

SAFE CITY STRATEGY STATUS REPORT

City of San José – Smart Cities and Services Improvements Committee – May 5, 2022

Presented by:

Jay McAmis, Deputy Director, Office of Emergency Management

Athena Trede, Deputy Director, Fire Department

Judith Torrico, Deputy Director, Police Department

Khaled Tawfik, Chief Information Officer, Information Technology Department

Agenda

Applying technology and data to
improve public safety...

1. Review Safe City Strategy Goals
2. Project Efforts
3. Forward Direction
4. Questions and Feedback

SAFE CITY STRATEGY

1

Communications and Interoperability

2

Operational Effectiveness

3

Disaster Readiness and Resilience

4

Multi-Department Partnership

SAFE CITY STRATEGY

- Impactful Projects
 - FirstNet
 - Central Emergency Vehicle Preemption
 - Evidence Collection with Axon Capture
- Tools
 - Police and Fire Business Intelligence
 - Text to 9-1-1
 - Nixle (Mass Notification System)

EMERGENCY MANAGEMENT

Presented by:
Jay McAmis, Deputy Director

EMERGENCY MANAGEMENT RESULTS

- Mass Notification System
- Geospatial Data Dashboards

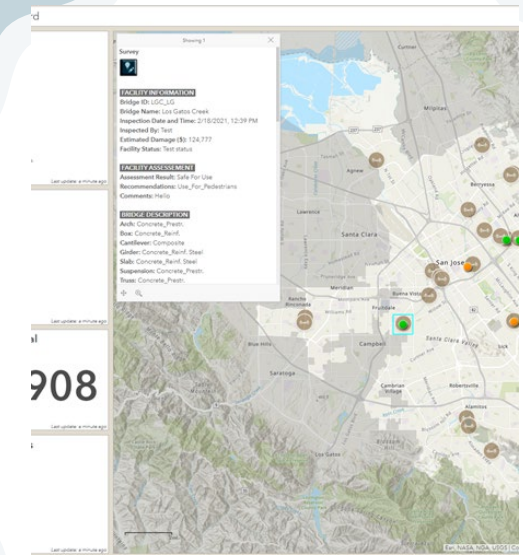

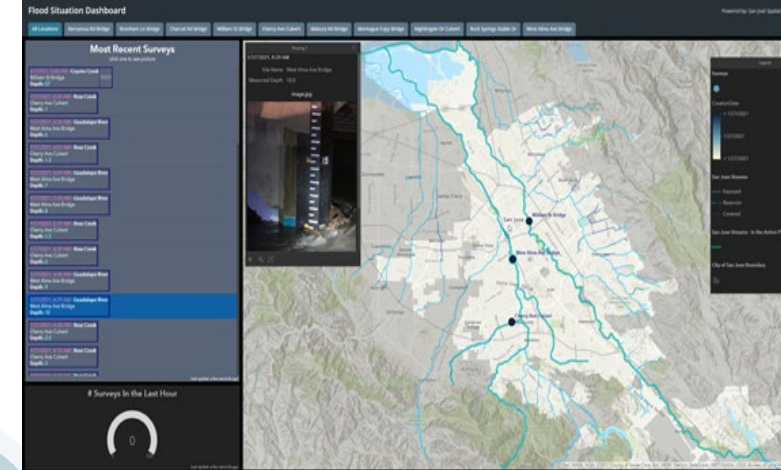

MASS NOTIFICATION SYSTEM

- AlertSCC
- IPAWS
- Nixle
- WEA
- Challenges

GEOSPATIAL DATA DASHBOARDS

- Threat & Hazard mapping
- Resource & Infrastructure mapping
- Vulnerable Populations mapping
- Just-in-Time Response mapping

EMERGENCY MANAGEMENT DIRECTION

- New Emergency Operations Center
- EOC Technology
- Mobile Operations Satellite Emergency System – M.O.S.E.S.

