Environmental Appeal

- **Appellant:** Laborers International Union of North America 270
 - Represented by Lozeau Drury LLP
 - Appeal submitted November 30, 2018
- **Claim:** Fair argument the project would have significant impacts due to indoor air quality, toxic air contaminants during construction and operation, and GHG emissions, requiring an EIR
- Additional comment letter submitted January 4, 2019
 - Letter misrepresents staff's response to previous comment letters
 - As a courtesy, responses from project air quality consultant provided, confirming adequacy of analysis in Initial Study

Environmental Appeal

- The comments raised did not provide information indicating the project would result in new environmental impacts or impacts substantially greater in severity than disclosed in the IS/MND consistent with CEQA
- The comments have not presented a fair argument that the project will result in significant, adverse, un-mitigatable impacts that would require the preparation of an EIR

Discussion/Q&A
