[External Email]

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

I came to Lake Cunningham to rollerblade when I was in my 30s. I love the view and beautiful lake. I hope you would restore the lake with quality water so all of us can enjoy again. Thank you!

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents and especially those in East San Jose. After years of deteriorating water quality and major fish die-offs, the lake was closed down, taking away open space and unmatched recreational activities for families in East San José and residents of all ages. Our families deserve more access to open space, not less. Our families deserve investments in water quality improvements. Our families deserve nearby access to recreational activities. Now is the time to begin working toward improved water quality, not time to shift these funds to potential construction projects or other potential uses.

Ha Tran

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

Investment in water quality is an investment in the environmental future of San Jose. If not now, then when will we ever tackle this vital task? Please use our valuable, limited City resources for cleaning-up our lake as intended by the Council's previous unanimous vote on this issue. As we often say about our personal health, there is nothing more important than our environment health!

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents and especially those in East San Jose. [External Email]

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

why would you cut off this resource for the community on the east side? would you do the same for the almaden lake on the south side?

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents and especially those in East San Jose. After years of deteriorating water quality and major fish die-offs, the lake was closed down, taking away open space and unmatched recreational activities for families in East San José and residents of all ages. Our families deserve more access to open space, not less. Our families deserve investments in water quality improvements. Our families deserve nearby access to recreational activities. Now is the time to begin working toward improved water quality, not time to shift these funds to potential construction projects or other potential uses.

peggy cabrera

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

The lake is a sadly neglected resource that could be a jewel of a city park, with water-centered activities in our increasingly warm climate. Imagine a pristine lake for swimming, water slides, a clean beach, picnic areas with trees and lawn. This would be an amazing addition to our City, and for a reasonable cost.

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents and especially those in East San Jose. Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

Lake Cunningham is the recreational lake of the east side. When it first opened it was like a breath of fresh air that the city was finally investing in this part of San Jose as a wonderful place to live. It is one of the few places left that you can cheaply entertain family and friends for the whole day. The whole park is centered around the lake and it should not be allowed to fall into disrepair by not fixing the water quality. Going to the lake being taught to fish, or as a young teen finally being allowed to paddle boat alone with friends has become a rite of passage in this area and should be allowed to continue. Please use the money already allocated to actually fix the water issue of the lake so more generations can enjoy it. Please continue to invest in the well being of San Jose by protecting lake Cunningham.

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents. Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

We need open space in Evergreen. We need council to Improve our Park CA not ruin it. Look around Evergreen. It is going downhill for quality of life. My family used to rent small sailboats and enjoy the Lake. Now we can't even be close it it. We deserve beauty like Lake Almaden and Vasona lake too!!

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents. After years of deteriorating water quality and major fish die-offs, the lake was closed down, taking away open space and unmatched recreational activities for families and residents of all ages. Our families deserve more access to open space, not less. Our families deserve investments in water quality improvements. Our families deserve nearby access to recreational activities. Now is the time to begin working toward improved water quality, not time to shift these funds to potential construction projects or other potential uses.

My family has been living for 25+ years in evergreen. Lake Cunningham has been part of our recreational activities. We need to cleanup the lake so my grandkids can enjoy the lake activities as I did with my kids when they were young. Lake Cunningham is one of the reasons that we moved Evergreen 25+ years ago.

PROTECT AND CLEANUP OUR LAKE.

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

Long overdue clean up the lake Cunningham area must be accomplished. If people do not have healthy and safe places to recreate, it'll spend their time creating more crime and chaos. Honor the wishes of the electorate.

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents. Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents and especially those in East San Jose. After years of deteriorating water quality and major fish die-offs, the lake was closed down, taking away open space and unmatched recreational activities for families in East San José and residents of all ages. Our families deserve more access to open space, not less. Our families deserve investments in water quality improvements. Our families deserve nearby access to recreational activities. Now is the time to begin working toward improved water quality, not time to shift these funds to potential construction projects or other potential uses.

Margaret Romanow
