As clerk for the City Council can you forward this request to all of the members of the City Council? It was frustrating to have the Senate pass a gun safety law and then within 24 hours have the Supreme Court get rid of permits for carrying hidden guns. One small way we could as a City prevent some injuries and deaths from guns is to have a gun buy back program to get guns out of homes and off the street. It would be ideal to have an on going policy that anytime someone came across a gun they could have any police station buy the gun back. I know some people think that owning a gun protects them, but I believe statistically the availability of a gun often contributes to a serious injury or death. Please consider protecting all of us innocent residents by eliminating as many guns as possible from our community.
