

Memorandum

TO: HONORABLE MAYOR
AND CITY COUNCIL

FROM: John Ristow
Matt Loesch

SUBJECT: See Below

DATE: May 27, 2025

Approved

Date:

6/3/25

COUNCIL DISTRICT: Citywide

SUBJECT: Report on Bids and Award of Contract for the 10494 – 2025 Local Streets Sealing Pavement Project

RECOMMENDATION

- a) Report on bids and award a contract for the construction of the 10494 – 2025 Local Streets Sealing Pavement Project to the lowest responsive, responsible bidder, Graham Construction, Inc., in the amount of \$5,649,185; and
- b) Approve a 10% contingency in the amount of \$564,919.

SUMMARY AND OUTCOME

Award of this contract to Graham Construction, Inc., enables the construction of the 10494 – 2025 Local Streets Sealing Pavement Project (Project) which will provide required preventative pavement maintenance along 66 miles of the Local and Neighborhood Street Network. Approval of the 10% contingency provides funding for any unanticipated work necessary for the proper completion or construction of the Project.

BACKGROUND

The Department of Transportation (DOT) will maintain approximately 228 miles of roadway during the 2025 construction season, including 175 miles of streets on the Local and Neighborhood Street Network and 53 miles on the Major Street Network. This Project will seal 66 miles of streets in the Local and Neighborhood Street Network, extending the pavement life and improving overall roadway conditions.

Pavement maintenance is typically performed in two separate phases: preparation and a final surface application. The preparation phase includes American with Disabilities Act compliant curb ramp installations and retrofits, and the removal and replacement of any structurally failed areas of pavement prior to the commencement of the pavement surface treatment. The final surface treatment, also known as micro-surfacing application, is applied to the entire street after preparation phases are complete. Micro-surfacing is the application of a thin layer of asphalt emulsion blended with rock, approximately 3/8 of an inch in depth, to the pavement.

To reduce the overall timeframe for completing the preparation work, DOT is managing multiple projects for the concrete and curb ramp improvements, most of which are currently in the construction phase. This project will provide sealing of the pavement and is the final phase of the pavement treatment.

The City's Local and Neighborhood Street Network is organized into 135 geographically contiguous pavement maintenance zones. Pavement maintenance zones support efficient planning and delivery of paving projects by maximizing the amount of paving work completed at one time within a neighborhood area, and to ensure geographic spread of pavement maintenance throughout the city.

DOT utilized information provided by the City's pavement management system to generate a candidate list of streets for pavement maintenance. The candidate list was then thoroughly analyzed by staff using the following criteria to create the final list of streets.

- Funding availability and funding use restrictions;
- Streets on the Major Street Network;
- Streets not affected by current or future street related projects;
- Maintenance history and prescribed treatment schedules;
- Streets associated with planned safety, bikeway, or other "complete streets" projects;
- Community and City Council feedback regarding roadway conditions and priority street segments;
- Relative location of street segments to create multiple, continuous segments, consistency within neighborhoods, and project efficiency; and
- Multi-year geographic spread across the city and street network.

In 2021, DOT added equity as a criterion for zone selection. DOT staff cross-referenced the selected zones with census tracts designated by the Metropolitan Transportation Commission as "Equity Priority Communities" (EPC), formerly known as "Communities of Concern," to better track equity in service delivery. This project includes about eight of the 30 EPC miles that will be maintained in 2025. DOT has maintained a total of 198 EPC miles since 2019, and by 2025, 228 out of 266 (89%) total EPC miles in the Local and Neighborhood Street Network will be paved.

May 27, 2025

Subject: Report on Bids and Award of Contract for the 10494 – 2025 Local Streets Sealing Pavement Project

Page 3

Roughly 256 out of 266 miles (96%) of local and neighborhood streets in EPCs will be maintained by the end of the current three-year plan (2028). DOT anticipates completing pavement maintenance for nearly 91% of the entire Local and Neighborhood Street Network in this same timeframe.

The Attachment to this memorandum contains the list of streets to be sealed as part of this Project. The list may change if unforeseen circumstances arise or new information regarding other projects becomes available.

Construction is scheduled to begin in August 2025, with substantial completion anticipated in November 2025.

ANALYSIS

Bids were opened on May 1, 2025, with the following results:

<u>Contractor</u>	<u>Bid Amount</u>	<u>Variance Amount</u>	<u>Over/(Under) Percent</u>
Graham Construction, Inc. (San José)	\$5,649,185	(\$324,195)	(5%)
Engineer's Estimate	\$5,973,380	--	--
Pavement Coatings Co. (Sacramento)	\$6,694,930	\$721,550	12%

The low bid submitted by Graham Construction, Inc. is 5% below the Engineer's Estimate. The bid from Graham Construction, Inc. is considered acceptable for the work involved in the project.

