A RESOLUTION OF THE COUNCIL OF THE CITY OF SAN JOSE ADOPTING THE EMPIRE LUMBER MIXED-USE MITIGATED NEGATIVE DECLARATION, FOR WHICH AN INITIAL STUDY WAS PREPARED, ALL IN ACCORDANCE WITH THE CALIFORNIA ENVIRONMENTAL QUALITY ACT, AS AMENDED, AND ADOPTING A RELATED MITIGATION MONITORING AND REPORTING PROGRAM

WHEREAS, prior to the adoption of this Resolution, the Director of Planning, Building and Code Enforcement of the City of San José prepared an Initial Study and approved for circulation a Mitigated Negative Declaration for the Empire Lumber Mixed-Use Project under Planning File Nos. PDC15-067 and ER20-102 (the "Initial Study/Mitigated Negative Declaration"), all in accordance with the requirements of the California Environmental Quality Act of 1970, together with state and local guidelines implementing said Act, all as amended to date (collectively "CEQA"); and

WHEREAS, the Planned Development Rezoning from CG Commercial General Zoning District and LI Light Industrial Zoning District to CP(PD) Commercial Pedestrian Planned Development Zoning District to allow the demolition of all existing one-story commercial building and surface parking lot and to allow the construction of a seven-story mixed-use building with 60,330 square feet of commercial space and up to 408 residential units, as well as one-level below-grade parking and two levels of above grade parking, on the 2.77-acre project site located at 1260 East Santa Clara Street (Assessor's Parcel Number 467-33-001, -002, -003, -004, -006, -007, and -008.), San José, California; and

WHEREAS, the Initial Study/Mitigated Negative Declaration concluded that implementation of the Project could result in certain significant effects on the

1

NVF:VMT:JMD 12/17/2021

environment and identified mitigation measures that would reduce each of those

significant effects to a less-than-significant level; and

WHEREAS, in connection with the approval of a project involving the preparation of an

initial study/mitigated negative declaration that identifies one or more significant

environmental effects, CEQA requires the decision making body of the lead agency to

incorporate feasible mitigation measures that would reduce those significant

environmental effects to a less-than-significant level; and

WHEREAS, whenever a lead agency approves a project requiring the implementation

of measures to mitigate or avoid significant effects on the environment, CEQA also

requires a lead agency to adopt a mitigation monitoring and reporting program to ensure

compliance with the mitigation measures during project implementation, and such a

mitigation monitoring and reporting program has been prepared for the Project for

consideration by the decision-maker of the City of San José as lead agency for the

Project (the "Mitigation Monitoring and Reporting Program"); and

WHEREAS, the City of San José is the lead agency on the Project, and the City Council

is the decision-making body for the proposed approval to undertake the Project; and

WHEREAS, the City Council has reviewed and considered the Initial Study/Mitigated

Negative Declaration and related Mitigation Monitoring and Reporting Program for the

Project and intends to take actions on the Project in compliance with CEQA and state

and local guidelines implementing CEQA; and

WHEREAS, the Initial Study/Mitigated Negative Declaration and related Mitigation

Monitoring and Reporting Program for the Project are on file in the Office of the Director

of Planning, Building and Code Enforcement, located at 200 East Santa Clara Street,

2

3rd Floor Tower, San José, California, 95113, are available for inspection by any

interested person at that location and on the Planning Department website

(www.sanjoseca.gov/Planning) and are, by this reference, incorporated into this

Resolution as if fully set forth herein;

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF

SAN JOSE:

THAT THE CITY COUNCIL does hereby make the following findings: (1) it has

independently reviewed and analyzed the Initial Study/Mitigated Negative Declaration

and other information in the record and has considered the information contained

therein, prior to acting upon or approving the Project, (2) the Initial Study/Mitigated

Negative Declaration prepared for the Project has been completed in compliance with

CEQA and is consistent with state and local guidelines implementing CEQA, and (3) the

Initial Study/ Mitigated Negative Declaration represents the independent judgment and

analysis of the City of San José, as lead agency for the Project. The City Council

designates the Director of Planning, Building and Code Enforcement at the Director's

Office at 200 East Santa Clara Street, 3rd Floor Tower, San José, California, 95113, as

the custodian of documents and records of proceedings on which this decision is based.

THAT THE CITY COUNCIL does hereby find that based upon the entire record of

proceedings before it and all information received that there is no substantial evidence

that the Project will have a significant effect on the environment and does hereby adopt

the Mitigated Negative Declaration and related Mitigation Monitoring and Reporting

Program prepared for the Project (Planning File Nos. PDC15-067 and ER20-102). The

Mitigation Monitoring and Reporting Program for the Project is attached hereto as

Exhibit "A" and fully incorporated herein. The Initial Study/ Mitigated Negative

Declaration and Mitigation Monitoring and Reporting Program are: (1) on file in the

3

Office of the Director of Planning, Building and Code Enforcement, located at 200 East Santa Clara Street, 3rd Floor Tower, San José, California, 95113, and at www.sanjoseca.gov/Planning, and (2) available for inspection by any interested person.

MITIGATION MONITORING AND REPORTING PROGRAM

Empire Lumber Mixed-Use Project File No. PDC15-067 and ER20-102 December 2020

PREFACE

Section 21081.6 of the California Environmental Quality Act (CEQA) requires a Lead Agency to adopt a Mitigation Monitoring and Reporting Program (MMRP) whenever it approves a project for which measures have been required to mitigate or avoid significant effects on the environment. The purpose of the monitoring and reporting program is to ensure compliance with the mitigation measures during project implementation.

The Initial Study (IS) prepared for the Empire Lumber Mixed-Use Project concluded that the implementation of the project could result in significant effects on the environment and mitigation measures were incorporated into the proposed project or are required as a condition of project approval. This MMRP addresses those measures in terms of how and when they will be implemented.

This document does not discuss those subjects for	or which the IS concluded that the impa	acts from implem	nentation of	the projec	t would be less the	an
significant. I, Voe Bueck, the applicant, on	Pacific State the behalf of Industries Dev	elopment theret	by agree to	fully impl	lement the Mitiga	tion
Measures described below which have been dev mitigation measures or substantially similar me	veloped in conjunction with the preparations	ration of an IS to of approval with	or my prop my develo	osed proje oment nei	ect. I understand t mit request to avo	nat these oid or
significantly reduce potential environmental im				F	·
