Please state why you want to become a member of this Board or Commission including specific objectives which you would work toward as a member. If you are applying for the Board of Fair Campaign and Political Practices, please indicate any familiarity or experience you may have with campaign laws.

As a member of the Planning Commission I would be able to share my experience and skill set with a diverse set of members in order to arrive to fair recommendations and equitable outcomes for our residents, business community, and other key stakeholders. Some objectives I would aim to achieve are: 1) Listen and ask questions that push for deeper analysis of issues and patterns; 2) Lead with an open mind and offer my perspective to complex issues; 3) Work to foster a collaborative environment that is centered around equitable and sustainable practices.

Please state any other information which you feel would be useful in reviewing your application

Moreover, I am interested in serving on the Planning Commission so I can offer my experience and input on the ongoing efforts to establish a more fair and equitable San Jose for all its diverse residents. As a public school administrator I have deep experience in aligning local, state, and federal priorities to meet the needs of diverse community members and state and federal accountability measures and regulations. Every day I leverage local, state, and federal policy in a meaningful way so it positively impacts our local schools and community. I feel I can bring the same amount of care and impact to the current and future work being done by the Planning Commission.

Please describe your experience in serving on a Commission or Board.

I have sat on the Citizen's Bond Oversight Committee for the East Side Union High School District as a member and New Leaders Council of Silicon Valley as a Board Member. I am very familiar with working collaboratively, following Roberts Rules of Orders, and ensuring the organization's vision is honored and carried out to the best of my ability.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

Some of the professional skills I would bring to the Planning Committee include being a skillful listener, collaborator, mediator, communicator, innovator, critical thinker, and champion of the greater vision. I can identify issues impacting key stakeholders (residents, families, businesses, labor, community members, etc.) and seek out resourceful ways to best approach and deal with every situation. In doing so, I put the individuals I work with and for at the center of my work and build policies and systems that support their success.

What is your understanding of the purpose of the Commission?

Commissions are set up to review specific items, discuss important related matters, and provide independent recommendations to the San Jose City Council. As part of their work, they have an important role by being visible in the community and offering a range of ideas into the process.

Please list three issues facing the City that you feel the Commission should address.

1) Affordable Housing 2) Zoning 3) Transportation

As a young child, I immigrated from the Philippines to San Jose. I've lived in the East Side, the Rosegarden, North San Jose, Berryessa, Japantown, Downtown, South San Jose, and now, Willow Glen. I love this city. I have seen it grow from orchards and fields, to rows and rows of the most powerful and innovative companies in the world. As a single mother of two teenagers, I have had to ride the economic waves, through two dot com busts, 2008, and, now, this period of growth and outward prosperity. It's important to me to recognize that not all San Joseans are affected positively by the many changes happening to our city, and that people of all economic backgrounds are able to not just survive, but thrive. I would work to find balance and equality for those of us who are low-middle income - even some of us in 6-figure households still scraping by.

I want to serve on the Planning Commission because I would like to serve my city in making land use decisions that are aligned with the City Council's goals and objectives as set forth in the General Plan.

Please state any other information which you feel would be useful in reviewing your application

As a district 5 resident, I feel that it is critical that the Planning Commission have experienced viewpoints from throughout the City. In doing so, it allows for all residents to feel that their point of view is understood when coming before the Planning Commission. My desire to become a member of the Planning Commission is driven by the fact that this is the City where I am raising my family.

Please describe your experience in serving on a Commission or Board.

