[External Email]

Dear City Council,

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year. Now is the time to protect our essential parks and public services like Viva Calle and Viva Parks.

cimarron park needs maintenance

Please do not cut the funding for Viva Calle or any park program for that matter. These programs are critical if we want people to appreciate, stay, and spend their money in San Jose. It promotes their city which will keep spending in the city. I speak from experience by riding through past via Calle events I've noticed businesses that I now frequent.

Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year. Now is the time to protect our essential parks and public services like Viva Calle and Viva Parks.

This cut for funding to the public parks should not happen. Parks are a beautiful place for children to play and run around without worrying about their safety or the world's problems. Taking away the park's funding could be potentially dangerous because it could be replaced with cheap materials that are not suitable to last a long time and hurt the children.

Parks are also an amazing place for family and friends to socialize in. Instead of kids and teens staying in using their iPads or technology, they could instead have a nice time at a clean and cared-for park. Cutting the funding eventually will cause the park to be treated badly and not respected by the public. This will take away the reason for installing the park in the first place.

Subject: Nicholas Bostic 95123 - No cuts to park funding

[External Email]

Dear City Council,

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Our tax dollars should be used to maintain and develop our park system instead of being used to fund the lifestyles of people that choose to live on the street.

Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

I love the Viva Calle and Viva Parks programs. These are my favorite events each year that are organized and funded by the city. Outdoor activities such as these contribute to a sense of community, personal and collective health and well being, and should remain funded moving forward.

[External Email]

Dear City Council,

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Viva Calle has been an incredible part of my life since it started years ago. I schedule vacations around Viva Calle so that I can participate to the fullest extent. I had a significant health scare a couple years ago that left me bedridden so I lost a lot of muscle mass in my legs. I had been an avid bike rider since my college days and with my condition, my bike was collecting dust. The city held Viva Calle near my house about a year and a half ago which motivated me to actually push myself to try riding a bike again. This particular day was stormy with rain and so much wind, but once I got on my bike, I was collecting pollen and other tree debris in my teeth because I could not stop smiling! I only managed to ride about a mile before needing to turn around, but that was a huge step for me and my recovery.

Viva Calle is one of the best things San José has ever allocated funding for and the Parks team is just stellar. Viva Calle brings so much joy to our community and it makes me proud to be a San José resident. It provides space for those other than drivers to visit new neighborhoods and try new restaurants and just enjoy being outside without the stress of street noise or vehicle fumes. To reduce it and the Parks budget would be shameful.

Dear City Council,

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year. Now is the time to protect our essential parks and public services like Viva Calle and Viva Parks.

Parks are one of the defining features of a city; good parks, good city. San Jose has 426 parks, all of which act as community hubs that foster new social connections and improve the livelihood of the city. Many people bring their kids, family, pets, neighbors, and friends to parks for a multitude of reasons: birthdays, picnics, barbecues, and graduations.

Cutting funding for our public parks would make these peaceful places more dangerous for those who visit. A well maintained park is inviting, while a rundown park drives visitors away. Joggers who would usually run through would now avoid it. Children would no longer play there. No more birthdays, barbecues, or picnics.

Parks serve as crucial gathering spots within our city, propagators of joy and celebration. Please don't cut funding for them.

Cooper Ramey

[External Email]

Dear City Council,

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year. Now is the time to protect our essential parks and public services like Viva Calle and Viva Parks.

This park holds a special part in many peoples hearts and memories, and like many other parks it allows for more unity within San Jose residents. We can't replace fond memories with yet another parking lot. Viva Calle has been a place where people come together and build a community, and it serves as a safe space for many people. We should strive to protect these community-building places instead of defunding them. I personally don't know anyone who has not enjoyed a spontaneous outing to any park, but I know a lot of people, including myself, who really cherish our city's public parks and services and find it truly heartbreaking that these are not "good enough" to keep funding.

