

Santa Clara County Multi-Jurisdictional Program for Public Information 2021

Annual Evaluation Report for FY22

(Year 1: July 2021 to June 2022)

June 2022

Prepared by:

Santa Clara Valley Water District

and

County of Santa Clara CRS Participating Communities

I. INTRODUCTION

The Community Rating System (CRS) is a voluntary program of the Federal Emergency Management Agency's (FEMA) National Flood Insurance Program (NFIP). The CRS program allows communities to earn flood insurance premium discounts for their residents and businesses by implementing local mitigation, floodplain management, and outreach activities that exceed the minimum NFIP requirements to reduce the risk of flooding.

In Santa Clara County, 11 (eleven) communities have been active participants in the FEMA NFIP CRS for over 30 years.

The CRS participating communities are City of Cupertino, City of Gilroy, City of Los Altos, City of Milpitas, City of Morgan Hill, City of Mountain View, City of Palo Alto, City of San Jose, City of Santa Clara, City of Sunnyvale, and the Santa Clara Valley Water District (Valley Water).

CRS participating communities, along with their external non-governmental stakeholders, non-participating communities: *City of Saratoga, Town of Los Altos Hills, Town of Los Gatos, and County of Santa Clara* who opted to join the 2021 Program for Public Information (PPI), comprise the PPI Committee. The PPI Committee is listed in *Table 1. Members of the Santa Clara County Multi-Jurisdictional 2021 PPI Committee* of the 2021 PPI. (Attachment #1)

FEMA requires that each community participating in the PPI provide at least two representatives to the regional PPI Committee, with at least half of the representatives from outside the local government. Additionally, at least half of the representatives must attend all the meetings of the regional PPI Committee.

An important benefit of the PPI Committee's work is close collaboration between local public agency staff who work on flood protection throughout Santa Clara County. Together, PPI Committee members continue strengthening their individual CRS programs and ensuring communities can evaluate their flood programs against a nationally recognized benchmark.

The 2021 PPI Committee, along with the remaining non-participating communities (*City of Campbell and City of Monte Sereno*), and other interested parties, make up the Santa Clara County CRS Users Group.

The Santa Clara County CRS Users Group collaborates to ensure floodplain management activities provide enhanced public safety, reduced damage to property and public infrastructure, and avoidance of economic disruption and loss in Santa Clara County. Through the 5-year PPI development and the annual reporting process, members of the SC County CRS Users Group learn from one another about local floodplain management activities, including flood protection and land use issues. For both the Santa Clara County CRS Users Group and the PPI Committee, the PPI is one of the most impactful activities of the CRS Program.

Under the CRS program, flood insurance premium rates are discounted to reward CRS participating community actions that meet the three goals of the CRS: (1) reduce flood damage to insurable property; (2) strengthen and support the insurance aspects of the NFIP; and (3) encourage a comprehensive approach to floodplain management.

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
Annual Evaluation Report for FY22 (Year 1: July 2021 to June 2022)**

Flood insurance premiums for participating CRS communities are reduced in 5% increments for every 500 CRS points earned. As of April 30, 2022, the total savings for Santa Clara County residents from CRS discounts is approximately \$2 million.

Valley Water is the lead flood risk reduction agency for Santa Clara County. Valley Water performs many flood preparedness outreach and stream stewardship/maintenance activities that earn CRS points for participating communities. Since Valley Water is not a land-use agency, the points Valley Water earns, as a fictitious community, provide a foundation upon which the CRS participating communities can build. FEMA approved this unique arrangement with Valley Water in 1998.

The *CRS Coordinator's Manual, 2013 Edition*, included the option to undertake a Program for Public Information (PPI) which is a method to customize flood risk and loss reduction outreach messages and increase CRS points. Each participant of the PPI Committee brings unique perspectives and suggestions that enhance the PPI. Each community must adopt the PPI through a formal vote by the community's governing body.

In 2013, Valley Water initiated and facilitated the effort to develop the first Multi-Jurisdictional PPI so that all Santa Clara County CRS participating communities could work together and benefit from this activity. Non-participating communities were also invited to participate in the development of the PPI. This work effort resulted in the 2015 Multi-Jurisdiction PPI (2015 PPI).

On April 14, 2015, Valley Water's Board adopted the 2015 PPI, which sunset in April 2020. Following Valley Water's lead, the other CRS participating communities' governing bodies adopted the 2015 PPI soon thereafter.

Under the CRS, the PPI must be updated every 5-years. Each subsequent year after adopting the PPI, the committee must submit an Annual Evaluation Report to FEMA describing the PPI implementation for the prior fiscal year. The PPI Committee must evaluate whether the flood risk reduction messages in the PPI are still relevant and adjust the PPI, if needed. The Annual Evaluation Report is shared with each participating community's governing body as an informational item.

As required, Annual Evaluation Reports for FY16 (Year 1) through FY19 (Year 4) for the 2015 PPI were prepared, sent to the governing body, and included in annual recertifications.

FY20 (Year 5), the PPI Committee was required to update the 2015 PPI. The Insurance Services Office (ISO), FEMA's CRS management contractor, exempted the committee from submitting an Annual Evaluation Report for FY20 (Year 5) as the committee focused on updating the 2015 PPI.

In February 2020, Valley Water hosted the start of the 5-year PPI process. Fifteen Santa Clara County communities worked together to update the 2015 PPI. These communities included the current eleven CRS participating communities as well as four non-participating communities that expressed interest in joining the CRS. Staff and external stakeholders from each community participated in developing the new PPI.

In March 2020, the Coronavirus (COVID-19) outbreak started. The California State Emergency Services Act, the Governor's Emergency Declaration related to the COVID-19 pandemic, the Governor's Executive Order N-29-20, and Order of the County of Santa Clara Public Health Officer dated March 16, 2020, went into effect.

Santa Clara County 2021 Multi-Jurisdictional Program for Public Information Annual Evaluation Report for FY22 (Year 1: July 2021 to June 2022)

The COVID-19 pandemic caused far-reaching, unprecedented changes. Businesses and organizations faced economic and operational uncertainty across every industry and sector. The workforce impacts during COVID-19 caused delays beyond control, including the PPI Committee's ability to continue its work of updating the 2015 PPI. Many communities shifted priorities to respond to the public health crisis; therefore, FEMA provided an extension of completing the update to the 2015 PPI to early 2021.

