City's website. Before posting online, the following may be redacted: addresses, email addresses, social security numbers, phone numbers, and signatures. However, please note: e-mail addresses, names, addresses, and other contact information are not required, but if included in any communication to the Climate Advisory Commission, will become part of the public record. If you do not want your contact information included in the public record, please do not include that information in your communication.

All public records relating to an open session item on this agenda, which are not exempt from disclosure pursuant to the California Public Records Act, that are distributed to a majority of the legislative body will be available for public inspection at the Environmental Services Department, 200 East Santa Clara Street, San José, California 95113, at the same time that the public records are distributed or made available to the legislative body. Any draft resolutions or other items posted on the Internet site or distributed in advance of the commission meeting may not be the final documents approved by the commission. Contact the Office of the City Clerk for the final document.

On occasion the Commission may consider agenda items out of order.

The Climate Advisory Commission meets the third Thursday every other month at 7pm, with special meetings as necessary. If you have any questions, please direct them to the Commission staff. Thank you for taking the time to attend today's meeting. We look forward to seeing you at future meetings.

To request an accommodation or alternative format under the Americans with Disabilities Act for City-sponsored meetings, events, or printed materials, please call (408) 294-9337 (TTY) as soon as possible, but at least three business days before the meeting.

THE LEVINE ACT

The Levine Act requires a Party in a Proceeding before the City of San José that involves any action related to their contract, license, permit, or use entitlement to disclose any campaign contributions to City elected or appointed officials totaling more than \$250 within the 12 months prior to the City decision. A Participant to a Proceeding may voluntarily report a campaign contribution. Please visit <https://www.sanjoseca.gov/your-government/appointees/city-clerk/levine-act> for updated forms and information.

Please direct correspondence and questions to:

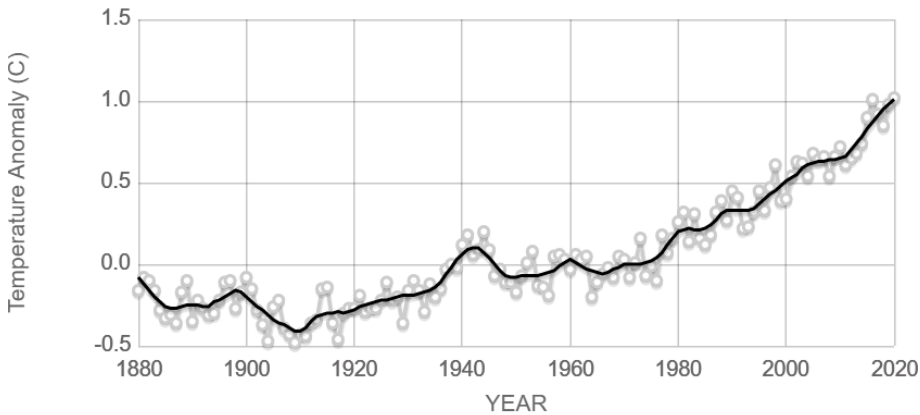

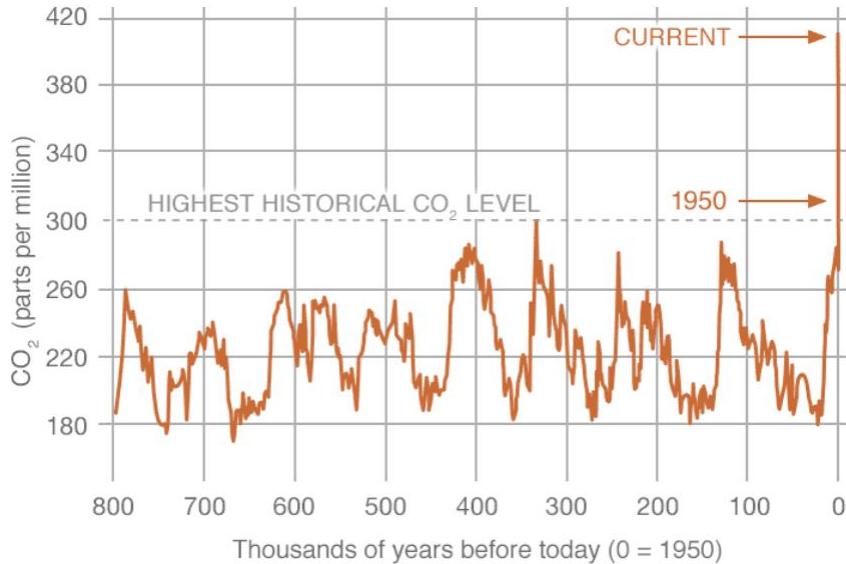

City of San José Attn:
Leticia Vargas
200 East Santa Clara Street, San José, California 95113 Tel: (408)

Climate Smart Pillars and Strategies

PILLARS of what residents want

Pillar 1

A Sustainable & Climate Smart City

Pillar 2

A Vibrant City of Connected & Focused Growth

Pillar 3

An Economically Inclusive City of Opportunity

Climate and water STRATEGIES

1.1

Transition to a renewable energy future

2.1

Densify our city to accommodate our future neighbors

2.3

Create clean, personalized mobility choices

3.1

Create local jobs in our city to reduce vehicle miles traveled

3.3

Make commercial goods movement clean and efficient

1.2

Embrace our Californian climate

2.2

Make homes efficient and affordable for our families

2.4

Develop integrated, accessible public transport infrastructure

3.2

Improve our commercial building stock

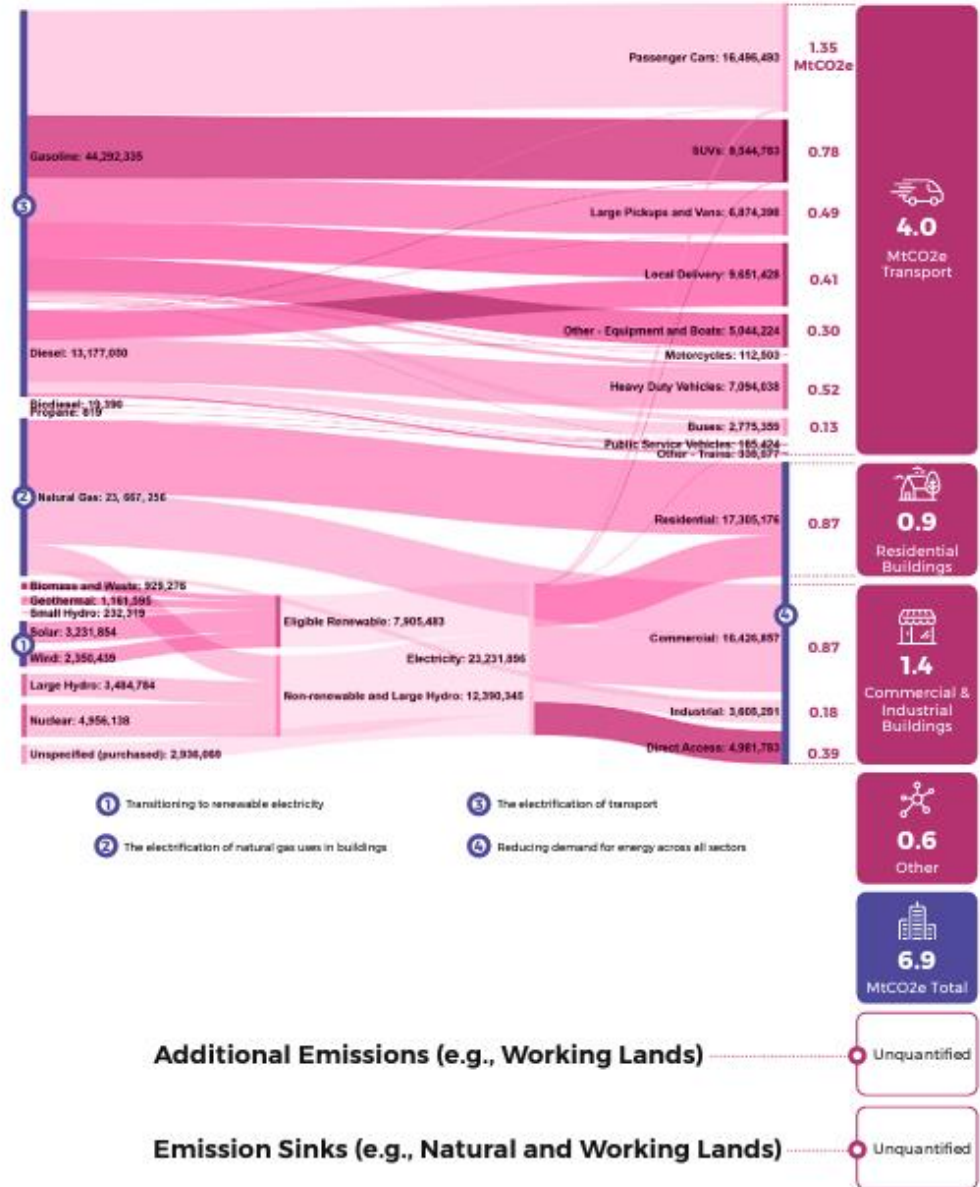

Key Takeaways

A Plan Grounded in the Good Life 2.0

The Plan is framed in such a way that helps deliver the aspirations and desires of our community. This is encapsulated by the Good Life 2.0, an inclusive and benefits driven approach to excite citizens to engage on climate issues.

