Dear City Council,

**Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.**

***Saratoga Creek Park is in my neighborhood and is never empty. Families, couples, dog walkers, bikers, yoga enthusiast, and so on are always strolling through our little park. In the past few years our park has gone down hill. The grass is half brown and all weeds. Knee high weeds were allowed to exist in abundance until just recently. The foxtails a danger to small children and pets. Our parks needs more money and attention. Please increase their budget.***

***Our open spaces are shrinking at an alarming rate. Green space is turning into gray/concrete space. Our parks are one of the few beautiful things left in this city. They need to be cleaned, maintained, and supervised. I would love to be able to ride on the bike trails as I used to on a weekly basis. I no longer can do to the homeless encampments. Fund the parks and maintain for the tax paying public to enjoy.***

***Parks need to be kept maintained and improved. At Mount Pleasant Park trash cans are only picked up once a week, which is a disgrace especially after a hot week. The community has requested exercise equipment as in other parks, but no response has been given. Please do not cut funds to our parks, which are already seeing the neglect of care. Dear City Council,

**Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.**

***Our parks are vital to our community for hiking, biking, picnics, events, etc. Please preserve our park funding and protect our neighborhoods for a quality way of life.***

***Parks always needs to be considerate of new, builds, improved facilities, and repairs for existing parks. So many children need parks for their outdoor activities and way of playing with children in their own neighborhood. It's essential in developing relationships with parents too. Sadly repairs go years without being done and lead to costly tear downs, updates and equipment replacement.***

Dear City/County Officials,

On behalf of [Getting it Right from the Start](#), a project of the Public Health Institute, we are pleased to share the 2023 California Local Cannabis Scorecard for your jurisdiction. Today, we would like to invite you to review your score and provide us with any necessary revisions before the formal, public release of the scorecards. **Please note, this 2023 scorecard only reflects laws made on or before January 1, 2023. Any changes made after will be in the 2024 scorecard.**

Since 2019, we have developed and publicly released a series of “scorecards” for every California jurisdiction that allowed cannabis storefront or delivery-only retail sales. The scores are based on six public health and equity-focused categories, that capture recommended policies to protect youth, reduce problem cannabis use, and promote social equity. If 2022 was not your first year of legalized retail sales, you would have received one of these scorecards for a previous year. With the help of feedback from cities and counties, we strive to continually improve our methods to reflect local policies more accurately and comprehensively. This may have resulted in changes to previous years’ scores that your jurisdiction received.

Some areas we have welcomed revisions in the past include general bans on billboards and revenue dedicated to youth or prevention programs. If your jurisdiction does either of these and you do not see points reflecting these activities in your scorecard, please let us know. We realize these scorecards can’t capture all the ways local governments are implementing their laws, inspecting cannabis businesses, or funding prevention and implementation, which many local governments’ staff work hard to do, but they seek to accurately reflect your laws.

Please address any questions or feedback on your scorecard to Jason Soroosh, at [jsoroosh@phi.org](mailto:jsoroosh@phi.org). If we do not hear from you by **September 11th, 2023**, we will assume our record of the cannabis regulations passed in your jurisdiction through January 1, 2023, is accurate.

We will be publicly releasing the 2023 Scorecards sometime in October, which will be shared with you as well.

A summary of the methodology is also enclosed. We are happy to share our full methodology, upon request, which details how we came to these measures and scores. You can learn more about our work and access specific language to incorporate recommended practices into your local law by visiting our [model local ordinances for retailing, marketing and taxation](#) webpage.

Please let us know if you have any questions, or if we can be of assistance to your jurisdiction.

San Jose

## 2023 SCORECARD

This scorecard analyzes local cannabis ordinances passed prior to January 1, 2023, in each California city or county that legalized storefront retail sales, to assess policies in effect going into 2022. It evaluates to what extent potential best practices were adopted to protect youth, reduce problem cannabis use and promote social equity beyond those already in state law. Scores fall into six public health and equity focused categories for a total maximum of 100 points.

