Hello City Clerk,

I have the following issues with Agenda Item 22-045 1 4.1 "Gun tax/insurance", that is open for public comment.

1. The ordinance does not actually specify what are the requirements for a qualifying insurance policy.
2. There is nothing in the ordinance that addresses what happens if such a policy is unavailable to purchase.
3. 180 days is not enough time for people to know about this. The City Council also needs time to figure out how to implement this. Such as setting the fee schedule, and publishing it. 180 days isn't enough time for the Council to figure out the details AND have the public enough time to find out about it and do something about it. This is something that the public should have at least a year notice about. 180 days is much too short of a time.
4. It doesn't put any limits on how the tax would be levied. Making it open for any value to be specified.
5. It doesn't say anything about people who are unable to comply with the new ordinance. For example, what if someone was in a coma, or in the ICU with COVID? They were unable to know about or perform any action on this ordinance. What are they supposed to do?

Those are the issues I have specifically with how the ordinance was written.

Furthermore, I do not believe such an effort will have any impact on gun violence. I believe the effort should be placed into suicide prevention, and greater requirements on firearm training for gun owners

Thank You,

-Jotaro Aoi

Please **OPPOSE** the proposed ordinance item 4.1 on the San Jose Council Agenda for 1/25/2022. It is a proposed tax on the right to keep and bear arms, which like the right to vote, is a fundamental constitutional right. A "poll" tax to exercise the right to vote would not be tolerated by the San Jose City Council because it would disproportionately affect poor people and discriminate against their ability to exercise their constitutional right to vote. Similarly, this proposed tax on gun ownership, along with its burdensome mandate

to buy expensive insurance, would disproportionately discriminate against poor people and indirectly discriminate against minorities, who might want to exercise their constitutional right to keep and bear arms for any number of legitimate reasons, including self defense. This is a racist ordinance which would if enacted, discourage poor people from gun ownership, harming them by taxing them for the constitutional right to defend themselves. No government should be allowed to impose a discriminatory tax or expense upon those who wish to exercise their fundamental constitutional rights, including the right to keep and bear arms.

Dear Mayor and Councilmembers,

As a doctor I care deeply about reducing firearm deaths and injuries. I practiced primary care medicine at Kaiser Santa Clara for 30 years. Most of my patients were San Jose residents. When I retired a few years ago I decided to dedicate all of my volunteer efforts toward reducing gun violence from a public health perspective. I am now on the Board of Scrubs Addressing the Firearm Epidemic (SAFE), a nonprofit organization of physicians and medical students founded at Stanford. We work to improve medical education and research on all aspects of preventing firearm injury and death.

I believe the Gun Harm Reduction Proposal ordinance is a much needed innovation in the field of gun violence prevention. Requiring firearm owners to have liability insurance has the potential to significantly incentivize safer firearm practices. And using the small annual fees to fund local gun violence prevention programs to reduce firearm deaths is something we should all stand behind. No one wants to lose a loved one to a firearm injury that could have been prevented.

I applaud you in advance for voting yes on the San Jose Gun Harm Reduction Ordinance.

Respectfully,

Susie MacLean, M.D.

To Whom it may concern.

This city ordinance the mayor is trying to pass is unfair and unconstitutional. Why punish us legal and law biden citizens for what your police is unable to complete successfully. It's unconstitutional and not legal. Then every citizen of San Jose should be taxed not just us legal gun owners. Our current police department is incompetent of completing their job.

Sirs and Madams,

We have been made aware of the gun tax proposal possibly submitted very soon. Although we don't have any firearms, we support the right to bear arms against all foes, foreign and domestic. This right is God-given. I suggest you pray on this issue to seek Divine-direction before proceeding. It occurred to me that you folks have ARMED guards. Aren't we given the same right? I can only assume that if you go against this God-given right, that God will expect the same be practiced by political people inclusively at the local, state, and federal levels. Shouldn't laws you make apply to you and not exclude you? For instance, we know you approved of the vaccine shots for us, but exempted yourselves. Did you feel that that law applied to us but not you? Is not your job to protect those God-given rights? Is there a God-given exemption for you or should all laws apply equally to the entire population. That's what you need to think about before you move forward.

