

Date 11-23-17

Dear Mayor and Councilmembers,

On Tuesday, November 28, 2017 you will be voting on the upcoming overnight warming centers and the agreement with Home First to run these centers. The Tully warming center was only open 31 days last winter and most of us were flooded and all our belongings were lost. We are asking you to please open Tully center on Sundays especially when it rains, from 8:00am-9:00pm so we have a warm and dry place. Last year we were out in the rain all day on Sundays and only allowed to come in when they opened at 9:00pm. This treatment of us is very inhumane and how many deaths does it take to have actions taken to resolve these problems. More low-income housing is needed to help us transition out of homelessness to affordable housing.

We also would like to see the weather be increased to 50 degrees so we have another chance for the Tully center to be open. Our lives are important. The City needs to step up and start caring about the most venerable population in San Jose. Thank you for your consideration.