Having served on several commissions throughout my career, I am well aware of the role of a commissioner in relation to his/her colleagues, and the San Jose City Council. The chief role of a commission is to interpret the policies, as codified by the San Jose City Council, in a manner that preserves the intent of the General Plan. The role of Planning Commissioner is quasi-judicial, not policy setting. Decisions made at the Planning Commission must maintain and preserve the current GP.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

From a credentialing stand point, having a law degree and real estate license (not active) provides me with both the real world and academic experience required to interpret city policies. Having served as a staffer to a San Jose Councilmember, I have extensive experience working with City staff and understand first hand many of the challenges they face in their quest to provide a high level of service to San Jose residents and business owners. As a business owner, I understand the value of adhering to guiding principles as it is through this adherence that a business is able to thrive. The General Plan provides the guiding principles for the City of San Jose. Adhering to them ensures that the City's land use policies are implemented in a manner that is consistent with the city council's vision for San Jose.

What is your understanding of the purpose of the Commission?

The purpose of the Planning Commission is to make land use decisions that are aligned with the City Council's goals and objectives as set forth in the General Plan.

Please list three issues facing the City that you feel the Commission should address.

As a Planning Commissioner, the top issue that the Commission must always address is adherence to the General Plan. Given that the Planning Commission, in my opinion, is a quasi-judicial body, it is best that I not provide my opinion on issues that I believe the Commission must address as doing so would demonstrate a personal viewpoint which could taint the decision making process if an issue is brought before the Commission during my service.

Question applies to multiple boards

I would like to say . . .

This is an exciting time to be a resident of San Jose. Your revitalization of the Downtown corridor, as well as, other major projects throughout the City have provided San Jose with the opportunity to truly elevate itself to world-class status. As a proud resident, I make it a point to support major events that visit our city.

The Planning Commission is an integral part of local government, and in my previous roles in local government, I have witnessed the impact of historical land use decisions have on communities and individuals. I want to be part of the Planning Commission to ensure that the recommendations made by the Commission to the City Council are balanced, data driven, and take into consideration the impacts of new development and general land use decisions on communities of color and under served communities throughout our city. Additionally, I would like to see land use decisions that continue to preserve open space, increase density and promote public transit usage throughout the valley, while ensuring the economic vitality of our City.

Please describe your experience in serving on a Commission or Board.

City of San Jose Project Diversity Commissioner, 5/2007 – 2008 From 2007 to 2008, I served on the City's Project Diversity Commission which aimed to improve the representation of commissioners from the various council districts, as well as improve gender and racial diversity on the boards and commissions of the City of San Jose.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

City of San Jose Project Diversity Commissioner, 5/2007 – 2008 From 2007 to 2008, I served on the City's Project Diversity Commission which aimed to improve the representation of commissioners from the various council districts, as well as improve gender and racial diversity on the boards and commissions of the City of San Jose. East Side Union High School District Citizen's Bond Oversight Committee, 2013 – 2017 Board Chair, 2016 & 2017 In 2013, I was appointed by the East Side Union High School District Board of Trustees to serve on the Citizen's Bond Oversight Committee (CBOC). The CBOC is responsible for the oversight of various voter approved bond measures which exceed \$100 million dollars and are generally used to improve the physical plant of the schools within the district. The Committee executed its duties by reviewing the outside audits of bond measures expenditures, reviewing the progress of construction activities at various schools within the district and meeting quarterly with district and consult staff who operated the bond measure program. I was elected to serve as Board Chair for two consecutive years and was responsible for setting the agenda and running the CBOC meetings. This experience gave me a unique perspective on the the various neighborhoods, schools, tax and bond issues for an area that covers Berryessa to Santa Teresa, east of the 101 freeway. My current role as the Deputy Director of Probation Administration is an executive level position that oversees the Justice Planning Services Division of the County of Santa Clara Probation Department, which include the following units/programs: Research & Development, Contracts and Grants, Neighborhood Safety, Evidence Based Practices, and Juvenile Violence Reduction. The Justice Planning Services Division achieves system transformation from within using a race equity framework to develop timely reports that are used to drive decision making, implement and monitor evidence-based practices, and ensure quality, community-based services and supports to address our client's needs, therefore creating positive change in our clients, families and neighborhoods. I currently manage six direct reports, and 20+ FTEs across the JPS teams. I act as a liaison between the Board of Supervisors and the department. I manage several cross-system collaborations and county/city wide initiatives on behalf of the department. I am the departmental public information officer, responding to California Public Records Act requests, monitoring news media for stories related to the department and working collaboratively with the County Office of Public Affairs to proactively highlight the work of the department. In my role, I oversee the development and implementation of programs and services that are geared toward reducing racial/ethnic disparities in the criminal justice system. I proactively provide professional development and leadership opportunities for direct reports and teams and help to develop and implement trainings on county processes for the department. I regularly report to the Board of Supervisors on the activities of the Probation Department and provide data reports focused on the following results-based measures: How many clients did we serve? How well did we serve them? Is anyone better off? As the Deputy Directory, I helped to develop a five-year strategic plan for the Juvenile Services Division. The following goals will be achieved through the strategic plan: Enhanced Understanding of the Goals and Philosophy of the Department; Increased Trust & Engagement in the Juvenile Justice System; and Enhanced Youth Experience in the Juvenile Justice System.