Greetings:

I am a long-time resident of San Jose, a retired Federal law enforcement officer that includes service in Iraq and Afghanistan, and a taxpayer. I'm writing to explain my strong opposition to the proposal entitled above. I feel it is a total affront to those of us who lawfully have acquired and retain ownership of firearms for legitimate purposes, i.e., shooting sports, hunting, and personal protection. The imposition of additional costs of liability insurance and a so-called annual fee to own a firearm merely because we reside in a specific geographic location seems arbitrary and specious. The City appears to be faulting law abiding citizens who exercise a right as being responsible for the criminal acts that are increasingly pervasive throughout this City and the surrounding Bay Area. My law enforcement experience has provided me with the knowledge that we have sufficient Federal, State, and local criminal and civil sanctions that can address gun violence, crime related and otherwise. Those remedies need to be applied to those who are committing the firearm related criminal acts. Although I've been an advocate for firearm safety and storage, addressing accidents and harming oneself with a firearm, has to be dealt with on a case by case basis. Again, I think there are statutory remedies to address this that are already in place. They need to be applied and applied aggressively.

I respectfully request that the Mayor and City Council not continue to promote or consider this Ordinance which appears to be nothing more than an opportunity to extract additional funds (taxes) from a segment of the City's citizenry and a misguided attempt at reducing firearm misuse that will most certainly result in costly and lengthy civil litigation.

Respectfully submitted.

I respectfully Oppose the City's So Called "Common Sense" Gun Control Measures..  
. It is common knowledge and supported by Nationwide Crime Studies, that the Vast Majority of Crimes, and Often Violence involving a Gun are committed by a Small number of the Population, and are Associated with either Gangs or Career Criminals..  
I would Ask WHY THEN DOES THE COUNCIL SEEK TO ADVANCE ORDINANCES THAT HARM LAW ABIDING GUN OWNERS?  
CRIMINALS ALREADY IGNORE LAWS, So what makes the COUNCIL Think they will Adhere to these New Ordinances?

..  
THESE ORDINANCES ARE VERY LIKELY TO BE DEEMED UNCONSTITUTIONAL, ILLEGAL and DO NOT REPRESENT THE WILL OF THE MAJORITY OF LAW ABIDING CITIZENS...

I would Support Additional Law Enforcement Personnel, Outreach in to All Communities by SJPD, Community Based Neighborhood Councils or Groups that Regularly Meet/Correspond with Law Enforcement..

Hard Working, Tax Paying, Law Abiding Gun Owners ARE NOT THE SOURCE OF GUN VIOLENCE in the CITY, and the COUNCILS Proposed Ordinances will only further HARM SAFETY and PEACE in the City and Alienate further Citizen's from their Leaders....

Dear sirs, It sickens me to always hear about new proposals to undermine our Constitution and the 2nd amendment! All of you public officials swore to uphold our rights as free citizens of the United States of America, and you blatantly undermine and scheme to circumvent our freedoms constantly! Your mentality and reasoning is childish and we are tired of being blamed for every tragedy that happens when a shooting is involved. Any normal thinking human being would put the blame on the individual or individuals responsible, and not a whole group of law abiding people. I hope you trash this proposal where it belongs, and start thinking of how fortunate we are to live here!

City Clerk,

Please pass this on and have it placed into the minutes of any meeting regarding taxing gun ownership.

Ladies and Gentlemen,

You will be in for a long, costly, legal challenge that you will be forced to defend using your citizens tax dollars if you pursue a tax on gun ownership. Taxing a Constitutional Right is in fact, unconstitutional and violates the 2nd Amendment at it's core. You will have to expend far more tax dollars than you could possibly gain by this tax. In the name of fiscal responsibility, I urge you to not tax guns or gun ownership.

Hello

Please do not pass this anti American,back door attempt,at destroying this country's constitutional rights!

Every unethical overreach starts with these seemingly small,seemingly well guided guises.The state of California has already become one of the worst states in America,and people know it,leaving in larger numbers then ever before!The state squeezes hard working people of their hard earned money,calling it bigger and bigger taxes when it's a lousy excuse for those in Sacramento who recklessly spend and steal without remorse or regard!Gas prices are a crime in themself!Crime is out of control with no end in site while so called "politicians",build higher walls around themselves and pay for private security,all while taking the safety and security away from the states citizens!And all the while these uncaring,selfish crooks call to "defund the police",while trying everything above and under the table to take people's own ability to protect their families away!!

Do not let San Jose continue this wreckless demise,which has already forced born and raised Californians like myself,to move to safer,greener pastures,leaving the filth and degradation behind!!

One day,all this self centered behavior will come full circle on to your own children and grandchildren in a lawless,dirty,third world nation that long ago lost all the principles that once made America the greatest nation on earth!Do not continue the March towards destruction by enacting this tax that is nothing more then California's further assurance of a lawless,sold out society!

