

Affordable Housing Programs and Policies:

Production, Preservation & Protection

City Council Study Session

September 7, 2023

Kristen Clements

Interim Deputy Director

Josh Ishimatsu

Interim Division Manager

Kemit Mawakana

Division Manager

Emily Hislop

Division Manager

Agenda for today's study session

- Panel
 - Moderator, Regina Celestin Williams, SV@Home
 - Anil Babbar, California Apartment Association
 - Stephen Lewis, California Rent Stabilization Network
 - Chris Neale, The Core Companies
 - Khanh Russo, San Francisco Foundations
 - Cindy Wu, Local Initiatives Support Corporation
- ♠ Public Comment

Our mission

Mission

To strengthen and build equitable communities through housing and neighborhood investment

- Providing housing for ALL
- Investing in people
- Building great places

Who we serve

Residents, housing providers, property owners, developers, partners with a focus on:

- The needs of Moderate- to Extremely Low-Income residents
- Unhoused residents

Housing stabilization in San José

父

PRODUCTION

Production
 Constructing new, rent-restricted affordable housing

Preservation
 Keeping housing affordable and in sound physical condition

♠ Protection

Preventing displacement for renters due to unjust evictions or large rent spikes

Organizations with expertise

PRESERVATION

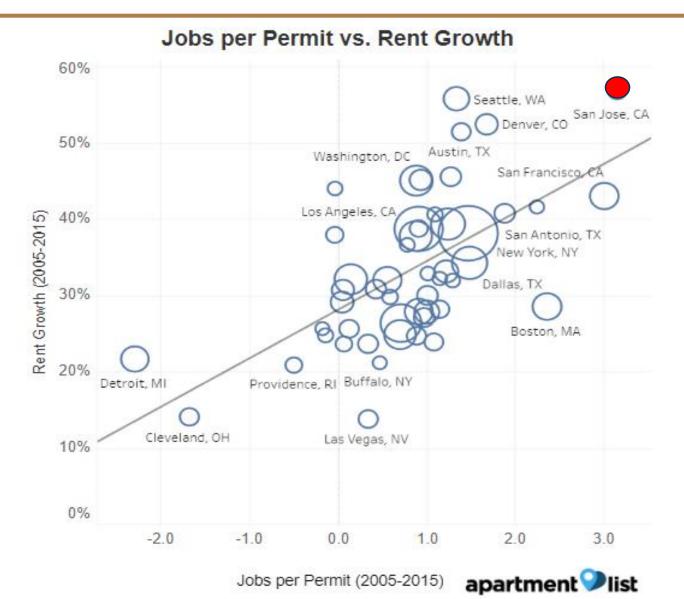

Funding

Supportive programs, policies & data

PROTECTION

Jobs added versus housing units added in U.S. metro areas, 2005-2015

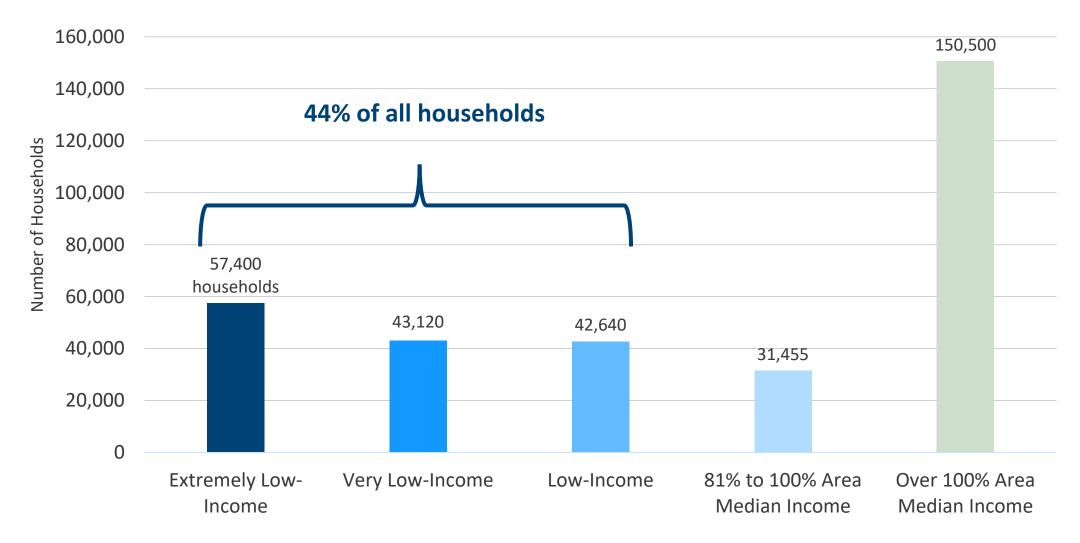

Area Median Income (AMI) categories (1-person household)

Salary needed to afford average 1-BR rent in San José: \$96,680/year **Extremely** Very Low-Income **Moderate-Income** Low-Income Low-Income \$0 - \$38,070 \$38,071 - \$63,450 \$63,451 - \$101,520 \$101,521 - \$152,280 0 - 30% AMI 31 - 50% AMI 51 - 80% AMI 81 - 120% AMI Full-time min. wage salary in San José, 2023: \$34,000/year Typical Target cashier Salary: \$35,000/year Typical San José Typical San José Retiree with only registered nurse teacher salary: SSI income in 2023: \$74,000/year salary: \$117,000/year

\$43,524/year

Income distribution by housing income categories

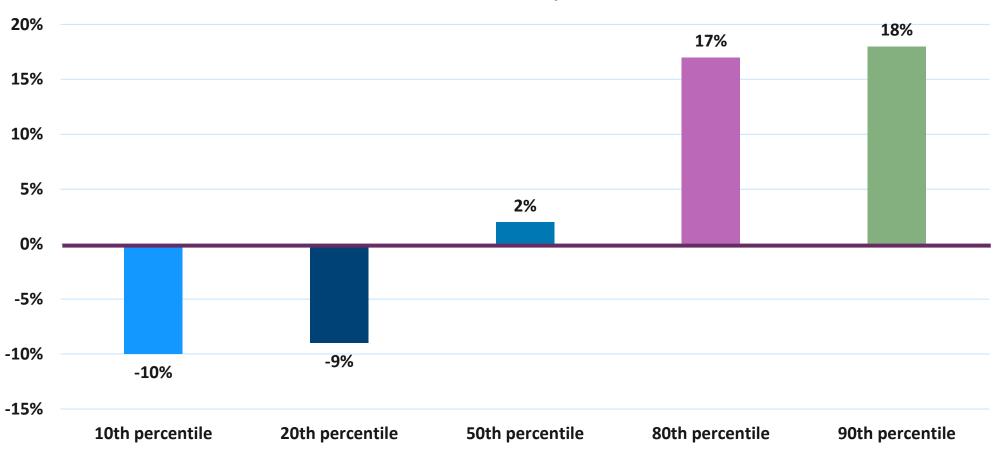

Source: 2019 5-year HUD Comprehensive Housing Affordability Strategy (CHAS) Data

Rents rose while incomes for lower-income households declined over the last 20 years in real terms

Change in Earned Income for Full-Time Wage and Salary Workers in San José, 2000-2019