What is your understanding of the purpose of the Commission?

The Planning Commission role is specific to making recommendations related to land use decisions within the confines of the City of San Jose. The Commission makes recommendations to the City Council related to updates and amendments to the General Plan, future redevelopment or development, and land use regulations related to zoning and subdivisions. The Commission is also responsible for making recommendations related to the Capital Improvement Plan and serves as an appellate body on certain Planning Director decisions.

Please list three issues facing the City that you feel the Commission should address.

The Commission should make recommendations that increase the availability to affordable housing within the city limits, including addressing issues of displacement related to the high cost of living, issues of homeless, and economic growth within the Bay Area. Recommendations should be balanced so that the city can maintain or increase green/park/open space in under-resourced neighborhoods, while preserving existing open space in the Coyote Valley, as is practical and maintains the economic viability of the city. Ensuring new growth exists with increased access to transportation hubs so that the city can thrive in an environmentally responsible way, that increases the quality of life of its residents.

Question applies to multiple boards

Do you meet the requirements for appointment to this commission?

☒ Yes ☐ No

I would like to say . . .

With over 17 years of public service experience, I have been able to observe and interact with residents from all facets of life in the City of San Jose and the broader area of Santa Clara County. This experience in both politics and public policy has given me a unique perspective on the needs and issues facing city residents. Through my various roles in the criminal justice system, I have witnessed the impact of historical land use decisions on our clients and their families. As a lifelong resident, I have dedicated my personal and professional life to improving the lives of our residents. I see an appointment to the Planning Commission as a way to continue to give back to the community that I has given me so much and allowed me to thrive. Additionally, I am a firm believer that representation matters and as a woman of Latino descent and both a home owner (District 5) and renter (District 3), I would bring a unique voice to the commission.

I have a strong interest in the future of San Jose and believe we are at a critical point in which land use decisions will determine the future economic vitality of our region. Having worked in public policy in San Jose for most of my career, I have a strong desire to not only see the best decisions made and goals achieved, but to also be a part of the process. With my background and knowledge I feel a certain duty to find a way to be a part of this process, and will work to uphold the adopted general plan, and associated policies, that road map the future of San Jose.

Please state any other information which you feel would be useful in reviewing your application

My background, academic and professional, includes a good deal of experience in land use. At SJSU I even had classes taught by city staff in land use, and have worked on many complicated land use issues while in D7 (Comm Hill, 2500 Senter, etc.). This will give me unique insight and ability to not just technically evaluate issues, but to also anticipate and respond to community/neighborhood concerns.

Please describe your experience in serving on a Commission or Board.

I have not served on a city commission or board. I have served on and staffed a number of non-profit and volunteer commissions and boards.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

I have experience working with a number of stakeholders and interests related to land use. My current position requires me to work with city councils, and planning commissions, across our county and would provide me with unique insight into not just how other cities are dealing with land use issues, but to also have a regional point of view on how large land use decisions impact Silicon Valley. This experience goes from present all the way back to when I first moved to San Jose and managed the land use and infrastructure committee at the San Jose Chamber of Commerce. However, much of my experience comes from working directly with neighborhood organizations, and stakeholders when dealing with large land use and permitting issues in District 7.