Thank You

Agenda Item 4.1 22-045

The suggestions made under the Gun Harm Reduction Ordinance pretend that the gun violence will become less, which is unlikely.

It does appear that responsible gun owners will be penalized for already doing the right thing with their guns. These proposal would take guns from responsible gun owners leaving them defenseless to protect their families while the streets of San Jose are still filled with illegal guns moving across the border without any effort to be stopped by the state of California or the federal government. Maybe the illegal immigrants, which are many, should be paying taxes for bringing guns into the United States.

This proposal would seem to be good for social support and media approval, but lacking in respect to many of your citizens and their right to gun ownership, without added infringement on their personal liberties.

You're trying to impose fees and taxes on people who aren't committing crimes. You think criminals have guns registered in their names. This will only harm law abiding citizens, like all gun laws do. This is why good people don't support politicians in San José. You guys are corrupt and only push your agendas that help the political elites, law enforcement and wealthy. You're breaking the law. Most crime happens in poverty stricken area, but you're exempting the poor? Please stop this foolishness. Do not pass this bill. Matter of fact, do not bring up gun control again. Honorable Mayor and Council Members,

I want to applaud you on the bold move you are taking to mitigate gun violence with your vote to pass the gun harm reduction ordinance on 25 January. As I write these words it seems incredulous to feel the need to congratulate and encourage a yes vote after the unprecedented gun violence in cities throughout our country.

As a Sunnyvale resident, I felt safer when our community passed Measure C. In retrospect, this measure set the stage for new gun legislation on the county and state level as I hope your ordinance will do as well.

Thank you for your concern with gun violence and the safety of all members of our community.

Kind regards,

Agnes Veith

Dear City Clerk,

Where in the world do you get your authority to tax the ownership of a gun? The Second Amendment of the United States Constitution is quite clear, and the U.S. Government and City and State governments do not have the authority to do that.

If you try this, you may end up starting a civil war that is not too civil.

To the City Council,

As a physician in Santa Clara County and Board Member of Doctors for America--an organization of thousands of physicians that aims to promote healthy families and communities--I am writing in strong support of San Jose's Gun Harm Reduction Ordinance. Firearms homicides, suicides, and accidental deaths have all been on a steep rise, costing our country approximate \$280 billion dollars per year; this total translates into over \$2000 per household annually. Requiring liability insurance and using a Gun Harm Reduction fee to promote programs for gun owners will serve three important purposes:

1. It will promote safer behaviors, such as firearms storage, reducing accidental deaths and suicides
2. It will provide injury prevention resources such as firearms education, mental health services, and violence prevention programs, to gun owners
3. It will reduce costs to all citizens—gun owners and non-gun owners alike—by reducing injuries and by ensuring liability insurance covers some of the costs

Just as car insurance supports good drivers without decreasing car ownership, requiring small fees for gun owners will not inhibit legal gun ownership but has the potential to reduce costs for everyone.

Throughout my career at Stanford, I have cared for countless patients from San Jose. On behalf of them as well as my many colleagues at Santa Clara Valley Hospital and the County Health Department, I strongly endorse this common-sense ordinance.

I applaud your proposal to regulate firearms as we do other risk factors for injury and death.

Gun owners accuse you of violating their rights, but the right to life and limb and to live free from fear are more basic and universal rights. Please keep true to the purpose of saving lives.

As so many have come to realize, "thoughts and prayers" are not a sufficient or honorable response to America's gun violence problem. It is indeed long past time to take action. Thank you for stepping up. I wish the United States Senate was as courageous.

Sincerely,  
Don Veith

## Subject:

Gun Harm Reduction Ordinance TO BE HEARD AT 6 00 P M on Tuesday 1/25/2022

Recommendation Consider approving an ordinance amending Title 10 of the San José Municipal Code to add Part 6 to Chapter 10.32 to reduce gun harm by requiring gun owners to obtain and maintain liability insurance and to provide for a fee to apply to gun harm reduction programs.

I am a citizen of San Jose and I urge the City Council to not pursuit the Gun Harm Reduction Ordinance as listed above.

I think the proposed ordinance will be a big mistake if pasted by the San Jose City Council. Be assured, if this Gun Harm Reduction Ordinance passes there will be litigation, and the big question will be how much money is the City willing to spend defending this ordinance remember this will be the only law of its kind in the United States. Before the City Council thinks about approving, they better have a clear understating of how much City money (citizen's money that could be spent on crime prevention, current gun law enforcement, drug addiction treatment, homelessness, healthcare , affordable housing, poverty reduction, job growth, etc.) are they willing to spend trying to defend this ordinance years after they all leave office.

