[External Email]

Greetings Mayor and City Council,

Mobility on Demand (MoD) also known as Transportation as a Service is radically changing the way people use family owned vehicles. For many daily trips, traffic and parking issues near common destinations make MoD the preferred way to get to busy locations like airports, major shopping centers, and even daily jobs. Add Vice Mayor Jones' Innovative Transit Zone solutions which will certainly spread outside of West San Jose, and the family car will become a status symbol parked at home except for infrequent trips to country clubs, vacation venues, and friend visits.

If you haven't seen Catalyze Silicon Valley's MoD Webinar you should spent the time before tomorrow's Council Meeting. It is available at https://m.youtube.com/watch?v=ngV6VBo3LvY&mc_cid=7d4cbe418a&mc_eid=8da07a5bdc or on CatalyzeSV's facebook page under videos (May). It presents four companies that right now are reducing the need for mandated parking for businesses and large residential developments.

Parking requirements should be determined by developers, based on transit availability, Urban Village accessibility, and income of residents. Parking should be designed with future repurposing as parking needs are affected by MoD.

Sincerely,

Carlin Black
