

Memorandum

TO: HONORABLE MAYOR AND CITY COUNCIL
FROM: Councilmembers Rocha & Jimenez
SUBJECT: LOS LAGOS GOLF COURSE UPDATE
DATE: February 2, 2018

Approved

Don Rocha

Date

2-2-18

RECOMMENDATION

That the City Council accept staff's report and approve the guiding principles for future work on Los Lagos as recommended by staff. (The guiding principles are listed on page 2 of the staff report.)

ANALYSIS

We'd like to thank staff for all of their work on this issue, and thank the community for participating in the outreach process about the future of Los Lagos. Open space and recreation are very important to our community, and we are glad that we were able to take the time to hear from the public on this issue. In light of the feedback received from the public, we believe that staff has brought forward a very reasonable recommendation and are pleased to support it. We recommend approving the guiding principles recommended by staff on page 2 of their report.

Public parks and open space are a precious resource for our community. In decades past San Jose leaders had the great foresight to acquire land that could be used for public purposes. It's an honor for us to continue to be stewards of that land and to support the Parks Department in ensuring that it will benefit our community today and for many generations to come.