Contractor Responsibility Analysis

Graham Construction, Inc. has previously completed multiple paving projects for the City of San José. Most recently in the 2024 construction season, Graham Construction, Inc. performed sealing work on approximately 28 miles of arterial city streets through a major construction project.

Contingency

San José Municipal Code Section 27.04.050 provides for a standard contingency of 10% on all public works contracts except those involving the renovation of a building or buildings. The standard contingency is appropriate for this Project.

Wage Theft Prevention Policy Check

The Office of Equality Assurance reviewed bidders for compliance with the City's Wage Theft Prevention Policy on May 1, 2025, and again on May 23, 2025. No wage theft issues were identified.

Project Labor Agreement Applicability

The City's Project Labor Agreement is applicable to this Project because the Engineer's Estimate is over \$1.21 million.

Local and Small Business

The recommended contractor, Graham Contractors, is a local business enterprise. No local business enterprises were listed as subcontractors.

EVALUATION AND FOLLOW-UP

DOT provides an ongoing evaluation of the City's pavement conditions and provides periodic reports on this topic to the Transportation and Environment Committee. In addition to the project discussed in this memorandum, one additional local and neighborhood street pavement maintenance project is scheduled for City Council action later this year.

COST SUMMARY/IMPLICATIONS

This Project supports the Transportation and Aviation Services City Service Area goal to Preserve and Improve Transportation Assets and Facilities. By performing pavement maintenance with this project, the extension of the useful life of the project streets will defer more costly reconstruction. Funding for this project is included in the 2025-2026 Proposed Biennial Capital Budget in the VTA Measure B 2016 Fund (486), subject to the appropriation of funds. This project will have no net operating and maintenance costs to the General Fund.

May 27, 2025

Subject: Report on Bids and Award of Contract for the 10494 – 2025 Local Streets Sealing Pavement Project

Page 5

1. TOTAL COST OF PROJECT:

Project Delivery*	\$ 564,917
Construction	5,649,185
Contingency	564,919
TOTAL PROJECT COSTS	\$6,779,022

* Programmatic project delivery estimate includes approximately \$226,000 for design services and \$339,000 for construction management and inspection services.

2. COST ELEMENTS OF CONTRACT AS RECOMMENDED AS PART OF THE MEMORANDUM:

New Paving	\$4,140,265
Thermoplastic Striping	1,404,265
Other Construction Costs	104,120
TOTAL BASE BID AMOUNT	\$5,649,185

BUDGET REFERENCE

The table below identifies the fund and appropriations to fund the contract recommended as part of this memorandum and remaining project costs, including project delivery, construction, and contingency costs.

Fund #	Appn. #	Appropriation Name	Total Appropriation	Amount for Contract	2025-2027 Proposed Capital Budget Page*	Last Budget Action (Date, Ord. No.)
486	403Q	Pavement Maintenance – VTA Measure B 2016	\$26,860,000	\$5,649,185	827	N/A

*The 2025-2027 Proposed Biennial Capital Budget was released on April 26, 2025 and is scheduled to be reviewed on June 10, 2025 and adopted on June 17, 2025 by the City Council.

COORDINATION

This memorandum has been coordinated with the City Attorney's Office, the City Manager's Budget Office, and the Planning, Building and Code Enforcement Department.

May 27, 2025

Subject: Report on Bids and Award of Contract for the 10494 – 2025 Local Streets Sealing Pavement Project

Page 6

PUBLIC OUTREACH

This memorandum will be posted on the City Council Agenda website for the June 17, 2025 City Council meeting. The contractor will provide advance notification regarding working hours, duration of project, and any appropriate schedule and lane closures to affected businesses and residents, as stated in the specifications. To inform traveling motorists of upcoming construction activities and potential traffic delays, changeable message signs may be used on selected streets stating the scheduled date and time for work to occur on the street.

COMMISSION RECOMMENDATION AND INPUT

No commission recommendation or input is associated with this action.

CEQA

Environmental status granted by the Planning, Building and Code Enforcement Department. Categorically Exempt, File No. ER24-313, CEQA Guidelines Section 15301(c), Existing Facilities.

PUBLIC SUBSIDY REPORTING

This item does not include a public subsidy as defined in section 53083 or 53083.1 of the California Government Code or the City's Open Government Resolution.
