#### RESOLUTION NO.

A RESOLUTION OF THE COUNCIL OF THE CITY OF SAN JOSE ADOPTING THE 15980 CARLTON AVENUE RESIDENTIAL PROJECT MITIGATED NEGATIVE DECLARATION, FOR WHICH AN INITIAL STUDY WAS PREPARED, ALL IN ACCORDANCE WITH THE CALIFORNIA ENVIRONMENTAL QUALITY ACT, AS AMENDED, AND ADOPTING A RELATED MITIGATION MONITORING AND REPORTING PROGRAM

WHEREAS, prior to the adoption of this Resolution, the Planning Director of the City of San José prepared an Initial Study and approved for circulation a Mitigated Negative Declaration for the 15980 Carlton Avenue Residential Project under Planning File Nos. PDC17-049, PD17-023, PT17-050 (the "Initial Study/Mitigated Negative Declaration"), all in accordance with the requirements of the California Environmental Quality Act of 1970, together with state and local guidelines implementing said Act, all as amended to date (collectively "CEQA"); and

WHEREAS, the 15980 Carlton Avenue Residential Project (the "Project") analyzed under the Initial Study/Mitigated Negative Declaration consists of a Planned Development Rezoning from R-M Multiple Residence District to the R-M(PD) Planned Development Zoning District, a Planned Development Permit and Tentative Map to allow for the demolition and removal of all existing structures, pavements and utilities, and subdivide the site into six parcels to construct six two-story residential condominiums on an approximately 0.48 gross acre site located at 15980 Carlton Avenue, situated on the south side of Carlton Avenue, approximately 290 feet west of National Avenue, in the City of San José (Assessor's Parcel Number 421-13-060), San José, California; and

WHEREAS, the Initial Study/Mitigated Negative Declaration concluded that implementation of the Project could result in certain significant effects on the environment and identified mitigation measures that would reduce each of those significant effects to a less-than-significant level; and

WHEREAS, in connection with the approval of a project involving the preparation of an initial study/mitigated negative declaration that identifies one or more significant environmental effects, CEQA requires the decision-making body of the lead agency to incorporate feasible mitigation measures that would reduce those significant environmental effects to a less-than-significant level; and

WHEREAS, whenever a lead agency approves a project requiring the implementation of measures to mitigate or avoid significant effects on the environment, CEQA also requires a lead agency to adopt a mitigation monitoring and reporting program to ensure compliance with the mitigation measures during project implementation, and such a mitigation monitoring and reporting program has been prepared for the Project for consideration by the decision-maker of the City of San José as lead agency for the Project (the "Mitigation Monitoring and Reporting Program"); and

**WHEREAS**, the City of San José is the lead agency on the Project, and the City Council is the decision-making body for the proposed approval to undertake the Project; and

WHEREAS, the City Council has reviewed and considered the Initial Study/Mitigated Negative Declaration and related Mitigation Monitoring and Reporting Program for the Project and intends to take actions on the Project in compliance with CEQA and state and local guidelines implementing CEQA; and

- //
- //
- //

**WHEREAS**, the Initial Study/Mitigated Negative Declaration and related Mitigation Monitoring and Reporting Program for the Project are on file in the Office of the Director of Planning, located at 200 East Santa Clara Street, 3rd Floor Tower, San José, California, 95113, are available for inspection by any interested person at that location and are, by this reference, incorporated into this Resolution as if fully set forth herein;

**NOW, THEREFORE,** BE IT RESOLVED BY THE COUNCIL OF THE CITY OF SAN JOSE:

**THAT THE CITY COUNCIL** does hereby make the following findings: (1) it has independently reviewed and analyzed the Initial Study/Mitigated Negative Declaration and other information in the record and has considered the information contained therein, prior to acting upon or approving the Project, (2) the Initial Study/Mitigated Negative Declaration prepared for the Project has been completed in compliance with CEQA and is consistent with state and local guidelines implementing CEQA, and (3) the Initial Study/ Mitigated Negative Declaration represents the independent judgment and analysis of the City of San José, as lead agency for the Project. The City Council designates the Director of Planning at the Director's Office at 200 East Santa Clara Street, 3rd Floor Tower, San José, California, 95113, as the custodian of documents and records of proceedings on which this decision is based.

**THAT THE CITY COUNCIL** does hereby find that based upon the entire record of proceedings before it and all information received that there is no substantial evidence that the Project will have a significant effect on the environment and does hereby adopt the Mitigated Negative Declaration and related Mitigation Monitoring and Reporting Program prepared for the Project (Planning File Nos. PDC17-049, PD17-023, PT17-050). The Mitigation Monitoring and Reporting Program for the Project is attached hereto as <u>Exhibit "A"</u> and fully incorporated herein. The Initial Study/ Mitigated Negative Declaration and Reporting Program are: (1) on file in the

Office of the Director of Planning, located at 200 East Santa Clara Street, 3rd Floor Tower, San José, California, 95113 and (2) available for inspection by any interested person.

ADOPTED this \_\_\_\_\_ day of \_\_\_\_\_, 2017, by the following vote:

CITY OF SAN JOSE November 2017

#### PREFACE

Section 21081.6 of the California Environmental Quality Act (CEQA) requires a Lead Agency to adopt a Mitigation Monitoring and Reporting Program whenever it approves a project for which measures have been required to mitigate or avoid significant effects on the environment. The purpose of the monitoring and reporting program is to ensure compliance with the mitigation measures during project implementation.

The Initial Study/Mitigated Negative Declaration prepared for the 15980 Carlton Avenue Residential Project concluded that the implementation of the project could result in significant effects on the environment and mitigation measures were incorporated into the proposed project or are required as a condition of project approval. This Mitigation Monitoring and Reporting Program addresses those measures in terms of how and when they will be implemented.

This document does not discuss those subjects for which the Initial Study/Mitigated Negative Declaration concluded that the impacts from implementation of the project would be less than significant.

ICALLED LOT OTHERE'S agree to fully implement the Mitigation Measures described below which have been developed in conjunction with the preparation of an Initial Study/Mitigated Negative Declaration for my proposed project. I understand that these mitigation measures or substantially similar measures will be adopted seconditions of approval with my development permit request to avoid or significantly reduce potential environmental impacts of a less than significant level, where feasible.