The PPI Committee reconvened in October 2020 to resume the PPI update. Several virtual meetings followed until the PPI Committee completed the 2021 PPI in April 2021. The 2021 PPI was adopted by participating communities, as indicated in *Table 1. Dates 2021 PPI Adopted*.

II. 2021 PPI DEVELOPMENT PROCESS

Valley Water, along with the CRS participating and non-participating communities, initiated the 2021 PPI process in February 2020. The Santa Clara County 2021 Multi-Jurisdictional Program for Public Information document was completed in April 2021 (*refer to Section I. Introduction for COVID-19 related delays*).

Virtual meetings were held between 2020 and 2021 to develop the 2021 PPI. In addition to FEMA's six priority topic messages, three additional messages below were identified as important for Santa Clara County. See *Table 3 in the 2021 PPI: CRS Priority Messages* for the complete list.

- I. Encourage residents and workers to make a personal Family Emergency Plan.
- II. Ask residents to download disaster apps; and
- III. Urge drivers to slow down on wet roads and avoid driving through ponded water to reduce traffic accidents.

The PPI Committee worked between the meetings to draft the 2021 PPI and review the extensive list of outreach and flood response projects. (Attachment 2, *which is Appendix A of the 2021 PPI*)

Based on the PPI Committee's evaluation of the 2015 PPI, the consensus was that most of the 2015 PPI flood risk reduction messages were still relevant, so only minor edits were incorporated as needed. This became the basis for the 2021 PPI; therefore, no additional FEMA review was required, as the 2015 PPI already ensured its provisions were fully compliant with FEMA requirements.

The number of CRS points that the 2021 PPI activities will earn is determined by FEMA's CRS Specialist and Technical Reviewers in the Insurance Services Office (ISO). The PPI Committee estimates that of the possible 350 points, participating communities could earn up to 300+/- points per participating community for the PPI efforts.

Once Valley Water approved the 2021 PPI (5-Year Plan), the final document was provided to the PPI Committee to present to their government bodies for adoption and implementation. *Table 1. Dates of PPI Adoption* shows the 2021 PPI approval dates by agency (Community).

All 11 CRS participating communities have adopted the 2021 PPI as noted in *Table 1 Dates 2021 PPI Adopted* below. As non-participating communities are not in the CRS Program, they

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
Annual Evaluation Report for FY22 (Year 1: July 2021 to June 2022)**

are not required to adopt the PPI. At this time, all non-participating communities have chosen not to adopt the 2021 PPI.

Table 1. Dates 2021 PPI Adopted

| Agency (Community) | Date Presented | Adoption* |
|--|-----------------------|------------------|
| Santa Clara Valley Water District | 4/27/21 | X |
| City of Cupertino | 8/17/21 | X |
| City of Gilroy | 7/01/21 | X |
| City of Los Altos | 7/13/21 | X |
| Town of Los Altos Hills (<i>non-CRS community</i>) | Not required* | Not required* |
| Town of Los Gatos (<i>non-CRS community</i>) | Not required* | Not required* |
| City of Milpitas | 5/18/21 | X |
| City of Morgan Hill | 6/16/21 | X |
| City of Mountain View | 6/22/21 | X |
| City of Palo Alto | 6/14/21 | X |
| City of San Jose | 11/16/21 | X |
| City of Santa Clara | 7/06/21 | X |
| County of Santa Clara (<i>non-CRS community</i>) | Not required* | Not required* |
| City of Saratoga (<i>non-CRS community</i>) | Not required* | Not required* |
| City of Sunnyvale | 6/29/21 | X |
| Total Approved | | 11 |

**Non-CRS communities are encouraged to participate in PPI Committee activities and initiatives, but are not required to adopt the PPI, nor report out in the Annual Evaluation Reports.*

III. ANNUAL EVALUATION REPORTS

The 2021 PPI states that the PPI Committee will meet at least once yearly to evaluate the PPI and incorporate any needed revisions. This meeting is coordinated in conjunction with the ongoing CRS User's Group meetings, which occur at least twice a year.

The evaluation will cover:

- Reviewing projects that were completed.
- Evaluation of progress toward outcomes.
- Recommendations on projects that have not been completed.
- Recommendations for new projects not previously identified.
- Target Audience changes; and
- Impact of the program during a real flood event if one has occurred.

The Annual Evaluation Report is prepared by the PPI Committee for submission with each CRS community's annual CRS recertification package (or schedule 5-year cycle visits). The report is then shared with each CRS participating community's governing body as an informational item.

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
Annual Evaluation Report for FY22 (Year 1: July 2021 to June 2022)**

Section V. 2022 Santa Clara County CRS Users Group/PPI Committee Meetings – Monitoring and Evaluating the 2021 PPI of this report, summarizes the meetings held to develop the FY22 Annual Evaluation Report (Year 1 of the 2021 PPI).

Table 2 below shows how each community expects to share the FY22 Annual Evaluation Report with its governing body.

Table 2. How the 2021 PPI Annual Evaluation Report for FY22, Year 1 will be shared with Community's Governing Body

| Community | Method for Sharing* |
|---|--|
| Santa Clara Valley Water District | Board Non-Agenda Item |
| City of Cupertino | Consent Item Council Agenda |
| City of Gilroy | Consent Calendar |
| City of Los Altos | Council Consent Calendar or Informational Staff Report |
| Town of Los Altos Hill (<i>non-CRS community</i>) | Not required |
| Town of Los Gatos (<i>non-CRS community</i>) | Not required |
| City of Milpitas | Memo to City Council |
| City of Morgan Hill | Council Consent Calendar |
| City of Mountain View | Council Weekly Update "Council Connection" |
| City of Palo Alto | Informational Staff Report |
| City of San Jose | Council Consent Calendar |
| City of Santa Clara | Council Consent Calendar |
| County of Santa Clara (<i>non-CRS community</i>) | Not required |
| City of Saratoga (<i>non-CRS community</i>) | Not required |
| City of Sunnyvale | City Manager's "Update Sunnyvale" |

**Non-CRS communities are not required to share the 2021 PPI Annual Reports with their governing bodies.*

IV. 2021 PPI ACCOMPLISHMENTS FOR FY22

The PPI Committee identified three efforts needed from each CRS participating community for the 2021 PPI and to prepare and finalize subsequent Annual Evaluation Reports.

