## SUPPLEMENTAL

### REASON FOR SUPPLEMENTAL

On September 4, 2018, the Environmental Services Department posted the Stormwater Permit Annual Report for Council approval. On September 11, 2018, Environmental Services Department noted a need for a minor technical correction. The Stormwater Permit Annual Report noted the installation of 382 new stormwater treatment systems, however, the City has since verified the installation of only 381 new stormwater treatment systems (*See Report page 3-4*). This change and any related minor corrections will be made to the Final Stormwater Annual Report before it is submitted to the San Francisco Bay Regional Water Quality Control Board. The changes do not impact the analysis or conclusions in the report.