Fuel Sources and Energy Uses in San José

Carbon Neutrality by 2030 Goal

WHAT IS CARBON NEUTRALITY?

Carbon neutrality means having net zero greenhouse gas emissions in a given year.

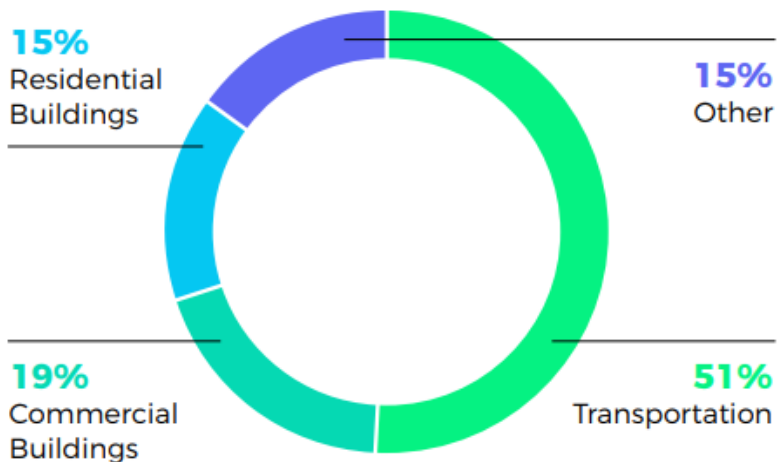

San José will become a better, stronger, and more resilient community by accelerating climate action and moving to carbon neutrality by 2030.

Pathway to Carbon Neutrality by 2030

FOCUS AREAS

To become carbon neutral, the City must reduce greenhouse gas emissions in three key areas:

1. Buildings
2. Transportation
3. Power Source

STRATEGIES

1. Move to zero emission vehicles

Accelerate the shift to electric vehicles, which make up 5% of vehicles in San Jose

2. Reduce the miles we travel in our vehicles by at least 20%

Encourage walking, biking, and public transit

3. Switch our appliances from fossil fuels to electric

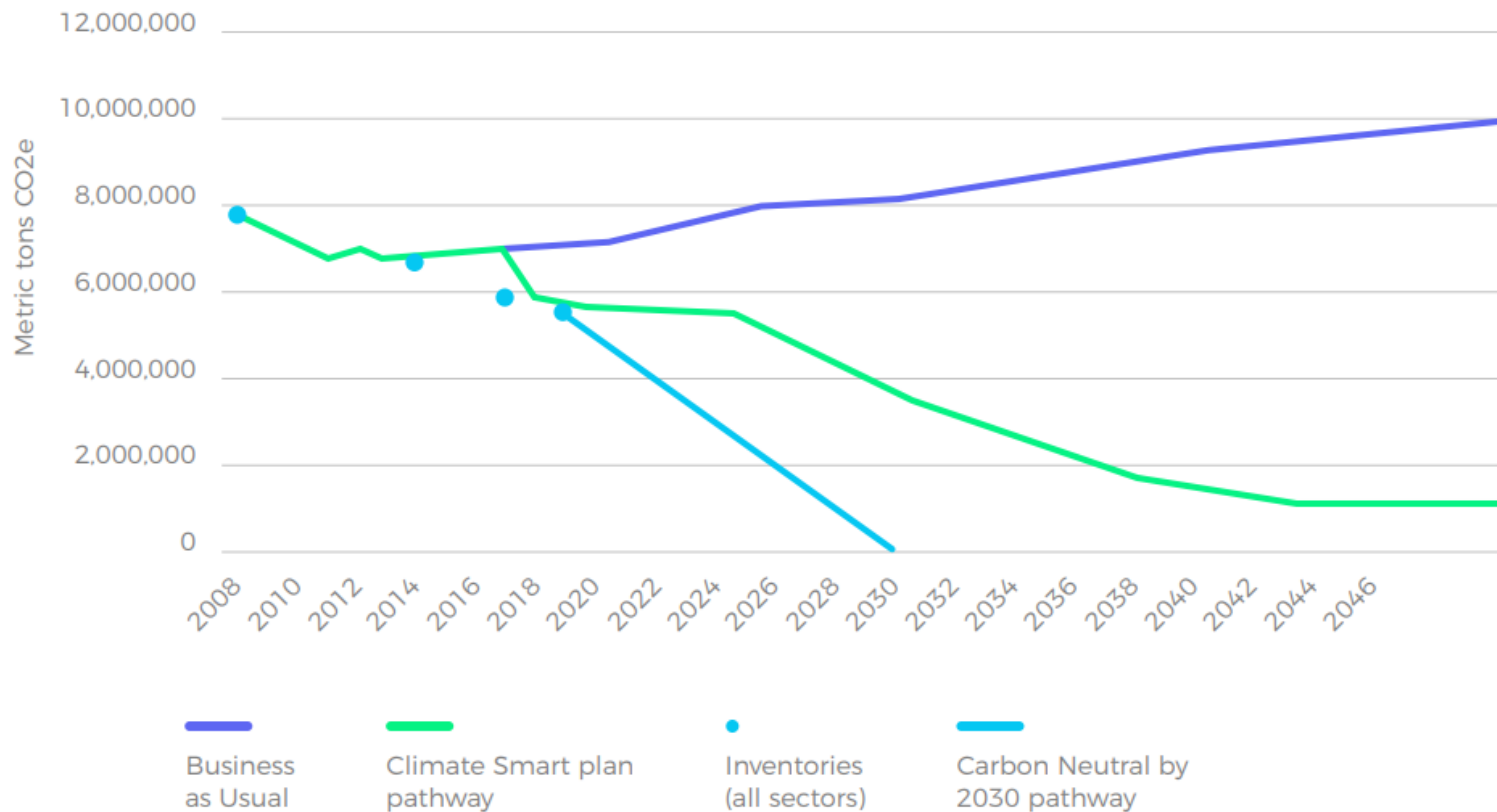

Encourage upgrades to electric appliances, with a focus on space and water heating

4. Power our community with 100% carbon-neutral electricity

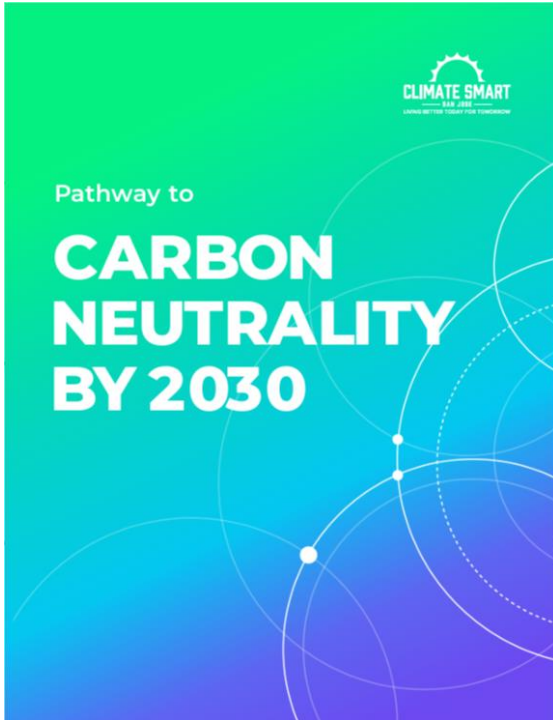

San José Clean Energy will reach 100% carbon-neutral electricity as its base product

CLIMATE SMART TIMELINE

2018-2024

2019

- San Jose Clean Energy launched citywide
- Building Reach Code/ Gas Ban
- Heat Pump Water Heater Rebates

2021

- One Way Vehicle Sharing Ordinance
- Solar Access Program
- Carbon Neutrality by 2030

2023

- Climate Advisory Commission Established

2018

- Climate Smart Plan adopted
- Building Performance Ordinance implemented

2020

- Bike Plan 2025
- Electric Mobility Roadmap

2022

- Move San Jose and Transit First Policy
- Framework for Existing Building Electrification
- Energy Efficiency Programs
- Parking and Transportation Demand Management Policy
- Natural and Working Lands Element

2024

- Electric Homes San Jose
- Zero Waste Element
- Climate Smart Plan Update
- AND MORE TO COME!

