

Memorandum

TO: HONORABLE MAYOR
AND CITY COUNCIL

FROM: Planning Commission

SUBJECT: SEE BELOW

DATE: November 13, 2018

COUNCIL DISTRICT: 6

SUBJECT: FILE NO. GP18-002: GENERAL PLAN AMENDMENT TO CHANGE THE LAND USE/TRANSPORTATION DIAGRAM LAND USE DESIGNATION FROM INDUSTRIAL PARK TO COMBINED INDUSTRIAL/COMMERCIAL ON A 11.56-GROSS ACRE SITE AT 550 AND 570 MERIDIAN AVENUE, INCLUDING STAFF'S RECOMMENDED ADDITION OF 1.12 ACRES DIRECTLY NORTH AT 460 MERIDIAN AVENUE, FOR A TOTAL OF 12.68-GROSS ACRE SITE.

RECOMMENDATION

The Planning Commission voted (6-1-0; Commissioner Marquez opposed) to recommend that the City Council take the following actions:

- a) Consider the Negative Declaration in accordance with CEQA; and
- b) Adopt a resolution amending the Envision San José 2040 General Plan Land Use/Transportation Diagram land use designation from Industrial Park to Combined Industrial/Commercial for the approximately 11.56-gross acre site (550 and 570 Meridian Avenue) and staff's recommended addition of the 1.12 acres directly north, for a total of 12.68-gross acre site, located at the northeast corner of Meridian Avenue and Parkmoor Avenue (460 Meridian Avenue).

OUTCOME

1. If City Council approves the applicant's General Plan Amendment request, the Envision San José 2040 General Plan Land Use/Transportation Diagram would be amended from Industrial Park to Combined Industrial/Commercial for the approximately 11.56-gross acre site.
2. If City Council approves the applicant's General Plan Amendment request and staff's recommended addition, the Envision San José 2040 General Plan Land

Use/Transportation Diagram would be amended from Industrial Park to Combined Industrial/Commercial on an approximately 12.68-gross acre site.

3. If City Council denies the General Plan Amendment request, the site would retain the Land Use/Transportation Diagram designation of Industrial Park.

BACKGROUND

On October 24, 2018, the Planning Commission held a public hearing to consider the proposed General Plan Amendment. Planning staff recommended approval of the General Plan Amendment along with an additional 1.12-acre site directly north of the subject site. The Planning Commission made a recommendation to the City Council to consider the Negative Declaration in accordance with CEQA and adopt staff's recommendation to approve the applicant's proposed General Plan Amendment with the additional 1.12-acre site.

Staff Presentation

Staff presented a summary of the proposed General Plan Amendment that included a description of the proposed project, including details of the public engagement process with summarized comments and concerns from the nearby residents.

Public Testimony

The applicant spoke in support of staff's recommendation and stated that the ownership group has no immediate plans for additional development on the property. The applicant expressed the desire to move from Industrial Park to Combined Industrial/Commercial because the Combined Industrial/Commercial designation would allow for a broader variety of uses and believed it would be better in the long term for the area.

Commissioner Ballard asked the applicant how old the buildings are on the subject site and if the ownership group owned the additional parcels north of the site associated with staff's recommendation. The applicant answered that the ownership group did not own the two parcels included by staff and that the buildings on the applicant's site are modern buildings built in 2003. Commissioner Ballard also questioned the applicant if they explored any designation that would allow residential. The applicant responded in adherence to the City's employment policies, they did not explore any designation that would allow for residential and emphasized there are no future development plans, but believed Combined Industrial/Commercial offers more flexibility for future uses.

Commissioner Leyba asked the applicant if he would generally be in support of staff's recommendation to include an additional 1.12 acres as Combined Industrial/Commercial. The applicant responded that he has no position on staff's recommendation but desires his application to be considered regardless of the staff recommendation to add the site to the north.

Three members of the public spoke in opposition to the proposed General Plan Amendment. The first member of the public expressed concerns with traffic and congestion. Additionally, the community member expressed her frustration with the existing motorcycle sales business (Spirit Motorcycles) located on Meridian Avenue between Saddle Rack Street and Harmon Avenue because of associated noise and issues with vagrancy. The second community member echoed the concerns related to Spirit Motorcycles and spoke to the impacts that the business has had with regards to noise and traffic. She also stated her concerns with allowing commercial land uses and that it would allow similar uses to the motorcycle sale dealership that would disrupt the neighborhood.

Commissioner Griswold stated that land use designations cannot ensure that somebody is going to be a good neighbor. She stated that the Planning Commission cannot make decisions that would require someone to be a good neighbor and that the Commission must make decisions broadly based on the General Plan. She noted that the motorcycle shop sounded like a problem, but suggested if the land use designation was changed, perhaps better tenants would be allowed.

Commissioner Allen echoed Commissioner Griswold's statement, adding businesses can be "good or bad actors" regardless of use. He emphasized it is not in the Commission's purview to anticipate or otherwise predict whether a business will be a good neighbor.

The last community member spoke against the project for similar reasons, including traffic, congestion, and the replacement of high paying jobs for low paying jobs.

Planning Commission Discussion

Commissioner Ballard asked the applicant and staff about the potential for other designations that also allowed for residential uses. Staff responded that the General Plan contains strict policies against the conversion of industrial land to residential uses. Staff noted that if the applicant had proposed residential, they would not have supported the proposed General Plan amendment. Staff also noted that the subject site is within the Race Street Light Rail Urban Village which is anticipated to begin the Urban Village planning process in 2019. Through that process, staff will plan for new residential development on an Urban Village-wide scale.

