During the shelter in place, are there any guidelines for gardeners and handymen working alone?

3.4 Update on Digital Inclusion

I live in an area of Title 1 schools and know how well families would benefit from access to internet services and the needed extensions this will provide. This is an innovative valley with wireless companies and suppliers with lesser known names who may be more agile to fill the immediate demand of these needs. This is an opportunity to kill two birds with one stone, support local small businesses by tapping into their resources on this city wide project.

What about tiny houses? Are you still considering them? It would be great if you could approve some builders and get this approved. We could get housing fairly quickly that way.