What is your understanding of the purpose of the Commission?

To evaluate land use decisions and applications for consistency with General Plan and city policies. I generally feel it is the commission's role not to make policy, but to ensure that the General Plan is adhered to and the city's land use goals achieved.

Please list three issues facing the City that you feel the Commission should address.

**The planning commission does not set city policy, but does play a large role, especially when GP revisions are being considered every few years. I believe I will be the most interested in a pro-housing agenda, and frankly work on how we can create more housing on a daily basis. I doubt there are many other candidates that have stood in a room full of angry homeowners and yelled and screamed at when telling them supportive housing isn't full of sex offenders and violent felons. I have done this multiple times. The challenge San Jose faces is balancing solutions to a severe housing crisis with a need to make land use decisions that promote fiscal responsibility. However, I wouldn't suggest it is the PC role to make policy decisions on these issues. When evaluating issues that do come before the planning commission it is important to evaluate them for 1)consistency with general plan 2)adequate mitigation of environment impacts (including traffic, noise, environment, etc.), and 3)ensure any proposed amendments to the GP are consistent with council policy and the city's strategic vision.

Question applies to multiple boards

Do you meet the requirements for appointment to this commission?

☒ Yes ☐ No

I would like to say . . .

I really am interested in serving because of my desire to be a part of San Jose in some way, and believe the planning commission would be the best use of my experience and knowledge...I just want to be involved in good policy, and be part of making a future San Jose a place people can live, and place people want to be.

I've resided in San Jose for nearly 40 years and I am intimately aware of its strengths and weaknesses. As a graduate student studying Urban Planning, I examined the historical decisions that continue to influence San Jose today. I have studied the housing to jobs imbalance and delved deeply into the affordable housing crisis. Additionally, as a Real Estate Attorney (with no clients in San Jose or prospects of working with San Jose real estate clients) I am well-versed in the inner workings of real estate.

Please state why you want to become a member of this Board or Commission including specific objectives which you would work toward as a member. If you are applying for the Board of Fair Campaign and Political Practices, please indicate any familiarity or experience you may have with campaign laws.

As a holder of a Master's Degree in Urban Planning, I have studied all facets of planning/land use. Through my studies and hands on experience as a past Land Use Consultant, I have gained an immeasurable amount of knowledge about the City of San Jose's planning goals, land use and government structure including both its challenges and its successes. In my current role as Senior Housing Policy Analyst, I am well-versed in the challenges our City and County face in providing and accessing affordable housing. I am often tasked with resolving difficult housing access issues and would use the knowledge I have gained and continue to foster to increase access and the construction of affordable housing in San Jose. From my experience as a County Planning Commissioner, I would like to apply my practical and studied knowledge to help shape our City in revitalizing key areas, green building, zoning, preservation (both historic and ecological) and in the social planning aspect of our downtown core to provide for a more social and economically vibrant hub of activity. I am intensely interested in continuing to help shape and grow affordable housing as a Planning Commissioner providing thoughtful and practical knowledge to policies, projects and private/public housing collaborations. I am also interested in working toward a more socially planned city that is inclusive of all ages and uses while maintaining the integrity of the City and the needs of its residents. Further, my interest in historic preservation and the value of maintaining said structures through re-use/rehabilitation is also of great importance and something I would work toward as a Planning Commissioner.

Please state any other information which you feel would be useful in reviewing your application

I am currently a Planning Commissioner for the County of Santa Clara and would relish the opportunity to serve my City in this same role. Serving the City of San Jose as a Planning Commissioner would allow me to narrow my focus on planning issues unique to San Jose, its growing population and identity as the economic, political and cultural center of Silicon Valley.

