Dear Members of the Rules & Open Government Committee,

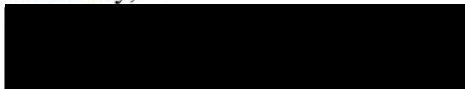

On behalf of the 35,000 members of the Santa Clara and San Benito Counties Building and Construction Trades Council, I am writing to urge San José Rules Committee to approve the recommendation to transition mayoral elections to the presidential election cycle.

According to San José State political scientists, this policy can make a significant impact on voter participation and representation. Over the past four mayoral elections, an average of 43.4% of registered voters turned out to vote. With less than half of eligible San Jose residents deciding a major elected position, we must take every opportunity to improve this statistic and improve our local democratic process. Now, the Rules Committee is presented with this very choice. Election research suggests that moving the timing of the city's mayoral elections to presidential years would increase voter turnout by approximately 30%.

This issue has a critical implication on San José's commitment to equitable elections. In an era of rampant voter suppression across the country that threatens the political voice of communities of color, we must pay particular attention to how city policies impact historically marginalized communities. The data reveal that those voters most likely to participate in both mayoral and presidential elections are disproportionately white, homeowners, more educated and affluent, and US-born. Changing the mayoral election to presidential years would increase the representation of people of color, young voters, and women, who are more likely to vote during presidential elections.

Supporting this amendment will help maximize voter turnout and ensure that our democratic institutions are truly representative of the wide range of communities that make ours a remarkable city. We urge members of the Rules & Open Government Committee to support this item and consider who has a say in electing our city's mayor.

Sincerely,

David Bini
Executive Director

October 7, 2021

The Honorable Councilmember Jones, Chair and
Members of the Rules & Open Government Committee
City of San José
200 East Santa Clara Street
San Jose, CA 95113

Dear Members of the Rules & Open Government Committee,

On behalf of Asian Law Alliance (ALA) I am writing to urge San José Rules Committee to approve the recommendation to transition mayoral elections to the presidential election cycle.

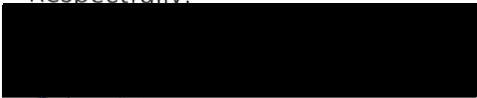

For many years, ALA has worked with other organizations, individuals, and faith based organizations to increase voter participation. Our civic engagement program seeks to help immigrants obtain citizenship and then to become civically engaged.

According to San José State political scientists, moving the mayoral elections to the presidential election cycle can make a significant impact on voter participation and representation. Over the past four mayoral elections, an average of 43.4% of registered voters turned out to vote. With less than half of eligible San Jose residents deciding a major elected position, we must take every opportunity to improve this statistic and improve our local democratic process. Now, the Rules Committee is presented with this very choice. Election research suggests that moving the timing of the city's mayoral elections to presidential years would increase voter turnout by approximately 30%.

This issue has a critical implication on San José's commitment to equitable elections. In an era of rampant voter suppression across the country that threatens the political voice of communities of color, we must pay particular attention to how city policies impact historically marginalized communities. The data reveal that those voters most likely to participate in both mayoral and presidential elections are disproportionately white, homeowners, more educated and affluent, and US-born. Changing the mayoral election to presidential years would increase the representation of people of color, young voters, and women, who are more likely to vote during presidential elections.

Supporting this amendment will help maximize voter turnout and ensure that our democratic institutions are truly representative of the wide range of communities that make ours a remarkable city. We urge members of the Rules & Open Government Committee to support this item and consider who has a say in electing our city's mayor.

Respectfully,

Richard Konda
Executive Director

Dear City Clerk Taber, I urge you to support the Protecting Seniors Through Immunization Act of 2021 (H.R. 1978/S. 912) to eliminate out-of-pocket costs for vaccines under Medicare Part D. The impacts of COVID-19 have demonstrated all too clearly how important vaccines are to both the physical and economic health of Americans. Our nation's seniors suffered greatly from this disease. That's why we need to ensure that Medicare patients never face financial barriers to immunization. Please help protect seniors and advance our nation's disease prevention efforts by supporting H.R. 1978/S. 912! I appreciate your attention to this matter. Thank you, Ms. Angela Ngoma

Dear City Clerk Taber, I urge you to support the Protecting Seniors Through Immunization Act of 2021 (H.R. 1978/S. 912) to eliminate out-of-pocket costs for vaccines under Medicare Part D. The impacts of COVID-19 have demonstrated all too clearly how important vaccines are to both the physical and economic health of Americans. Our nation's seniors suffered greatly from this disease. That's why we need to ensure that Medicare patients never face financial barriers to immunization. Please help protect seniors and advance our nation's disease prevention efforts by supporting H.R. 1978/S. 912! I appreciate your attention to this matter. Thank you, Sheila Ivers

Learn from the experts at National League of Cities

The logo for the National League of Cities (NLC) is displayed on a blue background. It features the letters "NLC" in a large, white, bold, sans-serif font. To the right of "NLC", the words "NATIONAL LEAGUE OF CITIES" are stacked vertically in a smaller, white, all-caps, sans-serif font.