Commissioner Leyba addressed the community and expressed empathy for the neighborhood. He recognized that the Code Enforcement Division has very limited resources. He also recognized the problem with noise and traffic associated with motorcycles and stated that the Combined Industrial/Commercial designation would be a more flexible designation that he believed would allow better uses that are more compatible with residential.

Commissioner Vora echoed the statements of Commissioner Leyba regarding flexibility of uses. She agreed that businesses are looking for density and stressed the importance of housing in combination with businesses.

Commissioner Yesney stated she believed this to be an excellent location for this land use in part because of the residential surrounding the site. She emphasized that Combined Industrial/Commercial would allow more potential for better and higher quality uses.

Commissioner Griswold agreed that Combined Industrial/Commercial provided better options and may lead to high quality commercial tenants and development.

Commissioner Allen agreed with the comments of the other Commissioners. He thanked the community members and echoed Commissioner Leyba's concern with regards to Code Enforcement's lack of resources. He also stated that by supporting new revenue generating uses, he hopes the City can improve funding of services such as Code Enforcement.

Commissioner Leyba made a motion to adopt staff's recommendation for approval of the applicant's General Plan Amendment request with the staff's recommended additional 1.12-gross acre site. Commissioner Griswold seconded the motion.

Commissioner Ballard spoke to the motion and expressed her reluctance to support the proposed General Plan Amendment. She emphasized the need for more housing, especially in a housing crisis. Lastly, she spoke to the building vacancies on the subject site and said there are non-profit companies that could potentially occupy the office buildings, which would be of service to the community.

Commissioner Marquez thanked the community members for coming to the meeting and expressing their concerns. She made comments regarding the Initial Study and Negative Declaration for the project and felt that the environmental document should have been a mitigated negative declaration and could have been more robust and detailed. She noted that the City is understaffed, but stressed the need for accurate and more detailed environmental review.

In response to Commissioner Marquez's comments about the environmental document, the Deputy City Attorney responded that because there are no significant environmental impacts resulting from this project, the negative declaration is appropriate.

Commissioner Vora asked staff if they conveyed to the community that the Combined Industrial/Commercial land use designation would be a preferred designation. Staff responded that the analysis of the General Plan Amendment request was focused on consistency with General Plan policies.

A vote was taken on Commissioner Leyba's motion, and the motion passed (6-1-0; Commissioner Marquez opposed).

ANALYSIS

For complete analysis, please see the Planning Commission staff report (attached).

EVALUATION AND FOLLOW UP

If the General Plan Amendment is approved as recommended by staff and the Planning Commission, the Envision San José 2040 General Plan Land Use/Transportation Diagram would be amended to reflect the proposed land use designation change from Industrial Park to Combined Industrial/Commercial on the 11.56-gross acre site, including staff's recommendation of the addition of 1.12 acres located directly north, for a total of 12.68-gross acres.

PUBLIC OUTREACH

Staff followed Council Policy 6-30: Public Outreach Policy. On Monday, July 9, 2018, at City Hall, approximately 11 community members attended a joint community meeting for File No. GP18-002. Residents and stakeholders expressed their concerns and asked questions related to existing uses and expansion of the motorcycle shop, traffic, height, and procedural processes. The property owners and occupants within a 1,000 feet radius were sent public hearing notices for the Planning Commission and City Council hearing, as well as all members of the public who requested to be placed on the application's contact list. A notice of the public hearing was also published in the San Jose Post Record and on the City's website. The Planning Commission agenda was posted on the City of San José website, which included a copy of the staff report, and staff has been available to discuss the project with members of the public.

COORDINATION

Preparation of this memorandum has been coordinated with the City Attorney's Office.

HONORABLE MAYOR AND CITY COUNCIL

November 13, 2018

Subject: File No. GP18-002

Page 6

CEQA

An Initial Study and Negative Declaration were prepared by the Director of Planning, Building, and Code Enforcement for the subject General Plan Amendment and Rezoning. The documents were circulated for public review between October 2, 2018 and October 22, 2018. No comment letters were received. The Negative Declaration states that the proposed General Plan Amendment will not have a significant effect on the environment. The Initial Study and Negative Declaration are available for review on the Planning website at:
<http://www.sanjoseca.gov/index.aspx?nid=5701>.

PLANNING COMMISSION STAFF REPORT

File No.	GP18-002
Applicant:	Sean Morley
Location	550, 570 and 460 Meridian Avenue
Existing General Plan Land Use Designation	Industrial Park
Proposed General Plan Land Use Designation	Combined Industrial/Commercial
Existing Zoning	IP Industrial Park
Council District	6
Historic Resource	No
Annexation Date:	June 20, 1994 (Sunol No. 61), April 18, 1985 (Sunol No. 49), March 4, 1981 (Sunol No. 42), October 3, 1963 (Sunol No. 27), February 10, 1967 (Sunol No.4)
CEQA:	Negative Declaration for 550, 570 and 460 Meridian Avenue

APPLICATION SUMMARY:

General Plan Amendment to change the General Plan land use designation from Industrial Park to Combined Industrial/Commercial on a 11.56-gross acre site.