1. Governing bodies must adopt the 2021 PPI (*Table 1. Dates 2021 PPI Adopted*). The PPI Committee must prepare Annual Evaluation Reports and share the reports with its governing body as informational items.
2. For each fiscal year (*July 1 - June 30*) the communities must carry out and monitor the implementation of the outreach/flood response projects identified in *Attachment A CRS Creditable Outreach and Flood Response Projects by CRS Community of the 2021 PPI*. (Attachment 2)
3. The PPI Committee must review and consider the 'New Initiatives' identified in the 2021 PPI (*page 66*) for advancing flood risk reduction efforts.

Governing Bodies Approval: Including Valley Water, all 11 CRS participating communities' governing bodies adopted the 2021 PPI by the end of FY22. The approval dates are shown by agency (Community) in *Table 1. Dates of 2021 PPI Adopted* noted above.

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
Annual Evaluation Report for FY22 (Year 1: July 2021 to June 2022)**

Tracking System: The 2021 PPI is multi-jurisdictional and includes 15 agencies (11 CRS participating communities and four non-participating communities). Tracking implementation is quite complex compared to a single-agency PPI. As the informal lead, Valley Water continues to oversee the record-keeping to ensure consistency throughout the county. An electronic file-sharing system, Egnyte, is set up with folders for each community to file and share documents related to the 109 potential outreach/flood response projects identified in the 2021 PPI, and all CRS-related documentation. This also includes a comprehensive spreadsheet tracking which projects were accomplished in any given fiscal year, by the individual communities. This spreadsheet, along with the Annual Evaluation Report, will be submitted with annual CRS recertifications or a part of scheduled 5-year cycle visits.

Insurance Services Office (ISO) assigns credit for Valley Water outreach/flood response projects to all Santa Clara County CRS participating communities' ratings. Some communities also choose to carry out and report on their own outreach/flood response projects, in addition to those of Valley Water. These projects are shown on the composite spreadsheet and include input from each agency.

The PPI Committee discussed the benefits of using the Egnyte shared-filing system for tracking the 2021 PPI outreach/flood response projects and all CRS-related documentation. The PPI Committee also discussed the importance of ensuring each agency uploads their CRS documentation regularly. These benefits are:

- **Information Share/Knowledge Transfer:** CRS participating communities can view each other's program documentation. When a community improves its CRS rating, another community can access the documents submitted to determine how the CRS credited activities helped improve the score.
- **Document Repository:** A central location for CRS-related documentation, organized to mirror the CRS Coordinator's Manual (by community/activity/element) proves helpful when a community experiences staff turnover.
- **Documentation Submittals:** CRS documents are organized and easy to share with the CRS Specialists conducting cycle visits and/or annual recertification.

Summary of PPI Projects Accomplished in FY22

The complete list of outreach/flood response projects is included as Attachment 2 of this Report, listing all projects proposed in the 2021 PPI, with a "Project Accomplishments" column noting actions taken during the first year of the PPI, FY22.

| Audiences | Projects Accomplished | |
|---|---|-----------|
| Community at Large (CAL) | 81 potential projects, 63 accomplished | |
| Residents and Businesses in the Special Flood Hazard Area (SFHA) | 18 potential projects, 16 accomplished | |
| Messengers to Other Target Audiences (Organizations & Businesses Serving the Community) | 10 potential projects, 10 were accomplished | |
| *Total Accomplished Projects | | 89 of 109 |

* **Note:** All projects carried out by CRS participating communities were accomplished in FY22.

Variance in the number of potential projects versus accomplished projects is due to no updates received from non-participating communities, which is not required for this report.

Santa Clara County 2021 Multi-Jurisdictional Program for Public Information Annual Evaluation Report for FY22 (Year 1: July 2021 to June 2022)

These numbers go well beyond the minimum requirements of the CRS Program, and we anticipate all CRS participating communities will receive the maximum number of credits for our collective efforts in FY22.

It is important to note that most public events in 2020 through 2022 were heavily impacted or canceled due to shelter-in-place orders and the COVID-19 pandemic. Those events that were not canceled were often redesigned for virtual participation or smaller, socially distanced groups.

Valley Water's Outreach/Flood Response Projects

Annual Flood Awareness Campaign

Valley Water's FY22 Flood Awareness Campaign theme was "Flooding Can Happen During a Drought." It launched after the ¹Fourth National Climate Assessment was published; there could not have been a better time to have this conversation. The federal report assessed that intense extreme weather and climate-related events are becoming more frequent and will have catastrophic impacts on vulnerable communities, infrastructure, ecosystems, and our economy. Extreme storm events could result in more frequent and severe flooding in our region. Valley Water's message emphasized its commitment to reducing flood risks and protecting the community but acknowledging we cannot eliminate all risks. Thus, our communities must adapt and prepare; and it starts with being informed and aware of risks.

An educational paid advertising campaign supplemented Valley Water's community outreach effort. This year, its advertising campaign was supported by a series of formative research to understand target audiences, their awareness levels, and explore what educational messages and images most appealed to them.

The Flood Awareness Campaign lasted four months, from mid-November 2021 to February 2022. The paid advertisement campaign cost a total of \$200,000.

Valley Water's FY22 Annual Flood Awareness Campaign shifted from general digital and public space advertising to a series of direct mailings to the 52,000 homes and businesses in Santa Clara County's FEMA SFHA.

Valley Water sent three separate targeted mailers to all homes and businesses in or near a high-risk flood area, as designated by the FEMA SHFA. The mailers were multilingual (English, Spanish, Chinese, and Vietnamese) and are posted on Valley Water's website.

1. Annual Floodplain Mailer
54,790 mailed on December 13-14, 2021
4,450 delivered to cities/county (*Public Works and Planning Departments*) between December 2021 – February 1, 2022
2. Multilingual Postcards with 9 CRS tips and links to flood preparedness webpages
52,502 mailed on October 29, 2021
3. "You Live in a Flood Zone—Do You Know What to Do Before, During, and After a Flood?" Trifold.
54,790 mailed on January 11, 2022

¹ US Global Change Resource Program (USGCRP) has a legal mandate to conduct a state-of-the-science synthesis of climate impacts and trends across U.S. regions and sectors every four years, known as the National Climate Assessment (NCA).

