---

The City of San Jose has a population, as of 2014 of 1,000,536 people, the 10th largest city in America. Yet, the vast majority of air traffic flows to our neighbor to the north, San Francisco International Airport. San Jose is the home of Silicon Valley and I want to see us continue to build upon the investment our city has made in our airport by expanding our international flight offerings, and providing additional convenience to the South Bay's flying public. Sadly, in the last year we have lost a couple of our International routes; Air China to Shanghai, and Lufthansa to Frankfurt. South Bay residents prefer flying out of San Jose and we need to continue striving to offer flights to world gateways. A world-class city like San Jose needs a visionary board to create a world-class airport. I want to be part of finding creative solutions to the challenges we face at Mineta San Jose International Airport. There are three areas I would like to focus on as a board member. 1) Airport Security – Identify and improve AOA Security. 2) Fiscal Responsibility - Attract new flight routes and new revenue generating opportunities, ensuring that the airport is economically self-sufficient. 3) Land Use Development - We need bold vision to create the type of airport that incorporates into our city and more than simply an aviation transportation hub. To do this we need to have creative input in our Airport's Master Plan.

**Please state any other information which you feel would be useful in reviewing your application**

---

For 33 years, I have owned and operated a specialized high security business, located just a short distance from SJC. For approximately 30 of those years, I have operated as an authorized signatory, and possess AOA credentials, TSA, and U.S. Custom Clearance for our company at SFO. I have been directly involved on the AOA with specialty shipments requiring significant security supervision and direct planeside access. This has provided me a unique inside view of security protocols as well as vulnerabilities and challenges at airports. I believe this expertise would be a benefit to the San Jose Airport Commission.

## Supplemental Questions

**Have you ever attended a meeting of the Commission(s) to which you are applying?**

---

☒ Yes ☐ No

**Would you be available to attend meetings at the scheduled time?**

---

☒ Yes ☐ No

**Please describe your experience in serving on a Commission or Board.**

---

The following are boards that I have served upon over extended periods of time. Armored Car Association - Board of Directors, Kiwanis Club of San Jose - Board of Directors, Kiwanis Club of San Jose Foundation - Board of Directors, Christmas in the Park - Advisory Board, CNH District of Kiwanis International - Board of Trustees, Kiwanis International Foundation - Board of Trustees. San Jose Airport Commission 2015-2019, San Jose Airport Commission Chair 2017-2019. Board members have a fiduciary responsibility to their stakeholders, and an obligation to effectively communicate with those they serve. Each of these boards has given me experience in the preparation, oversight and approval of annual budgets ensuring that adequate financial resources were available for these entities. I've been extensively involved in the strategic planning and governance of various organizations through creation, amendment and execution of organizational policy, procedures and bylaws. As President, Chairman, or Governor of these organizations, I have personally selected and appointed chair persons and committee members for scores of sub-committees to further the objectives of these organizations. My board experience also includes selecting, supporting, setting compensation, and performance reviews of the chief executive officers.

**Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).**

---

I've served as President and Chief Financial Officer of our company for nearly 33 years. I built a company from the ground up, and at one time employed 87 staff, a fleet of 35 vehicles, operating 7 days per week, and 365 days per year. My various roles included work in customer service, finance, accounting, sales, human resources, training, loss prevention, asset protection, and background investigations. During that period of time I have also served a President and Chairman of the Board for my industry association, which covered member companies from the United States, Canada, Bahamas, United Kingdom, European Union, and Saudi Arabia. My industry related activities include board training and development, membership recruitment, revenue generation, convention planning, member company security assessments, government relations, loss investigations, and media relations. I have also been interviewed and/or appeared on CNN, CBS World News Tonight, The Discovery Channel's "Best Kept Secrets", CHEK 6 TV News (Victoria B.C. Canada), KTVU Mornings on 2, as well as a variety of San Francisco Bay Area and Los Angeles news outlets. My work in the volunteer field through Kiwanis brought me through the leadership ranks from our local club, to becoming the Governor (C.E.O.) of the California-Nevada-Hawaii District of Kiwanis International, and allowed me to serve on the Board of Trustees of the Kiwanis International Foundation in Indianapolis. These leadership roles included responsibility for leadership development and training of board members, division leaders (Lt. Governors), and club leaders. I have also participated a significant role in fundraising campaigns with UNICEF for two Kiwanis Worldwide Service Projects.