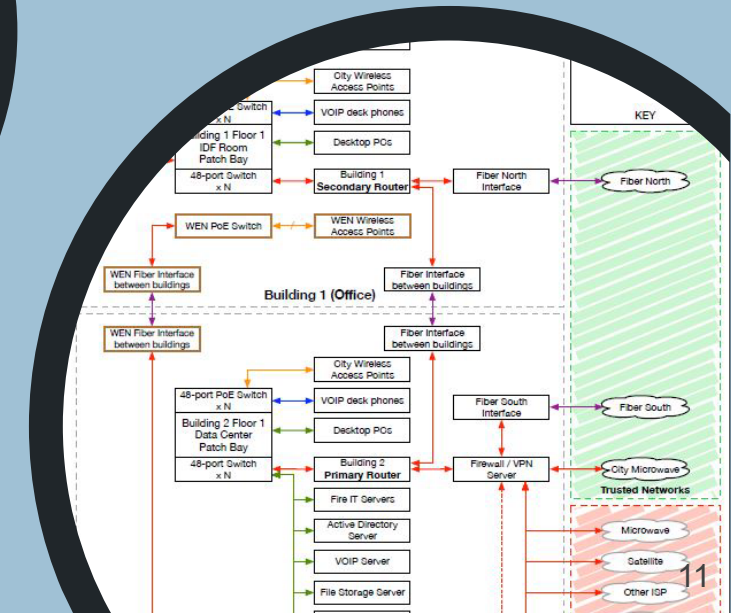

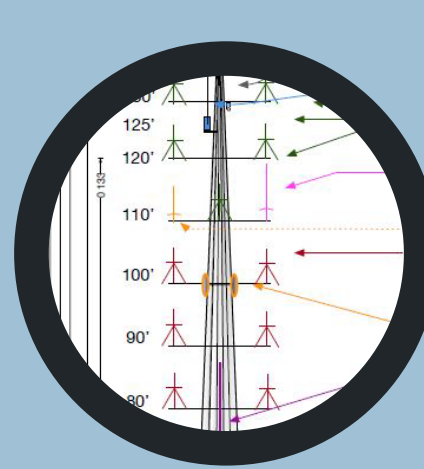

NEW EMERGENCY OPERATIONS CENTER

- Funded by Measure T
- Move-in Early 2023
- Co-located with Fire Training Center

EOC TECHNOLOGY

- 24/7 At-the-Ready
- Interoperability
- Redundant
- Island in the Storm

MOBILE OPERATIONS SATELLITE EMERGENCY SYSTEM

- Multiple redundancies – cellular, WiFi, satellite
- Easily deployed with on-board power
- Remotely manageable
- Flexible and expandable coverage
- Connectable endpoints
- Content/Video delivery capabilities

FIRE DEPARTMENT

Presented by:

Athena Trede, Deputy Director – Bureau of Administrative Services

FIRE DEPARTMENT RESULTS

- **Operational Effectiveness:**
 - Avenza Offline Maps
 - RapidDeploy Radius Plus
- **Communication & Interoperability:**
 - Dual Network Connectivity

DUAL NETWORK CONNECTIVITY

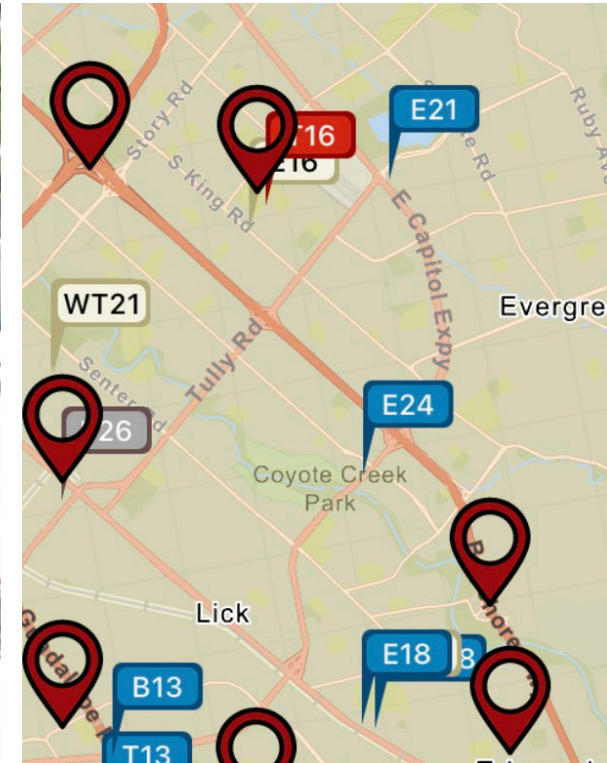

- Dual SIM enables rapid failover from one provider to the other (currently AT&T FirstNet and Verizon)
- Strengthens wireless reliability to support multiple cellular devices and other systems (MDC, CEVP, AVL)
- Outcome: Provides redundancy, thus reducing provider network outage impacts