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
Annual Evaluation Report for FY22 (Year 1: July 2021 to June 2022)**

During FY22, Santa Clara County experienced a drought emergency. Valley Water's annual Floodplain Mailer reminded everyone that flooding can happen anytime it rains, and that climate change has made extreme weather the new normal. Drought conditions can harden the ground and increase run-off to streams and creeks during the first few days of heavy rain, increasing the risk of flooding. In addition, the flood mailer showcased Valley Water's ongoing flood protection projects in areas susceptible to flooding.

In FY22, the mailer featured QR codes, a magnet with important flood safety websites, a detachable emergency phone list, and photos of our most recent flood protection projects.

The direct mailing strategy was developed after the 2020-2021 post-Flood Awareness Campaign poll which indicated that only 29% of FEMA SFHA residents remembered receiving the annual Floodplain Mailer, while recollection of other broad advertising efforts hovered lower. The outreach shift from advertising to targeted mailings resulted in substantial savings while proving much more effective.

Valley Water also deployed a small-scale multilingual social media campaign, with the slogan "Flooding can happen during a drought," on social media and the web platforms including Facebook, Instagram, Google Ads, El Observador, Cali Today, and News for Chinese. The campaign launched in Winter FY22, starting with the season's first rains in December 2021 and continuing through January 2022. Digital ads targeted residents and commuters in or near the SFHA, using zip codes from published FEMA flood maps.

A key strategy for the paid campaign was incorporating all 2021 PPI messages in Valley Water ads. Staff crafted messages derived from Valley Water's annual Floodplain Mailer to residents in the SFHA. Additionally, the Valley Water Board of Directors shared posts on Nextdoor highlighting the "Flooding can happen during a drought" messaging and the nine CRS topics in Winter 2021. Valley Water posted a flood preparedness blog on its website in November 2021 and a digital copy of the Floodplain Mailer.

Valley Water also used its monthly newsletter, news blog, and social media profiles to enhance flood awareness efforts before and during forecasted storms starting as early as September. During the length of the campaign and leading up to anticipated storm events, Valley Water posted flash flood warnings, shared posts with critical messages about flood safety, and promoted the Flood Watch Tool throughout the winter.

Valley Water's flood protection resources page at ValleyWater.org/floodready serves as a hub of flood safety information with icons leading to a series of related web pages, including information on flood zone maps, signing up for emergency alerts, sandbags, reporting local flooding, and safety tips.

Of these subpages, the flood zone awareness page was the most accessed, which features a brief explanation for determining if a home is in a FEMA-designated flood zone. It also features an instructional YouTube tutorial for using FEMA's Map Service and a reminder that flooding can happen anytime it rains.

Santa Clara County 2021 Multi-Jurisdictional Program for Public Information Annual Evaluation Report for FY22 (Year 1: July 2021 to June 2022)

All communities were requested to add a link redirecting visitors to ValleyWater.org/floodready, floodsmart.gov, and ready.gov from their respective flood protection resource pages or homepage. All Santa Clara County communities received hard copies of Valley Water's Floodplain Mailer.

Valley Water shared a "Flood Follows Drought 2021-22 Flood Awareness Campaign Media Toolkit" with the CRS communities. The toolkit provided links to the multilingual floodplain mailer, social media graphics, messages for all nine flood awareness tips (PPI CRS message topics), and blog posts for all Santa Clara County communities to use.

The 2021-2022 post-Flood Awareness Campaign survey found:

- 59% recalled receiving mail with information about flood safety (29% in 2020-21).
- 76% are confident they have taken all necessary precautions to protect themselves from floods (64% in 2020-21).
- 61% rate the job Valley Water is doing at keeping them informed as excellent, good, or fair (32% in 2020-21).
- 10% increase in food zone awareness over last year (now at 50-60% awareness).
- 32% increase in recall of flood mailings vs. last year (now at 59% reach) with good recall amongst Spanish, Mandarin, and Vietnamese speakers.
- 58% of respondents clearly understood Valley Water's three main calls to action (find your risk, get flood insurance, develop a plan).
- 12% increase in respondents who believe they have taken all steps to be ready for a flood (now at 76%).
- 11% increase in respondents who have flood insurance (now at 51%).
- 100% of high-risk residents in mobile home parks are aware of our messaging.

The results above demonstrate an effective campaign that is less expensive than general advertising, yielding a savings of approximately \$150,000 with more robust results. In the future, direct mailings to the FEMA SFHA seem to be an alternative outreach strategy for the flood awareness campaign rather than targeted advertising.

Valley Water discussed the new targeted mail approach with the PPI Committee and the Insurance Services Office (ISO). All agreed with this strategy.

Valley Water Education Outreach Program

Valley Water's Education Outreach includes flood awareness messaging in every program presented year-round. A dedicated flood-focused program is offered from October through April, depending on the rainfall situation on any given year.

Valley Water's role as a flood protection agency is highlighted in all presentations, so that participants in the Education Outreach Programs know that flood protection is one of Valley Water's core objectives in Santa Clara County.

The following are the Education Outreach efforts from October 2021 – March 2022.

Valley Water Flood Awareness Messaging

Flood awareness messaging is included in classroom presentations, STEAM (*Science, Technology,*

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
Annual Evaluation Report for FY22 (Year 1: July 2021 to June 2022)**

Engineering, Art, and Math) programs, libraries, camps, and Wonders of Water Wednesday, an after-school science program.

The following numbers represent the results of general flood protection messaging:

- 197 Presentations
- 4801 attendees
- 193 Educators

Flood-focused Programs

Education Outreach has two programs that focus on flood awareness and preparedness: “The Three Little Pigs and The Bad Weather Wolf” and “Watershed Maps”.

The following numbers represent the results of Flood-focused Programs:

- 47 Presentations
- 986 attendees
- 54 Educators

Community Events

Due to the COVID-19 pandemic, countywide community events in FY22 were postponed.

CRS Participating Communities Outreach/Flood Response Projects

The PPI Committee identified the outreach/flood response projects for each community. The implementation of these projects is reflected in the FY 2022 ‘Project Accomplishments’ column of Attachment 2.

**V. 2022 SANTA CLARA COUNTY CRS USERS GROUP/PPI COMMITTEE MEETINGS –
MONITORING AND EVALUATING THE 2021 PPI**

Santa Clara County CRS Users Group/PPI Committee meetings were held on March 10, 2022, and May 19, 2022. Agenda and attendance sheets for each meeting are included. (Attachments 3-6)

Attendance was good at both meetings and quorum was met with staff from the eleven CRS participating communities. Staff from some non-participating communities, external stakeholders, and other interested parties were also in attendance.

