Hello,

I'm Evan Siroky and I live in Scotts Valley, CA. I am concerned about a region-wide housing shortage crisis and support efforts to increase the supply of housing throughout the area.

Please communicate my support of item 10.5 on the agenda approving the General Plan Amendment and necessary zoning for a Signature Project when you give your staff report to City Council. I also support the Urban Village designation.

The following are key elements I would like to see in a bold development: neighborhood benefits like public plazas, transit-oriented development, and affordable housing.

Thank you,  
Evan
