Re: Affordable Housing Siting Policy (Item 8.2 on the Dec. 6th City Council Meeting Agenda)

Dear Mayor Liccardo and Members of the City Council,

We urge you to adopt the updated Affordable Housing Siting Policy, which provides a strong framework for achieving San Jose's ambitious affordable housing goals.

Affordable housing is critical to the health of our community, and benefits not only the people who live there, but the surrounding neighborhood as well. However, San Jose continues to suffer from an extreme shortfall of affordable housing options. In fact, the City's next Regional Housing Needs Allocation calls for the development of 23,775 deed-restricted affordable homes over the next 8 years, and in order to meet this enormous need for affordable housing in San Jose, we must continue building affordable housing throughout our city.

At the same time, we must acknowledge that there are some parts of our city that lack any affordable housing options at all. According to previous City reports, 78% of Census blocks do not contain any deed-restricted affordable housing - severely limiting low-income residents' ability to find housing in many parts of our city, particularly higher opportunity neighborhoods.

As a result, we must adopt an Affordable Housing Siting Policy that will continue investing in affordable housing in all parts of San Jose, while also incentivizing development in parts of the city that currently lack affordable housing options.

This is exactly that type of balanced approach embodied in the updated Affordable Housing Siting Policy and we appreciate all of the hard work from City Staff to craft a smart and thoughtful policy that will help meet the affordable housing needs of our community.

Please approve the proposed Affordable Housing Siting Policy.

Sincerely,

Jennifer Loving
CEO

[External Email]

Mayor Sam Liccardo,

Dear Mayor Liccardo, Vice Mayor Jones, and Members of the San José City Council,

I urge you to adopt the Housing Department Staff's direction on the Affordable Housing Siting Policy as presented at the October 13, 2022 Community Meeting.

I support the Housing Department Staff's proposed changes because the Affordable Housing Siting Policy now centers equity in many ways. For example, it:

- Provides diverse housing choices so everyone can access affordable housing throughout San José,
- Increases funding for affordable housing in historically-redlined communities,
- Incentivizes and funds historically-exclusive communities to build their fair share of affordable housing in their neighborhoods, and
- Uses inclusive language, abandoning divisive classifications.

In my role as Executive Director of Recovery Café San Jose I see, on a daily basis, individuals struggling to find affordable housing. In this city of great wealth it is truly a human tragedy to see so many living on the streets or in substandard housing.

I wish to see a San José where every neighborhood is accessible to people of all income levels and every neighborhood is a desirable place to live. I am confident that you also share this vision and will make the right choice tomorrow as you vote to adopt the Housing Department Staff Changes to Affordable Housing Siting Policy.

Kathy Cordova

Mayor Sam Liccardo,

Dear Mayor Liccardo, Vice Mayor Jones, and Members of the San José City Council,

I support adoption of the Housing Department Staff's direction on the Affordable Housing Siting Policy as presented at the October 13, 2022 Community Meeting. These purposed changes are important as they center equity in many ways, including:

- Providing diverse housing choices so everyone can access affordable housing throughout San José,
- Increasing funding for affordable housing in historically-redlined communities, and
- Incentivizing historically-exclusive communities to build their fair share of affordable housing in their neighborhoods.

As a resident of San José, I want my community to be accessible to people of all income levels and for all neighborhoods to be a desirable place to live. Please support this vision and support staff's purposed changes to the Affordable Housing Siting Policy at December 6, 2022 Council meeting.

Thank you!

Elizabeth Conlan

San José, CA 95113

RE: San Jose's Affordable Housing Siting Policy

Dear Mayor Sam Liccardo and Members of the San Jose City Council,

The Law Foundation of Silicon Valley advances the rights of under-represented individuals and families in our diverse community through legal services, strategic advocacy, and educational outreach; we use the law to address issues like poverty, discrimination, and child abuse and neglect through our free legal services. We write to express support for the Housing Department's latest draft of the affordable housing siting policy. The Law Foundation and the housing advocate community had several concerns about the previous draft of the affordable housing siting policy, particularly the use of violence as a factor in determining the placement of affordable housing developments. We are happy to see that the Housing Department has removed this factor and instead created a more inclusive siting policy. We urge you to pass the current version of the affordable housing siting policy that will be presented at the December 6, 2022 city council meeting.

