[External Email]

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents. After years of deteriorating water quality and major fish die-offs, the lake was closed down, taking away open space and unmatched recreational activities for families and residents of all ages. Our families deserve more access to open space, not less. Our families deserve investments in water quality improvements. Our families deserve nearby access to recreational activities. Now is the time to begin working toward improved water quality, not time to shift these funds to potential construction projects or other potential uses.

Victoria Jump

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

Lake Cunningham needs to be cleaned up asap. It provides a stop over for migrating birds and being so close to Raging Waters means that many people visit the area. We need to avoid having an impending superfund site on a city lake.

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. A group of us walk the park in the morning with our dogs. It's terrible the way the City has let the park go. If the park were in WG, this would not have happened.

Go visit the park and look at the condition.

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

Taking funds away is a disservice

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents. After years of deteriorating water quality and major fish die-offs, the lake was closed down, taking away open space and unmatched recreational activities for families and residents of all ages. Our families deserve more access to open space, not less. Our families deserve investments in water quality improvements. Our families deserve nearby access to recreational activities. Now is the time to begin working toward improved water quality, not time to shift these funds to potential construction projects or other potential uses.

Friaz

Dear City Clerk City Clerk,

Please do not take away the \$3.2M in Measure T funds that was previously committed to improving water quality at a park located in a low-income community of color. The water in Lake Cunningham is so degraded that swimming and even boating are prohibited. Residents of the East Side deserve to have this inequity addressed, and this funding will help begin the path towards improved water quality.

This \$3.2M is the last remnant of the \$50M in Measure T funds dedicated to environmental protection. Please do not abandon your commitment to the voters by taking away this funding and using it for other projects.

Thank you for your consideration.

Sincerely,
Lynn Buck

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

Don't let Lake Cunningham be contaminated

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents. After years of deteriorating water quality and major fish die-offs, the lake was closed down, taking away open space and unmatched recreational activities for families and residents of all ages. Our families deserve more access to open space, not less. Our families deserve investments in water quality improvements. Our families deserve nearby access to recreational activities. Now is the time to begin working toward improved water quality, not time to shift these funds to potential construction projects or other potential uses.

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

I'm very tired of voting for and then paying for taxes and then seeing them not being used for what I voted for. Please do not move the 3.2 million menu for environmental improvements. It makes me not want to vote to adoptive any new taxes as I lose trust that my money will go to what it was intended.

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. Dear Agenda Desk,

Please do not take away the \$3.2M in Measure T funds that was previously committed to improving water quality at a park located in a low-income community of color. The water in Lake Cunningham is so degraded that swimming and even boating are prohibited. Residents of the East Side deserve to have this inequity addressed, and this funding will help begin the path towards improved water quality.

This \$3.2M is the last remnant of the \$50M in Measure T funds dedicated to environmental protection. Please do not abandon your commitment to the voters by taking away this funding and using it for other projects.

Thank you for your consideration.

Sincerely,
Erika Ortiz

The water in Lake Cunningham is so degraded that swimming and even boating are prohibited. Residents of the East Side deserve to have this inequity addressed, and this funding will help begin the path towards improved water quality.

This \$3.2M is the last remnant of the \$50M in Measure T funds dedicated to environmental protection. Please do not abandon your commitment to the voters by taking away this funding and using it for other projects.

Thank you for your consideration.

Sincerely,

Marcos Gomez

Dear City Clerk City Clerk,

Please do not take away the \$3.2M in Measure T funds that was previously committed to improving water quality at a park located in a low-income community of color. The water in Lake Cunningham is so degraded that swimming and even boating are prohibited. Residents of the East Side deserve to have this inequity addressed, and this funding will help begin the path towards improved water quality.

This \$3.2M is the last remnant of the \$50M in Measure T funds dedicated to environmental protection. Please do not abandon your commitment to the voters by taking away this funding and using it for other projects.

Thank you for your consideration.

Sincerely,
Christine Riesenbeck

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

I believe it is important to preserve Lake Cunningham and keep the funds in place to clean the water in the park

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents. After years of deteriorating water quality and major fish die-offs, the lake was closed down, taking away open space and unmatched recreational activities for families and residents of all ages. Our families deserve more access to open space, not less. Our families deserve investments in water quality improvements. Our families deserve nearby access to recreational activities. Now is the time to begin working toward improved water quality, not time to shift these funds to potential construction projects or other potential uses.

Stop taking resources away from Essj. It may be costly to live here but those that have been here generations can barely make it. All are not making 6 figures.

SJ City Council,

Regarding Lake Cunningham funding- my family and I enjoy this park and it is a shame that the water levels are this contaminated and the city refuses to invest in our community. The East side has limited resources for the families in our community. Please stop discriminating against this side of town. This issue of environmental equity should be addressed beginning with the previously allocated \$3.2m funds.

***Respectfully,
Paula Quintero***

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

It is a big mistake and waste to not do what it takes to make the water of Lake Cunningham safe for human use. This is great local resource which serves primarily the local area but also visitors from other areas. To have a water resource like Lake Cunningham right here amongst the residents, is a really valuable asset. Please do the right thing to ensure the water quality of Lake Cunningham is improved to allow valuable usage by people!

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents. After years of deteriorating water quality and major fish die-offs, the lake was closed down, taking away open space and unmatched recreational activities for families and residents of all ages. Our families deserve more access to open space, not less. Our families deserve investments in water quality improvements. Our families deserve nearby access to recreational activities. Now is the time to begin working toward improved water quality, not time to shift these funds to potential construction projects or other potential uses.

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

When I moved to San Jose 36 years ago I didn't know anyone but joined a canoe club that paddle there. It gave me the opportunity to form friendships I cherish to this day. It is a community open space that we enjoy and need.

I ask that you not shift the \$3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents. After years of deteriorating water quality and major fish die-offs, the lake was closed down, taking away open space and unmatched recreational activities for families and residents of all ages. Our families deserve more access to open space, not less. Our families deserve investments in water quality improvements. Our families deserve nearby access to recreational activities. Now is the time to begin working toward improved water quality, not time to shift these funds to potential construction projects or other potential uses.
