

Memorandum

TO: HONORABLE MAYOR
AND CITY COUNCIL

FROM: Matt Cano

SUBJECT: ANNUAL DEVELOPMENT
IN-LIEU FEE REPORT

DATE: March 4, 2019

Approved

D. DSYL

Date

3/15/19

RECOMMENDATION

Adopt a resolution:

- (a) Accepting the Fiscal Year 2017-2018 Annual Development In-Lieu Fee Report regarding in-lieu fees collected by the City from developers in lieu of construction of public improvements; and
- (b) Making certain findings as required by Government Code Section 66001(d)(1).

OUTCOME

Provide an annual report for FY 2017-2018 that summarizes the in-lieu fee program activity and the allocation of unused funds as required by state law.

BACKGROUND

The Mitigation Fee Act (Government Code Section 66000 *et seq.*) requires public agencies to account for and make findings regarding fees collected by an agency as a condition of development approval. The law also requires that the agency annually review and make available to the public a report accounting for the development fees held by the agency.

The purpose of the attached report is to provide an annual summary of the in-lieu fees that the Department of Public Works collects and manages in connection with the City's approval of private development. Other in-lieu fee programs such as Parks Impact Fees and Traffic Impact Fees are reported annually by the Department of Parks, Recreation, and Neighborhood Services and the Department of Transportation via separate reports to the City Council. Additionally, this report does not include information on any taxes that the City collects in connection with development approvals.

There are several fees that the City requires as a condition of development approval in lieu of requiring the construction of certain improvements that are subject to this annual reporting requirement. In-lieu fees are collected for the following improvement programs:

- Utility Undergrounding Fee Program – This program accumulates fees from private development projects and undergrounds overhead utility facilities throughout the City. This is accomplished by establishing districts, which pool the contributions of several developments and construct the undergrounding improvements in a broader specified area rather than requiring developers to underground on a project-by-project basis. This results in the more efficient use of engineering staff, construction crews, and utility company resources, thus lowering unit costs for design and construction.

In 1989, the City established Section 15.26, Utility Undergrounding Fees, of the San José Municipal Code, which requires that developers pay a fee, per foot of frontage, in lieu of performing the overhead-to-underground conversions along the street frontage where their development is occurring. This fee represents the developer's fair-share (i.e. half of the costs of the future undergrounding work). Only those projects that develop adjacent to designated streets as defined in the Municipal Code are subject to the utility undergrounding in-lieu fees.

In June 2009, Council approved an ordinance amending the San José Municipal Code Section 15.26, to allow for: 1) annual automatic adjustment of the utility undergrounding in-lieu fee based on the Engineering News-Record Construction Cost Index, or its equivalent, effective on January 31 of every year, and 2) reimbursement to developers for completion of underground utility projects by the developers. Based on this, the utility undergrounding in-lieu fee was adjusted accordingly in January 2018. The Engineering News-Records, City Construction Cost Index (CCI) 2017 percent change was +3.5%. Therefore, the 2018 utility undergrounding in-lieu fee was adjusted from \$469 to \$485 per linear foot frontage.

In-lieu fees are programmed to be expended in these areas as shown in the attached FY 2017-2018 Rule 20B (In-Lieu Fee) Undergrounding Master Plan, Exhibit A as required by the Mitigation Fee Act. As these fees are committed to projects in the approved Master Plan, they are considered non-refundable. This program is reported annually via this report and the City Council is presented the Undergrounding Master Plan as part of its annual review of the Rule 20A and Rule 20B (In-Lieu Fee) Underground Utility Program's Workplan and Masterplan. The Rule 20A and Rule 20B (In-Lieu Fee) Underground Utility Program, FY 2016-17 – FY 2021-22 Workplan, and FY 2016-17 Rule 20B (In-Lieu Fee) Undergrounding Master Plan was approved by the City Council on May 1, 2018.

- Landscaped Median Islands – Developers may be required to pay an in-lieu fee for the future construction of a landscaped median island in the street abutting their property. If construction of the median island is not feasible due to lack of full funding or right-of-way, this fee is paid in lieu of requiring the developer to construct the median island.

