COUNCIL DISTRICTS: 3 & 5

**SUBJECT: GRANT APPLICATIONS FOR CALIFORNIA DEPARTMENT OF
PARKS AND RECREATION FOR PROPOSITION 68: STATEWIDE
PARK DEVELOPMENT AND COMMUNITY REVITALIZATION
GRANT PROGRAM**

RECOMMENDATION

Adopt a resolution authorizing the City Manager to submit grant applications and, if awarded, negotiate and execute grant agreements with the California Department of Parks and Recreation for the Proposition 68: Statewide Park Development and Community Revitalization Grant Program for an amount up to \$6,400,000 for the following three projects, and include in the resolution the grant certifications required by the granting agency:

1. Overfelt Gardens Park for \$1,900,000;
2. Emma Prusch Farm Park for \$1,000,000; and
3. Roosevelt Roller Hockey Rink for \$3,500,000.

OUTCOME

The Proposition 68: Statewide Park Development and Community Revitalization Grant Program will provide funding to improve the following park sites: Overfelt Gardens, Emma Prusch Farm Park and the Roosevelt Roller Hockey Rink.

HONORABLE MAYOR AND CITY COUNCIL

June 3, 2019

**Subject: Grant Applications for California Department of Parks and Recreation for Proposition 68:
Statewide Park Development and Community Revitalization Grant Program**

Page 2

BACKGROUND

On June 5, 2017, California voters approved Proposition 68 (Parks, Environment and Water Bond), which authorizes \$4.1 billion in general obligation bonds for State and local parks, environmental protection projects, water infrastructure projects and flood protection projects. The \$4.1 billion in bond revenue has been earmarked for the following three categories:

- Natural Resource Conservation and Resiliency (State conservancies, climate preparedness, ocean/coastal protection and river/waterway improvements)
- Parks and Recreation (park-poor neighborhoods, local and regional parks, State park restoration and trail/greenways/rural recreation)
- Water (flood protection, groundwater recharge and cleanup, safe drinking water and water recycling).

The Statewide Park Development and Community Revitalization Grant Program has been recently released under Proposition 68. It is a competitive grant that will create new parks and new recreation opportunities in critically underserved communities across the State.

To qualify under this grant program, a project must involve either development or a combination of acquisition and development to create a new park, expand an existing park, or renovate an existing park.

ANALYSIS

The City of San José will be applying for funds under Proposition 68: Statewide Park Development and Community Revitalization Grant Program. The program has a total of \$650,275,000 that will be distributed through multiple rounds of applications. This is a competitive grant for the creation of new parks, the expansion of an existing park, or the renovation of existing parks. Round one of the grant has an allocation of \$254,942,000.

The minimum grant request per application/park is \$200,000 and the maximum request is \$8,500,000. There is no match requirement and the grant can fund the entire project on its own.

To be eligible, a project must be in a park-poor or disadvantaged community, as defined by Proposition 68. All applicants must use the California State Parks Community FactFinder tool to provide information about the critical lack of park space within the proximity (a half-mile radius) of the project site and to demonstrate whether the site's proximity is disadvantaged (80 percent of the statewide average), or severely disadvantaged (60 percent of the statewide average). If the site's half-mile radius has more than three acres of park space per 1,000 and the community's median household income is above \$51,026, then the project site will be ineligible for grant funding.

Statewide Park Development and Community Revitalization Grant Program**

Page 3

Based on park space and the disadvantaged communities in San José, the Department of Parks, Recreation and Neighborhood Services staff compiled a listing of current park sites that fit eligibility criteria (included in attachment A). Staff reviewed the list to identify qualifying parks that have previously identified capital improvement needs. Other eligible parks noted in attachment (A) will be evaluated for capital needs and may be considered in the future rounds of grant applications. Based on this, staff is proposing to apply for funding for the following projects at the Overfelt Gardens Park, Emma Prusch Farm Park, and the Roosevelt Roller Hockey Rink.

- Overfelt Gardens Park (Chinese Structure Restoration): There are four Chinese structures at the Overfelt Gardens Park: Sun Yat Sen Memorial, Chiang Kai-Shek Pavilion, Plum Pavilion and Friendship Gateway, all of which were gifts to the City and installed in the park in the early 1980s. The structures include an enclosed hall, two open pavilions and a gateway. The structures are attractive and contribute to the park's overall appeal as a passive destination. Each structure has an authentic Chinese tile roof and architectural details. Each structure is now suffering from varying degrees of water intrusion and related dry rot. A comprehensive investigation has been completed and construction documents are being prepared for strategic removal and reconstruction of roof structures, and related structural work to ensure long-lasting repairs.
- Emma Prusch Farm Park: The City currently has a \$2 million grant from the County of Santa Clara to install all-inclusive playground equipment at the park. And funding is in place for a \$4 million project. The proposed funding from the Proposition 68 grant would allow the City to expand the anticipated playground area to include more variety and customized pieces, provide more signage/wayfinding elements, and provide a wider range of activities.
- Roosevelt Roller Hockey Rink: The City recently renovated the outdoor roller rink in partnership with the National Hockey League, San Jose Sharks, and Sharks Foundation. The renovation included new flooring for street and roller hockey use, fencing, bleachers and equipment, along with funding to support hockey programming at the rink. The proposed grant funding would be used to install a 75 feet wide, 180 feet long roof structure over the rink. The new roof would have open sides, sprinkler system and lights. The addition of the roof would allow for extended use year-round for the community.

EVALUATION AND FOLLOW-UP

The Department will return to City Council through the budget process to recognize the final grant amount and recommend budgetary actions.

Page 4

PUBLIC OUTREACH

This memorandum will be posted on the City Council's Agenda website prior to the June 25, 2019 City Council meeting.

COORDINATION

This memorandum has been coordinated with the City Manager's Budget Office and the City Attorney's Office.

COMMISSION RECOMMENDATION/INPUT

No commission recommendation or input is associated with this action.

FISCAL/POLICY ALIGNMENT

The proposed action is consistent with the Council-approved Budget Strategy Economic Recovery section in that it will spur construction spending in our local economy.

COST SUMMARY/IMPLICATIONS

The City will need to front the total cost of each project, and will be reimbursed once the project is complete. Funding will be sourced from either the Park Trust Fund, Construction and Conveyance Tax Fund, and/or the Infrastructure Backlog Reserve. Each funding source will be replenished once the City receives reimbursement from the State of California.

The All-Inclusive Playground at Emma Prusch Farm Park has \$35,000 for maintenance in the 2020-2024 Capital Improvement Program budget for the first full year to maintain the playground. The maintenance costs are higher for all-inclusive playgrounds because the specialized playground equipment requires additional inspections and there is a greater need for staff to monitor the park during the day.

At this time, staff estimates that there will be very minor, if any, additional operations or maintenance impacts for the Overfelt Gardens Park Chinese structure restoration and the Roosevelt Roller Hockey Rink Roof projects. Final costs will be determined in a future budget process.