The affordable housing siting policy is a means of fulfilling state law requirements under Assembly Bill 686 to affirmatively further fair housing. AB 686 defines affirmatively furthering fair housing as, "...taking meaningful actions that, taken together, address significant disparities in housing needs and in access to opportunity, replacing segregated living patterns with truly integrated and balanced living patterns, transforming racially and ethnically concentrated areas of poverty into areas of opportunity, and fostering and maintaining compliance with civil rights and fair housing laws." We believe the current iteration of the siting policy meets this goal by removing poverty and crime statistics to determine the location of affordable housing. The policy also ensures affordable housing is built throughout the city, giving San Jose residents a choice of where they can live. While the City needs to expand affordable housing into neighborhoods with more resources and wealth, it cannot neglect historically redlined neighborhoods and perpetuate practices that disinvest from these communities. Housing should also be built in these areas and the City must consider ways to increase access to resources in these neighborhoods.

We further urge you to no longer consider violence as a factor in any proposed changes to the policy or in future affordable housing policies. AB 686 does not provide any directives to assess the crime rates or rates of violence of a neighborhood in a manner that prevents the development of housing in those areas. Further, California's Department of Housing and Urban

Development published guidance on how to affirmatively further fair housing.¹ Notably, the guide cites policing and criminalization as contributing factors that cause segregation, racial concentration, disparities in opportunity, as well as disparities in opportunity for people with disabilities.²

Using crime statistics and violence is inherently problematic, as neighborhoods of color are often overly policed and people of color, particularly black and brown people are often criminalized based on racist assumptions. Police engage in more aggressive policing tactics in neighborhoods with black and brown people, particularly disadvantaged neighborhoods.³ Black individuals are more likely to be arrested, convicted, and have longer sentences as compared to white individuals who have committed the same crimes.⁴ Daanika Gordon, an assistant professor of sociology in the School of Arts and Sciences at Tufts University states, “predominantly Black neighborhoods are simultaneously over-policed when it comes to surveillance and social control, and under-policed when it comes to emergency services... Policing responds to segregated landscapes.”⁵ San Jose must not repeat the mistakes of the past by using racist stereotypes to determine the housing landscape.

Therefore, we urge you to approve the affordable housing siting policy without further amendments. Thank you for your time and consideration. You may contact me at 408-293-4796 or at erin.neff@lawfoundation.org if you have questions or would like to discuss these issues further.

Sincerely,

Erin Neff

Hello,

I am submitting this letter on behalf of Michele Lew, CEO of The Health Trust.

Thank you.

--

Dear Mayor Liccardo and members of the San Jose City Council:

The Health Trust supports the Housing Department's proposed revisions to the Affordable Housing Siting Policy before the City Council on Tuesday, December 6, 2022, which will provide an equity-centric framework for meeting San Jose's ambitious affordable housing goals.

As a nonprofit operating foundation focused on building health equity for some of Silicon Valley's most vulnerable and marginalized populations, we strongly support a policy that acknowledges the value of affordable housing throughout all neighborhoods in the city of San José.

The Health Trust recognizes stable and affordable housing as a necessary factor to improving the health of our residents, especially people living with HIV/AIDS, and low-income and chronically homeless individuals. That is why we help these populations get housed and provide them with intensive case management and health and wellness services they need to remain healthy and stably housed.

As a funder, provider, and advocate, we support incentivizing affordable housing in San José neighborhoods that have historically excluded affordable housing development and are pleased to see the City take positive steps towards holding affluent, exclusive communities accountable and acknowledging the need to address the racist policies of redlining, segregation and discrimination. Furthermore, we believe every neighborhood in San José must be seen as valuable and worthy of investment, providing people with affordable opportunities to live where they want and choose to live.

The Health Trust supports the Housing Department's commitment to expand affordable housing choices in well-resourced communities-without depriving historically underinvested communities, and we urge the City Council to approve this policy recommendation.

Sincerely,

Michele Lew
CEO, The Health Trust

San Jose, CA 95113

Re: Approving Changes to City of San Jose Housing Siting Policy

Dear Mayor Liccardo, Vice Mayor Jones, and Members of the San Jose City Council:

We write to ask you to adopt a Resolution approving the Housing Department staff's proposed revisions to the Affordable Housing Siting Policy, as written in the Housing Department staff [memorandum](#), dated November 18, 2022 and as recommended by the Community and Economic Development Committee (CEDC) last Monday on November 28, 2022.

