Supplemental Questions

Yes No

Would you be available to attend meetings at the scheduled time?

Yes No

Please describe your experience in serving on a Commission or Board.

I have not served on a Commission or Board

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

I believe that my 31 years of local government work experience with three different Bay Area cities will be helpful in understanding and considering issues facing the city. I will work collaboratively with my fellow Commission Members and City Staff to address issues of concerns. I will seek out input from my fellow residents in District 9 regarding their concerns about neighborhood issues. I will take a big picture approach when considering issues. I seek out and value input from all parties involved and openly consider other viewpoints than my own. I have good interpersonal and communication skills which will help me to work as a good team member with my fellow Commission members.

What is your understanding of the purpose of the Commission?

The Neighborhoods Commission is intended to address issues and concerns regarding quality of life for residents in city neighborhoods. The Airport Commission reviews operations, challenges, and future plans for Mineta San Jose International Airport.

Please list three issues facing the City that you feel the Commission should address.

1. Traffic enforcement and traffic calming issues to increase safety for neighborhood streets. 2. Graffiti, abandoned vehicles, shopping carts, and illegal dumping. 3. Increasing property crimes and use of illegal fireworks.

Question applies to Airport Commission

What are the three most critical challenges facing Mineta San Jose International Airport in the next five years? What do you bring to the table in terms of experience, expertise, or perspective to help address these challenges

1. Attracting and retaining travelers who may now choose SFO or Oakland Airports. 2. Improving the terminal and baggage claim areas with increased amenities. 3. Retaining existing air carriers and recruiting new carriers to improve service for passengers.

Question applies to Airport Commission

What can the Airport do to balance its obligations as a “good neighbor” and as a world-class international airport for Silicon Valley? If there is a conflict in achieving an appropriate balance, how would you resolve it?

I think it is important to work with the air carriers to reduce noise as much as possible with upgraded aircraft, designated approach and landing patterns, and hours of operation. Parking and traffic are also issues which need to be worked on in cooperation with neighboring residents and businesses. It is a delicate balance. All city residents and businesses benefit from an airport which operates efficiently and effectively. I would try to look at the big picture and consider both sides.

Question applies to Airport Commission

What can the City of San José and the Airport do to engage Silicon Valley business leaders and other communities to support the Airport's efforts to increase air service and add routes to SJC? What can you do personally to help achieve this goal?

Outreach to large employers and groups such as the Silicon Valley Leadership Group is important. We need to listen carefully to all stakeholders input when we ask for input. I would be glad to work with other members of the Commission in this effort.