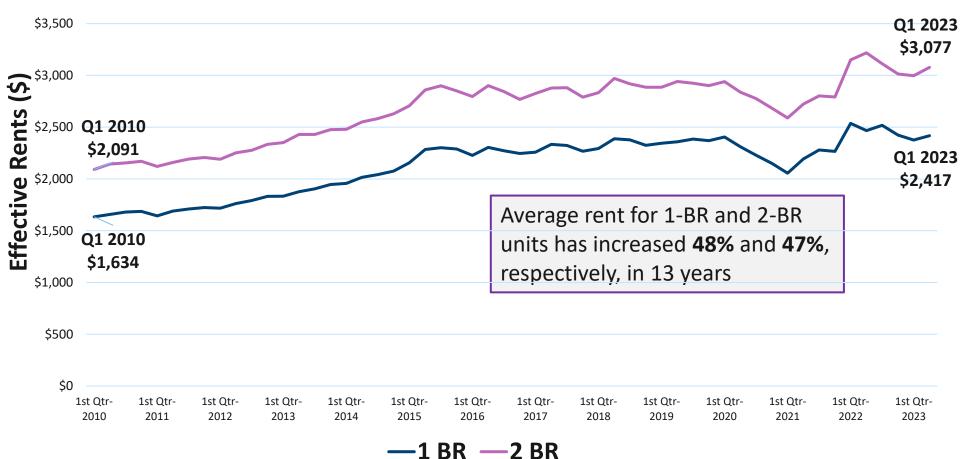

Data source: IPUMS USA | National Equity Atlas

Why we need protections – rising rents

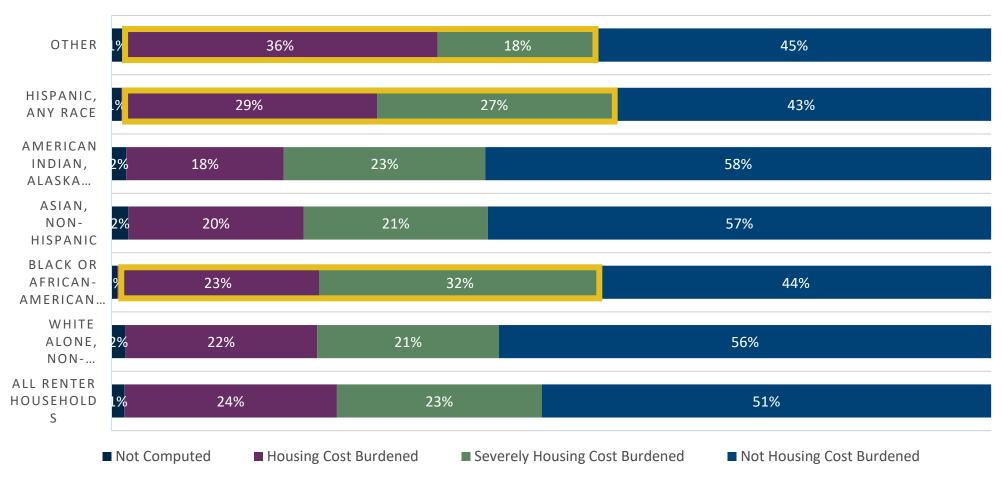

Average Rents in San José (adjusted for inflation), 2010-Present

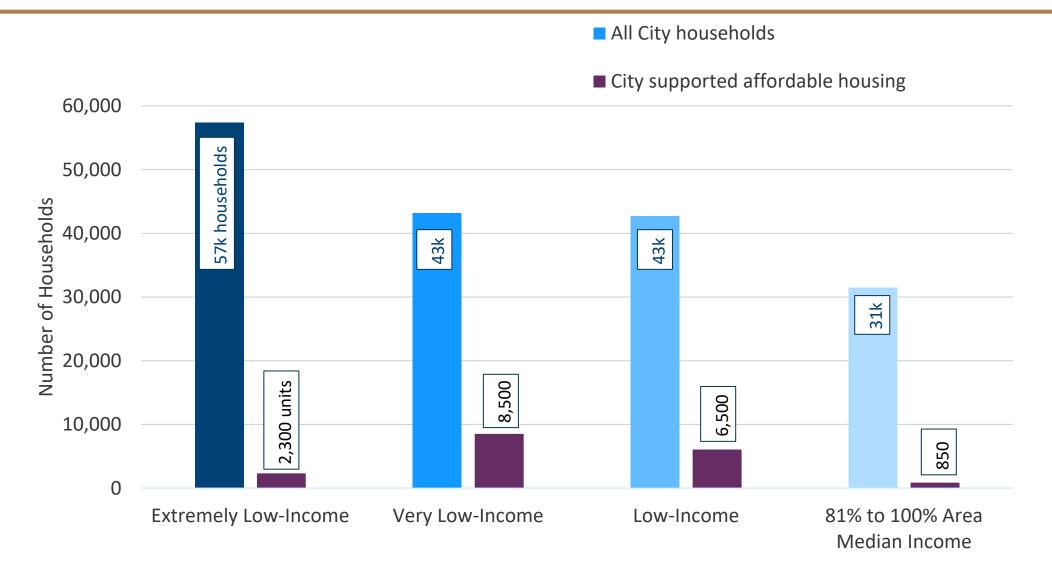

Rent burdens disproportionately weigh on certain races/ethnicities in San José

Rent Burdened Households by Race and Ethnicity, 2019

City's affordable housing portfolio vs. existing need

11

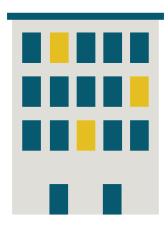

Production of new affordable housing

Kemit Mawakana
Division Manager, Residential Development Division

Market-rate Housing

Creation of development policies for all housing

Inclusionary Housing

Includes affordable homes within market-rate development

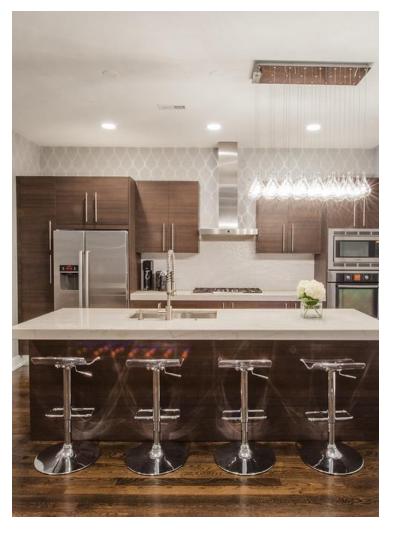

Affordable Housing

Construction of new rent-restricted housing

Need for a local affordable housing production strategy

- Market-rate developers build projects that are feasible
- New market-rate development does produce Inclusionary Housing units/fees.
 Yet, it does not provide deep affordability
- RHNA Goals & Housing Element establish affordable housing targets

Need for a local affordable housing production strategy

- Main funding sources leave a finance gap
 Traditional bank loan (debt) + tax credit equity + state subsidy
 - Bank loans: covers on average 10-20% of capital stack
 - Tax Credits: incentivize developers/investors, constitute 40-50% of capital funding
 - State subsidies: covers on average 10-15% of capital stack
- ♠ Recent San José projects required 6-8 total funding sources

