Subject: Actions Related to the Agreement with Verizon Wireless for Permitting of Small Cells.

Sir/ Madam

I am one of many in my community that are concerned with the installation of a Verizon Small Cell Tower on our street at 2512 Fairglen Dr. Me and my family live only 150 ft from this **PG&E poll** installation.

In all my communications with the city on this I am finding a stunning lack of knowledge of these PG&E installations among City staff and our elected representatives.

Given this I and my neighbors feel that the agenda item 3.5, matter 18-922, Verizon installations on **light poles** should be moved to another meeting so that City staff and elected representatives can become more aware and knowledgeable about the 2 different styles of Verizon installations in our community. This delay should also give Verizon an opportunity to answer and city questions on the parallel tower installations.

Regards