- Traffic Signals – Developers may be required to pay an in-lieu fee for the future construction of a traffic signal at an intersection that is impacted by their development. If construction of the traffic signal is not feasible due to lack of full funding or right-of-way, this fee is paid in lieu of requiring the developer to construct the traffic signal.
- Street Improvements – Developers may be required to pay an in-lieu fee for the future construction of street improvements that are an area-wide concern or that cannot be physically constructed at the time of the development.
- Storm Collection System – Developers may be required to pay an in-lieu fee for the future construction of improvements to resolve an area-wide storm drainage problem. This fee is collected in lieu of requiring the developer to construct all or a major portion of the flood control improvements. Storm collection system improvements are often very costly and can provide benefit to many properties in addition to the developer's project. Benefiting developer contributions are accumulated until a time that the improvements can be constructed.
- Area-Wide Traffic Calming Improvements – Developers may be required to pay an in-lieu fee for the construction of area-wide traffic calming improvements and/or the completion of an area-wide traffic calming study. If, at the time of the project approval, the specific traffic calming improvements in the area are not identified, the developer pays this fee in lieu of constructing the traffic calming improvements themselves.

ANALYSIS

The following information is included in **Exhibit A** (FY 2017-2018 Rule 20B (In-Lieu Fee) Undergrounding Master Plan) and **Exhibit B** (FY 2017-2018 In-Lieu Fees Collected by Program to Date for Median Islands, Traffic Signals, Street Improvements, and Storm Collection System Improvements):

- The type of fee;
- The amount of the fee;
- The beginning and ending account balance;
- The overall interest earned by the program;
- An identification of each public improvement for which fees were expended and the amount of the expenditures related to each improvement (including the total percentage of the cost of the public improvement that was funded with in-lieu fees);
- An identification of an approximate date by which the construction of the public improvements will commence for those improvements where sufficient funds have been collected to complete financing of the improvement;

March 4, 2019

Subject: 2017-2018 Annual Development In-Lieu Fee Report

Page 4

- A description of each interfund transfer or loan, if any, including the public improvement on which the transferred or loaned fees will be expended and the date upon which any loan will be repaid with the amount of interest on the loan; and
- The amount of any refunds made pursuant to Government Code section 66001(e) and any allocations made pursuant to Government Code section 66001(f).

Pursuant to Government Code section 66001 (d), the local agency also must:

- Make certain findings with regard to unfinished improvements for which fees were collected at least five fiscal years ago.
- Identify the purpose for which the fee was expended and demonstrate a reasonable relationship between the amount of the fee and the purpose for which it was charged.
- Identify all sources and amounts of funding anticipated to complete the financing of incomplete improvements and designate the approximate dates on which this funding is expected to be deposited into the account.

The information required for the findings described above is set forth herein and in Exhibits A and B attached hereto.

If these findings are not made, the agency must refund the monies to the current owner of record or owners of the lot or lots of the development project on a prorated basis. Fees are also to be refunded if the agency fails to identify, within 180 days of the determination that sufficient funds have been collected, an approximate date by which the construction of the public improvements will begin. The agency may refund the unexpended fee by direct payment, by providing a temporary suspension of fees, or by another reasonable means. Currently, no fees are scheduled for refund.

During FY 2017-2018, the City received 14 Undergrounding payments and two Street Improvement In-Lieu deposits. No Traffic Signal, Median Island, or Storm Collection System In-Lieu deposits were received during FY 2017-2018. Additionally, no deposits were transferred to City CIP funds during FY 2017-2018.

The Public Works Department is responsible for the administration of the In-Lieu Fee Program. Administration work includes meeting with development clients, calculating the fair share development contribution fees, fee billing and collection, monitoring and programming in-lieu fees for construction use and preparing an annual report to Council summarizing the status of the fund. The Department was appropriated \$182,000 in FY 2017-2018 to manage the program.

EVALUATION AND FOLLOW-UP

This item is reported annually to the City Council. The next report (FY 2018-2019) will be presented to Council in early 2020.

Staff understands that continuing to carry over small fees (sometimes as low as \$1,500) for several years is not ideal and that there are potentially ways to allocate this funding to ensure that

HONORABLE MAYOR AND CITY COUNCIL

March 4, 2019

Subject: 2017-2018 Annual Development In-Lieu Fee Report

Page 5

it is spent on projects that will benefit our residents in the near term. Due to focus on other priorities, staff has not had the opportunity to focus on a solution to this challenge. However, over the next year, staff will work with the City Attorney's Office to review options and present them to the city council at, or prior to, the next annual report.

PUBLIC OUTREACH

This memorandum will be posted on the City's website for the March 26, 2019, City Council Agenda. Additionally, a draft of the Annual Development In-Lieu Fee Report was posted to the City's Public Works website on January 3, 2019.

COORDINATION

This report has been coordinated with the City Manager's Budget Office, City Attorney's Office, and the Departments of Transportation and Planning, Building and Code Enforcement.

COMMISSION RECOMMENDATION/INPUT

No Commission recommendation or input is associated with this action.

CEQA

Not a Project, File No. PP17-009, Staff Reports, Assessments, Annual Reports, and Informational Memos that involve no approvals of any City action.