RECOMMENDATION:

Staff recommends that the Planning Commission:

1. Consider the Negative Declaration in accordance with CEQA; and
2. Recommend that the City Council approve the applicant's request to amend the Envision San José 2040 General Plan Land Use/Transportation Diagram designation from Industrial Park to Combined Industrial/Commercial for the approximately 11.56-gross acre site (550 and 570 Meridian Avenue) along with staff's recommended addition of an additional 1.12 acres directly north, for a total of 12.68-gross acre site, located at the northeast corner of Meridian Avenue and Parkmoore Avenue (460 Meridian Avenue).

7/12/2000	Conforming Rezoning from C-3 Commercial District to I Industrial District to allow industrial uses on a 1.23 gross acre site

PROJECT DESCRIPTION

Background:

On March 07, 2018, the applicant submitted an application for a General Plan Amendment to change the Land Use/Transportation Diagram land use designation from Industrial Park to Combined Industrial/Commercial on an 11.56-gross acre site. Changing the General Plan land use designation to Combined Industrial/Commercial would allow flexibility for development of a mixture of compatible commercial and industrial land uses, including retail uses, with a Floor Area Ratio (FAR) up to 10.0 on a 11.56-acre site (550 and 570 Meridian Avenue). Staff's alternative would include the subject site plus an approximately 1.12-acre site (460 Meridian Avenue) located directly north of the applicant's proposed site. The property owner and tenant at 460 Meridian Avenue were notified of the proposed General Plan land use amendment.

Since annexation, the subject site has been occupied by a combination office and industrial uses. The most recent being a research and development office and warehouse. The applicant has represented that they would like more flexibility with future tenants and cited difficulties locating users on site within the limitations of the Industrial Park land use designation. Staff's alternative would include two additional parcels that have historically been used for retail commercial uses, most recently as a motorcycle sales shop (Spirit Motorcycles). Staff's

alternative to include the 1.12-acre site would be consistent with the historical use of the site and existing context of the area.

Site Location:

The subject 11.56 gross-acre site is comprised of six parcels and includes an existing surface parking lot, three office buildings and a warehouse and associate landscaping. The site includes 363,677 square-feet of existing buildings with approximately 150,204 square-feet of warehouse structures and 213,473 square-feet of office space.

Staff’s alternative would include the subject site and an approximately 1.12-acre site, comprised of two parcels, an existing 7,000 square-foot commercial building, an existing 10,000 square-foot commercial building, and associated surface lot and landscaping.

The subject site is surrounded by commercial and multifamily residential homes to the north, a large commercial shopping center to the west, offices to the south, and multifamily residential homes and offices to the east. The site is located within the Race Street Light Rail (west of Sunol) Urban Village.

Figure 1: Aerial Image of Subject Site

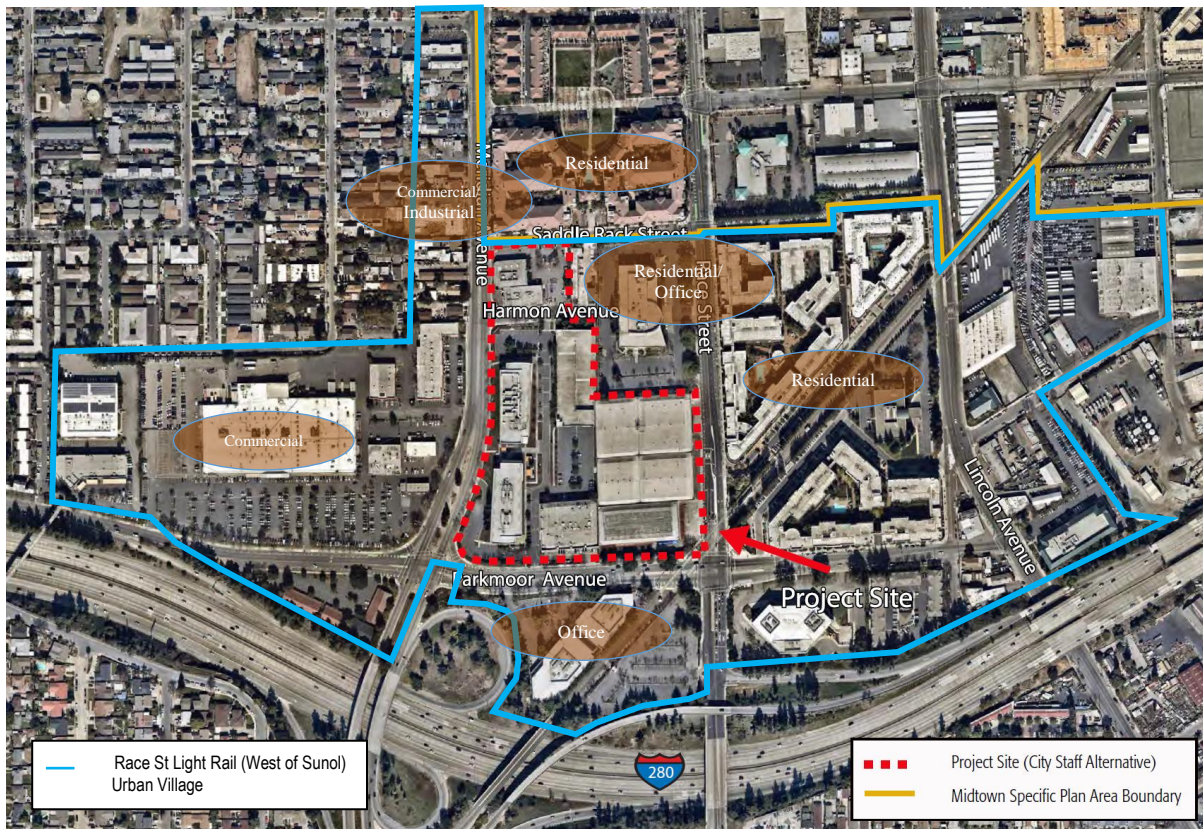

Figure 2: Aerial Image of Staff Alternative

ANALYSIS

The proposed General Plan Amendment was analyzed with respect to and conformance with the following plans and policies: 1) Envision San José 2040 General Plan; 2) City of San José Municipal Code; 3) California Environmental Quality Act of 1970, as amended (CEQA).