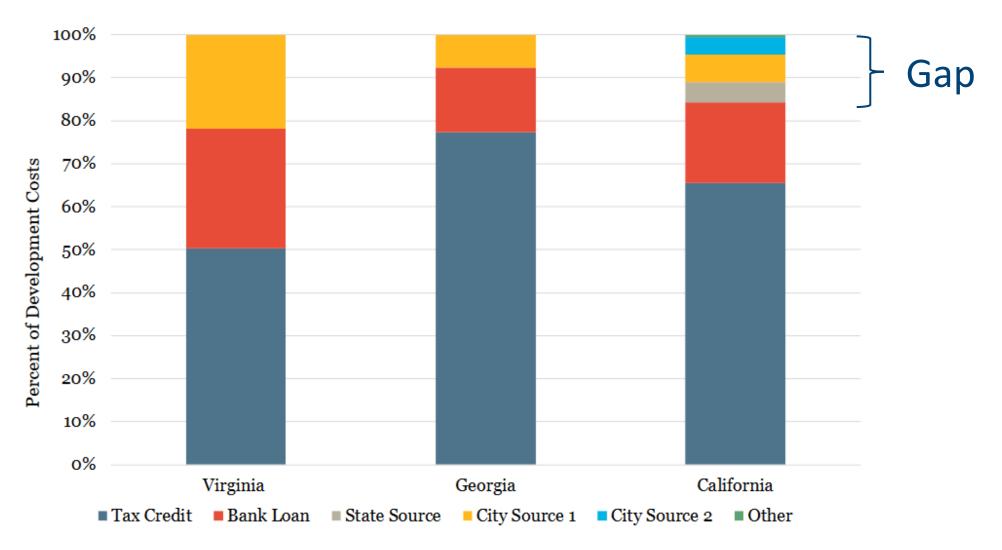

Role of cities:

Financing the gap with local or county funds

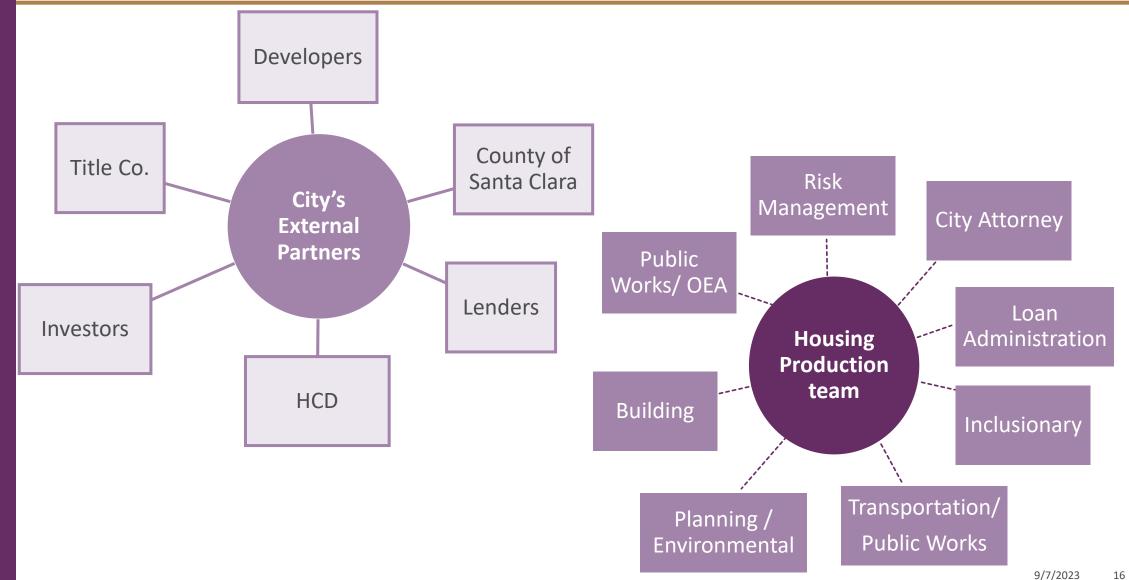

Capital stack for typical properties in three states, 2019

Many parties involved in transactions

Affordable development approval process

City NOFA Awards Announcement

Top scoring projects identified to seek City Council approval

City Council Meeting

Awarded NOFA projects obtain Council approval for City funding

PROCES

City Planning Entitlements

Permits issued by City Planning team (includes SB 35 & AB 2162 Streamlined Ministerial Processes)

CDLAC / TCAC **Application Submission**

Tax-exempt bonds & tax credits

Affordable development approval process (cont.)