Questions?

Current Climate Smart Initiatives¹

Updated: 4/26/24

Ref. No.	Climate Smart/ Pathway to Carbon Neutrality by 2030 Key Strategy	Project Title	Project Description	Est. City Council Date for Consideration of Approval	Lead Department/ Staff
1	Move to Zero-Emission Vehicles	California Electric Vehicle Infrastructure Project	The California Electric Vehicle Infrastructure Project (CALeVIP) is a \$14 million rebate program for Level 2 and Direct Current Fast Charging infrastructure co-funded by SJCE and the California Energy Commission. CALeVIP launched in December 2020. The Center for Sustainable Energy, which is administering the program, continued to review the applications and issue incentives. As of April 2024, 140 Level 2 and 26 Direct Current Fast Chargers funded by the program are operational. About 35 more projects are in the pipeline and expected to be completed through 2025.	N/A	Energy Department (ED)/ Kate Ziemba, kate.ziemba@sanjoseca.gov
2	Move to Zero-Emission Vehicles	Direct Current Fast Charging Hubs Pilot	In November 2022, Council approved San Jose Clean Energy (SJCE) to implement a Direct Current Fast Charging Hubs pilot program to increase access to affordable and reliable EV charging in low-income and disadvantaged communities. SJCE is identifying opportunities to scale the pilot and will prepare a second solicitation to	N/A	ED/ Kate Ziemba

¹ City staff provides biannual Climate Smart updates covering initiatives across department to City Council.

			identify vendor(s) to establish hubs at City-owned sites. SJCE will control variable retail pricing to encourage midday charging and improve charging affordability.		
3	Move to Zero-Emission Vehicles	Delivering Zero Emissions Communities (DZEC) Initiatives	The DZEC grant was awarded to San José in June 2021 to support work towards reducing GHG emissions from urban freight. Phase 1 of this work includes the analysis of commercial freight GHG emissions data, an analysis of strategies the City could use to address urban freight emissions, working with an Equity Task Force, and conducting informational interviews with commercial freight companies. This grant was extended through 2023. The second phase of the grant is focused on planning a last mile delivery pilot. Work includes finding a location, working with the community, and conducting data analysis to plan the pilot.	N/A	Department of Transportation (DOT)/ Sarah Abroff, sarah.abroff@sanjoseca.gov
4	Move to Zero-Emission Vehicles	Electric micro-transit, e-bikeshare and e-carshare	In 2024 DOT secured a \$1.5 M Clean Mobility Options grant to expand bikeshare services to the Mayfair neighborhood in East San Jose. DOT staff continue to pursue grant funding to launch an electric microtransit service in a nearly 13 square mile area in East San Jose. It has postponed pursuit of an e-carsharing program to identify solutions to concerns raised by the community.	TBD	DOT/ Laura Stuchinsky, laura.stuchinsky@sanjoseca.gov
5	Move to Zero-Emission Vehicles	Electric Vehicle Service Equipment (EVSE)	ED is working closely with a consultant to submit an application to the CEC's Charging Infrastructure for Government Fleets grant program. In addition, DOT staff is evaluating priority City-owned sites to pursue Federal		DOT/ Andrea Arjona, andrea.arjonaamador@sanjoseca.gov

		Installations and Funding	<p>and State grants for EV charger installations in disadvantaged communities, including the Federal Charging and Fueling Infrastructure Program (CFI).</p> <p>To reduce operating costs and potentially charging rates of EVSE, DOT is working with PW to switch downtown City chargers to an EV electrical rate, while PW makes efforts to expand the electrical capacity of City facilities, including its downtown garages, to install more chargers.</p>		
6	Move to Zero-Emission Vehicles	Electric Vehicle Infrastructure Planning and Policy	<p>In 2024, the City of San Jose hired a consultant to develop an EV Fleet and Charging Master Plan to guide electrification of the City's fleet and installation of supporting EVSE through 2035.</p> <p>ED staff is collaborating closely with DOT and PW to guide the Fleet Plan process. Following the completion of the Fleet Plan, DOT will assess plans to formulate a citywide EVSE Plan for public access; and will assess emerging map application tools to evaluate potential future locations.</p> <p>While the Fleet Plan efforts advance, DOT staff is evaluating the possibility of adopting overstay fees to encourage faster charger turnover of existing EV chargers and consequently increase access for fleet and public vehicles. DOT staff is also reviewing procurement procedures to select preferred</p>	TBD	DOT/ Andrea Arjona; ED/ Kate Ziemba

			vendors that can provide more favorable rates, agreements, and/or services to support various project scales and timelines.		
7	Move to Zero-Emission Vehicles	Electric Vehicle (EV) Reach Code Update	City Council approved an EV reach code for new multifamily developments on 1/30/24. Staff will return to Council with updates on how/whether to manage rates charged by third-parties.	Update with Climate Smart Biannual Update	Environmental Services Department (ESD)/ Ed Schreiner, edward.schreiner@sanjoseca.gov
8	Move to Zero-Emission Vehicles	Residential Super Off Peak Charging Rate Pilot	In April 2024 the City Council approved SJCE to create a new residential rate plan for EV drivers that adds a new super off peak period from 9 a.m. to 2 p.m. with the lowest rates to incentivize charging when solar is abundant on the grid.	August 2024 (TBD)	ED/ Kate Ziemba
9	Move to Zero-Emission Vehicles	Telematics-based Managed Charging Program	In April 2024 the City Council approved SJCE to launch a managed charging program for 500 EVs using vehicle telematics. Staff will issue a solicitation for a provider in late spring 2024.	N/A	ED/ Kate Ziemba
10	Move to Zero-Emission Vehicles	EV Education	ED staff have contracted with several CBOs to offer ride and drive events, financial empowerment workshops, community dinners, and other educational events about EVs targeted to low-income communities to inform them of the stackable incentives and savings that can be realized by switching to an EV.	n/a	ED/Sarai Rojas sarai.rojas@sanjoseca.gov
11	Switch our appliances from fossil fuel to electric	Building Electrification Upgrade Accelerator Program	ESD executed a master agreement with BlocPower and launched their Electric Homes San Jose program on Earth Day, April 22, 2024. The goal of the program is to	N/A	ESD/ Seena Eghtedar-Shenas

			complete electrification upgrades to 250 residential buildings (both single-family and multi-family homes) utilizing the \$119,000 and additional grant funding in incentives by December 2025.		
12	Switch our appliances from fossil fuel to electric	Energy Efficiency Programs	SJCE secured \$5.1 million from the California Public Utilities Commission (CPUC) and \$500,000 in federal relief funds to launch two energy efficiency programs running September 2022 through December 2024: the Home Appliance Savings Program and the Energy Efficient Business Program (for businesses and schools). As of March 2024, customers have redeemed 189 appliance redemption codes, resulting in the purchase of 25 clothes dryers, 30 clothes washers, 10 refrigerators, and 1 induction cooktop. The program also provides technical assistance and discounts for HVAC, water heating, and refrigeration systems and components for small- and medium-sized businesses and schools. The American Council for an Energy Efficiency Economy has selected the Energy Department for free technical assistance to increase renter participation in these programs.	N/A	ED/ Leslie Park leslie.park@sanjoseca.gov
13	Switch our appliances from fossil fuel to electric	Heat Pump Incentive Program	In April 2024, City Council approved SJCE to launch a heat pump incentive program for residential space and water heating,	N/A	ED/ Leslie Park

			committing \$1.4M for FY24-25. Expected launch is late summer 2024.		
14	Switch our appliances from fossil fuel to electric	On-bill Financing Pilot	In April 2024 the City Council approved SJCE offering an on-bill financing program to accompany its heat pump incentive program. SJCE will provide \$1.25M in zero-interest loans to customers who install a heat pump. Loans are up to \$5,000 for 5-year terms. Expected to launch in tandem with the heat pump incentive program.	N/A	ED/ Leslie Park
15	Power our community with 100 percent carbon-neutral electricity	Solar Access (Disadvantaged Communities-Green Tariff Program)	The Solar Access program offers customers with low incomes living in disadvantaged communities a 20 percent bill discount and 100 percent solar energy from a solar facility in Northern California. The program is entirely funded by the CPUC. Staff began enrolling customers in November 2021, and the program became fully subscribed as of June 2022, with about 850 customers. The program is expected to run for 20 years. In 2024, SJCE will expand the program to approximately 150 more customers.	N/A	ED/ Marcos Santiago marcos.santiago@sanjoseca.gov
16	Power our community with 100 percent carbon-neutral electricity	Peak Rewards Program	Peak Rewards is SJCE's demand response program for large commercial customers which launched in May 2023. In 2024, SJCE will launch Peak Rewards to residential customers.	N/A	ED/ Marcos Santiago
17	Power our community with 100 percent carbon-neutral electricity	Battery Storage Incentive Program	In April 2024 the City Council approved SJCE offering an incentive program for customer-sited battery storage systems. Staff expects to launch the program in spring 2025.		ED/ Marcos Santiago