Envision San José 2040 General Plan Conformance

Existing General Plan Land Use Designation

The subject site is designated **Industrial Park** on the Land Use/Transportation Diagram of the Envision San José 2040 General Plan.

Industrial Park

The Industrial Park designation is an industrial designation intended for a wide variety of industrial users such as research and development, manufacturing, assembly, testing and offices. This designation is differentiated from the Light Industrial and Heavy Industrial designations in that Industrial Park uses are limited to those for which the functional or operational characteristics of a hazardous or nuisance nature can be mitigated through design controls. Hospitals may be appropriate within this designation, if it can be demonstrated that they will not be incompatible with Industrial Park uses or other nearby activities. Areas identified exclusively for Industrial Park uses may contain a very limited number of supportive and compatible commercial uses, when those uses are of a scale and design providing support only to the needs of businesses and their employees in the immediate industrial area. These commercial uses should typically be located within a larger industrial building to protect the character of the area and maintain land use compatibility. Additional flexibility may be provided for retail and service commercial uses within the North San José Development Policy area through the City's

discretionary review and permitting process. One primary difference between this use category and the “Light Industrial” category is that, through the Zoning Ordinance, performance and design standards are more stringently applied to Industrial Park uses.

The Industrial Park land use designation allows a FAR up to 10.0.

Proposed General Plan Land Use Designation

Combined Industrial/Commercial

This category allows a significant amount of flexibility for the development of a varied mixture of compatible commercial and industrial uses, including hospitals and private community gathering facilities. Properties with this designation are intended for commercial, office, or industrial developments or a compatible mix of these uses. This designation occurs in areas where the existing development pattern exhibits a mix of commercial and industrial land uses or in areas on the boundary between commercial and industrial uses. Development intensity can vary significantly in this designation based on the nature of specific uses likely to occur in a particular area. In order to maintain an industrial character, small, suburban strip centers are discouraged in this designation, although larger big-box type developments may be allowed because they mix elements of retail commercial and warehouse forms and uses.

While this designation potentially accommodates a wide variety of uses and building forms, more specific guidance should be provided through the application of the Zoning Ordinance in order to establish use and form standards that will promote the development of a cohesive employment area across multiple adjoining properties that share this designation.