As required by CRS, the objective for the March and May meetings was to monitor the implementation of the 2021 PPI and to determine if the desired outcomes were achieved, as well to discuss if any changes to the 2021 PPI were needed to complete this Annual Evaluation Report. The PPI Committee agreed that the 2021 PPI messaging and projects would remain the same for the duration of the 2021 PPI, which sunsets in 2026.

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
Annual Evaluation Report for FY22 (Year 1: July 2021 to June 2022)**

At the March 10, 2022 meeting, a draft Project Accomplishment PPI Annual Evaluation Report for FY22 was shared with the communities to review.

The PPI Committee:

- Assessed whether the desired outcomes of the 2021 PPI were achieved in FY22, and what, if anything, should be changed.
- Discussed which communities have adopted the 2021 PPI and that conformed/enacted copy of their agenda items related to submitting the 2021 PPI to their respective governing bodies should be uploaded into Egnyte and a copy sent to Valley Water.
- Provided instruction on how communities will submit updates to Appendix A of the 2021 PPI to Valley Water for consolidating report.
- Communities were informed that all updates were due by the next CRS Users Group Meeting or sooner.

An ISO CRS Specialist shared best practices for Verification Cycle Visits. The specialist also reviewed updated/new/modified prerequisites for CRS Classes 6, 8, and 9, per the Addendum to the 2017 CRS Coordinator's Manual (Edition 2021) which went into effect January 1, 2021.

Lastly, to comply with *CRS Activity 350 - Flood Protection Information, Element c). Flood Protection Website*, from the CRS Coordinator's Manual, CRS participating communities were reminded to ensure to review their flood information landing page *monthly*, to verify all links are valid and *annually*, to ensure content is still relevant and current.

At the May 19, 2022 meeting, the PPI Committee discussed the 2021 PPI Annual Evaluation Report for FY22, reminding the group that the report will be due during scheduled 5-year cycle visits (*for Cities of Gilroy and Morgan Hill*) or as part of communities' annual CRS recertification package which are due on August 1, 2022.

Valley Water Communications staff presented an overview of the 2021-2022 Flood Awareness Campaign, including the Floodplain Mailer that was mailed in December 2021 to all addresses in the FEMA Special Flood Hazard Area (SFHA), as well as to city/town/county managers, public works and planning directors, and the communities' CRS staff.

Additionally, Valley Water Communications staff also shared the FY22 post-campaign polling results with results. Valley and the PPI Committee determined that future flood awareness campaigns have an opportunity for expanded outreach to renters of both single-family homes and multi-family units, as well as providing localized historical flood information and outreach materials in public spaces.

Valley Water CRS staff shared information on the Department of Water Resources (DWR) statewide agency coordination calls scheduled to begin by July 2022. The DWR calls lead up to the 2022 California Flood Preparedness Week (CFPW) that is held annually each October (*specific dates for October 2022 to be announced*). We shared Valley Water's experience in participating on these calls, including the benefits of learning about CFPW, ways to participate, setting up lobby displays for the public, and how to access available resources for public events.

All communities were strongly encouraged to participate this year, including presenting a Resolution (*Valley Water's template available, upon request*) to their respective city councils to adopt CFPW, and to forward the information to their communication and emergency service teams.

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
Annual Evaluation Report for FY22 (Year 1: July 2021 to June 2022)**

We also discussed Valley Water's plan to provide all communities with 'emergency starter kits' and 'flood event kits' for their use as plans to recommence booth support at various city-hosted events, safety fairs, etc. These resources will ensure our messaging and information on how to 'Get Flood Ready' is uniformed throughout the county.

The consensus of the PPI Committee is that our 2021 PPI implementation is on target and that no changes are needed. Cities who have had the PPI approved by their elected officials reported receiving strong support.

This Annual Evaluation Report is the first report for the 2021 PPI to document our outreach project activities.

VI. FUTURE MESSAGING – Other New Initiatives

The PPI committee identified several new initiatives:

1. Continue and expand the standardized flood message prepared for each community to include flood messages in utility bills yearly, including PG&E.
2. Expand on partnerships with local chambers of commerce to disseminate and share flood preparedness information.
3. Expand on outreach to the Asian and Latino communities who live in flood-prone areas.
4. Expand on outreach to "hot spot" flood-prone areas by hosting on-site or virtual events.
5. Expand on reaching local homeowners associations (HOA)s and apartment associations (*i.e., Executive Council of Homeowners [ECHO]*).
6. Expand on reaching residents in marginal and low-income communities through partnering with organizations that reach these communities (*i.e., Second Harvest Food Bank and others*).
7. Communities could pursue FEMA Matching Funds Grants for severe Repetitive Loss Areas.
8. Review and expand other public information activities, such as Flood Protection Assistance (Activity 360) and Flood Insurance Promotion (Activity 370).
9. Develop a region-wide Flood Response Preparations (FRP) messaging plan.

The messages that the PPI Committee originally chose are still relevant to Santa Clara County. The committee will continue to increase its efforts to encourage people to prepare personal/family emergency plans and be flood-ready. This will be incorporated into the flood preparedness outreach that is done every fall. The PPI Committee will also continue coordinating efforts with the Valley Water's Education Outreach Program to promote flood preparedness in local schools.

The PPI Committee recommends continued use of social media for messaging. Mobile usage among individuals has increased exponentially over the years and online platforms are rapidly adjusting to mobile-friendly standards. This provides an excellent opportunity to modernize campaign ad efforts by utilizing social media and digital advertising to increase exposure and reach a greater number of residents in Santa Clara County. Furthermore, these modern advertising methods allow for specialized demographic targeting to allow reaching a narrow and defined audience, improving the ability to effectively reach vulnerable populations.

In support of our preparedness messaging, the PPI Committee will continue to promote the importance of having family emergency plans and emergency kits ready to go before an emergency/flood event occurs.

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
Annual Evaluation Report for FY22 (Year 1: July 2021 to June 2022)**

In October 2021, Valley Water partnered with Second Harvest Food Bank of Silicon Valley, to distribute 2,000 emergency preparedness starter kits of emergency supplies to underserved communities.

The PPI Committee will continue to promote the American Red Cross All-Hazard App which monitors alerts for severe weather, including floods, and the Floodsmart.gov and Ready.gov websites. The communities will distribute American Red Cross Emergency Contact Cards at events throughout the county.