As a person that works in childcare, I also think it is absolutely necessary to protect these parks for their sake. It's hard to find safe parks for our children to play in, and if we take away the safety and quality of Viva Parks, we take away the place that kids of Viva Calle and many other San Jose kids' love the most. As a child, playing in different playgrounds was my favorite thing to do, and I especially loved when they were clean and "shiny". It was difficult to go to a park that wasn't dirty, rusty, or unsafe, but the ones that were left my younger self amazed. Parks are every young kid's favorite place to go, and we must prioritize their safety. These parks and public services are something we need to maintain not only for our own bonding and community building, but for the safety of our kids to play and have fun in a good and clean environment.

[External Email]

Dear City Council,

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Saratoga Creek Park is in my neighborhood and is never empty. Families, couples, dog walkers, bikers, yoga enthusiasts, and so on are always strolling through our little park. In the past few years our park has gone down hill. The grass is half brown and all weeds. Knee high weeds were allowed to exist in abundance until just recently. The foxtails a danger to small children and pets. Our parks needs more money and attention. Please increase their budget.

Our open spaces are shrinking at an alarming rate. Green space is turning into gray/concrete space. Our parks are one of the few beautiful things left in this city. They need to be cleaned, maintained, and supervised. I would love to be able to ride on the bike trails as I used to on a weekly basis. I no longer can do to the homeless encampments. Fund the parks and maintain for the tax paying public to enjoy.

Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Please remember that Alum Rock park is no longer accessible by road, but only by foot through the Creek Trail and the Alum rock side trail. These both steep and long walks to reach the main area of the park.

This is especially difficult, if not impossible for families with young children to enjoy a day at our oldest and favorite neighborhood park.

Thank you.

Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Parks need to be kept maintained and improved. At Mount Pleasant Park trash cans are only picked up once a week, which is a disgrace especially after a hot week. The community has requested exercise equipment as in other parks, but no response has been given. Please do not cut funds to our parks, which are already seeing the neglect of care. Our community are tax paying residents that desire the same funding as other parts of San Jose.

[External Email]

Dear City Council,

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

We love our parks and rely on them for family outdoor activities like hiking, biking, and playing. Please continue funding them fully.

Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Parks always needs to be considerate of new, builds, improved facilities, and repairs for existing parks. So many children need parks for their outdoor activities and way of playing with children in their own neighborhood. It's essential in developing relationships with parents too. Sadly repairs go years without being done and lead to costly tear downs, updates and equipment replacement.

Keep the parks goings for the public use

Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Many of the parks surrounding our neighborhood are in desperate need of attention. Some playgrounds are dirty and others have broken equipment that makes me uncomfortable to have my kids play there. Others are so ridden with homelessness that we fear for our safety at times. Please consider maintaining our parks better.

Subject: Leland Lowe 95148 - No cuts to park funding

[External Email]

Dear City Council,

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Our city parks are a vital component in our community and should be fully supported with more funding and staff..

Leland Lowe

Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Please fix Alum Rock Park so we can drive in. The very young and elderly do not have access to the park as the first hill (Penitencia rd first parking lot) from the parking lot is steep and it is a gravel road.. in the interim maybe that first hill trail can be improved to make it accessible to the elderly and strollers.

Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

We desperately need to keep our parks funded. So many people in San Jose, especially downtown and East are living hand to mouth. People who cannot afford entertainment need safe outside spaces.

Dear City Council,

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Parks are a very important part of our lives including my dad, my children and my extended family. It is often a gathering place, a place to exercise and be a part of nature and place to reset for mental health. My dad walks to the park daily. I love Alum Rock and can't imagine not being able to enjoy it and rejuvenate. My kids have school activities at the school along with just playing there with their friends.

[External Email]

Dear City Council,

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Please keep the promised funding. The parks are being ravaged and we need the maintenance to keep the city a desirable place to live.

Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Please do not cut funding to the parks. It is a shame that the current funding is not even enough to keep the parks near by clean (we always seen litter, and overgrown grass, and still un-usable bathrooms). Further cuts would make the parks completely unusable.

Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

I grew up in San Jose, loving Alum Rock Park as the place where I went on field trips, attended day camps, and had picnics with family. Now that I'm raising my family in San Jose, we rely on the parks as the cornerstone of community space, where we can interact with other community members, get some exercise and nature, and refresh. Parks are vital to our quality of life, and we need them taken care of and expanded.

I walk at Bernal Park during the week I have lived in this neighborhood for almost forty years. The park is a beautiful place for the neighborhood to enjoy, please find the funds to upkeep the park.

Also growing up as a little girl my family would visit Alum Rock Park. At the time they had a small zoo, carousel and swimming pool. We would go for long walks to the back of the park lots of great memories made there.

When my son was small I frequently would take him there to play on the playground and take long walks. As a single mother it would only cost me the parking fee and hours of fun time with my son.

[External Email]

Dear City Council,

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Please don't cut funding to park maintenance. Our parks are a reflection of our neighborhoods. When they are clean and groomed people have pride in them and will respect that cleanliness. We need places that people can congregate and feel safe and have a good time.

Please fulfill what council approved and do not reduce the budget for parks. All this high density housing is a detriment to ones physical health.

Why are so many native Californians leaving San Jose? Quality of life has diminished.

Please consider directing money to parks in east San Jose. Our poor parks need a lot of love. Without money put towards these parks they will get worse. People in this area deserve nice places to go outside where they can walk, run, picnic, etc.

[External Email]

Dear City Council,

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Save our parks

Parks have become increasingly important to our family and community. I have 2 young children and we are frequently meeting up with other families for play dates. Our preschool also hosts play dates throughout the summer to keep our community growing.

Protecting parks protects under resourced populations. Not everyone can afford to have out door space in their home. To defund parks impacts access to vulnerable communities.

In our downtown neighborhood many live in apartments.

Our park is the only place for the children to play.

It is the only place for neighborhood gatherings.

It is the glue that holds our neighborhood together. Please don't cut the funding for the little green space that we have.

Eastside has almost no parks compared the amount of residential homes. Other cities have a park in almost every neighborhood. Parks increase property value and encourage communities to come together. As a child, we would play at our local schools but now all schools have gates. Where are our children suppose to play?

Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

East San Jose matters too! Stop building more housing that makes developers rich and start implementing programs to make our community healthier and more vibrant for our residents. Taxes go up while our neighborhoods, parks and schools continue to be neglected and fall into peril! Enough!

Our parks are important, I myself hike weekly at Alum Rock Park. It was closed for 4 months while all other neighborhoods enjoyed access to their parks! It is not equal and my beloved East Side always faces gross inequity, the demand for positive change is HERE! Do the right thing and do not take anything more away from us! These spaces are imperative for physical, mental and emotional well being for me personally and for my community.

[External Email]

Dear City Council,

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year.

Please do not cut city parks funding. Parks are a Nature's respite for all our residents, especially our less fortunate residents in crowded areas who can't afford large backyards or trips to Lake Tahoe and Yosemite! Parks like Alum Rock and Lake Cunningham are already under disrepair for years, so cutting any funding for their maintenance would be the most unwise thing to do. Thank you for listening.

Thank you for having previously approved park funding for the current fiscal year. Our community needs parks and urban green space, both of which are a basic need that promote physical and mental health. Many parks still require repair and maintenance and staff are needed for either to occur. Thank you in advance for not reducing park funding this fiscal year. *The city needs to understand that they are making decisions based on what they want, and not on what the people who haven't built this county. Stop, taking away the parks, stop building, especially in the Eastside. Our infrastructure's cannot accommodate any more cars and people.. If you want to build, and you want to destroy things, go into South San Jose, and other areas along 101. We have been in this valley for too many decades and I'm sick of our voices not being heard especially in regards to the east side! Everyone thinks we deserve the trash and everyone thinks, just dump everything out there, but there are good people who live on the east side of San Jose. affordable housing- there is a lot of land going down 101 toward Hillyer and Silver creek. Focus out there and stop taking away our open land.*
