FROM: Councilmember Arenas

SUBJECT: ITEM A1b - 4200 DOVE HILL

RECOMMENDATION

Assign Item 10.3 4200 Dove Hill to be heard no later than 5pm on September 25th.

BACKGROUND

On the September 11th Council Meeting, I asked the Council to continue this item to the next available evening meeting and having the Rules Committee work out the exact date for that meeting, a motion that earned the support of the City Council. The Rules Committee on September 12th chose to place it on September 25th's afternoon meeting.

While the public has already had the opportunity to comment on this council item, there is a strong public interest in this project. Therefore, I would ask my colleagues to agendaize this item as late as possible on the 25th to allow our community to attend the meeting.