VII. CONCLUSION

Overall, the CRS Users Group/PPI Committee successfully implemented the 2021 PPI in FY22. The 2021 PPI allowed participating communities to mutually decide which flood risk reduction messages are most appropriate and identified means by which messages are delivered. The objectives of participating in the 2021 PPI are to enhance the effectiveness of the flood risk messages to residents, reduce flood risks within the county, and earn valuable CRS credit points when identified projects are implemented by communities.

The CRS Users Group/PPI Committee will continue their work efforts through FY23.

Attachments for submission to Valley Water Board, City Councils/Managers, and FEMA as part of 2022 Verification/Recertification Package, as required:

Santa Clara County Multi-Jurisdictional PPI 2021
FY 2022 (Year 1) Project Accomplishments by CRS Communities

| Audience | ¹ Message | Outcome | Project(s) Proposed to Support the Messages (XX denotes Community acronym, and Outreach Project #) | Assignment | ² Schedule | ³ Stakeholder | FY 2022 Project Accomplishments INPUT HERE ONLY |
|--|---|---|--|-----------------------------|-------------------------------|--|---|
| Community At Large (CAL) – <i>Multilingual Communities</i> – <i>Groups with Special Evacuation Needs</i> – <i>New Residents, Visitors and Tourists</i> | <u>Topic 1:</u> Know your flood hazard Message 1A - Know your flood risk Message 1B - Contact your floodplain manager to find out if your property is in a floodplain Message 1C - Check if your home or business is in a Special Flood Hazard Area <u>Topic 2:</u> Insure your property for your flood hazard Message 2A - Get flood insurance ahead of time Message 2B – Insure your property Message 2C – There is a 30-day waiting period for the policy to take place <u>Topic 3:</u> Protect people from the flood hazard Message 3A - Put your 3-day emergency kit together Message 3B - Follow evacuation orders Message 3C – Learn the best route to high ground <u>Topic 4:</u> Protect your property from the flood hazard Message 4A - Protect your property from the flood hazard Message 4B - Prepare your home Message 4C - Sandbags can offer protection against a foot or less of floodwater Message 4E - Get sandbags before a flood <u>Topic 5:</u> Build responsibility Message 5A - Build responsibly in floodplains Message 5B - Comply with development requirements Message 5C - Check with your local floodplain manager before you build <u>Topic 6:</u> Protect natural floodplain functions Message 6A -Keep creeks clean and flowing Message 6B - Keep debris and trash out of our streams Message 6C - Don't pollute, dump, or drain anything in creeks | Educate our community on flood protection and preparedness measures | (VW OP #01) Multi-language Countywide Mailer (CWM) to every postal address in Santa Clara County (Topics 1-5 and 7, 8) | Valley Water Communications | Each late October or November | All Santa Clara County CRS Communities | Valley Water’s annual August 2021 Countywide Mailer (CWM) was sent between August 24 - August 27, 2021, countywide to 735,282 addresses (USPS: ECRWSS - Extended/Enhanced Carrier Route Walking Sequence Saturation Postal Customer). The CWM includes flood protection and preparedness measures information, including FEMA map reading services, getting flood insurance, family emergency plans, downloading emergency preparedness app “Ready SCC,” and where to get sandbags. Cupertino supports and promotes Valley Water’s outreach projects. Gilroy: A utility bill insert was sent to every address in Gilroy in April 2022. Los Altos supports and promotes Valley Water’s outreach efforts. Milpitas: A utility bill insert was sent to every address in Milpitas on 12/10/21. This was sent out in four languages (English, Spanish, Vietnamese and Chinese). Mountain View sent out Valley Water’s Get Flood Ready flier as a utility billing insert to every City utility customer between 9/6/2021 and 10/25/2021. Palo Alto supports and promotes Valley Water’s outreach project. The City of Santa Clara supports and promotes Valley Water’s outreach efforts. |

¹ **Message Topics: Outreach Projects (OP):** Topic 1 – Know your flood hazard; Topic 2 – Insure your property for your flood hazard; Topic 3 – Protect people from the flood hazard; Topic 4 – Protect your property from the hazard; Topic 5 – Build responsibly; Topic 6 – Protect natural floodplain functions; Topic 7 – Develop a Family Emergency Plan; Topic 8 – Download disaster Apps; Topic 9 – Understand shallow flooding risks – “Don’t drive through standing water.”
Flood Response Preparations (FRP): What to Do Before, During and After a Flood/Storm

² Each September, all deliverables need to be reported to Valley Water for tracking purposes.

³ A **stakeholder** can be any agency, organization, or person (other than the community itself) that supports the message. Stakeholders can be: an insurance company that publishes a brochures on flood insurance, even if it is set out at City Hall; a local newspaper that publishes a flood or hurricane season supplement each year; FEMA, if, for example, a FEMA brochure is used as an informational material; schools that implement outreach activities; a local newspaper; a neighborhood or civic association that sponsors and hosts a presentation by a community employee; a utility company that includes pertinent articles in its monthly bills; or presentations made by state or FEMA staff at a Risk Map meeting.

Santa Clara County Multi-Jurisdictional PPI 2021
FY 2022 (Year 1) Project Accomplishments by CRS Communities