## What is your understanding of the purpose of the Commission?

---

The Airport Commission serves in an advisory capacity to the City Council and to the Director of Aviation on issues relating to San Jose International Airport. The Commission investigates, studies and reviews matters relating to the Airport and its development as the City Council and the Director of Aviation may require, or as requested by the general public. The Commission has declared a policy of promoting and protecting air transportation to serve the public interest and to integrate the Airport and its related activities into the orderly growth of the community, and to meet the needs of the traveling public without unduly affecting property and persons located near the Airport.

## Please list three issues facing the City that you feel the Commission should address.

---

1) Airport Security 2) Fiscal Impact of Mineta San Jose International Airport on the city. 3) Being a good neighbor to residents and businesses affected by airport operations.

---

Question applies to Airport Commission

## What are the three most critical challenges facing Mineta San Jose International Airport in the next five years? What do you bring to the table in terms of experience, expertise, or perspective to help address these challenges

---

1) Airport Security – Identify and improve AOA and overall Airport Security. 2) Fiscal Responsibility - Attract new flight routes and new revenue generating opportunities, ensuring that the airport is economically self-sufficient. 3) Land Use Development - Work to creatively integrate SJC and San Jose Community into the Airport Master Plan I am a visionary leader and take the responsibility of serving on this commission seriously. I believe an informed board member is an asset to an organization. As such, I have read every set of meeting minutes for the San Jose Airport Commission dating back to April 4th, 2011, reviewed the Terminal Area and Non-Terminal Area Improvement programs, as well as the Resolution of the Airport Commission adopting rules and regulations for the conduct of business at SJC. As previously stated, my security expertise and hands on experience working on the AOA at SFO brings a unique perspective to the San Jose Airport Commission. Working and serving with industry and non-profit boards, for me, has highlighted the importance of recruiting dynamic board members that are not afraid to stand for what they believe is in the best interest of an organization. Far too often, people are persuaded by peer pressure, politics, and personal agendas, leading to possible poor decisions by boards. My commitment to the City of San Jose is to be a bold visionary member of the San Jose Airport Commission. I commit to always putting the best interest of the City and Airport first in my decision and recommendation making process, while serving on that board.

---

Question applies to Airport Commission

## What can the Airport do to balance its obligations as a “good neighbor” and as a world-class international airport for Silicon Valley? If there is a conflict in achieving an appropriate balance, how would you resolve it?

---

The Bay Area has some of the most complex airspace in the United States, with challenges similar to JFK, EWR (Newark) and LGA (LaGuardia) in the New York Area. That complexity limits many options to alter arrivals and departures at one airport without creating an impact on the other two airports in the Bay Area. With Next Gen (Satellite based) Air Transportation System we have seen improvements in on-time performance and fuel economy but we have also seen severe impacts on communities, as flights arrive and depart on much narrower flight paths, creating additional noise concerns. To resolve this issue the three bay area airports, along with elected and appointed officials need to continue to work closely with the FAA to find realistic solutions. We simply cannot move noise from one community to another. However, I believe through collaboration of all parties we can assist in facilitating the dialog, and I am willing to work towards that end. Dialog will create understanding which will then equate to realistic solutions.