18	Cross-cutting	Zero Emissions Neighborhood (ZEN) Pilot	<p>The ZEN is intended to bring a suite of Climate Smart building, mobility, and water improvements to households in a pilot neighborhood. The Santee neighborhood was selected based on equity data indicators, input from local community-based organizations, and interest from residents. The ZEN pilot design will be co-created with the participating households and implemented in a phased approach pending funding.</p> <p>ESD received \$73,000 from the North Santa Clara Resource Conservation District for ZEN urban greening measures (extended through December 31, 2024). The City was awarded \$25,000 from the County of Santa Clara Public Health Department for building electrification.</p>	N/A	ESD/ Sarah Emerson
19	Cross-cutting	GoGreen Teams	<p>GoGreen Teams is a community engagement program in San José, supported by Bright Action Communities. Launched in 2022 and with two cohorts completed, it encourages residents and students to form teams and participate in meetings on climate solutions. A third cohort is planned for mid-2024.</p>	N/A	ESD/ Hannah Greenberg
20	Cross-cutting	Climate Smart Challenge	<p>Staff continue to promote the City’s Climate Smart Challenge platform. San José’s Climate Smart Challenge platform has 1,262 users who have completed over 4,100 climate actions, that have resulted in approximately \$99,894 saved, 323 tons of</p>	N/A	ESD/ Hannah Greenberg

			CO2 reduced, and 593,754 gallons of water saved.		
21	Cross-cutting	Climate Smart San Jose Plan Update	City staff are working with a consultant to complete an administrative update to the Climate Smart plan. The update will include the City's carbon neutrality goal and new Elements.	2024 (TBD)	ESD/ Anne Balis, anne.balis@sanjoseca.gov
22	Cross-cutting	Climate Advisory Commission	In May 2023, Council directed staff to establish a Climate Advisory Commission, to be merged with ED's existing commission. The commission had its first meeting in March 2024.	N/A	ESD/ Anne Balis; ED/ Zach Struyk, zachary.struyk@sanjoseca.gov
23	Cross-cutting	Energy and Water Building Performance Ordinance (BPO)	The BPO requires property owners of large commercial and multi-family properties 20,000 square feet in size and above to benchmark these properties' energy and water use and report this to the City annually using the U.S. EPA ENERGYSTAR Portfolio Manager® platform. On a rolling five-year cycle, starting in 2023, buildings also have to complete one of two "Beyond Benchmarking Pathways (i.e. demonstrate high performance or complete steps to improve performance). Staff share energy and water data with buildings via customized scorecards.	N/A	ESD/ Jenna Neustaetter, jenna.neustaetter@sanjoseca.gov
24	Cross-cutting	Climate Art Program	The Climate Art Program aims to build energy and community support around the City's 2030 goal of carbon neutrality by enlisting the support of and reducing the carbon impact of the San José arts and culture sector. Received \$200K grant and currently planning pilot phase for artist-in-	N/A	Danielle Siembieda, OEDCA, danielle.siembieda@sanjoseca.gov

			residence and targeted landing page for arts and culture sector. Carbon Neutral Creative Network gatherings occur monthly and the Resilient Artist Cohort will run from June – August 2024.		
25	Municipal	Green Fleet Policy Update	Drafting update to City policy.	Summer 2024	David Mesa, Public Works (PW), david.mesa@sanjoseca.gov
26	Municipal	EV Fleet Master Plan	Working with PW and DOT staff to complete (goal of spring 2024)	TBD	Kate Ziemba, ED
27	Municipal	Municipal Solar and Storage	Working with PW to develop a power purchase agreement to add solar and storage to 30+ critical City facilities	TBD	Kate Ziemba, ED
28	Other	New Climate Smart Zero Waste Element (ZWE)	The ZWE will address GHG emissions from the solid waste sector. It will assess and reevaluate the prioritization of the City’s zero waste strategies and address related critical issues regarding recycling markets, changing waste regulations, domestic reuse potential, local infrastructure related to waste, and landfill capacity.	Fall 2024 (est. Oct 22)	Jorge Luna, ESD, jorge.luna@sanjoseca.gov
29	Other	Advanced Metering Infrastructure (AMI) Deployment	AMI will allow residents and commercial businesses to view water usage data in nearly real-time, increasing potable water usage awareness and leak detection efficiency. San Jose Municipal Water completed a pilot of three AMI technologies and is developing a scope of work to solicit bids for deployment of AMI to more than 26,000 service connections. San Jose Water Company, which services approximately 80 percent of	N/A	ESD/ Pedro Hernandez, pedro.hernandez@sanjoseca.gov

			the city, will conduct a phased AMI deployment during the next few years.		
30	Other	Integrated Water Infrastructure Program (IWIP)	The IWIP will integrate existing water infrastructure to create a cohesive distribution system conveying stormwater, non-potable groundwater, and recycled water to maximize underutilized assets and increase the non-potable water supply. The Water Resources Division will continue to collaborate with partner agencies and evaluate additional pilot projects, including an expanded pilot project to assess the efficacy of bioretention ponds to expand recycled water applications by improving recycled water quality and to diversify San José's water resources portfolio.	N/A	ESD/ Pedro Hernandez

SAN JOSÉ CLEAN ENERGY OVERVIEW

May 16, 2024

Lina Williams, Deputy Director Account Services,
Marketing and Communications, SJCE

SAN JOSÉ 
CLEAN ENERGY
A Program of the City of San José

WHO WE ARE

- Operated by the City of San José
- Not-for-profit local clean energy provider
- Offer clean energy options to 350,000 accounts
 - 75,000 low-income
- 45 full-time staff (still growing)
- A pillar of Climate Smart San José plan

HOW COMMUNITY CHOICE WORKS

SOURCE SJCE

Sourcing and building cleaner energy

GRID CALIFORNIA

Flowing clean energy into our state's power supply

DELIVERY PG&E

Delivering energy, maintaining lines, serving customers

CUSTOMER YOU

Using cleaner energy, preserving the environment

SAN JOSE
CLEAN ENERGY

SJCE BENEFITS

- More renewable electricity
 - 60% versus 34-48%
- Competitive rates and customer choice
 - Customers can opt out at any time
- Local control and transparency
- Community programs

BILL COMPARISON

GreenSource	SJ Cares	TotalGreen	PG&E
60% Renewable Energy	60% Renewable Energy	100% Renewable Energy	48% Renewable Energy
SJCE Electric Generation \$62.87	SJCE Electric Generation \$56.58	SJCE Electric Generation \$67.03	PG&E Electric Generation \$68.55
PG&E Added Fees \$4.30	PG&E Added Fees \$4.30	PG&E Added Fees \$4.30	PG&E Added Fees \$3.13
PG&E Electric Delivery \$115.84	PG&E Electric Delivery \$51.79	PG&E Electric Delivery \$115.84	PG&E Electric Delivery \$115.84
Average Total Cost \$183.01	Average Total Cost \$112.67	Average Total Cost \$187.17	Average Total Cost \$187.52

Amounts are based on an average monthly residential usage of 416 kWh per month.
They are examples of a customer's monthly bill; usage varies by household.