The Combined Industrial/Commercial land use designation allows a FAR up to 12.0

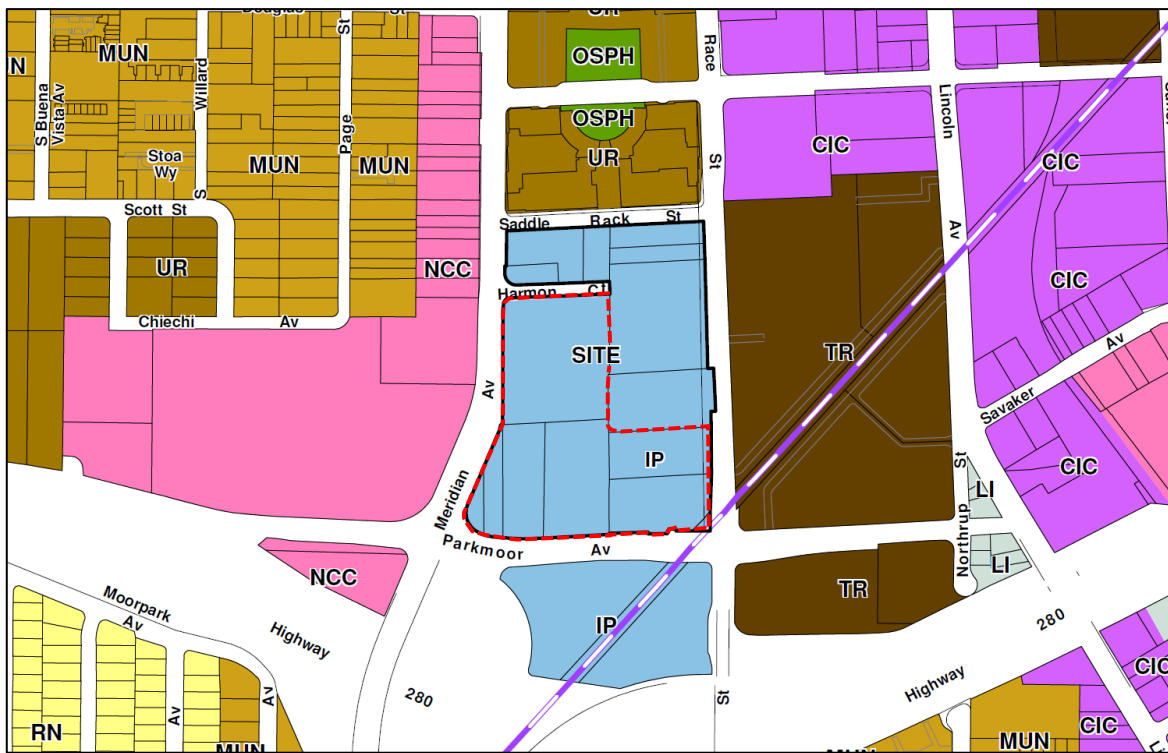

Figure 3: Existing General Plan Land Use Designation

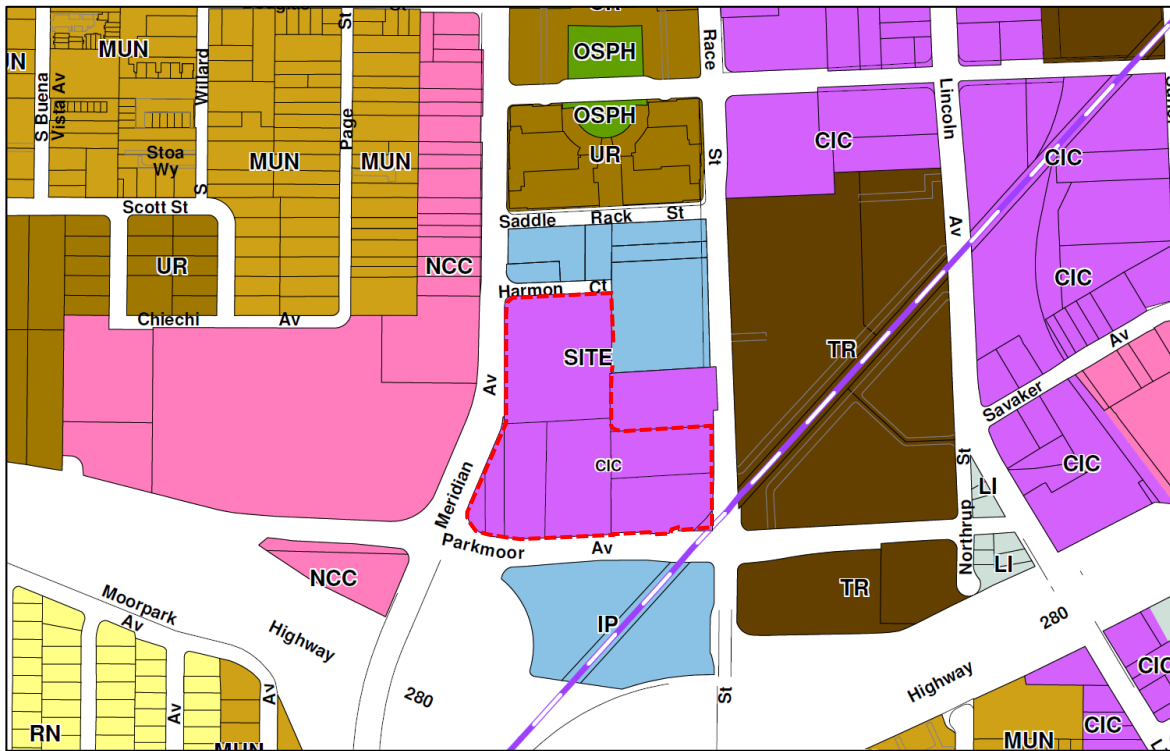

Figure 4: Proposed General Plan Land Use Designation

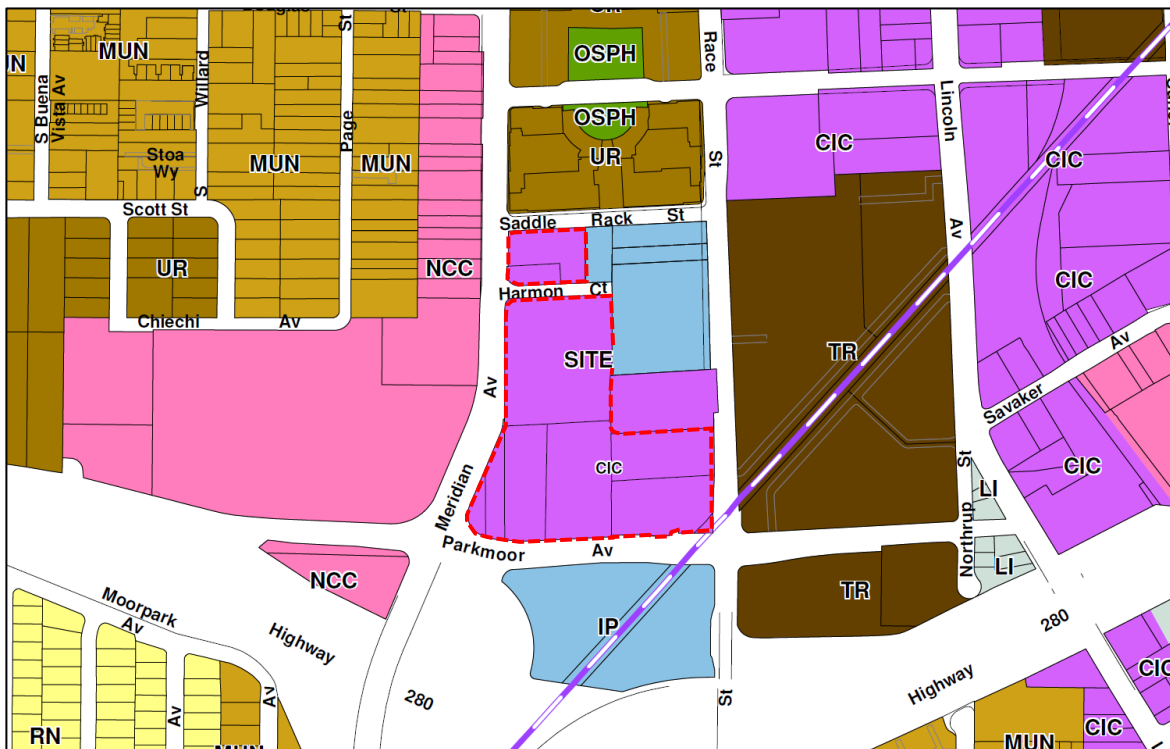

Figure 4: Proposed Staff Alternative General Plan Land Use Designation

The proposed project is consistent with the following Major Strategies, goals and policies of the Envision San José 2040 General Plan:

1. **Urban Village Major Strategy:** The Urban Village Major Strategy promotes the development of Urban Villages to provide active, walkable, bicycle-friendly, transit-oriented, mixed-use urban settings for new housing and job growth attractive to an innovative workforce and consistent with the Plan's environmental goals. The General Plan establishes the Urban Villages concept to create a policy framework to direct most new job and housing growth to occur within walkable and bike friendly Urban Villages that have good access to transit and other existing infrastructure and facilities.

Analysis: The subject site is located within the Race Street Light Rail Urban Village, which is in Horizon 2. The Urban Village does not have an adopted Urban Village plan, but funding has been identified to develop an Urban Village plan, which is anticipated to be completed in spring 2021. The applicant's proposed General Plan Amendment as well as the staff alternative would further the Urban Village Major Strategy by allowing a more diverse mix of commercial uses adjacent to transit and nearby multifamily housing.

2. **Innovative Economy Goal IE-1:** Proactively manage land uses to provide and enhance economic development and job growth in San Jose.

Innovative Economy Policy IE-12: Plan for the retention and expansion of a strategic mix of employment activities at appropriate locations throughout the City to support a balanced economic base, including industrial suppliers and services, commercial/retail support services, clean technologies, life sciences, as well as high technology manufacturers and other related industries.

Land Use and Employment Policy IE-1.3: As part of the intensification of commercial, Village, Industrial Park and Employment Center Job Growth Areas, create complete, mixed employment areas that include business support uses, public and private amenities, child care, restaurants and retail goods and services that serve employees of these businesses and nearby businesses.

Fiscal Sustainability Policy FS-4.1: Preserve and enhance employment land acreage and building floor area capacity for various employment activities because they provide revenue, near-term jobs, contribute to our City's long-term achievement of economic development and job growth goals, and provide opportunities for the development of retail to serve individual neighborhoods, larger community areas, and the Bay Area.

Promote Fiscal Beneficial Land Use Policy FS-4.6: Consider conversion from one employment land use to another, except for Light Industrial or Heavy Industrial land uses, where the conversion would retain or expand employment capacity and revenue generation, particularly for intensification on-site if the proposed conversion would result in a net increase in revenue generation.