**What can the City of San José and the Airport do to engage Silicon Valley business leaders and other communities to support the Airport's efforts to increase air service and add routes to SJC? What can you do personally to help achieve this goal?**

---

The business and community leaders I've spoken to would be thrilled to see more flight availability at Mineta San Jose International Airport. Those of us that fly do not particularly care for a 45-minute drive to San Francisco International Airport. Therefore, I believe there is already business and community support for this endeavor. Having said that, I believe that inviting business and community leaders to meet on the topic could provide the commission and the City of San Jose valuable insight, and quite possible a collaborative game plan. In order for this to be effective, we should not forget to engage airlines industry and ask them to be a part of this process. I would be willing meet with other airports to learn how they have successfully brought airlines and services to their airports for their communities, engage with both business and community leaders, and be an active part of this collaborative effort for San Jose: There will always be challenges when working to create a world-class international airport. Being a "good neighbor" requires us to improve the connection between businesses and resident affected by airport operations. I have always found that communication and addressing challenges (which I like to call "opportunities"), head on is the best. By engaging residents and business representatives we can foster dialog and strengthen relationships. Relationship building translates to greater understanding and a closer connection, but most importantly, it hopefully provides an opportunity for action before a challenge becomes a full-blown problem. That action translates into goodwill among stakeholders. If there is a conflict in achieving an appropriate balance, how would you resolve it? Through collaboration! Collaborating requires a high degree of cooperation and assertiveness. However it also allows for the very best creative solution that probably could not have been accomplished through a single individual or side in a conflict.

**I would like to say . . .**

---

I currently serve on San Jose Airport Commission for District #10, and am applying for reappointment for a second term. Thank you for your consideration.

I have served on the San Jose Airport Commission for the past three years and am presently the Chair of the Commission. I would very much like to continue my service in this capacity to work towards my objectives of learning more about the Airport and how it operates as well as spreading good will and support of the airport services to the community at large. As a San Jose, District 3, Downtown resident, I feel it is extremely important to participate and serve my community.

**Please state any other information which you feel would be useful in reviewing your application**

---

I am passionate about serving and giving back to the community. It is my personal philosophy that every citizen has a voice and it is important to participate and use that voice for the good of our city and neighborhood, to make our environment the best it can be. Each of us has an obligation to serve our community in whatever way we can. I enjoy participating and find it very rewarding to participate at the Commission level by representing the District in which I live.

## Supplemental Questions

**Have you ever attended a meeting of the Commission(s) to which you are applying?**

---

☒ Yes ☐ No

**Would you be available to attend meetings at the scheduled time?**

---

☒ Yes ☐ No

**Please describe your experience in serving on a Commission or Board.**

---

My experience serving on the Airport Commission (presently as Chair), and my past experience on the Parks Commission, has been a great opportunity to learn not only how the Airport functions, but how the City functions as well. Serving the community, on a volunteer basis, as a Commissioner has been very rewarding.

**Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).**

---

Past experience in owning and operating several businesses, as well as serving on many boards, commissions and advisory groups, has provided me with the skills to actively participate, collaborate, and achieve goals on all levels. My past experience(s) have been very rewarding on a personal and professional level.

**What is your understanding of the purpose of the Commission?**

---

The purpose of the Commission is to educate and serve the community at large. Commissioners, as part of the Commission mission, serve at the pleasure of the City Council, and represent the commission and the public in a transparent and open manner.

**Please list three issues facing the City that you feel the Commission should address.**

---

1. Security and safety 2. Budget and operations 3. Growth and expansion

---

Question applies to Airport Commission

**What are the three most critical challenges facing Mineta San Jose International Airport in the next five years? What do you bring to the table in terms of experience, expertise, or perspective to help address these challenges**

---

Finances, service expansion, and security. My personal experience owning and operating businesses has provided the experience to understand finances, growth, and quality of service. My expertise in these areas enables me to broaden my scope of the challenges and solutions facing the Airport to meet demands and achieve goals.

Question applies to Airport Commission

**What can the Airport do to balance its obligations as a “good neighbor” and as a world-class international airport for Silicon Valley? If there is a conflict in achieving an appropriate balance, how would you resolve it?**

---

I believe the airport continues to expand services and public good will by providing the best comprehensive services and safety to the public. Resolving any conflicts is always a matter of reviewing and consideration of all aspects of the situation then making a positive, equitable and responsible decision on behalf of the airport and the public it serves.