This cover letter was prepared by the Housing Justice Workgroup of the nonprofit Race Equity Action Leadership (REAL) Coalition. We are submitting our original letter dated October 3, 2022, with this cover letter because we continue to maintain our position, thoroughly documented in that letter, that affordable housing should be equitably located and funded in San Jose. We are also attaching the housing siting vision statement adopted by the broader REAL Coalition.

Since our October letter was submitted, Housing Department staff (Staff) has updated the Affordable Housing Siting Policy (Siting Policy); we acknowledge and support Staff's updated proposed policy. We commend Staff and CEDC members for being responsive to our comments and other comments from the community about previous versions of this policy. These changes recognize that the need for affordable housing is great throughout the City, especially in communities experiencing displacement pressures.

We also specifically support the following recommended changes to the siting policy:

- A. Eliminating earlier language that stereotyped lower-income neighborhoods and communities of color.
- B. Focusing on both funding and incentivizing development in historically segregated areas that have excluded affordable housing development, now

called Affordable Housing Expansion Areas, rather than closing off other areas that also need additional affordable housing.

- C. Committing to identifying funding and other resources that would be directed into neighborhoods that have been historically redlined and disinvested, now called Continued Investment Areas.

We appreciate the Staff for its commitment to the ethnically, racially, socioeconomically, and otherwise diverse communities that call this City home. We ask you, as our leaders, to support these policy recommendations because they center belonging and justice.

TRANSMITTED VIA EMAIL

December 5, 2022

Honorable Mayor Sam Liccardo and Members of the City Council
City of San Jose
200 East Santa Clara Street, 18th Floor
San Jose, CA 95113

Dear Mayor Liccardo, and Councilmembers Arenas, Carrasco, Cohen, Davis, Esparza, Foley, Jimenez, Jones, Mahan, and Perez,

Item 8.2 – Affordable Housing Siting Policy

We at SV@Home along with our members and partners who have signed onto this letter support the proposed Affordable Housing Siting Policy and ask that the San José City Council adopt a resolution to approve it on December 6th, 2022. We appreciate the work that the Housing Department has undertaken to expand community engagement and show responsiveness to concerns raised by a broad range of stakeholders including the affordable housing development community. We expressed concerns that earlier versions of this policy unnecessarily disparaged the value of affordable housing investment throughout the city and risked constraining city affordable housing resources in ways that limited our ability to respond to the complexity of housing needs in the city.

We agree that affordable housing investment is an essential tool to address place-based disparities in San Jose. We must expand affordable options in neighborhoods that have historically excluded affordable housing development. And, we must commit to equity and inclusion by fully integrating affordable housing opportunities in areas of the city planned for significant new residential development. However, we must remain committed to equitable investment in communities where housing needs and displacement risks are the greatest. Comprehensive, continued investment is required to address a history of neglect and harm.

Affordable housing is a community asset and is needed in every community in San Jose. Affordable housing investments improve the quality of life in the communities where it is built. Decades of research has shown that affordable housing improves educational achievement, job attainment and retention, mental and physical health; while decreasing family and neighborhood violence. The affordable housing built in San Jose serves as anchors of social and economic stability within a landscape otherwise defined by the destabilizing impact of the housing crisis we face.

There is not a single community in San Jose that is not impacted by the housing crisis. However, the hardship is disproportionately experienced by lower-income people of color and is most acute in communities that have experienced underinvestment and exclusion stemming from both explicitly racist policies and land use decisions and from practices that have perpetuated racial and social inequality.

December 6, 2022

Re: Item 8.2 – Affordable Housing Siting Policy

Page 2 of 3

We appreciate the Housing Department staff's commitment to incentivizing development in areas where we have historically built less and that coordinated efforts with the Planning Department are actively working to leverage land use and development streamlining tools to reduce barriers. Achieving the intent of this policy will require sustained commitments from city staff and the offices of the Mayor and Councilmembers to be effective. Overcoming long established barriers requires both policy tools and political leadership. We ask that your support for this policy signifies a statement of a long-term commitment to creating an equitable City, where each neighborhood offers substantial resources and opportunity for residents to thrive for generations to come.
