San Jose is on a path of growth, and it's vital that we manage and direct that growth in a smart way. I want to serve on this commission because a lot of important decisions need to be made about what kind of housing we build, where, and how dense, and as someone who cares deeply about the future of this city I want to have a voice in those decisions.

Supplemental Questions

☐ Yes ☒ No

Would you be available to attend meetings at the scheduled time?

☒ Yes ☐ No

Please describe your experience in serving on a Commission or Board.

no experience

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

I am involved with Silicon Valley Young Democrats and more recently the District 1 Leadership Group. SVYD has made housing its number one issue, and I've already learned a lot about community issues from the D1LG. I also read multiple local news outlets daily to keep up with what is going on in the city, both in and out of city hall.

What is your understanding of the purpose of the Commission?

My understanding of the purpose of this commission is to study and evaluate housing policy in great detail and to make recommendations to the city council and city staff on what action they should take to address housing issues in San Jose.

Please list three issues facing the City that you feel the Commission should address.

- Housing accessibility and affordability: I believe having people of all walks of life makes a community stronger and better. San Jose, and the Bay Area in general, is one of the most expensive places to live in the country, and that makes it difficult for many people to afford to live here. Losing residents to affordability issues is a loss to the remaining members of the community. - Walkability/access to public transportation: With new housing developments in particular, anything that makes it possible for residents to conduct their lives with less automobile use is a positive. I'm a big fan of mixed use development, and of developments that are close to workplaces, cultural attractions, and public transportation. - Community identity: Many residents of San Jose don't feel a general sense of community and identity. While these aren't things that can be artificially willed into existence, I think where and how housing is built can be one of many factors that plays into it. I think an example of how housing policy can influence this issue is how urban village developers are incentivized to include open space and art installations in their developments.

Question applies to Housing and Community Development Commission

If you live in, own, lease or manage property subject to a City rent ordinance (i.e., the Mobilehome Rent Ordinance or Rental Dispute and Mediation Ordinance), please list the address here. This includes mobilehomes, mobile home parks, and apartments/apartment buildings building during or before 1979.

I lease an apartment at _____ I believe it was constructed after 1979, but as I'm not an expert on all City rent ordinances I'm erring on the side of caution and disclosing it anyways.

Question applies to Housing and Community Development Commission

If your employer or other source of income owns, leases or manages property subject to a City rent ordinance (i.e., the Mobilehome Rent Ordinance or Rental Dispute and Mediation Ordinance), or if you are unsure, please list your employer's name or other source of income and address here.

Question applies to Housing and Community Development Commission

What experience do you have with affordable housing issues?

My mother currently lives in an apartment in Santa Cruz that is designated as affordable under a local ordinance, so I understand the positive impact access to affordable housing can have on a person's life.

Question applies to Housing and Community Development Commission

Please explain your familiarity with the Community Development Block Grant Program?

My general understanding is that it's a federal housing program that provides funds to states and local governments to help develop affordable housing.

I currently work for Brandenburg, Staedler & Moore a leading mobilehome provider in San Jose and throughout other areas of the Bay Area. In addition to currently representing the mobilehome industry, I have worked in Property Management managing single family homes and multifamily properties throughout San Jose and the greater Bay Area from 2008 to 2016. I want to further assist the City of San Jose to find fair practices in the housing industry that will assist all of San Jose. Real Estate is a passion of mine and given the current market conditions I see the strain that it puts on the residents, owners and City. I would truly enjoy being a part of the solution and to assist with finding new ideas to address the challenges we face.