If any Council Member would like to discuss this issue in more detail, then give me a call.

Regards,

**Steve Peck**

Councilmember Pam Foley,

I live in your district and am against the proposed Gun Harm Reduction Ordinance. It will do nothing to solve the real problems, to stop the causes of firearm deaths, and criminal activity. There must be a better way to reduce these problems.

This proposed ordinance seems to punish responsible law-abiding citizens for merely exercising their constitutional rights. It will eventually end up in the court system, costing much wasted money and time for all concerned.

I can never support / vote for anyone who attempts to take away / restrict any of our constitutional based rights.

Respectfully,

Don Marcott

Hi,

I am writing in opposition to the Public Safety Gun Harm Reduction Ordinance. This ordinance does nothing to prevent gun violence. In fact, this ordinance will make it harder for members of poorer communities to protect themselves with a firearm by making it more expensive for them to legally own and possess a firearm. This ordinance will only allow criminals to commit more crimes because they know their victims are disarmed by the government. I don't live in San Jose. I live in a neighboring county. I will never be traveling to San Jose or doing business with any business in San Jose if this ordinance passes.

Please REJECT Public Safety Gun Harm Reduction Ordinance; Agenda Item #4.1.

Thanks.

I am writing to inform you of my objection to the proposed changes to Chapter 10 of the San José Municipal Code as defined in the Gun Harm Reduction Ordinance Memorandum dated January 14, 2022, scheduled to be heard on January 25, 2022 as Item 4.1. **I urge you to VOTE NO on this item.**

Item 4.1 proposes unlawful and unenforceable changes to the Municipal Code which will not stop gun violence in San José. Legal owners of firearms will be unduly punished because, by definition, they are the only people that will be impacted by these proposals. Taxing and isolating a group of people purely based on their decision to embrace an enumerated constitutional right is discriminatory.

#### **Proposed Change: 10.32.210 Liability Insurance Required**

“Specifically covering losses or damages resulting from any negligent or accidental use of the Firearm, including but not limited to death, injury or property damage.”

- Negligent use of a firearm is defined in CA Penal Code 246.3 as someone who willfully discharges a firearm (pulls the trigger intentionally) which could result in injury or death to a person.
- The City Council is requiring firearm owners to purchase insurance for intentionally pulling the trigger of a firearm to harm life and/or property, which is already defined as a serious violent crime.
- This type of insurance does not exist and if it did, would be so cost prohibitive that it would place an unconstitutional barrier to the free exercise of the Second Amendment.

- Lawmakers are allowed to approve the ordinance without defining the insurance coverage type and limits, having up to six months after the vote to define it.
- *Murdock v. Pennsylvania*, 319 U.S. 105 (1943) established that the government “may not impose a charge for the enjoyment of a right protected by the federal constitution ”

#### **Proposed Change: 10.32.215 Annual Gun Harm Reduction Fee**

“A person who resides in the City and owns or possesses a Firearm in the City shall pay an Annual Gun Harm Reduction Fee to the Designated Nonprofit Organization each year”

- San José is taxing gun owning, law abiding residents and visitors for the illegal actions of criminals.
- The City is creating a law which forces gun owners to financially support a business they may not agree with.
- The City Council is opening the floodgate for corruption, allowing former City employees to sit on the board of this nonprofit to be paid using additional monies from taxpayer dollars in the form of City grants. No former city employee should ever be allowed to sit on this board
- What is the fee? Lawmakers are allowed to approve the ordinance without defining the fee and have up to six months after the vote to define it.
- *Murdock v. Pennsylvania*, 319 U.S. 105 (1943) the Supreme Court ruled that “since the privilege in question is guaranteed by the Federal Constitution, and exists independently of state [or municipal] authority, the inquiry as to whether the State [or Municipality] has given something for which it can ask for a return is irrelevant.”

#### **Proposed Change: 10.32.245 Impoundment**

“The Firearm or Firearms of a person that is not in compliance with this Part may be impounded subject to a due process hearing.”