Please describe your experience in serving on a Commission or Board.

I have served and continue to serve on various Boards and Commissions, both political and community. As a Board Member/Commissioner, I am tasked with making decisions that reflect the best interests of the organization/entity/party that I am serving. In this neutral capacity, I have addressed leadership, planning, community, political and gender issues while maintaining the integrity and values of the organization. Through my service to others via Boards and Commissions, I have found that I am more aware and aligned with the direction, growth and values of my community and am encouraged to remain engaged in the work at-hand as well as in determining the future course of each of the organizations and bodies of government that I serve.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

I hold a Master's Degree in Urban & Regional Planning from our local University, San Jose State. I have hands on experience in working on urban planning issues through my involvement with Communitiversity (and as part of the curriculum) in the Five Wounds Neighborhood, the Downtown Core, Redevelopment issues (legacy) and Alviso. As a former Land Use Consultant, I have worked on and brought several matters before the Planning Commission for my clients that involved but was not limited to: zoning, conditional use permits, parking, easements, small development sites and historic property re-use. As a sitting County Planning Commissioner, I review and make decisions on a wide variety of planning issues, appeals, policies and permits, most notably, Stanford University lands. My fellow Commissioners and I are currently in the process of reviewing the Environmental Impact Report (EIR) for Stanford's 2018 General Use Permit Application. The application is for the development entitlement for the next phase of campus land use on Stanford University to extend through the year 2035. These experiences have allowed me to gain an immeasurable amount of knowledge about the City of San Jose and the County of Santa Clara's planning goals, land use and government structure and provide me with the experience and hands-on training that qualify me for an appointment to the Planning Commission.

What is your understanding of the purpose of the Commission?

The role of the Commission is to advise and/or make recommendations to the City Council on land use and development regulations to include zoning and subdivision, capital improvement projects, use permits and the certification of Environmental Impact Reports (EIR). The Commission is responsible for all matters related to the physical development of the City of San Jose.

Please list three issues facing the City that you feel the Commission should address.

1. Affordable Housing/Inclusionary Zoning: Continue to utilize inclusionary zoning to promote mixed income communities and equitable growth for all residents. Bring/approve economic opportunities in areas that already have a high concentration of affordable housing and have access to public transportation.
2. Smart Growth: Under the guise of smart growth in the City of San Jose, the Commission should support existing communities through the redevelopment of underutilized sites, enhancing economic competitiveness, providing more transportation choices, developing livability measures and tools, promoting equitable and affordable housing, providing a vision for sustainable growth, aligning, coordinating, and leveraging government policies and making the development process transparent.
3. Building and Maintaining a Comprehensive and Viable Downtown Core: Using the character of the Core to re-position it to respond to contemporary market challenges and opportunities through the combination of private and public efforts. Encourage the development of weekend, evening and night uses for all demographics to eliminate empty blocks and store fronts after traditional business hours end. Approve uses relevant to those living in the Core's High Rises and surrounding neighborhoods (Hensley, Naglee Park, Japantown, Luna Park, etc.) i.e., light retail, dry cleaners, cobblers.

At the heart of the Planning Commission beats the Envision San José 2040 General Plan, which has been carefully crafted by City and Community leaders to ensure focused growth in all areas to build a "City of great places." I want to be a Planning Commissioner because I am committed to the implementation of the General Plan and my ideals line up with its points of emphasis, specifically improving our jobs to housing ratio, protecting our environment, maintaining the integrity of our commercial/industrial lands, and increasing the supply of housing within our borders.

I love San José and I believe in our Mayor, Council, businesses, and our residents who all call our city home. I wish to contribute and serve on the Planning Commission because I want to serve and give back as a way of saying thank you to everyone who has helped me get through the difficult times in my life. This is for my daughter, for my wife, our neighbors, our businesses, and our future generations. We are on the cusp of making San José one of the most incredible cities in the world and I want to do my part to ensure that happens.