CDLAC / TCAC Awards

Allocation awards announced

Construction Period

Construction starts within 30 days of finance closing. Generally, 1.5 to 2 years for construction

...CONTINUED

Performance Period/ Closing of Financing

Awarded projects must close on financing within 180 days of receiving CDLAC award

8

Lease-Up and Certificate of Occupancy

Property managers need 3-6 months to lease-up property after the Certificate of Occupancy is issued

Example of sources: Tamien Station Apartments

Source	Construction Amount	Permanent Amount	Entity Type	Funding Type
Citibank Tax-Exempt Loan	\$66,100,000	\$10,200,000	Private	Loan
Private Equity Investment	\$8,254,425	\$46,775,073	Private	Equity
HCD (state) – Aff. Housing & Sustainable Communities	\$0	\$16,000,000	Public	Loan
HCD (state) – Infill Infrastructure Grant program	\$3,000,000	\$3,000,000	Public	Grant
City of San José	\$17,250,000	\$17,250,000	Public	Loan
County of Santa Clara	\$25,000,000	\$25,000,000	Public	Loan
Total	\$119,604,425	\$118,225,073		

Funding Sources for the City of San José

- Funding sources to fill financing gap
 - Measure E
 - Low-Moderate Income Housing Asset Fund
 - Inclusionary Housing Ordinance (In-lieu fees)
 - Commercial Linkage Fees
 - Affordable Housing Impact Fee
- annually
- ♠ For every \$1 of City money put into a development, other sources put in \$5.50

Challenges and solutions for affordable production

- ▲ Local challenge Exhaustion of Santa Clara County Measure A funds
- Economic Conditions
 Rising interest rates, supply chain disruption → increased cost of ALL development
- ★ State/Federal
 Bottleneck for federal housing tax credits

SOLUTIONS

- Regional and state bond measures
- Federal bill to increase tax credits and bond allocation

Preservation of existing housing

Josh Ishimatsu
Interim Division Manager, Policy Division

Keeping housing affordable

Ensure housing is in good condition

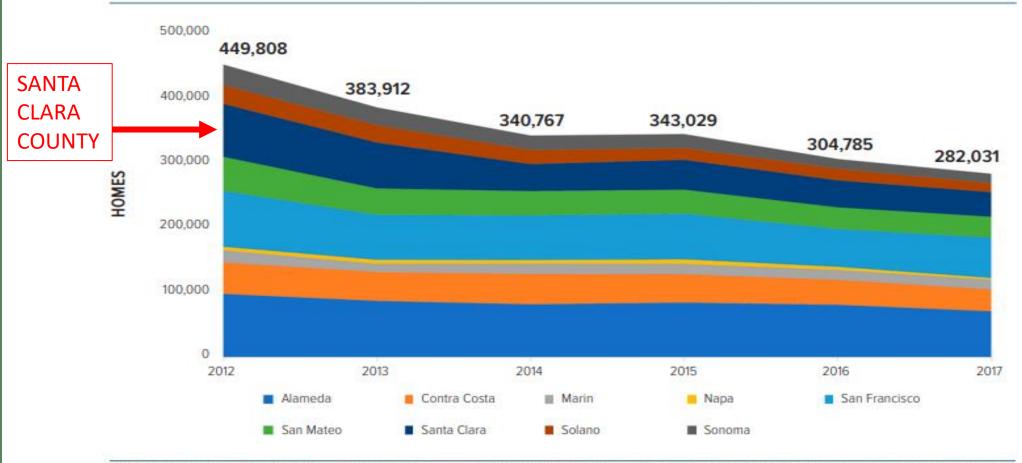

Support acquisition/ rehabilitation ecosystem

In five years, Santa Clara County lost about half of its unsubsidized affordable homes