Question applies to Airport Commission

**What can the City of San José and the Airport do to engage Silicon Valley business leaders and other communities to support the Airport's efforts to increase air service and add routes to SJC? What can you do personally to help achieve this goal?**

---

The Airport continues to expand services as well as bringing new Airlines (and services) to the Airport. This is extremely important and positive for the public as is the quality of service, and the safety and security the Airport provides for San Jose. I can personally help achieve this goal by participating in all activities involving the airport (that include the public) and participate in inaugural celebrations and flights as often as possible; and, lastly, to spread good will and information about the airport and its services to the public as often and as much as possible.

**I would like to say . . .**

---

It is my wish to continue to serve on the Airport Commission. I have enjoyed my previous term and hope to continue. I am passionate about the Airport, and support it in every way I can both personally and as a Commissioner representing District 3. I appreciate consideration of my application.

---

Examiner, National Board of Examiners, Malcolm Baldrige National Quality Award (Framework for Performance Excellence); 2015 & 2016. Expert Reviewer, California Board of Medicine, from October 2015.

**What is your understanding of the purpose of the Commission?**

---

The Airport Commission provides advisory role to the City of San Jose Council as well as the Director of Aviation on issues relating to the City's International Airport. The Commission is also charged with investigating and reviewing issues relating to the Airport.

**Please list three issues facing the City that you feel the Commission should address.**

---

Customer Experience. Appropriate Training and Disaster Preparedness. Affordable Aviation Training for City Residents and youths.

---

Question applies to Airport Commission

**What are the three most critical challenges facing Mineta San Jose International Airport in the next five years? What do you bring to the table in terms of experience, expertise, or perspective to help address these challenges**

---

Increasing Travelers' Number. Space/Expansion Limitations. Limited Routes. Expertise in Baldrige Performance Excellence Framework Training. Business and Strategic Planning Experience.

---

Question applies to Airport Commission

**What can the Airport do to balance its obligations as a "good neighbor" and as a world-class international airport for Silicon Valley? If there is a conflict in achieving an appropriate balance, how would you resolve it?**

---

The best way to resolving such conflict is understanding what the conflict is all about in the first instance. Doing the root-cause analysis always help in addressing both the instigating and contributing factors, taking stakeholders' concerns into consideration, addressing those concerns, and coming to a win-win resolution.

Question applies to Airport Commission

**What can the City of San José and the Airport do to engage Silicon Valley business leaders and other communities to support the Airport’s efforts to increase air service and add routes to SJC? What can you do personally to help achieve this goal?**

---

My Approach will be framed in form of Community (Silicon Valley Business Leaders) Engagement through a variety of activities and improved and targeted communication. Another Approach I will deploy is understudying their business needs, and see how those needs can be aligned alongside the services that the City Airports can provide.

## Special Awards or Recognitions Received

---

Special Recognition award serving as the Traffic Appeals Commission from the City of San Jose. Excellence in Partnering award (twice) for safety improvements on Rte 17 and the widening of Rte 101 projects awarded by the State of California. Dedicated Community Service award from the Sikh Temple San Jose. Contribution and Promoting Sports award from the Bay Area Sports Association.

**Please state why you want to become a member of this Board or Commission including specific objectives which you would work toward as a member. If you are applying for the Board of Fair Campaign and Political Practices, please indicate any familiarity or experience you may have with campaign laws.**

---

As a Board Member, I will utilize my educational background and technical experience to help the City, airport staff, stakeholders, and the Public to make the San Jose Airport an ideal place in the nation. I have experience in dealing with the public, participating in public meetings for upcoming construction projects, and working with the homeless populations issue. I have also conducted various public meetings to address any noise and environmental issues. I will work to ensure that decisions are based on merit and all are treated equally regardless. I will listen to the needs and voices of the public to make for a smooth and fair experience at the Airport. In this position, my presence will advance both diversity and representation of the Sikh community within the South Bay Area. I will strive to ensure a prompt response for any emergency incident or accident, as well as improve the scheduling of flights to reduce airport congestion. Additionally, I will accommodate passengers by developing attractive lodging near the vicinity of the Airport.