Analysis: The applicant's proposed General Plan Amendment to Combined Industrial/Commercial promotes the strategic expansion of a mixture of commercial and employment activities to support a balanced economic base. The proposed project is appropriately located because the subject site is within a designated Growth Area which supports a mix of employment and business support uses that contribute to the long-term achievement of economic development and job growth goals of the General Plan. Further, the proposed land use change would expand employment opportunities and allow for greater flexibility to increase revenue generation.

Staff's alternative would include two additional parcels that have historically been occupied by retail businesses. Because of the limited size of the two parcels (1.12-acres) and their location along the Meridian Avenue commercial corridor, the Urban Village would benefit from the increased range of commercial uses allowed under the Combined Industrial/Commercial land use designation. Expanding the flexibility rather than limiting uses to office, research and development, and other more space intensive industrial uses typical of the Industrial Park land use designation, would advance the goals and policies above by increasing opportunities for employment and revenue generating uses in this area of the City.

Municipal Code

The subject site is currently zoned IP Industrial Park. Future commercial development may require a Conforming Rezoning and other Development Permits. The proposed project does not propose any development, and any future development would be analyzed for conformance with the General Plan, Municipal Code, and applicable City Council Policies.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)

An Initial Study (IS) and Negative Declaration (ND) for the proposed project and staff alternative were prepared by the Director of Planning, Building and Code Enforcement for the subject General Plan Amendment. The documents were circulated for public review between October 2, 2018 and October 22, 2018. Comments and responses to those comments are listed on the Negative Declaration/Initial Studies web page at: <http://www.sanjoseca.gov/index.aspx?nid=6194>

The ND states that the proposed General Plan Amendment will have a less than significant effect on the environment. No impacts were identified; therefore, no mitigation is required. The entire ND and Initial Study are available for review on the Planning website at: <http://www.sanjoseca.gov/planning>. To find the document, click on the “Environmental Planning” link on menu bar to the left of the screen, then click “Environmental Review” and select the link to “Negative Declaration/Initial Study Library”. The project is listed under File No. GP18-001.

PUBLIC HEARING NOTIFICATION

Staff followed Council Policy 6-30: Public Outreach Policy. A notice of the public hearing was distributed to the owners and tenants of all properties located within 500 feet of the project site and posted on the City’s website. The staff report is also posted on the City’s website. Staff has been available to respond to questions from the public.