LONG-TERM RENEWABLE RESOURCES

Since 2019, SJCE has contracted for over 1 gigawatt of new renewable energy and storage resources

- 62 MW solar + storage in Kern County; fixed delivery from 6 a.m.-10 p.m. every day (online)
- 225 MW wind in New Mexico (online)
- 400 MW of solar & 10MWs of battery storage (not yet online)

Up to 45 MW of long-duration storage and up to 34 MW of geothermal through joint projects with other CCAs

PROGRAM GUIDING PRINCIPLES

1. Reduce greenhouse gas emissions
2. Align with Climate Smart San José, the city's climate action plan
3. Promote equity, increase affordability, and support disadvantaged communities
4. Benefit customers and community
5. Maintain or improve the financial stability of SJCE

PROGRAMS IMPACT

- 18 million kilowatt-hours saved
=annual usage of 1600 homes
- Reduced 2,300 metric tons of greenhouse gas emissions
- Saved customers over \$26 million
- More than 70,000 participants

Mode-Shift Goals

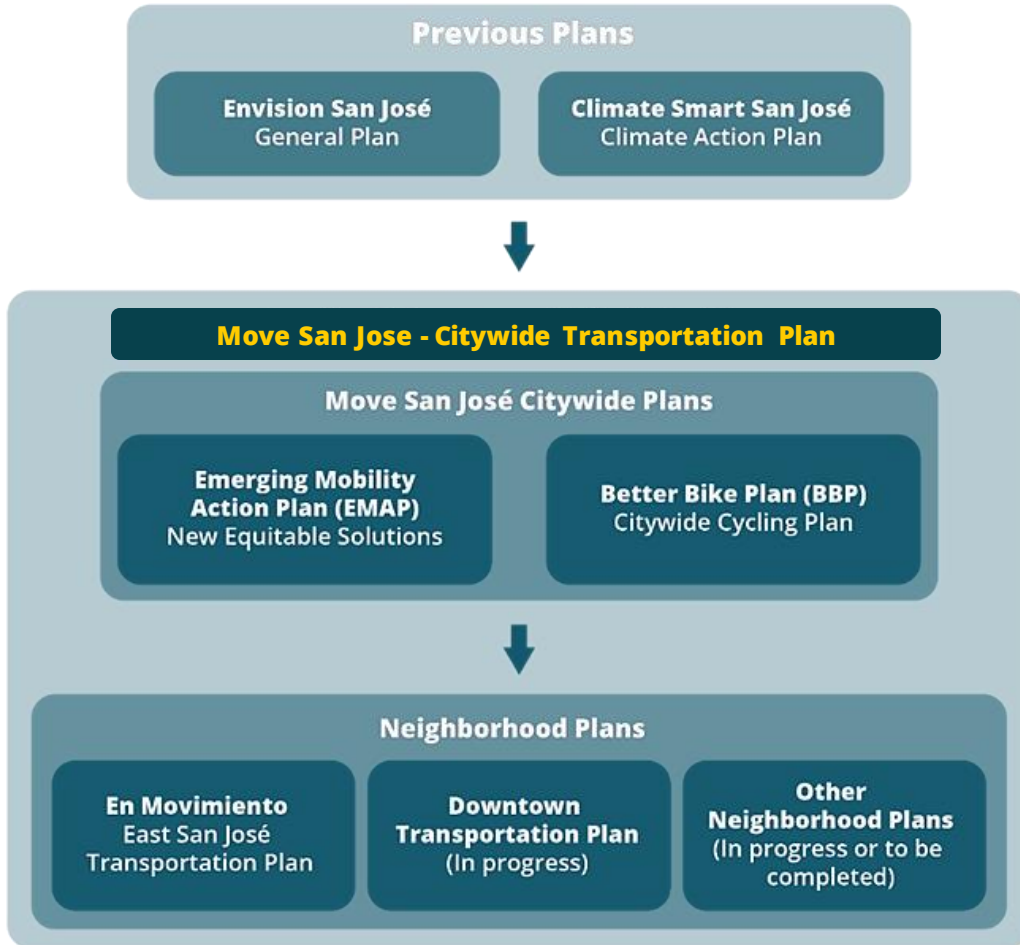

San José's Drive-Along Mode Share

Carbon neutrality by 2030

Plans

MOVE SAN JOSÉ GOALS

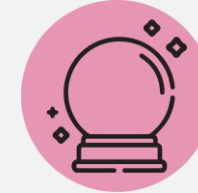

Transportation Safety

Maintain and make improvements to the bike, walk, roll, and transit system to support Vision Zero, prioritizing the personal security of the most vulnerable populations first

Enjoyable Transportation

Make getting around pleasant, easy, reliable and appealing

Plan for the Future

Use the newest ideas to keep the transportation system modern, fair, and effective; and maintain it.

Clean the Air

Reduce pollution from cars and trucks

Less Driving

Have more travel choices so trips can be made without driving

Access for All

Increase transportation education, affordability, options and use of driving alternatives, especially in historically underserved communities and for people with limited mobility.

Connected Neighborhoods

Make it easy to get between neighborhoods and to major destinations by foot, bike, bus, rail, and other shared options

Move the Economy

Provide access to diverse jobs by sustainable modes, support goods to market, and support job growth in San José.

20-Minute Neighborhoods

Create great places so it is easy to run errands and get to schools and parks without a car

STRATEGIES - CATEGORIES

STREETS

Build and maintain infrastructure, especially **bicycle and pedestrian infrastructure**, to retain users and attract more people to use amenities

Safer Streets

Low-Stress Bike Facilities and Slow Streets

Green Infrastructure

Make More Public Space for People

TRANSIT

Improve and expand transit facilities to create a network of **accessible, reliable, and appealing** transit service.

Transit Expansion

Better Transit Stops

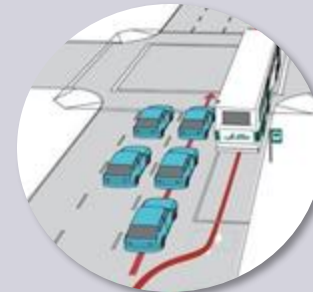

Improving Existing Transit Service

Means-Based Transit Fares

POLICIES & PROGRAMS

Create policies that help **reduce vehicle miles travel and greenhouse emissions**

Transit First Policy

Transportation Impact Fees

Encourage EVs

Encourage/Allow Car Share

Key Programs, Projects and Policies

Under Implementation

- Parking and Transportation and Demand Management (TDM) Ordinance
- Transit First Policy
- Emerging Mobility Action Plan
- EV Infrastructure
- Better Bike Plan
- Micro-mobility & bikeshare program
- Multi-Modal Transportation Improvement Plans: Downtown, East San Jose, West San Jose

Under Planning

- Pedestrian safety plan
- Bike share expansion
- Zero Emissions freight pilot
- Electric micro-transit pilot
- EVSE fleet & community plans
- Downtown mobility hubs
- Move San Jose Decision Support System
- Complete streets plans
- Multimodal Transportation Improvement Plan: North San Jose

Funding: In 2024 Secured over \$26 million in grant funding for complete street, safety, Better Bike and bikeshare expansion

Thank you!

Climate Smart San José - Outreach Plan Fiscal Year 2024-25

Background

In 2018, the City of San José adopted Climate Smart San José (Climate Smart), a plan to reduce greenhouse gas (GHG) emissions in line with the targets set forth in the Paris Agreement and ensure a long-term water supply. Climate Smart has three components: energy, mobility (transportation), and water. It aims not only to reduce the city's carbon footprint but also to improve the quality of life for those who live and work in San José. Climate Smart is a people-focused plan that requires communitywide buy-in and participation. Making people aware of the plan and engaging them in its implementation is critical. In 2019, Council adopted the Climate Emergency Resolution to mobilize climate action as a collaborative effort across sectors of stakeholders in San Jose and to prioritize the equitable and active engagement of communities who have traditionally borne the brunt of environmental degradation so that environmental policies benefit all communities in the city.

In June 2022, Council approved the Pathway to Carbon Neutrality by 2030, which identifies key strategies from within Climate Smart to accelerate the City's progress toward its carbon neutrality goal. The four key strategies identified in the Pathway to Carbon Neutrality by 2030 are:

- Move to zero emission vehicles – Accelerate the shift to electric vehicles, which currently make up 6% of vehicles in San Jose
- Reduce the miles we travel in our vehicles by at least 20% – Encourage walking, biking, and public transit
- Switch our appliances from fossil fuels to electric – Encourage upgrades to electric appliances, with a focus on space and water heating
- Power our community with 100% carbon-neutral electricity – San José Clean Energy will reach 100% carbon-neutral electricity as its base product

This Climate Smart Outreach Plan overview encompasses activities carried out by the Climate Smart San Jose Division in the City's Environmental Services Department (ESD) and is supplemented by other Departments' outreach activities supporting their specific Climate Smart initiatives.