Please describe your experience in serving on a Commission or Board.

I recently served as the previous Vice Chair of the San José Neighborhoods Commission. -- I currently serve as the representative for the District 7 Leadership Group on the Community Working Group for the California High-Speed Rail Authority.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

I have the experience and the qualifications to be a Planning Commissioner. I earned a degree in Mechanical Engineering and have worked as a project manager, a systems integrator, and a small business owner so I understand successful project implementation. My life has been very challenging and unique, which has awarded me opportunities of deep self-reflection to better understand what I am capable of and what I want to accomplish. I became disabled in motor vehicle accident in 2009, which abruptly stopped the career path I was on and my life as I knew it. I have been disabled due to the injuries I sustained during that accident. My disability does not define who I am, and I have actually found that it enhances me in a way which differentiates and strengthens who I am.

My disability is what helped me become active in my Community, it helped me find my wife, it gave me a new sense of purpose, and it has helped me see a situation from multiple points of view. This helped me found the Senter Monterey Neighborhood Association, The District Seven Leadership Group, and led to my application and appointment to the San José Neighborhoods Commission, where I would serve as Vice Chair. These experiences led to a run for City Council last year, which was one of the most amazing experiences in my life, namely because of all the wonderful and amazing people I was able to connect with and understand while on the campaign trail.

I love digging down into the details and understanding how all things work. I break down complex ideas into simple ones so that the average person can understand them. When I asked my Neighborhood Association what "vesting tentative map for two airspaces" meant, not one of the over 100 attendees knew. It was the same for "CUP," "PQP," "CEQA," and more. I realized there was a communication breakdown between noticing and the average reader and I helped them understand what these terms meant and how they affected our residents.

Understanding the residents' feelings and points of view is of paramount importance on the Planning Commission, especially when a controversial project is brought before the body. If this project meets all the criteria of the General Plan, meets all other policies, and has the recommendation of staff, it should be approved, regardless of my personal feelings or the concerns of a small group of individuals.

Controversial projects that are in conformance with the General Plan should be approved with the advice to Council emphasizing the areas of public concern. Being able to relate with the residents affected by the project, assuring them that I have gone through the requirements one-by-one, investigated all areas of concern, questioned staff reports and findings, and that I sympathize with their position will show that the Commission is performing its role. They may not like outcome, but at least they know the process works and that the Planning Commission is not a rubber stamp step along the way to approval.

District 7 has not had a representative on the Planning Commission for many years and I believe it is important that the next member of this Commission come from my district due to the incredible opportunity and availability of developable land. A Planning Commissioner does not represent one District, they represent the entire City, including the good of the overall Community and I am committed to building a "City of great places."

What is your understanding of the purpose of the Commission?

The purpose of the Planning Commission is to serve as an advisory body to the City Council on all applications and proposals brought before it. Applications generally involve land use, redevelopment, zoning, subdivision, Capital Improvement, and more. The Commission ensures that these projects comply with the San José 2040 General Plan, certifies Environmental Impact Reports when needed, and follows all other applicable policies and guidelines. The Commission will serve as an appellate body on some decisions.

The text from the Planning Commission Website reads the following: "The Planning Commission has the responsibility of making recommendations to the City Council on: • Adoption or amendment of the General Plan and specific and redevelopment plans for the future physical development of the City; • Adoption or amendment of land use and redevelopment regulations, including zoning and subdivision; • Adoption of the Capital Improvement Program; and • Other duties as provided by the City Council. The Planning Commission also: • Acts as an appellate body on certain Planning Director decisions. • Certifies Environmental Impact Reports"

Please list three issues facing the City that you feel the Commission should address.