Community Meeting

On Monday, July 9th, 2018 at City Hall, approximately 11 community members attended a joint community meeting for File No. GP18-002. Residents and stakeholders expressed their concerns and asked questions related to existing uses and expansion of the motorcycle shop, traffic, height, and procedural processes.

Residents of Midtown Plaza, were specifically concerned about the General Plan Amendment as it relates to the expansion of Spirit Motorcycles, and traffic and noise associated with the business. Staff clarified that the existing motorcycle sales business is unrelated to the proposed project, and has an approved Conditional Use Permit for a motorcycle dealership with incidental

sales and auto service. A Tenant Improvement permit for an expansion of a motorcycle repair and warehouse was also recently permitted by the Building Division.

Other residents expressed concerns that the General Plan Amendment would increase traffic in the area and would allow far larger buildings. Staff stated that the proposed project review was limited to the proposed General Plan Amendment and that any future use or development of the site would be reviewed for consistency with the General Plan, Municipal Code, and City Council policies including public notification and community outreach. Further, the proposed project would be included within the City's 2018 General Plan Amendment Long-Range Traffic Impact Analysis and reviewed under the City's Traffic Analysis Guidelines.

Dear Sandra,

Many thanks for your email. I understand your concern and I will discuss it with our General contractor. The whole work should be performed and finished at the end of July, although most of the more noisy work should be done in the next couple of weeks. I understand based in your email that equipment might have been delivered to the site this morning early, but I want to clarify whether the contractor started working at that time. The team has a very tied schedule to conclude the works in record time of 6 weeks – this is beneficial not only for us a company but as well for the neighbors. If we reduce the working hours we will just take longer. Having said that I agree that the team should not start working until a reasonable time.

I will discuss with the GC and I apologize for disturbing you.

Many thanks

Kind regards

Martin Chirotarrab

Subject: RE: your "Free WHEELING" business practices

Martin and Shaye,

Over the past several years since you became the new "Neighbor" in this area, the community has become very disruptive. Many of the city codes set in place have not been followed and you continue to do whatever you choose.

Some of the main disruptions are:

- noisy motorcycles, fumes
- inappropriate use of parking lot for selling promotional events
- Saturday afternoon events in the parking lot with vendors, food, music with amplifiers, various activities with motorcycles,
- too many people associate in parking lot
- noise from music, motorcycles pervades over the entire community on Saddle Rack, Meridian into the surrounding neighborhoods

Now you are expanding, renovating and causing havoc in this community. There is no thought about the people who live on Saddle Rack Street, sleep, eat, have a live here, go to work and want to come home to some quietude.

Request: do the right thing, think of us, your neighbors, and tell your contract people to come here at 9:00 a.m, leave at 3:00 p.m. so we can have our day, too and stop your parking lot promotional events and choose an appropriate venue.

Just this morning at 5:30 a.m., a contract worker stopped by to drop off a piece of equipment right on the street outside our condo and several workers have been arriving since that time. Does this sound fair to you? I don't think so....do you want to wake up at this time outside your home?

Your neighbor,
Sandra Khoury
1390 Saddle Rack St.

To	'Shaun Ahmadian'
Sent	Tuesday, July 03, 2018 8:43 AM

Hi Shaun,

At this point there are no solidified plans. The developer or applicant may have an idea of what they want, but nothing has been proposed. Once they make a decision, they would need to send in specific plans for review, which would go through another approval process.

The change from Industrial Park to Combined Industrial/Commercial, gives them a bit more flexibility as to what they could propose. It is also more reflective of the current conditions on site. More retail and commercial buildings rather than large office buildings.

Hope this helpful,

Robert Rivera

Thanks, Robert.

Is there a plan for further development?

Thanks

Shaun

On Mon, Jul 2, 2018 at 5:26 PM, Rivera, Robert <robert.rivera@sanjoseca.gov> wrote:

Hi Shaun,

The proposed project is changing the land use transportation diagram of the General Plan. There is no development associated with the project. At this point the applicant is proposing to change a color on the map, changing the potential for allowable uses from Industrial Park, to Combined Industrial/Commercial.

For more intensive development, another application and permitting process would be needed with submittal plan sets and more detail. This would be reviewed and brought to public hearing for a decision.

Hope this clears up what is being proposed. If you have any questions feel free to email or call.

Thanks,

Subject: Correction to Community Planning Meeting Announcement

CORRECTION

Community Planning Meeting: **MONDAY**, July 9th, 6:00, City Hall Conference Rm. 1743

Spirit Motors is not the applicant and is **not associated** with the proposed project. The proposed General Plan Amendment would **not allow the expansion of the Motorcycle Shop**.

The General Plan Amendment is proposing to change the Land Use Designation from Industrial Park to Combined Industrial/Commercial only with no development associated with the project.

There is a community meeting to discuss the General Plan Amendment on July 9th and the project will most likely be deferred to Fall of 2019. We initially schedule to anticipate a fall of 2018 hearing, but considering the project scope and the review time, it would most likely be deferred to Fall 2019.

Does that help clarify the issue? Give me a call and we can discuss too.

Hi Robert

Thank you for forwarding to Stefanie.

Please confirm, is there a plan review / amendment meeting on July 9th or is this delayed to Fall of 2018?

I remain confused about the need to attend this meeting or not for GP 18 -006?

Thanks

Subject: RE: Hellyer Commons - Notice of Community Meeting Regarding 459 Piercy Rd.