Anticipated Budget/Resources

- \$56,500 City outreach budget allocation

- 50% of 1 Public Information Representative in ESD’s Communications Division for direct support on outreach activities
- 50% of 2 California Climate Action Corps fellows for direct support on outreach activities

Target Audiences

1. San José residents: English, Spanish, and Vietnamese-speaking
2. San José residents in disadvantaged communities (DACs)
3. San José homeowners, multifamily building owners
4. Community-based organizations, including racial and social justice organizations
5. Environmental leadership groups
6. Internal: employees, City Council, City leadership
7. Commercial building owners and developers
8. Schools and universities/colleges

Key Messages

1. Climate Smart General
 - a. A communitywide initiative to reduce air pollution, save water, and improve the quality of life
 - b. Building Electrification
 - a. Make the Switch: Electric is Better/Safer/Healthier/Cleaner/Smarter than Ever
 - b. Flip the Switch to Electric. Upgrade to electric appliances for a cleaner, safer home.
3. Climate Smart Challenge
 - a. Join the Climate Smart Challenge - an easy way to build community and take climate action.
4. Carbon Neutral by 2030
 - a. Zero emissions by 2030 for a healthier, stronger, and more resilient community
 - b. Doing our part for a healthier, cleaner future for all
 - c. Building connection and community through climate action

Objectives

1. Make updates and promote the Climate Smart website to improve accessibility and increase visits by 5% (based on web analytics data)

2. Increase awareness of Climate Smart San José by 5% compared to last survey data
3. Increase engagement on the Climate Smart Challenge platform:
 - a. Implement at least one community engagement campaign to boost participation on the platform (e.g., GoGreen Teams, Climate Smart Seasonal Challenge campaign)
 - b. Increase platform sign ups by 10%
4. Increase engagement of San José residents and organizations in webinars, trainings, presentations, and at events
5. Increase engagement in the Induction Cooktop Checkout Program
6. Increase engagement on social media platforms (focus on behavior change)
7. Deliver 20 presentations to community groups, including Spanish- and Vietnamese-speaking forums, virtually or in-person
8. Deliver 1 (Brown Bag) presentation to City staff, virtual or in-person
9. Improve equitable communication by translating existing collateral and promotion materials into Spanish and Vietnamese, providing language access resources for presentations, connecting with cultural and equity-based CBOs
10. Partner with community-based organizations (e.g., Silicon Valley Youth Climate Action, Youth Commission) to expand outreach to schools and youth throughout the City
11. Partner and add to stakeholder list cultural community-based organizations (CBOs) that missions involve equity

Performance Metrics

1. Website analytics (e.g., page views, time on page, demographics, ADA accessibility)
2. Social media and digital ad analytics (e.g., impressions, clicks, engagements, engagement rate, CTR, view rate, CPC)
3. Survey results and number of respondents
4. Number of sign-ups on the Climate Smart Challenge platform and listserv
5. Number of completed and planned measures on the Climate Smart Challenge platform
6. Number of Climate Smart Challenge Engagement participants, including San José residents who are in DACs and speak Vietnamese and Spanish
7. Number of participants (San José residents, employees, organization members) in webinars, trainings, presentations, and Induction Cooktop Checkout Program
8. Event data (e.g., number of attendees, San José residents, employees, and organization members spoken with, surveys completed, promotional item giveaways)
9. QR code and bit.ly analytics (for flyers, brochures, social posts, etc.)

General Outreach Activities/Tactics

Community Events and In-Person Outreach

City Staff will attend and host events and provide presentations (upon request) throughout San José presenting information to members of the public in several languages and service areas. While performing in-person outreach, Climate Smart messaging will focus on general outreach and education about building electrification, electrification incentives and rebates, induction cooktop checkout program, all-electric home trailer, gas appliance alternatives, and other carbon neutrality goals. City staff attending community events are often from multiple teams in ESD including the Communications Division, Climate Smart San José, Wastewater Compliance, Integrated Waste Management, Stormwater Management, and others to cross-promote messaging and answer questions from residents relating to all the services offered by ESD.

To evaluate its impact and awareness towards achieving carbon neutrality by 2030, Climate Smart San José will conduct a baseline survey in October 2024. This survey aims to measure the percentage of individuals aware of Climate Smart San José, engaging in environmentally conscious actions, expressing concern for climate change, and willing to adopt climate-friendly behaviors in their daily lives.

Downtown Ice

ESD will share environmentally friendly messages at Downtown Ice, one of the South Bay's signature holiday events, located at Cesar Chavez Plaza in downtown San José. ESD's sponsorship of the event includes messages being showcased using signage placed around the ice-skating rink (Figure 1) throughout the month-long event on average more than 2.8 million visitors from across the Bay Area. The announcements are used to inform attendees about ESD messages, such as rebates on all-electric, energy efficient appliances.

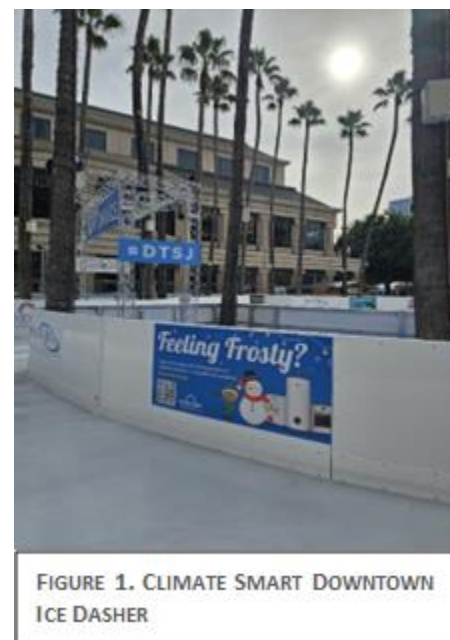

FIGURE 1. CLIMATE SMART DOWNTOWN ICE DASHER

Social Media and Other Outreach

ESD maintains an active presence on multiple social media platforms: Twitter, Instagram, Facebook, YouTube, LinkedIn, and NextDoor. Social media platforms are used to highlight ESD programs and share program messaging, including Climate Smart, by creating social media ads in trilingual, taking into consideration current developments, social media trends, and holidays/seasonal topics (Figure 2). Social media is a key method of promoting Climate Smart messaging as it allows for flexible, low-cost messaging to reach a wide audience. Ads are often targeted to specific audiences based on language-spoken and key demographics.

FIGURE 2. CLIMATE SMART SOCIAL MEDIA POST FOR VALENTINE'S DAY

Univision Ads

ESD will utilize targeted ads to reach Spanish-speaking audiences in the future. Through Univision Ads, ESD will strategically disseminate messaging about Climate Smart initiatives, leveraging the platform's reach within the Spanish-speaking community. These ads will be tailored to resonate with the cultural and linguistic nuances of the target audience, ensuring effective communication of ESD programs and messaging. Univision ads will consistently yield impressive impressions and generate high click-through rates, reflecting their efficacy in engaging the Spanish-speaking demographic with Climate Smart initiatives.

Laundromat Ads

Recognizing the frequented nature of Laundromats within certain communities, these ads serve as an effective means to engage with diverse demographics. By strategically placing ads in Laundromats, ESD extends the reach of its Climate Smart messaging to individuals who may not be as active on traditional social media platforms. This approach allows for targeted communication within local neighborhoods, enhancing the visibility and accessibility of ESD programs.

Grand Century Mall Ads

ESD will utilize Grand Century Mall ads to target the Vietnamese-speaking community. These ads will provide a tailored approach to reach this demographic with Climate Smart messaging. By leveraging the mall's cultural relevance and foot traffic during weekends and holidays, ESD will maximize the impact of its outreach efforts, ensuring that the Vietnamese-speaking population is informed and engaged with ESD programs and initiatives.

Overview of Budget Allocation

The first table lists tailored outreach tactics for each program, while the second table allocates resources to individual projects along with their corresponding tactics. However, it's worth noting that the total budget of \$56,500 has not yet been fully allocated, as this is a draft document.