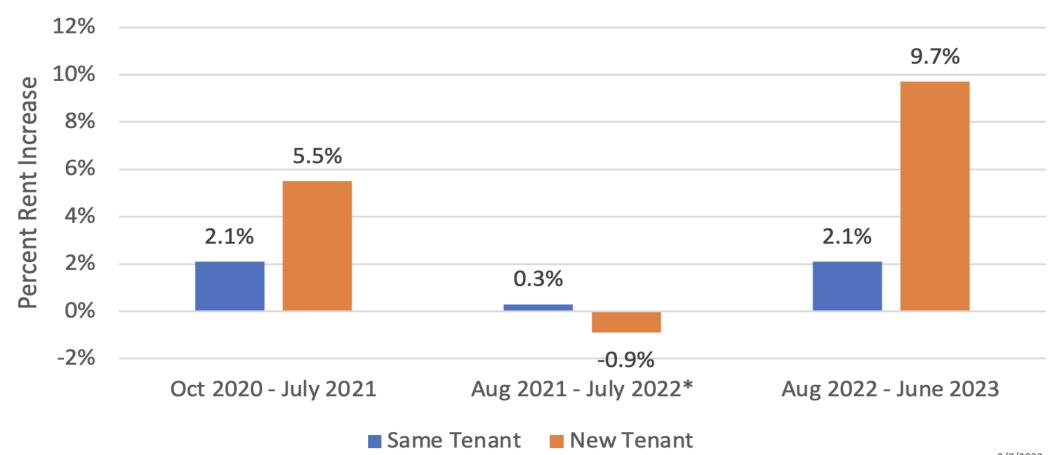

The number of unsubsidized, affordable homes occupied by low-income households has declined in recent years— averaging a decrease of 32,000 such homes per year between 2012 and 2017.

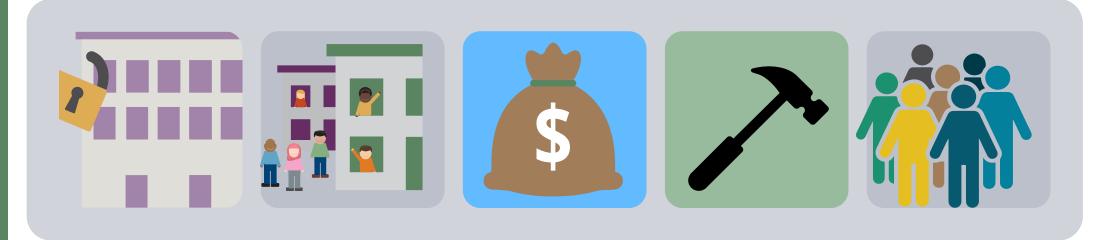

San José loses affordability on rent stabilized homes as tenants turn over (via vacancy decontrol)

Average Rent Increases for Continuously Occupied Units versus Units where a Tenant Moved Out

Why create an acquisition/rehabilitation practice?

Increases number of restricted affordable homes

Enables tenants to stay in their homes and neighborhoods

Is costeffective and relatively fast

Fixes condition problems and can help energy efficiency

Supports community ownership models (community land trusts)

How does acquisition/rehabilitation work?

Building owner ready to sell property

Acquisition loan from nonprofit lender

Rehab/permanent loans from public agency(ies) + permanent lender (CDFI or bank)

Newly deedrestricted affordable property

Challenges for acq/rehab practice in San José

- Very limited funding available for acquisition/rehabilitation projects
- ▲ Acquisition/rehabilitation projects are less likely to receive tax credit allocations
 - So local/regional/state financing are larger share of capital stack
- ◆ Few organizations are both highly interested in and qualified to undertake acquisition/rehabilitation projects
- Many renters at risk of displacement live in smaller buildings under 50 units – harder to finance and feasibly operate