FIRE DEPARTMENT DIRECTION

- Mobile Data Computer Refresh
- FirstNet Compact Rapid Deploy
- Closest Unit Dispatch
- Fire Information Technology Master Plan

CLOSEST UNIT DISPATCH (AVL-BASED)

- Automatic Vehicle Location (AVL) reliability increased with Dual Network Connectivity
- Resources will be recommended by CAD based upon emergency response vehicle location rather than fire station first due area
- Outcome: Improved response time performance

FIRE INFORMATION TECHNOLOGY MASTER PLAN

- Assess current and future network architecture, hardware and software
- Design a phase-out plan for legacy systems to rollover to new platforms
- Establish an IT governance matrix
- Assess adequacy of staffing
- Outcome: Establish a 5-year technology vision and strategic goals

POLICE DEPARTMENT

Presented by:

Judith Torrico, Deputy Director – Bureau of Technical Services

Andy Smith, Interoperability Communications Manager

POLICE DEPARTMENT RESULTS

➤ **Operational Effectiveness:**

- Police and Fire 9-1-1 Communications Center Computer-Aided Dispatch Software and Hardware Upgrade
- 2021 Patrol Car Mobile Data Computer Replacement Project
- Business Intelligence Tool

➤ **Communication & Interoperability:**

- FirstNet/Cradlepoint Modem Replacement Project

ACCESSING POLICE DEPARTMENT DATA THROUGH BUSINESS INTELLIGENCE POWER BI

A diagonal strip on the left side of the slide contains a blurred background of CSS code. The code includes properties such as 'position: absolute', 'z-index: 999', 'display: block', 'position: relative', 'top: -2px', 'left: -6px', 'display: inline-block', 'display: block', 'list-style-type: none', 'line-height: 1', 'display: block', 'z-index: 1000', and 'padding-right: 9px'.

POLICE DASHBOARDS

Font Size: [+](#) [-](#) [+ Share & Bookmark](#) [Print](#)

In March 2022, the San José Police Department launched a consolidated web page of dashboards using Microsoft Power BI to provide community members a one-stop-shop to review important statistical data. Power BI is a business intelligence application that turns data into coherent, visually immersive dashboards. The interactive dashboards show insightful trends and allow the viewer to analyze data. This tool also emphasizes the Department's commitment to transparency in all that we do.

The Power BI page features a guide that will show users how to navigate the dashboards, find dates of published data, filter information, and more. The dashboards were constructed in a manner that will facilitate ease of use. ([SJPD Power BI Navigation Guide](#).)

SAN JOSE POLICE DEPARTMENT

Response Times to **Priority 1** and **Priority 2**

[General Plan section ES-3.1](#): Provide rapid and timely Level of Service response time to all emergencies: 1. For police protection, use as a goal a response time of six minutes or less for 60 percent of all Priority 1 calls, and of eleven minutes or less for 60 percent of all Priority 2 calls.

Last Refreshed: 4/29/2022 5:16:46 AM

Priority 1:

- There is a present or imminent danger to life, or
- There is major damage to/loss of property, i.e., large-scale incident or cases where there is an in-progress or just occurred major felony.
- District and/or channel-wide response (district wide pertains to units within the district of the call for service only whereas channel wide pertains to any units on the channel involved.). A notification of all channels is automatic. May include the need for notification of all radio channels and/or adjacent agencies.
- The incident may have an immediate impact on and need for citywide police resources.
- The response time target for Priority 1 calls is 6 minutes. The response time is calculated from the time Police Dispatch Center receives a telephone call to when the first officer arrives.

PRIORITY 1 CALLS

Last 24 Hours

Last 7 Days

Last 30 Days

Priority 2:

- District wide response when a crime is in progress or has just occurred, and
- There are injuries or there is the potential for injury, or
- The suspect is still present in the area.
- All missing person reports where the children are under the age of 12, or at risk missing persons, including mentally handicapped or disoriented adults.
- Situations where the suspect is in custody for any violent crime, or for a nonviolent crime and is uncooperative.
- The response time target for Priority 2 calls is 11 minutes. The response time is calculated from the time Police Dispatch Center receives a telephone call to when the first officer arrives.

A photograph of a modern building with a curved glass facade, overlaid with a blue tint. In the foreground, a man and a woman are walking away from the camera on a balcony or walkway with a metal railing. The building's architecture features a series of horizontal slats or louvers that create a textured, grid-like pattern. The overall scene is bright and modern.