My apologies Rob,

I just realized that this project was a different General Plan Amendment and it does have a project associate with it. Let me forward your email along to Stefanie Farmer, she's the project manager for the rezoning and development permit. Because of the project specific analysis required for this project, we can expect this project to be heard sometime in Fall of 2019. We only hear General Plan Amendments once per year, and this would most likely not make the schedule for Fall 2018.

She can send you a copy of their proposal.

Thanks,

Subject: RE: Hellyer Commons - Notice of Community Meeting Regarding 459 Piercy Rd.

Hi Rob,

Thanks for reaching out. The proposed project does not have any elevations because there is no development associated with the project. The project is proposing to change the color on the map, the Land Use Designation of the site. Really it would only change the front portion of the site to allow for some potential neighborhood serving commercial. So if this project is approved, it changes the color on the map, and if the applicant or the owner decides they would like to build something, then they would need to go through a new approval process, submit plans and provide community outreach and notification.

I hope this clarifies the project. Let me know if you have more questions and I'd be happy to answer them.

Thanks,

Hi Robert,

They are not currently meeting all of the conditions noted in their Conditional Use Permit (CP13-089 if I recall) and I anticipate citations will be issued based on the most recent inspections conducted by the assigned inspector. The fines begin at \$250 for each violation and escalate to \$500 and then \$1000 for continued violations.

Code Enforcement does not have a say as to whether a Planning or Building permit is issued, the respective Division would make that call. In certain situations the Building Department will not issue a permit when there is a building violation on the property. When a property is flagged by Code Enforcement in AMANDA with a Building violation, usually the Building Department will not issue a permit associated with the violation until Code approves the plan set. In these cases, Code's plan check mostly consists of ensuring the violations are properly addressed in the plan submittal. If the proposed scope of work addresses the violations, Code will stamp the plans and send the customer back to Development Services to proceed with the regular permitting process.

This particular property was flagged as having a Planning violation in 2016, which shows in AMANDA as a VTP folder. But as I stated previously, Code does not dictate whether or not permits are issued. I apologize that I do not have more information, but please let me know if you have any questions. Feel free to call or email me anytime.

Robert,

I acknowledge the summary and sign in sheet for GP18-002, July 9 meeting. However, I think your wording for follow-up report is nebulous, tentative, as if it may not get done, and if/when it is finally written, where/when does the citizen know where to find it on the website. The words highlighted in red are examples of what appears to be a loose, open-ended process with no true dates to follow. I would like some firm dates so I will know when to look for reports.

Also, what has code enforcement reported to you as I have not heard back from Oscar/Kamille.

Concerned taxpayer and homeowner

Hi Sandra,

Please find attached the attendance sheet for the project.

The notes for the Community Meeting are brief but serve as a **reminder to staff for the eventual Staff Report. Once a staff report is written, it'll be available and posted on our website prior to a hearing date.**

- Community members were concern about traffic in the area, and potential for traffic impacts related to the project.
- Concerns were expressed about the unknown future use of the site. Staff explained that any proposed development in the future would require a planning process similar to the General Plan Amendment where notification and community outreach are required.
- A community member expressed concern about the existing bus and truck traffic in the area, and that allowing more flexibility may increase traffic.
- Community members expressed concern over the maintenance of the existing area. They believe the street and park maintenance should be addressed.

- Community members expressed the desire for the building uses to be maintained as is, instead of changed.
- Staff explained that no development is proposed with the application and that the application is for a General Plan Amendment to change the Land Use Designation from Industrial Park to Combined Industrial Commercial. **The potential to increase traffic would be reviewed as part of the cumulative traffic analysis** for all General Plan Amendments and any future, proposed developments would **require an environmental review** which would assess the traffic related impacts.

If you have any more questions feel free to email or call.

Thanks,

Robert Rivera

Subject: RE: Plng. Mtg. on July 9th

Hi Sandra,

I wanted to send you a quick email before the week was over. I'm still gathering information from the meeting and I'll be sure to send you over a copy of the materials on Monday.

As for your questions,

1. Staff incorporates all written and verbal comments from the meeting into the Staff Report for the project. We will include any emails as public record for the file and will include any verbal comments from the Public Hearing on the project. They usually have all the meetings recorded so any comments that are made by the community during Planning Commission or City Council Hearings will be saved.
2. General Plan Amendments are decided by [City Council and the Mayor](#). Please follow the link for the City Council website where you can find information on all councilmembers. They all have one vote to approve or deny the project, and the majority wins.
3. The hearing date for the project has not been set, but can be expected to be fall 2018, possibly October or November.
4. If the project is approved, it will be posted on our website and recorded in the public record. We typically do not send out notifications of when a project is approved.

Hope this answers some of your questions. Feel free to email if you have any more.

Also I'll be sure to get you the notes and sign in sheets from the meeting on Monday.

Thanks,

Robert Rivera

Subject: Plng. Mtg. on July 9th

Hello Robert and Jared,

In the next few days,

I would like a copy of the meeting notes from the Community Planning Mtg. of July 9th and a list of the people who signed the register for Meridian Avenue.

Also, in the next few days,

I would like the concerns below answered now that I have attended your planning meeting as it will be helpful for me to understand the process you and the city use to get project to the public, etc.

1. I would like to know how your staff processes all the verbal and written input you received from the meeting SO THESE WILL BE USED IN THE DECISION MAKING PROCESS.

2. Names of the people that make the decisions for planning, etc.

3. When will the decision be made and process used to make this decision

4. How do you let the community involved know if/when the amendment was approved.

thanks for your help,

Sandra Khoury