What we're doing in San José

Partner with local public agencies

Report on preservation program development

Issue funding availability & award grants for capacity building

Issue funding availability & award grants for acquisition/rehabilitation

Quantify preservation needs

Protections for tenants

Emily Hislop

Division Manager, Rent Stabilization Program

Safe & Stable housing

Limit Rent Spikes

Fund Safety Net Programs

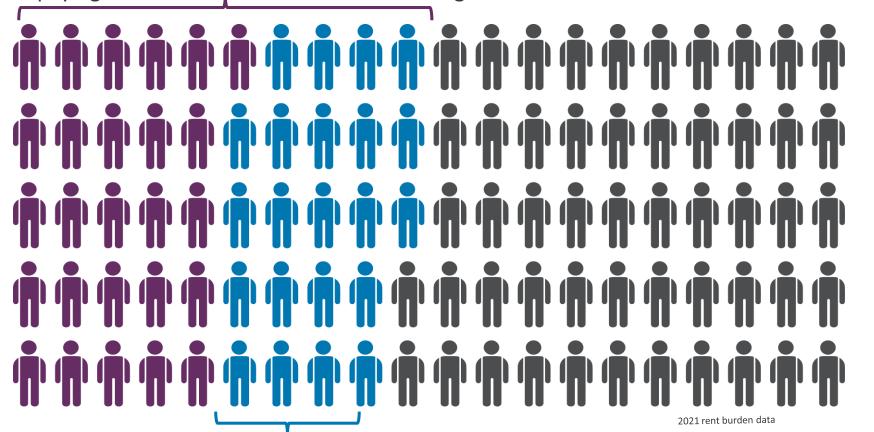

Types of protection policies

- Prevent large spikes in rents that can displace renters
- Prevent unnecessary evictions
- Require relocation assistance for no-fault evictions
- Guarantee basic habitability and safety standards
- Support safety-net programs
 - Example: Countywide Homelessness Prevention System

Why we need protections – high rent burdens

48% of renter households are *rent burdened* paying over **30%** of their income on housing

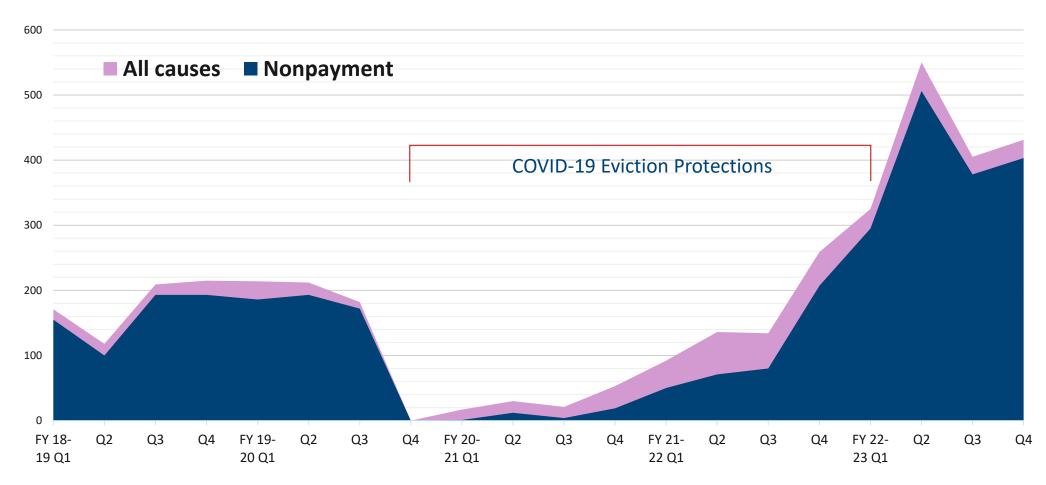

San José renter households

22% of renter households are *severely rent burdened*, paying over **50%** of their income on housing

Challenges for protecting more renters

Eviction Lawsuits Submitted to Housing Department for TPO Units

What we are doing in San José

Apartment Rent Ordinance (1979, rev. 2017)

Mobilehome Rent Ordinance (1985)

Tenant Protection Ordinance (2017)

Ellis Act Ordinance (2017)

Homelessness Prevention System (2019)

Eviction prevention programs (2020)

Impact

- 10,000 mobilehome spaces rent stabilized
- 86,000+ households with local just cause protections
- 13.5K+ households stabilized by COVID-19 rent relief funds; \$161M paid to housing providers

Affordable Housing Programs and Policies:

Production, Preservation & Protection
