

Memorandum

TO: CITY COUNCIL**FROM:** Councilmember Devora "Dev" Davis**SUBJECT:** Diridon Station Integrated Concept Plan **DATE:** May 21, 2018

Approved:

Date:

5/21/18

RECOMMENDATION

Accept the staff recommendations with the following direction:

- 1) Develop a robust public outreach and engagement effort from the onset that engages the communities surrounding Diridon Station to ensure meaningful public input in the Diridon Station Integrated Concept Plan (DISC). The public outreach and engagement process should begin with a kick-off meeting with stakeholders in Districts 3 and 6, including their respective Councilmembers.
- 2) Provide staff updates on the DISC to the Diridon Station Advisory Group, the Diridon Policy Advisory Board, and the Council through the Transportation and Environment Committee.

BACKGROUND

The City of San José, Santa Clara Valley Transportation Authority, Caltrain and the California High Speed Rail are initiating work on the Diridon Station Integrated Concept Plan. We must make certain that the work is collaborative with our community as well. Businesses and residents in the surrounding communities will be impacted by the work that will be progressing through this important planning process. To achieve the bold, comprehensive, and long-term vision for Diridon Station, an early and ongoing dialogue with neighboring stakeholders is essential.
