

# SAN JOSE POLICE DEPARTMENT CRIME STATISTICS BY COUNCIL DISTRICT

Public Safety, Finance and Strategic Support Committee

October 17, 2024 - Item (d)2.

Presenter: Lieutenant Paul Hamblin

# San Jose Police Department Crime Statistics by Council District

Crime statistics will be summarized and provided by count by City Council Districts

Will provide meaningful data about public safety for the community

The data will be cumulative, from NIBRS April 2023 – current submission progress

The dashboard will be interactive and can be refined by viewers

- **Viewers will be able to filter by month and NIBRS crime types for specific City Council Districts**

# San Jose Police Department Crime Statistics by Council District - Challenges

Crime statistics are extracted directly from RMS based on 52 data points, none of which capture location according to Council Districts

Will require an entirely new data extraction method

Crime Analysis Unit will manually extract the data, sort it based on location, and add it to the dashboard.

New data extraction method is in the early phase of development

- **Target for implementation Spring 2025**

Published to a crime statistics dashboard – with new City Council District Filter
