As a 25 year resident of San Jose in District 4, I urge you to allow the voters of San Jose to directly select their own representatives to the city council in Districts 8 and 10. There is no reason not to hold an election for these open seats, and the people of those districts should have the opportunity to select their representative on the city council.

Dear City Council,

I ask that you use the following process: **Special Election.**

Does the City Council really want to deal with the appearance of corruption on them and on San Jose?! The Council's members are showing arrogance toward those they were elected to represent. San Jose has the money for an efficient election. If each of you don't vote for a special election it will be a stain on you that won't wash out.

A special election ensures representation of voters of districts 8 and 10. It must be held quickly, because every day the appointed interim representatives hold office until the election is done robs those districts of their agency.

This is democracy, let the voters choose their representative, not other council members.

Anything other than that is an authoritarian act & we have heard that rallying cry from the former president.

I strongly oppose anything other than a special election.

Please upholding citizens input, voting rights & conduct a special election.