■ Policy Adopted Beyond State Law

■ No Policy Adopted Beyond State Law

■ Weaker than State Law

## 2023 SCORECARD METHODOLOGY

The scores are based on six primary categories of policies where local government can act to protect youth, public health, and equity if they opted to allow cannabis retail. Policies with the greatest potential for achieving these goals, based on the best available evidence, received higher points. Cannabis laws passed by January 1st, 2023 were scored, using legal databases, municipal codes, and direct outreach to counties or cities. The maximum score possible was 100.

- 1) RETAILER & DELIVERER REQUIREMENTS:** Strategic limits on cannabis retailers can decrease youth use and exposure to cannabis.
  - **Caps on Retailers (10 points max).** Limit the number of licensed retailers, we used the ratio to number of inhabitants
  - **Distance from Schools (5 points).** Mandate a distance greater than 600 feet between K-12 schools and retailers
  - **Retailer Buffers (2 points).** Mandate a required distance between retailers
  - **Other Location Restrictions (3 points).** Mandate required distance between retailers and other youth serving locations not covered by state law such as parks, playgrounds, or universities, or other locations such as residential areas.
  - **Health Warnings Posted in Stores OR Handed Out to Customers (4 points each).** Mandate retailers post and/or hand out health warnings informing consumers of relevant risks at point of sale