- Violation of the proposed changes will most likely result in an infraction.
- State law only allows for the impoundment of firearm for a felony or one of 20 defined violent misdemeanors. Infractions do not reach the state threshold requirement to legally confiscate and/or impound property.
- Because the ordinance improperly compares the Second Amendment right to the privilege of owning a car for justification of these changes:
  - California state law does not grant peace officers the authority to impound a vehicle on site for lack of insurance and requires a minimum of six months registration expiration before they can impound a vehicle [CVC 16028(a-c) and CVC22651(o)]

**Focus on Real Solutions to Stopping Gun Violence**

Our elected officials need to address the criminals who commit violence in our city and the solution to this problem should not be to punish the innocent law-abiding residents of San José. Please look at taking the following actions to stop gun violence:

1. Have the city council write and approve an amicus curia resolution to send to the California Assembly and Senate to repeal Propositions 47, 57, and AB109
2. Establish the Gun Harm Reduction Commission (GHRC) pilot program with balanced community representation
3. Enforce and prosecute existing gun laws
4. Support recommendations 1 through 5 of the 9/16/2021 Rules and Open Government Committee memorandum entitled, "Community Violence Prevention & Response"
5. Fund attorneys that will prosecute gun crimes in the county
6. Hire more police officers
7. Build mental health hospitals and fund sobriety programs

Good morning.

I commented on the proposed gun ordinance last week. It appears that those comments have not made it into the written comments for the meeting.

The fact that the links have been changed and the meeting time changed twice is extremely suspect to the open process that the Mayor speaks about. It is disappointing that I am having to track my comments to make sure my voice is heard.

Below are my comments to submitted last week. Please add this to the meeting document.

I am writing in opposition to the proposed taxes or mandatory insurance on lawful gun owners. Your attack on gun owners to combat the costs of crime are severely misplaced and offensive. You choose to be easy on criminals and come after lawful gun owners instead. This approach is ignorant and misplaced at best and unconstitutional because you are attempting to tax a fundamental right thus disproportionately affecting women, minorities, and the less fortunate segments of the community.

The ordinance is window dressing to make it appear like you are doing something when in fact this does nothing to stop crime and will place you in the position of spending tax payer dollars that will be wasted. You have already been told in numerous meetings that passing this ordinance will bring a swift response and great legal cost.

Do not bring this on us. Take a stand against the gun control groups who want this for purely policy wins. Handle the crime problems which is what you should be doing anyway and VOTE NO on this bad law.

Dear Mayor and City Council,

As a resident of San Jose, volunteer leader with Moms Demand Action for Gun Sense in America, and a volunteer member of the Silicon Valley Alliance for Gun Safety, I am in support of the proposed Gun Harm Reduction Ordinance with the amendment recommended by Councilmember Peralez in his memo dated 1/21/22

I am grateful to live in a city with lawmakers that understand the importance of taking an innovative and holistic approach to ending gun violence. This ordinance will incentivize safer practices that can potentially prevent firearm death and injury

We all want to live in world free from gun violence and this ordinance helps moves us closer to that goal.

As a resident and law abiding gun owner in San Jose, I am opposed to the ordinance put forward by the city. I am opposed to the idea that I should be required to pay into a fund to offset city costs related to gun violence incidents when I am not responsible for said violence. Gun owners are being singled out to bear the burden of cost proposed by this ordinance as if implying that we, legal and law abiding owners of firearms, are responsible for the violence in our city.

Rather than adding another obstacle for San Jose residents to exercise their second amendment rights, the city should be working harder to hold the criminals and gangs accountable for the violence, as these are the true perpetrators of the violence we are seeing. Perhaps the city can consider those convicted of gun related crimes be made to pay fines to offset the costs this ordinance seeks to cover. Thereby making those causing the problems to be the source of the solution. If this does not work for the city, and a levy is truly required to offset these costs related to gun violence, then that cost should be shared by all residents of the city, as this violence is a threat to all.

I further oppose this ordinance as it calls for costs to be determined after it would be adopted. How can we be asked to support a city ordinance when the true cost and impact are not known at the start?

Yours Respectfully.

As a resident of Santa Clara county, I am writing to vote my strong support for the passage of Mayor Licardo's proposal to require gun owners to carry either homeowners, renter's or gun liability insurance and to pay a \$25-\$35 dollar annual fee to a non-profit dedicated to promote GUN SAFETY in the community.

With the COVID pandemic, there has been a very large increase in the numbers of guns purchased by ordinary citizens for potential self defense. This increase has also been seen in the numbers of suicides and deaths in the case of domestic violence. The money which will be raised from the \$25-\$35 annual fee is a very small price for a gun owner to pay to a NON-PROFIT organization whose sole purpose is to reduce the incidence of gun violence in our community. We all want a community where we don't live in fear of another Gilroy Garlic Festival incident or a VTA shooting.

Please support this measure.