**Please state any other information which you feel would be useful in reviewing your application**

---

I have exposure to working closely with cities, local agencies, and stakeholders to promote partnering techniques. I played a major role as a team member in analyzing and solving the issues of transportation projects in a timely manner. My previous experience working with the city as a Traffic Appeal Commissioner, will provide me with the necessary skills to deal with any issues the San Jose Airport will face. I have broad experience in leading fundraising events for both community needs and projects at the Sikh temple, as well as setting up new business ventures.

Supplemental Questions

Have you ever attended a meeting of the Commission(s) to which you are applying?

☒ Yes ☐ No

Would you be available to attend meetings at the scheduled time?

☒ Yes ☐ No

Please describe your experience in serving on a Commission or Board.

Prior, I made appropriate decisions after listening to the community's concerns by visiting sites and taking into consideration the safety and the surroundings through my position as a Traffics Appeal Commissioner. I learned how to properly coordinate with other commission members and how to correctly prepare one's self before meetings and presentations. I have also gained a broader perspective and more confidence by serving as a volunteer for non-profit organizations through my time.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

Serving as a member of the Traffic Appeals Commission, I learned how to properly address and solve conflicts facing the community. From partnering with various departments, non-profit organizations, public entities, and the communities, I gained the knowledge of how to listen to others and work as a team player. After successfully completing the more than 35 million dollar temple projects as the Chairperson of the Construction Committee of the Sikh Gurdwara, I am more competent and confident for future community projects.

## What is your understanding of the purpose of the Commission?

---

To listen to the community to promote growth. To act as a team member to minimize the delays and complaints from the public. To analyze the issues and find reasonable solutions for the unions, employees, stakeholders, and visitors. To ensure a friendly facility with safe operations. To coordinate with City staff to promote the attraction to the airport and to promote ideas from other airports to generate more revenues. To discuss potential issues in advance to avoid any possible conflicts for a safe atmosphere.

## Please list three issues facing the City that you feel the Commission should address.

---

Homeless Populations Traffic Congestion Dwelling Shortage

---

Question applies to Airport Commission

## What are the three most critical challenges facing Mineta San Jose International Airport in the next five years? What do you bring to the table in terms of experience, expertise, or perspective to help address these challenges

---

Noise and Pollution Control - Promote clean air vehicles and encourage use of modern planes with less noise pollution. Traffic Congestion - Acquire additional Right-of-Way for airport expansions to reduce congestion, construct underground parking lots, connect light rails/BART, and further VTA shuttle services. Security and Safety - Increase use of modern technology throughout the Airport (surveillance cameras, sensors, alarms) and properly train staff for airport security and safety. Through my experience as a transportation engineer and community service, I can help make this vision successful.

Question applies to Airport Commission

## What can the Airport do to balance its obligations as a “good neighbor” and as a world-class international airport for Silicon Valley? If there is a conflict in achieving an appropriate balance, how would you resolve it?

---

To improve the Airport's reputation as a "good neighbor", we can partner with Silicon Valley businessmen and women to contribute funds to make the airport environmentally friendly. We can achieve this through the use of modern fuel efficient planes and clean-air vehicles for transportation. If there is a conflict in achieving an appropriate balance, I will hold and conduct regular meetings with neighbors and Silicon Valley companies for their input to secure their concerns.

Question applies to Airport Commission

## What can the City of San José and the Airport do to engage Silicon Valley business leaders and other communities to support the Airport's efforts to increase air service and add routes to SJC? What can you do personally to help achieve this goal?