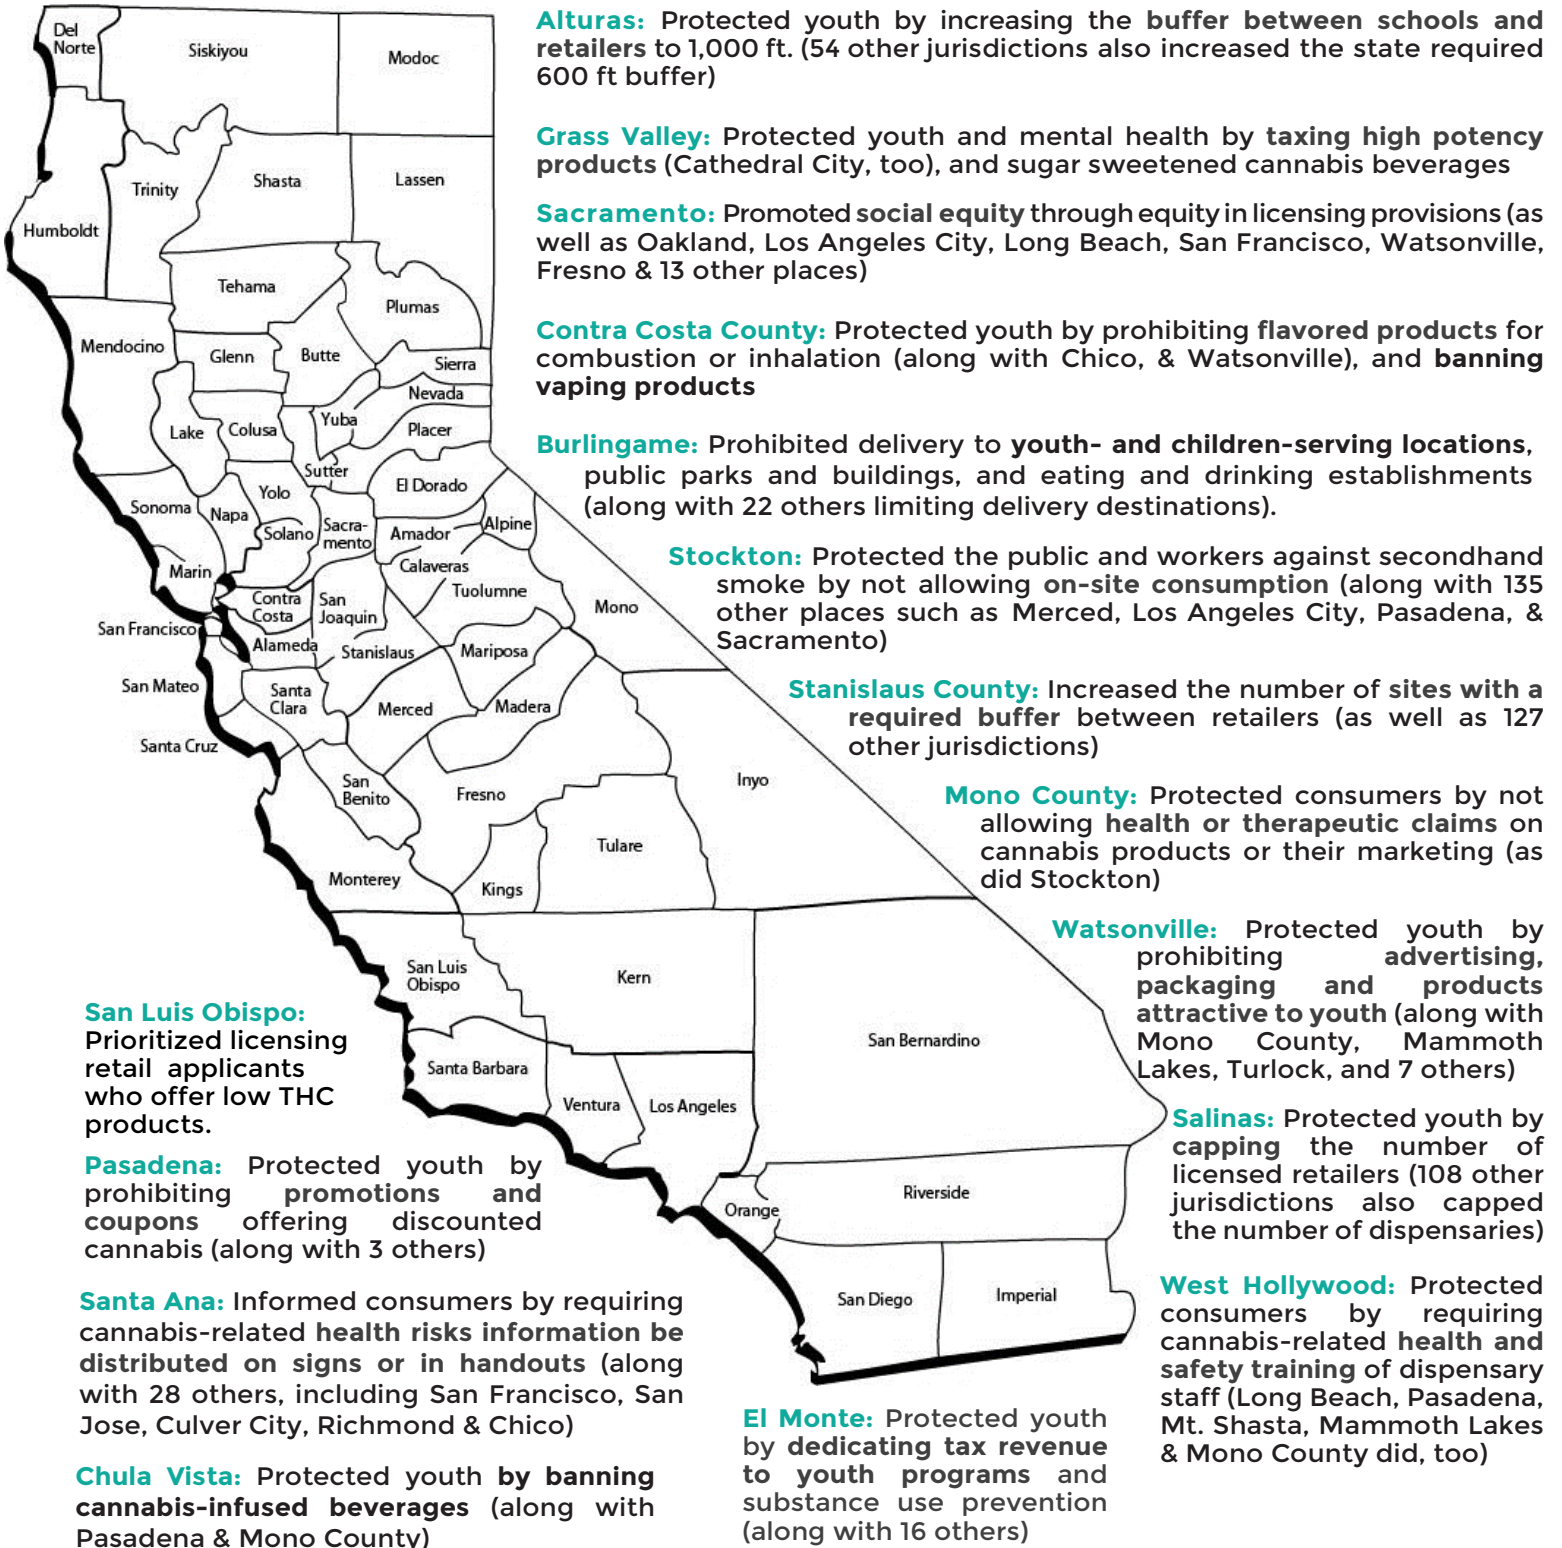

**Delivery-only requirements:**

  - **Local Permit (12 points max).** Mandate local permitting by deliverers originating within and outside the jurisdiction
  - **Medical Cannabis Sales (3 points).** Allow delivery sales of medicinal cannabis
  - **Independent ID Verification Process (10 points max).** Mandate use of an independent age and identity verification process before cannabis delivery
  - **Delivery Destinations (10 points max).** Limit where deliveries can terminate, i.e., no delivery to college dormitories
- 2) TAXES & PRICES:** Taxes & higher prices can decrease youth access while raising valuable revenue for local communities.
  - **Local Cannabis Tax (6 points).** Impose a local tax on cannabis retail
  - **Dedicated Tax Revenue (6 points max).** Dedicate tax revenue to youth, prevention, or reinvestment in communities mostaffected by the war on drugs
  - **Tax by THC Content (5 points).** Impose higher tax rates for high potency (high THC) products
  - **Discounting (2 points).** Prohibit discounting on cannabis such as coupons or discount days
  - **Minimum Price (1 point).** Establish a minimum price floor for cannabis
- 3) PRODUCT LIMITS:** End the Cannabis Kids Menu of products that appeal to youth and limit products which increase adverse effects.
  - **Limit Potency (6 points max).** Prohibit sale of high potency cannabis flower and products through bans or ceilings
  - **Flavored Products (Non-Edibles) (5 points).** Prohibit sale of flavored combustible or inhalable (non-edible) products