Overview of Approximate Climate Smart Division Budget Allocation by Project

Project	Audienc	Language	Budget	Tactics
Annual Climate Smart Survey	All	English/ Spanish/ Vietnamese	\$5,000	Social media, laundromat ads, Google ads
Climate Smart Champion Awards	All	English/ Spanish/ Vietnamese	\$2,000	Social media boosts, materials, decorations, trophies, food
Building Electrification Webinars	All	English/ Spanish/ Vietnamese	\$8,000	YouTube, Spotify & Google Ads; Social media ads (FB, IG, X, NextDoor, LinkedIn); Flyer
Electric Homes San José	All	English/ Spanish/ Vietnamese	\$8,000	Social media posts (FB/Meta, IG, X, NextDoor, LinkedIn), Ads (laundromat, Google, Meta)
Climate Smart Challenge & GoGreen Teams	All	English/ Spanish/ Vietnamese	\$7,000	YouTube & Google Ads; Social media ads (FB, IG, X, NextDoor, LinkedIn); Banner at Grand Century Mall
Zero Emissions Neighborhood (ZEN) Pilot	All	English/ Spanish/ Vietnamese	\$2,000	Flyers, postcard, Nextdoor ads for Santee community
General or Leveraged Promotion/ Other	Varies	Varies	\$24,500	Promotional items/ giveaways, general Climate Smart social media and outreach, promotion of regional or external programs/ events (e.g., Electric Homes tour), etc.
		Total	\$56,500	

Overview of Budget Allocation by Tactic

Tactic	Audience	Language	Budget	Description
--------	----------	----------	--------	-------------

Promotional items/ giveaways	All	English/ Spanish/ Vietnamese	\$5,000	To use as incentives, giveaways at events, and/or for program participation, e.g. canvas tote bags, stickers, solar power bank, metal straws; Promotional/Collateral Items: Electric Homes San Jose flyer, Climate Smart Challenge flyer, GoGreens Team flyer, etc. Translated.
Postcard mailers	Targeted, including contractors	English/ Spanish/ Vietnamese	\$4,000	To promote targeted programs or information
Social media ads	Residents active on social media	English/ Spanish/ Vietnamese	\$4,000	Funding for targeted and boosted posts/ads on Facebook, Instagram, LinkedIn, Nextdoor, YouTube, etc.
Univision digital ads	Residents	Spanish	\$3,500	1 digital ad to promote targeted programs
Grand Century Mall ads	Residents	Vietnamese	\$900	2 mall ads to promote Climate Smart Challenge and GoGreen Teams
Laundromat ads	Residents	English/ Spanish/ Vietnamese	\$6,180	2 laundromat ads to promote Climate Smart Survey and targeted programs
Tabling events	All	English/ Spanish/ Vietnamese	\$0	Attending up to 20 events per year, e.g. National Night Out, Community Festival (Vietnamese), Silicon Valley Pride, Viva Calle, Moon Festival, Pumpkins in the Park
Short promotional videos	All	English/ Spanish/ Vietnamese	\$0	Create videos for YouTube, website, social media for targeted programs or general Climate Smart
Community presentations	All	Varies	\$0	Provide presentations upon request to community groups
Tactic	Audience	Language	Budget	Description
Internal communication	City Staff	English	\$0	Payroll flyers, flyers in breakrooms, Green Matters newsletter, Brown Bag.
City Council communications	All	English/ Spanish/ Vietnamese	\$0	Emails to City Council staff to share with constituents
Other/ TBD	TBD	TBD	\$32,920	TBD

		Total	\$56,500

**Climate Advisory Commission (CAC)
Work Plan for Fiscal Year (FY) 23-24**

Objective of FY 2023-2024	Timeframe	Status & Accomplishments	Future Target/Goals
Onboarding of new Commissioners	March 21, 2024	Commissioners completed required trainings and received a briefing of their roles and responsibilities.	Recap/review roles and responsibilities when new Commissioners join.
Review the Commission Work Plan for FY 23-24 and FY 24-25		Commissioners received a briefing of relevant policies, documents and resources for their role.	More discussion on Climate Smart scope in future meetings.
Adopt the ongoing Commission meeting schedule		Commissioners elected Chair and Vice Chair. Commissioners reviewed the CAC FY 23-24 and 24-25 work plan and asked staff to add two items to the workplan. Work plan was approved with this addition.	Chair and Vice Chair elections will be held again at the end of terms in one year. After FY 24-25 a new work plan will be drafted and will consider the updates made to the FY 24-25 work plan.
Receive briefing on department program initiatives	May 16, 2024	Meeting schedule was adopted, the third Thursday of every other month at 7pm at City Hall.	Additional special sessions may be added as necessary for the first year of this Commission.
Receive briefing and give comment on Climate Smart outreach and advocacy strategies		Commissioners received a briefing on Climate Smart from the four co-lead departments - ESD, ED, DOT, and PBCE.	As necessary, Departments will review the scope of the Climate Smart plan as it pertains to the Commission and department co-leads.
Adopt the Commission Work Plan for FY 23-24 and FY 24-25		Commissioners reviewed the Climate Smart outreach and advocacy strategies for FY 24-25 and provided input.	Staff incorporated feedback from Commissioners.
Review the Commission Annual Report for FY 23-24		Commissioners reviewed the FINAL work plan and voted to approve. Commissioners reviewed the DRAFT Annual Report for FY 23-24 and provided comments.	Work Plan may be revised if necessary during FY 24-25. Staff will incorporate comments and bring FINAL Annual Report to first meeting of FY 24-25.

2.9 San José Clean Energy Non-Residential Customer Energy Services.

Recommendation:

Adopt a resolution amending San José Clean Energy service offerings to include the following service offerings for non-residential customers:

- (a) Establish a San José Economic Development Rate set at 12% below Pacific Gas and Electric Company's bundled service generation charges, inclusive of the Power Charge Indifference Adjustment and Franchise Fee Surcharge that will be offered to ratepayers approved to receive PG&E's Economic Development Rate; and
- (b) Establish a Green Transportation Product that offers 100% emissions-free power at a discounted rate of \$0.005 per kilowatt-hour to public transportation accounts serving guided rail traction power facilities.

CEQA: Not a Project, File No. PP17-005, Adjustment to Fees, Rates and Fares, resulting in no changes to the physical environment. (Energy)

Memorandum

TO: HONORABLE MAYOR
AND CITY COUNCIL

FROM: Lori Mitchell

SUBJECT: SEE BELOW

DATE: April 22, 2024

Approved

Date

5/2/24

SUBJECT: SAN JOSE CLEAN ENERGY NON-RESIDENTIAL CUSTOMER ENERGY SERVICES

RECOMMENDATION

Adopt a resolution amending San José Clean Energy service offerings to include the following service offerings for non-residential customers:

- a) Establish a SJCE Economic Development Rate set at 12% below Pacific Gas and Electric Company's bundled service generation charges, inclusive of the Power Charge Indifference Adjustment and Franchise Fee Surcharge, that will be offered to ratepayers approved to receive PG&E's Economic Development Rate; and,
- b) Establish a Green Transportation Program that offers 100% emissions-free power at a discounted rate of \$0.005 per kilowatt-hour to public transportation accounts serving guided rail traction power facilities.

SUMMARY AND OUTCOME

Approving this resolution will result in San José Clean Energy (SJCE) offering two new non-residential service offerings. An SJCE Economic Development Rate (EDR) would allow customers who obtain the EDR with Pacific Gas and Electric Company (PG&E) to stay with SJCE at the same cost and continue to enjoy cleaner electricity. The Green Transportation Program will offer 100% emissions-free electricity to public transportation customers at a discount, furthering Climate Smart San José goals to remove emissions from transportation and encourage the reduction of vehicle miles traveled. These offerings align with the City's commitment to sustainability and economic growth.

BACKGROUND

SJCE staff have studied the feasibility of special service offerings for non-residential customers for several years, but to date, it has not offered anything beyond standard rates for non-residential customers. Other community choice aggregators have built out such offerings to retain and attract non-residential customers to their services as well as further the sustainability goals of their communities and ratepayers. Such non-residential offerings have always been a part of SJCE's plan to meet its goals and mission.¹

EDR

PG&E, along with other investor-owned utilities, offers an EDR to non-residential customers who are considering relocating out-of-state, expanding locally, or in danger of going out of business. In San José, PG&E's EDR provides a discount of 12% on a participant's electricity costs for five years. Customers receiving this discounted rate commit to:

- Create or retain jobs in California;
- Supply documentation of out-of-state choices or other operational scenarios;
- Sign an affidavit stating the EDR is an influencing factor in its decision to locate within PG&E service territory; and,
- Confirm eligibility for the rate with the California Governor's Office of Business and Economic Development.

Historically, SJCE has not offered a matching discount on generation charges, which has resulted in the departure of some large non-residential customers after their applications for the PG&E EDR was approved.

Green Transportation Program

Electrifying transportation with zero-emission energy is a key component of Climate Smart San José and SJCE's programs roadmap.² Strategy 2.4 of the Climate Smart San José plan established the need to develop integrated, accessible public transport infrastructure.³ Strategy 2 of the Carbon Neutrality by 2030 Plan specifically emphasizes the need to reduce vehicle miles traveled by at least 20%.⁴ Supporting actions to reach that goal include expanding and improving existing transit services. Eligible customers for this offering will include any operator of electrified rail systems in San José, such as Santa Clara Valley Transportation Authority and Caltrain.

In the 2021 Power Mix and Rates memorandum, SJCE noted that it was evaluating the implementation of a direct renewables program, which sources energy generation "directly" from renewable resources for specific customers.

