Subject: Vote No on Urban Confluence Light Tower Project

[External Email]

Dear City Clerk Toni Taber,

Please vote to reject the work plan and to stop the so-called "Breeze of Innovation" light tower in Arena Green Park. It is a 200-foot tall monument to light pollution, harming the natural environments of Guadalupe River and Los Gatos Creek right at their confluence. This proposal does not belong at Arena Green where it will kill countless birds, insects and other animals. A dark sky is a natural resource for people and wildlife - stop this project from harming the skies of San Jose.

There are already many works of art to honor our city, this does not need to be one of them. This light tower project will do harm and disrupt so much. It might be an impressive design, but it isn't necessary or practical in our area. PLEASE think of our ecosystems, wildlife, and residents FIRST. This project is very unnecessary and brings no benefits.

Sincerely,
Catherine Wolfe

[External Email]

Dear City Clerk Toni Taber,

Please vote NO and reject the work plan and put a stop the so-called "Breeze of Innovation" light tower in Arena Green Park. This is an unsightly 200-foot tall structure to light pollution, destroying the natural environments of Guadalupe River and Los Gatos Creek right at their confluence. This proposal should not be located at Arena Green in an area where a lot of wildlife exists. There are so few places left in this area that is not high density and over populated. Please keep this area pristine for animals and future generations to survive and enjoy in years to come!! A dark sky with stars is a rare sight, please leave it as it is meant to be and put a halt to moving forward with this project. All I ever hear is how people want to leave this area. Please do something to preserve something beautiful that still exists today.

Sincerely,

S. Orth

Dear City Clerk Toni Taber,

Please Please do not approve the light structure at Arena Green park. We already have enough light pollution from the city streets, billboards, advertising boards like at Almaden Fashion Plaza, and so on. Instead of junking up our city, why don't we try to take care of what we have. Our city is an embarrassment. Out of area visitors ask why we neglect the city property. And we do. We build but we don't maintain. Let's stick to city improvements that actually beautify our city, not distract. Not to mention what excessive light pollution does to our environmental partners in this shared space. Be a good steward, do Not Approve the structure.

Sincerely,

JoAnn Smith

Dear Councilman Peralez

This email is to let you know how much I urge your total support for the “Breeze of Innovation” that is currently being proposed. As a SJSU graduate and a former business owner in Downtown San Jose for over 30 years I have been waiting to see Downtown San Jose receive the attention and recognition it so deserves. This project will certainly do that and much more.

As a former Chairman of the Board of the San Jose Chamber of Commerce and former Chairman of the Chamber’s PAC it is not often that a City has an opportunity to embrace a transformative project that will be an example to the world of the creativeness and contribution of the South Bay Area.

I look forward to working together with the committee to help fund this beautiful project and am looking forward to your approval of this design which will allow this project to move forward.

“Breeze of Innovation” will bring so much pride to our city.

Thank you for your help in this matter..

[External Email]

Dear City Clerk Toni Taber,

I was appalled to learn about the heedless work plan for a light-polluting structure in San Jose. Every night my husband and I go outside to look at what few stars can be seen in our populated area. His hobby is astral photography, and even up in Henry Coe there is so much light pollution that taking good photos is challenging. Actually, the thought of a \$100-million environmental disaster makes me feel nauseated. Who will the tower benefit? A few people's egos, maybe. Who will it harm? Many, many long-term residents of San Jose, human and non-human alike. I need the natural, peaceful night to heal, rest, and not go nuts in this overcrowded valley. Rejecting this work plan would be a clear sign that you are fulfilling your office of doing what's best for the majority who elected you.

Please vote to reject the work plan and to stop the so-called "Breeze of Innovation" light tower in Arena Green Park. It is a 200-foot tall monument to light pollution, harming the natural environments of Guadalupe River and Los Gatos Creek right at their confluence. [External Email]

Dear Mayor Liccardo and Fellow Councilmembers:

I would imagine most people who come before Council usually have a purpose that speaks to their business interest. I should know because I have been one of them.

What is remarkable about the Urban Confluence team is that for the past four years they been relentless in staying the course that falls outside of this intent. It is not about their business gain but rather about a City gift that will change our skyline for years to come.

Accordingly, I ask for your support when the motion comes before you Tuesday, May 4. Your approval will allow Jon, Steve, Christine, their advisors and donors to move the project to the next level. I continue to be impressed with the way they have followed your direction over the years. It has not been always a straight line, but they are good listeners and respectively responded to your counsel and direction.

Each of you are part of the community team that has been engaged. Accordingly, we all can collectively celebrate the iconic structure better known now as "Breeze of Innovation" that will be coming to San Jose.

Thank you for your support.

David W. Henderson
President and CEO

Subject: Vote No on Urban Confluence Light Tower Project

[External Email]

Dear City Clerk Toni Taber,

Please vote to reject the work plan and to stop the so-called "Breeze of Innovation" light tower in Arena Green Park. It is a 200-foot tall monument to light pollution, harming the natural environments of Guadalupe River and Los Gatos Creek right at their confluence. This proposal does not belong at Arena Green where it will kill countless birds, insects and other animals. A dark sky is a natural resource for people and wildlife - stop this project from harming the skies of San Jose.

