RECOMMENDATION

Approve recommendations outlined in the staff report dated March 2, 2018, with additional direction on Recommendation b) in the staff report that the Administration consider establishing a Mobilehome Park land use designation in the General Plan with staff commencing work no later than in Spring 2019.

BACKGROUND

Nine Council priorities are being processed by Planning Department staff at this time. Let's allow staff to complete this workload by the end of the calendar year prior to staff pursuing the Mobilehome Park Overlay.

We appreciate the advocacy of the Law Foundation of Silicon Valley over the past several years on strengthening the City's Mobilehome Park policies and goals, as well the robust engagement of Mobilehome park residents and owners.