  - **Cannabis-Infused Beverages (4 points).** Prohibit sale of cannabis-infused beverages
  - **Products Attractive to Youth (2 points).** Prohibit sale of products attractive to youth more clearly than state law
- 4) MARKETING:** Limited exposure to marketing to decrease youth use and provide accurate warnings to inform consumers.
  - **Billboards (6 points max).** Restrict or prohibit the use of billboards to advertise cannabis
  - **Health Warnings on Ads (4 points).** Require health warnings on all cannabis advertisements
  - **Therapeutic or Health Claims (3 points).** Prohibit the use of therapeutic or health claims on cannabis products, packages, or ads
  - **Business Signage Restrictions (3 points).** Restrict on-site business advertising
  - **Marketing Attractive to Youth (2 points).** Detailed restrictions on packaging or advertising attractive to youth
- 5) SMOKE-FREE AIR:** Smoke-free air policies can improve air quality, protect kids, and reduce secondhand smoke exposure.
  - **Temporary Events (5 points).** Prohibit temporary cannabis events such as at county fairs or concerts in parks
  - **On-Site Consumption (3 points).** Prohibit on-site cannabis consumption, whether by smoking, vaping or use of edibles
- 6) EQUITY & CONFLICTS OF INTEREST:** Cannabis policy can promote social equity and reduce conflicts of interest.
  - **Priority in Licensing (3 points).** Prioritize equity applicants when issuing cannabis business licenses