The money is better spent on our roads. Light pollution has long been a problem for Lick observatory. The new LED streetlights were only a good idea from a cost savings perspective (which I applaud), but they're hard on the eyes and less effective illuminating their areas than the previous sodium vapor lamps. Such a light project at Arena Green is bound to be disturbing to many.

Sincerely,

Dave Marnatti

Dear City Clerk Toni Taber,

I'm not in favor of the Breeze of Innovation light tower project as envisioned for Arena Green Park. We already have so much light pollution in San Jose, the last thing we need is more of it as a result of this monument!

I urge you to reject the work plan for the light tower.

Sincerely,
Chris Allingham

I urge San Jose to consider becoming an environmental influencer. It's a spectacular area that can define itself as a green city. Embrace what we have—nature and biodiversity, instead of trying to add what we don't. A light installation is a distraction, not a contribution.

Sincerely,

Mary Jane Wilder

Please involve an eco artist on your next project, and avoid this type of snafu. We are 5 to 7 years from having permanent damage to our climate system if we continue on the present course. How could 100 million dollars be used by an eco artist to restore our natural habitats, decrease fire hazards and also bring art to our city? Let's ask the question now.

Sincerely,

Deborah Kennedy

[External Email]

Dear City Clerk,

My husband, Leigh Weimers, whose column ran in the San Jose Mercury News for more than 40 years, was a life-long champion and eloquent supporter of the arts, technology and innovation of Silicon Valley. During his career, he had always wanted to see a project like the Breeze of Innovation Landmark for San Jose. Because the city sprawls across so much ground, this landmark will be an excellent focal point and world-class destination.

Urban Confluence has been completely mindful of protecting the riparian corridor (including flora, fauna, and lighting) and the airport since the beginning of the project four years ago. This project is privately funded and no city funds will be used to build, operate, or maintain the project. I hope you approve of this design, allowing this project to move forward, so I and my family will be able to see Leigh's dream for a worthy landmark fulfilled.

Sincerely,

Geri Weimers

Arena Green should be a people's park where San Jose residents and visitors can gather to enjoy the natural wonders of the confluence of Los Gatos and Coyote creeks, not a promotional space for the discredited San Jose Chamber of Commerce. Leave the light tower in History park without augmentation with glare that annoys everybody.

Sincerely,
Carlin Black

[External Email]

Dear City Clerk Toni Taber,

Please vote to reject the work plan and to stop the so-called "Breeze of Innovation" light tower in Arena Green Park. It is a 200-foot tall monument to light pollution, harming the natural environments of Guadalupe River and Los Gatos Creek right at their confluence. This proposal does not belong at Arena Green where it will kill countless birds, insects and other animals. A dark sky is a natural resource for people and wildlife - stop this project from harming the skies of San Jose.

Sincerely,
Kym Teppo

Dear City Clerk Toni Taber,

AS a long time San Jose resident, I strongly oppose the light tower project . It would harm the environment and is opposed by a large majority of San Joseans. Please represent your constituents and oppose this ill-conceived white elephant.

Brian Carr
San Jose

Sincerely,
Brian Carr

Dear City Clerk Toni Taber,

Please vote to reject the work plan and to stop the so-called "Breeze of Innovation" light tower in Arena Green Park. I don't like the idea at all. Leave the green space "green". We don't need this monstrosity. I fly out of SJC and would rather not have another thing for pilots to worry about either. It is a 200-foot tall monument to light pollution, harming the natural environments of Guadalupe River and Los Gatos Creek right at their confluence. This proposal does not belong at Arena Green where it will kill countless birds, insects and other animals. A dark sky is a natural resource for people and wildlife - stop this project from harming the skies of San Jose.

Sincerely,
Sean Penn

Like the human-driven disappearance animals and birds, creating a more and more desolate Earth, now we are doing in the sight of stars, our connection with wisdom, honesty, and humility. As a San Jose resident, I beg you to reduce all the city's lighting, not flaunt it as if it was of no cost to the life of the planet.

Sincerely,
annabel boissevain

Dear City Clerk Toni Taber,

I am very opposed to the proposed light tower at the Arena Green. It will be detrimental to both wildlife and people. We need dark skies to see the stars. In this enlightened age, why you even be considering such a project? My parents were history majors and I understand the importance of history. I have lived in San Jose since 1964 and taught San Jose History for many years in elementary school. I have been a member of San Jose History Park and my uncle, O.S. Hubbard was the Santa Clara County superintendent of schools, so I have a long history in San Jose, but this tower is a TERRIBLE IDEA. Listen to the environmentalists, please!

Hoping you will make an environmentally sound choice,

Carolyn H. Flanagan

Sincerely,

Carolyn Flanagan

I am appalled that there would be any consideration given to the proposed light tower anywhere in San Jose or anywhere in our county. Are you kidding!! There is absolutely no reason to have something like this that will cause so much damage to people, wildlife and the ecosystem. If this is approved just watch the lawsuits that will be filed.

SAY. NO

Sincerely,
Linda Bayer