ANALYSIS

EDR

A non-residential customer that is approved for the PG&E EDR receives a 12% discount on both delivery and generation charges if it is a full-service, “bundled” PG&E customer. Currently, that customer has the option to remain with SJCE, but by doing so foregoes PG&E’s 12% discount on generation charges. As a result, SJCE customers that obtain the EDR from PG&E have a strong incentive to opt out of SJCE service, as a 12% discount on generation charges provides a steeper discount than SJCE has offered for its GreenSource product, in comparison to PG&E’s bundled service. This poses an operational risk to SJCE, as it could lead to a sudden loss of load and revenue if an especially large customer were to opt out of SJCE service in order to obtain PG&E’s more competitive EDR. To match PG&E’s discounted cost of service and retain these customers, staff recommends that SJCE establish a rate that offers the customer the option to retain SJCE service and receive generation charges 12% below PG&E’s bundled service generation charges as long as the customer remains eligible for the EDR.

The process by which a customer obtains the PG&E EDR rate is multi-stage and requires the customer to provide a high standard of proof to PG&E and ultimately, the California Governor’s Office of Business and Economic Development.⁵ Typically, only one to two customers in SJCE territory successfully obtain the EDR annually. By offering a matching rate, SJCE is able to leverage this established verification process while growing its financial and sustainability goals without having to set up an independent process.

The cost gap between SJCE and PG&E varies from year to year, so the marginal increase in a customer’s savings through SJCE’s matching EDR is difficult to forecast over a five-year period. For example, industrial and commercial rates are currently ~8% below PG&E bundled generation charges, so a customer’s marginal discount on this EDR is relatively modest. However, just a year ago, the discount was 1% to 3%, which means the marginal discount offered by the EDR rate would have been more significant. Along these same lines, the impact to SJCE revenues will vary year to year depending on the gap between SJCE and PG&E rates. Based on current rates and the current roster of EDR customers in SJCE’s service territory, SJCE would see a \$25,000 annual revenue impact from the approval of this new rate.

Green Transportation Program

Staff recommends offering a Green Transportation Program to public transportation accounts serving traction power facilities, which delivers 100% emissions-free electricity at a reduced rate of half a cent per kilowatt-hour in order to further its decarbonization goals.

Offering a 100% emissions-free product to public transit traction power accounts will result in the immediate reduction of 9.4 million pounds of carbon dioxide equivalent emissions annually. Furthermore, 100% emissions-free energy allows those customers to obtain more Low Carbon

⁵ https://www.pge.com/tariffs/assets/pdf/tariffbook/ELEC_SCHEDS_EDR.pdf

Fuel Standard credits by claiming lower carbon intensity for their traction power.⁶ This will result in additional revenue for these agencies beyond the discount provided by their 100% emissions-free energy at GreenSource rates, effectively reducing operating costs.

Based on anticipated electricity usage by eligible customers, this product could reduce SJCE’s revenue by roughly \$410,000 annually at current costs if SJCE uses TotalGreen to meet this 100% emissions-free standard. The new electrical load from Caltrain’s launch of electric coach service will make it one of SJCE’s largest customers. Offering a discount to TotalGreen through this program would allow Caltrain to upgrade to TotalGreen, avoiding emissions of approximately 4,315 metric tons of carbon dioxide equivalent emissions or the equivalent emissions of 11 million miles driven by the average gasoline-powered vehicle annually compared to being on GreenSource.⁷ Taking advantage of this opportunity is consistent with the mission of SJCE to support the City’s transition to clean energy.

EVALUATION AND FOLLOW-UP

Staff will continuously monitor these non-residential customer offerings for effectiveness in achieving their goals. Staff will provide updates on these offerings to the City Council annually as part of SJCE rate setting and propose modifications based on analysis of participation rates and progress toward outcomes. Staff will also continue to investigate additional rates that support SJCE’s customer goals.

COST SUMMARY/IMPLICATIONS

The **table** below is a year over year analysis of the estimated revenue reduction of offering the proposed two new rates through Fiscal Year (FY) 2026-2027.

Estimated revenue reduction for recommended non-residential customer offerings through FY 2026-2027

Offering	FY 2024-2025	FY 2025-2026	FY 2026-2027
EDR	(\$25,000)	(\$25,000)	(\$25,000)
Green Transportation Product	(\$307,500)	(\$410,000)	(\$410,000)

⁶ The California Air Resources Board Low Carbon Fuel Standard program is a regulatory framework aimed at reducing greenhouse gas emissions from transportation fuels by incentivizing the adoption of low carbon alternatives. It assigns carbon intensity scores to different fuels, encouraging the use of cleaner options and promoting innovation in the transportation sector.

HONORABLE MAYOR AND CITY COUNCIL

April 22, 2024

Subject: San José Clean Energy Non-Residential Customer Energy Services

Page 5

COORDINATION

This memorandum has been coordinated with the City Attorney's Office, the City Manager's Budget Office, and the Office of Economic Development and Cultural Affairs.

PUBLIC OUTREACH

This memorandum will be posted on the City Council Agenda website for the May 14, 2024 City Council meeting.

COMMISSION RECOMMENDATION AND INPUT

No commission recommendation or input is associated with this action.

CEQA

Not a Project, File No. PP17-005, Adjustment to Fees, Rates and Fares, resulting in no changes to the physical environment.

PUBLIC SUBSIDY REPORTING

This item does not include a public subsidy as defined in section 53083 or 53083.1 of the California Government Code or the City's Open Government Resolution.

LORI MITCHELL
Director, Energy

For questions, please contact Lina Williams, Deputy Director, Energy Department, at (408) 535-2933.

RESOLUTION NO. _____

A RESOLUTION OF THE COUNCIL OF THE CITY OF SAN JOSE AMENDING SAN JOSE CLEAN ENERGY SERVICE OFFERINGS TO INCLUDE TWO NEW SERVICE OFFERINGS FOR NON-RESIDENTIAL CUSTOMERS TO ESTABLISH A SAN JOSE CLEAN ENERGY ECONOMIC DEVELOPMENT RATE SET AT 12 PERCENT BELOW PACIFIC GAS AND ELECTRIC COMPANY'S BUNDLED SERVICE GENERATION CHARGES, INCLUSIVE OF THE POWER CHARGE INDIFFERENCE ADJUSTMENT AND FRANCHISE FEE SURCHARGE, THAT WILL BE OFFERED TO RATEPAYERS APPROVED TO RECEIVE PG&E'S ECONOMIC DEVELOPMENT RATE; AND TO ESTABLISH A GREEN TRANSPORTATION PROGRAM THAT OFFERS 100 PERCENT EMISSIONS-FREE POWER AT A DISCOUNTED RATE OF \$0.005 PER KILOWATT-HOUR TO PUBLIC TRANSPORTATION ACCOUNTS SERVING GUIDED RAIL TRACTION POWER FACILITIES

WHEREAS, the City of San José ("City") City Council unanimously approved the formation of San José Clean Energy ("SJCE") in May 2017, and SJCE launched service to most businesses and residents in February 2019; and

WHEREAS, on November 7, 2017, City Council approved an ordinance to add Title 26 to the San José Municipal Code that provides procedures for the operation and management of SJCE, whereby SJCE may provide any rate designs or programs as approved by the City Council; and

WHEREAS, SJCE staff have studied the feasibility of special service offerings for non-residential customers for several years, but to date, SJCE has not offered anything beyond standard rates for non-residential customers. Other community choice aggregators have built out such offerings to retain and attract non-residential customers to their services as well as further the sustainability goals of their communities and

ratepayers. Such non-residential offerings have always been a part of SJCE's plan to meet its goals and mission; and

WHEREAS, this resolution enables SJCE to offer two new non-residential service offerings. An SJCE Economic Development Rate ("EDR") would allow customers who obtain the EDR with Pacific Gas and Electric Company ("PG&E") to stay with SJCE at the same cost and continue to enjoy cleaner electricity. The Green Transportation Program will offer 100 percent emissions-free electricity to public transportation customers at a discount, furthering Climate Smart San José goals to remove emissions from transportation and encourage the reduction of vehicle miles traveled. These offerings align with the City's commitment to sustainability and economic growth;

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF SAN JOSE THAT:

San José Clean Energy service offerings are hereby amended to include the following services for non-residential customers:

- A. Establish a SJCE economic development rate set at 12 percent below PG&E's bundled service generation charges, inclusive of the power charge indifference adjustment and franchise fee surcharge, that will be offered to ratepayers approved to receive PG&E'S economic development rate; and,
- B. Establish a green transportation program that offers 100 percent emission-free power at a discounted rate of \$0.005 per kilowatt-hour to public transportation accounts serving guided rail traction power facilities.