| Audience | ¹ Message | Outcome | Project(s) Proposed to Support the Messages (XX denotes Community acronym, and Outreach Project #) | Assignment | ² Schedule | ³ Stakeholder | FY 2022 Project Accomplishments |
|----------|--|---|--|-----------------------------|--|--|---|
| | | | | | | | INPUT HERE ONLY |
| | Topics 1-9 and supporting messages Flood Awareness Media Campaign, including social media | Educate our community on flood protection and preparedness measures | <p>(VW OP #39) Conducts a flood awareness media campaign, reaching the community at large, including our multilingual community. Many of the Santa Clara County CRS Communities recognize Valley Water’s Flood Awareness Campaign and link it on their community’s flood information web page and redirect to Valley Water’s Flood Ready webpage (Topics 1-9)</p> <p><i>Campaign features social media videos and postings on various platforms (i.e. Facebook, Twitter, Instagram, Nextdoor, etc.), digital banners, newspaper advertorials, radio ads, billboards, <u>utility bill inserts for communities to use, communities redirect to ValleyWater.org/FloodReady and television/mobile ads targeting residents who live in flood-prone areas and multilingual ethnic communities</u></i></p> | Valley Water Communications | Annually, for the duration of the rainy season, typically from November to April | All Santa Clara County CRS Communities | <p>Valley Water: In addition to social media outreach, in lieu of a Flood Awareness Campaign, Valley Water mailed out 3 targeted pieces to addresses in the SFHA. All outreach projects included the 9 CRS topics and were multilanguage.</p> <p>1. FPM – 60,790 were printed; 4,450 were given to the cities/county (Public Works and Planning Departments) between December 2021 – February 1, 2022; 54,790 were mailed on December 13-14, 2021; The FPM is posted on Valley Water’s website</p> <p>2. Postcard – 55,000 were printed; 52,502 were mailed on 10/29/21 (need soft copy of postcard)</p> <p>3. “You Live in a Flood Zone – Do You Know What to Do Before, During, and After a Flood?” trifold: 54,790 mailed on January 11, 2022</p> <p>We received the results of the 2021-22 Flood Awareness Probolsky Poll. The results below point to an effective campaign that was less expensive than general advertising, yielding a savings of about \$150,000 with stronger results. Going forward, direct mailings to the FEMA SFHA seem to be a good outreach strategy for the flood awareness campaign vs. targeted advertising.</p> <p>Some highlights:</p> <ul style="list-style-type: none">• 28% increase in those who believe that Valley Water is doing an excellent job in keeping them informed of a flood (now 87% believe we do an excellent, good or fair job).• 10% increase in food zone awareness over last year (now at 50-60% awareness).• 32% increase in recall of flood mailings vs. last year (now at 59% reach) with good recall amongst Spanish, Mandarin and Vietnamese speakers.• 58% of respondents clearly understood our 3 main calls to action (find your risk, get flood insurance, develop a plan).• 12% increase in respondents who believe they have taken all steps to be ready for a flood (now at 76%).• 11% increase in respondents who have flood insurance (now at 51%).• 64% Believe home is prepared for a flood (100% of Chinese, 75% of Vietnamese believe they are ready).• 100% of high-risk residents in mobile home parks are aware of our messaging. |

| | | | | | | | INPUT HERE ONLY |
| | <p>Message 4C - Sandbags can offer protection against a foot or less of floodwater Message 4E - Get sandbags before a flood</p> <p><u>Topic 5:</u> Build responsibility Message 5A - Build responsibly in floodplains Message 5B - Comply with development requirements Message 5C - Check with your local floodplain manager before you build</p> <p><u>Topic 6:</u> Protect natural floodplain functions Message 6A -Keep creeks clean and flowing Message 6B - Keep debris and trash out of our streams Message 6C - Don't pollute, dump, or drain anything in creeks</p> <p><u>Topic 7:</u> Develop a Family Emergency Plan Message 7A: Develop an emergency plan</p> <p><u>Topic 8:</u> Download disaster Apps Message 8A - Download disaster emergency apps</p> <p><u>Topic 9:</u> Understand shallow flooding risks – don't drive through standing water Message 9A - Understand shallow flooding risks - don't drive through standing water FEMA's message: "Turn Around Don't Drown®."</p> | | <p>(ALL OP #103) Other New Initiatives <u>(as noted in the PPI document)</u></p> <ol style="list-style-type: none"> Continue and expand the standardized flood message prepared for each community to include flood messages in utility bills each year, including PG&E. Expand on partnerships with local chambers of commerce to disseminate and share flood preparedness information. Expand on outreach to the Asian and Latino communities who live in flood prone areas. Expand on outreach to "hot spot" flood prone areas by hosting on-site or virtual events. Expand on reaching local homeowners associations (HOA)s and apartment associations (<i>i.e. Executive Council of Homeowners [ECHO]</i>) Expand on reaching residents in marginal and low-income communities through partnering with organizations that reach these communities. (<i>i.e. Second Harvest Food Bank and others</i>) Communities could pursue FEMA Matching Funds Grants for severe Repetitive Loss Areas. Review and expand other public information activities, such as Flood Protection Assistance (Activity 360) and Flood Insurance Promotion (Activity 370). Develop a region-wide Flood Response Preparations (FRP) messaging plan. | All | TBD | TBD | <p>Valley Water, as the lead agency for the Santa Clara County CRS Group/PPI Committee, included the 'New Initiative' topic for discussion on its August 2021, March 10, 2022, and May 19, 2022 meeting agendas.</p> <p>The following new initiatives were accomplished in FY22:</p> <p>1). Valley Water continues to offer assistance to all communities for standardizing flood messaging to include as a utility bill insert. 5). Valley Water's 'Let's Talk Water: Speakers Bureau Program offers presentations on the history of the district and how we operate and includes information on flood preparedness. Presentations can be customized for groups, as requested. 6). Due to the COVID-19 pandemic, countywide in-person community events in FY22 were postponed or canceled. Instead, Valley Water partnered with Second Harvest Food Bank of Silicon Valley to distribute 2,000 emergency preparedness starter kits of emergency supplies to underserved communities in October 2021. 9). At the May 19, 2022 CRS Users Group/PPI Committee Meeting, this initiative was discussed. The idea was to develop an FRP similar to the one submitted by the City of Santa Clara for which full FRP credit was yielded. As we are looking at the feasibility of regionalizing the CRS Program for our area, this initiative will be evaluated in conjunction with the Feasibility Study being conducted.</p> |
| | | | <p>(CUP OP #104) The city provides a Winter Preparedness notification informing contractors that during the winter season, they need to winterize their project(s) site as certain soil disturbance activities are not allowed during the rainy season</p> | City of Cupertino | On a project-specific basis | Various contractors | Cupertino continues to prepare and mail the rainy season letters every year to applicable projects. These letters were mailed in late August 2021. |
| | | | <p>(MIL OP#105) On a project-specific basis, the city provides contractors a Winter Preparedness notification that informs them that during the winter season, they need to winterize their project(s) site. Certain soil disturbance activities are not allowed during the rainy season</p> | City of Milpitas | On a project-specific basis | Various contractors | Milpitas: On-going. The City of Milpitas will be sending out winterization notices to larger development projects this winter. |
| | <p><u>Topic 2:</u> Insure your property for your flood hazard Message 2A - Get flood insurance ahead of time Message 2B – Insure your property Message 2C – There is a 30-day waiting period for the policy to take place</p> | <p>Increase in number of flood insurance policies in the SFHAs and in the county in general</p> <p>Prospective buyers understand flood risks</p> | <p>(MH OP #106) The city mails out a newsletter, "Ask Before You Buy: Know Your Flood Risk!" to local real estate agents which are provided to homebuyers to help determine the flood risk of the property being purchased (<i>listed in Appendix B</i>)</p> | City of Morgan Hill | During the rainy season | Real Estate Agencies/Agent | Morgan Hill will be sending the brochure to real estate agents in Fall 2022. |
| | | | <p>(PA OP #107) Sends out letters to real estate agencies informing them of their responsibility to identify flood hazard areas and to take advantage of the Flood Zone Lookup on the city's website</p> | City of Palo Alto | Annually, beginning of flood season (September/October) | Real Estate Agencies/Agent | Palo Alto sent letters to real estate agencies informing of their responsibility to identify flood hazard areas in August 2021. |