I believe that the three issues facing our City which the Planning Commission should address are: -- 1. Increasing the jobs to housing ratio to increase the tax base to improve our City services. -- 2. Increasing the supply of housing in new applications and proposals to increase density along public transit to make prices more affordable while maintaining our existing commercial and industrial land. -- 3. Updating and revamping City outreach and noticing policies for our residents (ex: the latest update to Policy 6-30 was in 2004, prior to marijuana legalization, and is missing the reference to Matrix B).

Question applies to multiple boards

Do you meet the requirements for appointment to this commission?

☒ Yes ☐ No

I would like to say . . .

Thank you for considering my appointment to the Planning Commission. I believe we as a City are our strongest when we can unite as equals. When our residents can afford to live here and when our City can afford to provide the services and resources we need to continue to grow into the amazing place San José will become for my daughter and her children. The Envision San José 2040 General Plan has the framework to make this happen and I am committed to implementing this policy and the wishes of the City Council as a Planning Commissioner to ensure that it does.

Question applies to Clean Energy Community Advisory Commission

Given the small number of committee members, having a quorum is essential. Please describe your ability to make a commitment to attending and actively contributing to the committee (The committee will meet at least quarterly and in the evenings, but may meet more frequently in the early stages)

As a member of many committees and social groups operating under parliamentary procedure (or Robert's Rules), I wholeheartedly understand the importance of quorum. If you can't vote on business, why even meet?

I would like to say . . .

I've lived in San Jose all 23 years of my life except the 4 I spent in Chico at school and would like to give back to the community that raised me.

Please state why you want to become a member of this Board or Commission including specific objectives which you would work toward as a member. If you are applying for the Board of Fair Campaign and Political Practices, please indicate any familiarity or experience you may have with campaign laws.

The Housing and Community Development Commission has a particular soft spot for me. First, I am resident and renter in San Jose and experience first hand the struggles of the rental market. Second, I have worked in real estate law since 2010, and I have dealt with hundreds of clients in the Bay Area and San Jose specifically. I have witnessed the struggle of finding housing, keeping it, and being able to work and live in the area. I think my specific experience in landlord tenant law, having my "boots" on the ground, I can provide information on what the community is looking for and how we can avoid disputes in the area. No one wins when housing is an issue in the area. Further, regarding community development, I think it is essential for the overall culture of the City. There is a housing crisis in San Jose, and I'd like to volunteer my time to help remedy the problem.

Please state any other information which you feel would be useful in reviewing your application

I have a genuine compassion for the community of San Jose and have an interest in contributing to the overall well being of the City. Real Estate is my passion and I work in it every day. As a real estate lawyer, I at times see the negative side of housing and community development, and I think that first hand experience can help contribute to finding solutions to the problems hindering the City. I am open minded and a great team member, and am willing to work with people of all backgrounds and experience. I feel that the solutions necessary in the area would take a team effort and people working together towards a common goal.

Have you ever attended a meeting of the Commission(s) to which you are applying?

Please describe your experience in serving on a Commission or Board.

I have been a co-chair of the Palo Alto Area Bar Association-Real Estate Committee for just over a year. While my experience is limited in this regard, my experience in real estate is extensive. I have practiced in real estate exclusively for nearly 4 years, and I have dealt with hundreds of housing clients.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

I have been a real estate attorney in the area for nearly 4 years, and have kept myself apprised of real estate issues and law in San Jose specifically. Further, I frequently speak to and put on presentations in San Jose for Real Estate Brokers and Agents that deal with issues surrounding the City. I have also worked a lot with permitting and construction issues with the City, working through the permit and building process.

What is your understanding of the purpose of the Commission?

My understanding of the purpose of the Commission is that the Commission serves as a vehicle for the Community of San Jose to provide support, programs, and development that help improve the quality life for San Jose residents. Ultimately, the Commission's goal is to be innovative and creative in finding ways to improve housing and development that are sustainable for multiple generations. They also work as the governing body for issues affecting families around the City, providing solutions to issue that derive from the complexities of housing. The Commission is also an "opportunity creator" in my opinion, providing outside the box solutions by way of working together as a team.