YOU'RE INVITED:

ARPA OFFICE HOUR: COMMUNITY IMPACT 101

Join local government and community leaders to understand best practices in community assessment and outreach and strategically using funding and programming to create a positive impact in your community.

[Register Here](#)

Thursday, Oct. 14

3:30 PM EST

Virtual

Use the examples shared to support you in your own planning of how to best impact your community with ARPA funding.

Take a look at the agenda;

- Understand successful community outreach and impact assessment
- Understanding how and where to start
- Leave with next steps for your community as you begin to strategically use ARPA funds

Can't make it? No problem!

Go ahead and register for the webinar, and we'll send you the recording once it's ready.

Blair Beekman. Friday, Oct 8, 2021.....Covid-19, Tecnology, & Data Collection, and Covid-19 Vaccine practices, in the fall, of 2021.

b. beekman <

Fri 10/8/2021 2:55 PM

[External Email]

Two letters, to the VTA BoD public meeting agenda, of October 7, 2021.. - blair.

Dear VTA and community,

To offer once again, at VTA public comment time, Item 3, there are good guidelines & good legal precedents available, for all persons of a community, based on ideas, of open democracy, accountability, civil rights, and civil protections. If considered well, these are concepts, that can work much, towards ideas, of positive, long term, sustainability & peace, not war or harm.

Please note, how this thinking, can be of help, for local AI data collection issues, this fall. And from this, also note, that former ALPR data collection, used to be, for over a year. With the good practices, explained above, ALPR data collection, is now at 3-6 months. Our own, VTA CAC committee, has worked well, on these subjects.

In this continual, new era of Covid-19, and the needs, to more openly address, the future science, of the vaccine process, I hope this fall, with the good guidelines, above, it is time, we need to really begin to consider, what can be, more accountable, caring, & positive, community democratic practices.

sincerely,
blair beekman

Dear VTA board secretary, and community,

Item 6.2, is about the camera technology, in the future, of Automated Vehicles.

If we want to continue, to grow & build sustainably, with ideas of peace & openness, and not with continual war, and its secrecy - we have to be willing, to be open & honest, with our science, and with the contents, of the mRNA vaccine, it's nanotechnology capabilities, the use of biometric cameras, medical imaging ideas & practices. And from this, how to better, more openly explain, our societal & technology future.

The use of nanotechnology, and the ideas of medical imagining, in the mRNA vaccine process, is now on page 1, of a simple Google search. So this is information, that is no longer, trying to be kept in secret.

The VTA needs to learn, the innovation there can be, in more thoughtful, constructive memorandums. And to trust, more open public meeting dialogue, & policies, about this obviously difficult subject matter. These are simply the ways, in how to build, more open, inclusive, shared ideas, of trust & community sustainability, in this new era of Covid-19.

sincerely,
blair beekman

To whom it may concern,
Our neighborhood is on the fast track to decline . Too many promises are being broken by David Cohen and city officials. Why are we getting more RVs showing up on our streets ? I have been walking to the encampment everyday and I don't see any security guard around , instead I see an empty security vehicle. Can you explain the whereabouts of the security guard? Is he in fact still even employed at the site? Should we expect more RVs coming to this site have more RVs been approved have they been screened? Where is the proof of screening ? How are you keeping track of this ? Our community needs answers we can't keep getting ignored.

[External Email]

Hi Rosalynn,

I had emailed this question on Monday from our residents, I see no answer.

Residents are asking more questions regarding this - NO information leads to concerns and anxiety.

And, I do not see them addressed in FAQ

Please answer the following questions:

1. Are the occupants of the RVs at Vista Montana allowed to dump gray water on the parking lot?
2. Have the occupants of the RVs at Vista Montana been dumping gray water on the parking lot?
3. How does the city enforce rule, if any, about dumping gray water?

