## SUPPLEMENTAL

**SUBJECT: NATURAL GAS INFRASTRUCTURE FINAL ORDINANCE**

### REASON FOR SUPPLEMENTAL

This supplemental memorandum provides clarification to the City Council regarding the final Ordinance.

On December 1, 2020, Council adopted the staff recommendation in its November 25, 2020 memorandum with three additional edits: 1. Continue the attached accessory dwelling unit exemption; 2. Ensure that the definition of a “distributed energy resource” include the State Standards; and 3. Add, “or the public health, safety, or economic welfare in the event of an electrical grid outage” into the language of the hardship exemption.

Council’s first two directives were included in the first draft of the proposed Ordinance, so no edit was necessary for the final Ordinance. [See, Sections 17.845.040(A) (re: ADUs) and Section 17.845.020(E) (re: definition).] As for the last directive, the final Ordinance includes the additional hardship exemption language in Section 17.845.050(A).