---

The City can hire a reputable consultant firm with their expertise to give presentations to Silicon Valley business leaders and other community leaders to brief them on the issues the community faces as well as the ideas on how to implement and improve air services. The invested funds can be generated by Silicon Valley business leaders which can be then be returned through the revenue on a term basis. Personally, I will communicate with community leaders and business leaders known to myself. Also, through regular round table meetings and coordination with the consultant firm, I can utilize my educational and technical experience to increase air service and add international and domestic routes to SJC.

**I would like to say . . .**

I will serve the board with dignity. I will use my technical experience and partnering techniques to make the best decisions for the city and the public.

## Supplemental Questions

**Have you ever attended a meeting of the Commission(s) to which you are applying?**

☐ Yes ☒ No

**Would you be available to attend meetings at the scheduled time?**

☒ Yes ☐ No

**Please describe your experience in serving on a Commission or Board.**

I served as the District 9 representative on the City of San Jose Envision 2040 General Plan 4-year review 2014

**Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).**

In my combined 38 years working within both the Public and Private Sectors, my experience includes Civil Engineering (City of San Jose Public Works), Land Development / Project Entitlements and Construction Management, Position(s) on the aforementioned Non-Profit Boards and holder of a Private Pilot License/Single Engine Land (not current). With this experience, I have significant transferable knowledge in City/County Land Use, Environmental/CEQA process, Community Outreach/Public Process, Budget/Finance and Aviation Principles and Practices, which will provide a solid skillset for this position as a member of the Commission.

**What is your understanding of the purpose of the Commission?**

The Commission is a recommending body to the San Jose City Council that engages in the Planning and Implementation of both the Operation(s) and Infrastructure of Mineta International Airport in keeping with the Policies, Goals and Objectives as directed by Council.

**Please list three issues facing the City that you feel the Commission should address.**

1. Opportunities and Options for sustained growth - 2. Flexibility/Creativity to address future growth and community impacts - 3. Managing Fiscal Priorities

---

Question applies to Airport Commission

**What are the three most critical challenges facing Mineta San Jose International Airport in the next five years? What do you bring to the table in terms of experience, expertise, or perspective to help address these challenges**

---

1. Airport Expansion Needs/Impacts 2. Local/Regional Multi-modal alternatives to SJC 3. Maintaining funding/schedule for high priority infrastructure such as Fire Station, additional gates etc. I am confident that with my Technical background, Project Entitlement/Construction Management experience, together with demonstrated success in years of working with many Local, Regional and State agencies, Community groups and Stakeholders, I will be able to add value in addressing these challenges and assist in identifying, evaluating and recommending beneficial solutions.

Question applies to Airport Commission

**What can the Airport do to balance its obligations as a “good neighbor” and as a world-class international airport for Silicon Valley? If there is a conflict in achieving an appropriate balance, how would you resolve it?**

---

It is our obligation to communicate, educate and facilitate the "Vision" for the future and clearly define both the impacts and the major benefits to the local, regional and international communities. With an acknowledgement of issues/impacts and a commitment to listening, understanding and acting to address them, I believe the overall benefits of being/providing a world-class international airport will be apparent and gain community/neighbor enlistment. Despite all good intentions and efforts though, there will always be a level of conflict regarding what is an appropriate balance depending on ones perspective. In those cases, we need to redouble efforts to deal with the negatives and accentuate the positives in a tangible way.

Question applies to Airport Commission

**What can the City of San José and the Airport do to engage Silicon Valley business leaders and other communities to support the Airport's efforts to increase air service and add routes to SJC? What can you do personally to help achieve this goal?**

---

I believe the Commission, as well as its individual members, are the perfect ambassadors to provide outreach with various Silicon Valley/Greater Bay Area stakeholders to gain support and help further our goals. Continued dialogue showing our excitement for the future and sincere interest in how we can and/or continue to meet the needs of Silicon Valley and surrounding communities is essential in this regard.

**I would like to say . . .**

---

I greatly appreciate the opportunity to be considered for the position of Airport Commissioner for the City of San Jose/SCJ and look forward to fully serving the City and my community in this capacity if selected. Thank you for your time and consideration.
