Dear Mayor Liccardo and Council Members,

Please support Councilmember Khamis' memo regarding the changes which may be required to facilitate construction of a trail along Santa Teresa Ridge.

The effort to conserve the natural resources of the ridge, provide public access to it, and a trail, has been a priority for decades and a significant motivation for the open space protection movement including the establishment of the SCV Open Space Authority. But the efforts have faced many hurdles so any action to remove hurdles will be welcomed by the community.

Thank you for considering,