Let me start by saying that I am not a firearm owner. But it is constitutional right to own a firearm. This proposed change is nothing more than a blatant attempt to get more money for the city to be wasted away. This is a tax under another name! This change will do ABSOLUTELY NOTHING to curb gun violence and the originators of this proposed change know that. Why not concentrate on using the money the voters have already voted on to curb the real reasons for gun violence, such as mental health care. Let's comeback to reality and GET REAL!

I am writing to inform you of my objection to the proposed changes to Chapter 10 of the San José Municipal Code as defined in the Gun Harm Reduction Ordinance Memorandum dated January 14, 2022, scheduled to be heard on January 25, 2022 as Item 4.1. **I urge you to VOTE NO on this item.**

Item 4.1 proposes unlawful and unenforceable changes to the Municipal Code which will not stop gun violence in San José. Legal owners of firearms will be unduly punished because, by definition, they are the only people that will be impacted by these proposals. Taxing and isolating a group of people purely based on their decision to embrace an enumerated constitutional right is discriminatory.

**Proposed Change: 10.32.210 Liability Insurance Required**

“Specifically covering losses or damages resulting from any negligent or accidental use of the Firearm, including but not limited to death, injury or property damage.”

- Negligent use of a firearm is defined in CA Penal Code 246.3 as someone who willfully discharges a firearm (pulls the trigger intentionally) which could result in injury or death to a person.
- The City Council is requiring firearm owners to purchase insurance for intentionally pulling the trigger of a firearm to harm life and/or property, which is already defined as a serious violent crime
- This type of insurance does not exist and if it did, would be so cost prohibitive that it would place an unconstitutional barrier to the free exercise of the Second Amendment.
- Lawmakers are allowed to approve the ordinance without defining the insurance coverage type and limits, having up to six months after the vote to define it.
- *Murdock v. Pennsylvania*, 319 U.S. 105 (1943) established that the government “may not impose a charge for the enjoyment of a right protected by the federal constitution ”

**Proposed Change: 10.32.215 Annual Gun Harm Reduction Fee**

“A person who resides in the City and owns or possesses a Firearm in the City shall pay an Annual Gun Harm Reduction Fee to the Designated Nonprofit Organization each year”

- San José is taxing gun owning, law abiding residents and visitors for the illegal actions of criminals.
- The City is creating a law which forces gun owners to financially support a business they may not agree with.
- The City Council is opening the floodgate for corruption, allowing former City employees to sit on the board of this nonprofit to be paid using additional monies from taxpayer dollars in the form of City grants. No former city employee should ever be allowed to sit on this board
- What is the fee? Lawmakers are allowed to approve the ordinance without defining the fee and have up to six months after the vote to define it.
- *Murdock v. Pennsylvania*, 319 U.S. 105 (1943) the Supreme Court ruled that “since the privilege in question is guaranteed by the Federal Constitution, and exists independently of state [or municipal] authority, the inquiry as to whether the State [or Municipality] has given something for which it can ask for a return is irrelevant.”

**Proposed Change: 10.32.245 Impoundment**

“The Firearm or Firearms of a person that is not in compliance with this Part may be impounded subject to a due process hearing.”

- Violation of the proposed changes will most likely result in an infraction.
- State law only allows for the impoundment of firearm for a felony or one of 20 defined violent misdemeanors. Infractions do not reach the state threshold requirement to

legally confiscate and/or impound property.

- Because the ordinance improperly compares the Second Amendment right to the privilege of owning a car for justification of these changes:
  - California state law does not grant peace officers the authority to impound a vehicle on site for lack of insurance and requires a minimum of six months registration expiration before they can impound a vehicle [CVC 16028(a-c) and CVC22651(o)]

### **Focus on Real Solutions to Stopping Gun Violence**

Our elected officials need to address the criminals who commit violence in our city and the solution to this problem should not be to punish the innocent law abiding residents of San José Please look at taking the following actions to stop gun violence:

1. Have the city council write and approve an amicus curia resolution to send to the California Assembly and Senate to repeal Propositions 47, 57, and AB109
2. Establish the Gun Harm Reduction Commission (GHRC) pilot program with balanced community representation
- 3 Enforce and prosecute existing gun laws
4. Support recommendations 1 through 5 of the 9/16/2021 Rules and Open Government Committee memorandum entitled, "Community Violence Prevention & Response"
- 5 Fund attorneys that will prosecute gun crimes in the county
- 6 Hire more police officers
7. Build mental health hospitals and fund sobriety programs

Yours Sincerely,  
Your Constituent