| | | <i>These projects are credited under Activity 340 (DFH and REB) – Additional credit is provided if the PPI states that real estate agents should (or have agreed to) advise house hunters about the flood hazard and that real estate agents give house hunters a REB brochure</i> | (SJ OP #108) Sends out letters to real estate and insurance agencies and lenders, informing them of their responsibility to identify flood hazard areas and to take advantage of the Flood Zone Lookup on the city’s website on the “Flood Hazard Zones webpage and advises to contact the city for map reading services and elevation certificates on file | City of San Jose | At the beginning of the flood season (September – December) | Real Estate Agencies/Agent | San Jose: Email letters to real estate, insurance agencies and lenders in January 2022. |
| | | | (SUN OP #109) Sends mailer/postcard targeted to real estate agents informing them of the client’s responsibility for identification and purchase of flood insurance and the availability of the automatic 15% discount | City of Sunnyvale | Each October | Real Estate Agencies/Agents | Sunnyvale: The City sent the mailers to real estate agents September 2021. |

Agenda

Santa Clara County CRS Users Group & Program for Public Information (PPI) Committee Meeting

March 10, 2022 | 1-3 p.m.

Zoom Meeting

<https://valleywater.zoom.us/j/88438590277?pwd=VDBFbW5aEVBSIAyQ2FaT3BValNoZz09&from=addon>
Meeting ID: 884 3859 0277 | Passcode: 568494 | +1 669 900 9128 US (San Jose)

Purpose: PPI Stakeholder Committee Annual Evaluation Meeting to monitor the Implementation of the 2021 Santa Clara County Multi-Jurisdictional Program for Public Information per Activity 330, Outreach Project, Element 332.c. Program for Public Information (PPI), Step 7 requirement ([See page 2 of this agenda](#))

Outcome: 2021 PPI Annual Evaluation Report, Year 1 of 5 ([See page 2 of this agenda](#))

| Section | Meeting Topic | Presenter | Time |
|---------|--|-------------------------------------|--------|
| 1. | Introductions | All | 10 min |
| 2. | Review of the meeting Purpose and Outcome | Merna Leal | 2 min |
| 3. | 350 – Flood Protection Information Element c). Flood Protection <u>Website</u> (WEB): <ul style="list-style-type: none"> Monthly (<i>links</i>) and annual review (<i>content</i>) of communities' Flood Information landing page | Merna Leal | 2 min |
| 4. | Best practices for the Verification Cycle Visit - Discussion by Insurance Services Office (ISO) <ul style="list-style-type: none"> Addendum to the 2017 CRS Coordinators Manual (Edition: 2021) <i>Effective January 1, 2021</i> <ul style="list-style-type: none"> Class 8 <u>New</u> Prerequisite: Enforcement of a freeboard standard for residential buildings Class 6 <u>Updated</u> Prerequisite: New subsection inserted Class 9 <u>New/modified</u> Prerequisite: Subsection (3) replaced, and first sentence of Subsection (5) replaced Need to see all higher NFIP regulations marked up in community's ordinance or regulations Correlate Open Spaces with required parcel spreadsheet(s) | Heidi Carlin, ISO CRS Specialist | 5 min |
| 5. | 2021 Multi-Jurisdictional Program for Public Information (PPI) Annual Evaluation Report, Year 1 of 5 <ul style="list-style-type: none"> Assess whether the desired outcomes were achieved and what, if anything, should be changed Which communities have adopted the PPI? Conformed/enacted copy should be in Egnyte; please upload and send copy to VW Using the 2021 PPI and Activity 330 Outreach Project worksheets provided on 5/20/21, discuss how communities will submit updates to Valley Water for consolidating report input Communities' updates due by next CRS Users Group Meeting or sooner | All | 45 min |
| 6. | Next meeting – Joint CRS Users Group/Program for Public Information (PPI) Committee Meeting | All | 2 min |
| 7. | Adjourn | | |

For questions, please contact Merna Leal at (408) 630-2366 or mleal@valleywater.org

Step 7: Implement, monitor, and evaluate the program. The Program for Public Information committee meets at least annually to monitor the implementation of the outreach projects. The committee assesses whether the desired outcomes were achieved and what, if anything, should be changed. This work is described in an evaluation report that is prepared each year, sent to the governing body, and included in the annual recertification.

Documentation for PPI Provided by the Community

In addition to the materials provided for OP and FRP credit:

- (1) At the initial verification visit,
 - (a) A copy of the Program for Public Information document.
 - (b) Minutes of the meetings, sign-in sheets, or other documentation of the committee members' participation.
 - (c) Documentation that the Program for Public Information has been adopted by the community.
- (2) **At each annual recertification,**
 - (a) Documentation that the Program for Public Information document has been reviewed and adjusted annually. This is in the form of a report, table, or spreadsheet that summarizes each outreach project, what was done, and the outcomes.
 - (b) Minutes of the meetings, sign-in sheets, or other documentation of the committee members' participation in the annual review.
- (3) **At subsequent verification visits** when a Program for Public Information update is due,
 - (a) Documentation that the Program for Public Information document has been updated. This can be a new document or an addendum to the existing document that updates the needs assessment and all sections that should be changed based on evaluations of the projects. The update must be adopted following the same process as approval of the original document.
 - (b) Minutes of the meetings, sign-in sheets, or other documentation of the committee members' participation in the update.
 - (c) Documentation that the Program for Public Information update has been adopted by the community.
