[External Email]

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

I walk the park in the morning with my girlfriend s for exercise.
We've noticed that the major storms as of late has created problems sometimes walking thru the park such as flooding and mud.
It would be nice that this park would be taken care of like at the parks its size.
The park in Fremont, I believe Lake Victoria is the same size and it is always kept up. They had music before the pandemic and have a water park.
Please do not funnel the funds elsewhere. We here in the east side deserve to have a really nice park like the one in Fremont

I ask that you not shift the $3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents. After years of deteriorating water quality and major fish die-offs, the lake was closed down, taking away open space and unmatched recreational activities for families and residents of all ages. Our families deserve more access to open space, not less. Our families deserve investments in water quality improvements. Our families deserve nearby access to recreational activities. Now is the time to begin working toward improved water quality, not time to shift these funds to potential construction projects or other potential uses.

Ingrid Stewart

Improve the water quality at Lake Cunningham. It's sad that this park is not up to par like other parks around the city.

I ask that you not shift the $3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. Dear Agenda Desk,

Please do not take away the $3.2M in Measure T funds that was previously committed to improving water quality at a park located in a low-income community of color. The water in Lake Cunningham is so degraded that swimming and even boating are prohibited. Residents of the East Side deserve to have this inequity addressed, and this funding will help begin the path towards improved water quality.

This $3.2M is the last remnant of the $50M in Measure T funds dedicated to environmental protection. Please do not abandon your commitment to the voters by taking away this funding and using it for other projects.

Thank you for your consideration.

Sincerely,
John Martin

Dear Agenda Desk,

Please do not take away the $3.2M in Measure T funds that was previously committed to improving water quality at a park located in a low-income community of color. The water in Lake Cunningham is so degraded that swimming and even boating are prohibited. Residents of the East Side deserve to have this inequity addressed, and this funding will help begin the path towards improved water quality.

This $3.2M is the last remnant of the $50M in Measure T funds dedicated to environmental protection. Please do not abandon your commitment to the voters by taking away this funding and using it for other projects.

Thank you for your consideration.

Sincerely,
Janet Pittman

[External Email]

Dear San Jose City Council

I am writing to you regarding an environmental equity issue. Do not shift funding that would allow the city to take a step toward improved water quality at Lake Cunningham. Further delaying any action would be a continued injustice.

I ask that you not shift the $3.2 million in funding previously designated for water quality improvement that would allow the City to **begin a path to improved water quality** at Lake Cunningham. This 50-acre open space is a vital resource for all San Jose residents and especially those in East San Jose. After years of deteriorating water quality and major fish die-offs, the lake was closed down, taking away open space and unmatched recreational activities for families in East San José and residents of all ages. Our families deserve more access to open space, not less. Our families deserve investments in water quality improvements. Our families deserve nearby access to recreational activities. Now is the time to begin working toward improved water quality, not time to shift these funds to potential construction projects or other potential uses.

Sally Duffy
95121

You may not use my contact information for any purpose other than to respond to my concern regarding the topic listed above, nor may you share my address with any other organization(s) or individual(s).

Dear City Clerk City Clerk,

Please do not take away the $3.2M in Measure T funds that was previously committed to improving water quality at a park located in a low-income community of color. The water in Lake Cunningham is so degraded that swimming and even boating are prohibited. Residents of the East Side deserve to have this inequity addressed, and this funding will help begin the path towards improved water quality.

It is hard to say "please" to the city council who would take away monies to improve water quality at Lake Cunningham in a low-income neighborhood for the construction of more expensive and exclusive building.

You must improve the water quality!

That $3.2 million was promised to the environment including Lake Cunningham. Water quality must be improved for the health of the residents, and I daresay for the entire city of San Jose. That comes first. You mean to say that swimming and boating are prohibited in the lake!

Disease prevention comes first!

Use that last $3.2 million for the betterment of East San Jose.

This $3.2M is the last remnant of the $50M in Measure T funds dedicated to environmental protection. Please do not abandon your commitment to the voters by taking away this funding and using it for other projects.

Thank you for your consideration.

Sincerely,
Carolyn Straub

[External Email]

Dear City Clerk City Clerk,

Please do not take away the $3.2M in Measure T funds that was previously committed to improving water quality at a park located in a low-income community of color. The water in Lake Cunningham is so degraded that swimming and even boating are prohibited. Residents of the East Side deserve to have this inequity addressed, and this funding will help begin the path towards improved water quality.

This $3.2M is the last remnant of the $50M in Measure T funds dedicated to environmental protection. Please do not abandon your commitment to the voters by taking away this funding and using it for other projects.

Thank you for your consideration.

Sincerely,
Iesha Bayona

Dear Agenda Desk,

Open space and parks are what San Jose families need. I live out in Almaden and live near great parks and nature paths at or near lakes and creeks. These areas are peaceful oasis in an otherwise dense city and need to be preserved and protected. Please follow through with the voters desire to rehabilitate Lake Cunningham and get it back to a safe and family friendly clean environment.

This $3.2M is the last remnant of the $50M in Measure T funds dedicated to environmental protection. Please do not abandon your commitment to the voters by taking away this funding and using it for other projects.

Thank you for your consideration.

Dear City Clerk City Clerk,

I’m a thankful and frequent user of many of the city and county parks and trails. I am so grateful to all who have made and will make the important decisions to preserve and protect outlets for beauty and recreation amidst spaces of ever-increasing density and, thus, anxiety. Please consider spending this money to honor the people of San Jose who desire and need clean and protected open spaces that reaffirm and reenergize our lives and our living.

Please do not take away the $3.2M in Measure T funds that was previously committed to improving water quality at a park located in a low-income community of color. Dear Agenda Desk,

Please fulfill Measure T to the fullest in observance of the voters' wishes, and please do not take away the $3.2M in Measure T funds that was previously committed to improving water quality at a park located in a low-income community of color. The water in Lake Cunningham is so degraded that swimming and even boating are prohibited. Residents of the East Side deserve to have this inequity addressed, and this funding will help begin the path towards improved water quality.

This $3.2M is the last remnant of the $50M in Measure T funds dedicated to environmental protection. Please do not abandon your commitment to the voters by taking away this funding and using it for other projects.

Thank you for your consideration.

Sincerely,
Brian Schmidt

Dear Agenda Desk,

Please do not take away the $3.2M, the last remnant of the $50M in Measure T funds dedicated to environmental protection that was previously committed to improving water quality at Lake Cunningham, a park located in a low-income community of color. Residents deserve natural places with good water quality as currently the water in Lake Cunningham is unsafe for swimming and even boating.

Thank you.

Sincerely,
Hita Bambhania-Modha