4. What is San Jose law regarding dumping gray water? I see the following info on the internet: "The U.S. Forest Service, National Park Service, Bureau of Reclamation, and Army Corps of Engineers all have regulations making it illegal to dump grey water on the Federal lands that they maintain"

Please respond to my email, and also your finding on why there was a horrible smell around the park on Monday.

Thanks,
Krishna

[External Email]

Hi Rosalynn,

Thanks for sharing this FAQ and code of conduct

I went for a walk outside my home just now, and saw that someone has **raised a tent in the parking site**

The code of conduct says: **no tents, lean-tos, or other temporary facilities on the property**

I talked to a fellow resident, and she told me that she saw the **tent from 2 days back**

Council man Mr. Cohen promised us that code of conduct will be followed

You FAQ says that Violations of the code of conduct may result in a participant being asked to leave the site

Neither of the above is being followed

The occupants of the site are doing what they wish

The city moved this site here with NO communication with the neighbors, misusing emergency provisions

After that we neighbors expect the city to at least be running it per promises / FAQ

If you cannot do that, please shutdown the site

Some people who received this message don't often get email from [REDACTED] [Learn why this is important](#)

[External Email]

Please answer:

1. Which committee/council/set of individuals made the decision to use this site? We understand that an EOC was used but its been almost a month since the site opened but we still do not have answers
2. It'll soon be 11% of the duration the site was intended for its original use. What plans has SJCC executed to get the RV residents into permanent housing? What progress has been made to find an alternate site as mentioned by Councilman David Cohen.
3. How is the City planning to communicate with the neighborhood residents? The City has executed RV safe parking and plans a 500+ affordable housing unit without considering the lack of safety or street parking. How can we collaborate to ensure our inputs are considered so that this neighborhood doesn't deteriorate?
4. With the winters approaching what is the city doing to provide heating to the RV residents without using generators or any other means that will worsen the air quality in the neighborhood ?

Has any of this being thought through?

Thanks

Subject: 71 vista Montana. New RVs moving in!

[External Email]

Hi Rosalynn,

We saw more RVs move in into this park on Monday

Are you aware of this? Is this with city's approval?

We were promised by CM Mr. Cohen that only original people from the Coleman site who were given invitations will be moved to this site

The city already broke this promise, and acknowledged this in the FAQ with no explanations of why a promise can be broken! Well, it is just a promise from CM Mr. Cohen - what value does it have?

Can you please explain why the above promise is not being adhered too?

Can you please help us with understanding the moves that happened on Monday? Where are these RVs from?

Thanks,
Krishna

Hi Rosalynn,

Thank you for getting back with FAQ,

1. However, there are new RV moving into the site this week, could you explain why this is happening and where those RV are from?
2. If the reason why City did not communicate with local neighborhood about this site was because of emergency (very little time) as claimed, then why there are more RV moving into this site after more

than one month? (How are we able to trust the City when you made the promise and even prepared the FAQs, which is contracting to what City is doing now?)

3. Dose City run the background check ?

4. Why City put this site right next to Kid's park, if City even aware of there is a kid's park right next to the site ? this is something I can not find it in your FAQ, can you make sure to address that? As there are lots of families with kids living in this neighborhood, this must be well addressed.

Thank you & please provide your feedback.

Joe

Subject: It's impact to our life - request city to put an end on Safe RV parking site

Some people who received this message don't often get email from [REDACTED] [Learn why this is important](#)

[External Email]

Hi city council,

Regarding the Safe RV parking site located @ 71 Vista Montana San Jose, we have been rising a big concern on the kid's safety, as it's only 2 feet away from a kid's park. we feel surprised and unbelievable that how can city place this site right next to kid's park??

We noticed that there is oil spilled on the ground without taken care of it, and couple of trash bags on the top of RV in the past days, which really affect the living environment quality of the local neighborhood.

Meanwhile, this site says there will be 24/7 security guard, but we found there is only one car parked at one of the entrances, but without a security guard in the car.

Weather is getting cold soon, how are those unhoused people to generate the heat? if using generator , it will worsen the air quality in this area.

Also, as City has found it before this site is arsenic contaminated , should not use for residential. But City is still putting those unhoused people in this site, which put their life in danger too!

So in short, we start not letting our kids to go to the park, and feel so insecure living in this area, because of this none well planned arrangement by the City.

This is 3-lose situation, bad for local neighborhood, bad for unhoused people and bad for city council that losing the trust from people who voted for you.

Therefore, we urge City to put an end on this site asap.

Thank you

Joe