Please list three issues facing the City that you feel the Commission should address.

1) Low-income housing: there is a major problem with the service industry. Many businesses are struggling to find employees that can afford to live in or around the area. Businesses are struggling because employees cannot afford housing in the area with the salary they make. 2) Rent control: I believe there are programs other cities have administered that San Jose can try and implement. For example, when there are landlord tenant disputes, having some kind of low cost or free mediation service to resolve the matter. While this comes at a cost, it saves a ton of court time and money down the road. Los Gatos has a good program that can be modeled after. 3) Perhaps consider expanding the Just Cause Ordinance to additional units. For example, many tenants are renting single family homes, it may be worth discussing extending the ordinance to those units. While it may bring heat from homeowners, the reality is that more and more renters are in those types of units, and protection is needed. I would be thrilled to contribute to any and all of these suggestions.

Question applies to Housing and Community Development Commission

What experience do you have with affordable housing issues?

I have experience primarily with helping clients locate affordable housing. Also, I've assisted clients with purchasing multi-unit properties wherein they planned to administer affordable housing. The funding and development process is a bit complicated, and I think I can contribute and perhaps make the process more attractive to builders.

I would like to serve my community by becoming more involved at a level I can contribute to. I work Full time but my youngest daughter is now completing her last year at UCLA, leaving me with time to be more active. San Jose public and private schools have given all of my children the foundation for being contributors to the community we live in. They have their careers now and my husband is fully supportive of my political, social or organizational involvement.

Please state any other information which you feel would be useful in reviewing your application

Please describe your experience in serving on a Commission or Board.

I have not served on government boards but I believe it would be similar to school boards. You need a passion for what is being discussed and offer solutions. Solutions are not always pleasing to all but being fair and considerate will get you far. Showing respect to all parties and hearing comments both favorable and unfavorable will be required.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

I am 1st chair in labor negotiations with UFW and UFCW for my workplace, experienced negotiator. These skills are transferable to dealing with decisions and comprises that will be needed for this position. I also have solid ethics and compliance training, train on preventing Sexual Harassment and Hostile work environments. I am fluent in English and Spanish and can translate verbally or written material. I am very culturally diverse having lived in San Jose for most of my life and being a California native.

What is your understanding of the purpose of the Commission?

To be responsible in assessment of a plan for the city that is fair and consistent with it's citizens needs. To control growth and projects to areas where the infrastructure can handle the changes. To look a the projects being proposed with all the stakeholders interest in mind. Making the best recommendations and decisions so that the future of San Jose is a bright one that will attract contributors to our economy and leave a lasting impact for the future generations to enjoy and benefit from.

Please list three issues facing the City that you feel the Commission should address.

1) Infrastructure with the rapid growth occurring 2) Cost of Housing, affordability (putting residents/service personnel first before inviting homeless into our community) 3) Building with safety in mind, respecting nature- Earthquakes, flood area, landslides, fire regions, water supplies.

San Jose is on a path of growth, and it's vital that we manage and direct that growth in a smart way. I want to serve on the Planning Commission because many important decisions need to be made about what, where, and how we build. As someone who cares deeply about the future of this city I want to have a voice in those decisions.

Please describe your experience in serving on a Commission or Board.

I have served on the Housing and Community Development Commission (HCDC) since August 2018. In my time on HCDC I've learned a lot about how internal city processes work, particularly in the housing and planning policy areas. HCDC has also given me experience hearing different, often conflicting, perspectives from different stakeholders, and having to weigh those wants and needs when making a decision.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

I am involved with the District 1 Leadership Group, which has given me perspective on the relationship between planning decisions and neighborhood issues, and how city planning affects the life of the average person.

What is your understanding of the purpose of the Commission?

My understanding is that the purpose of the Planning Commission is to advise City Council on planning policy and individual planning decisions at each stage of a propose project. I also understand that the Planning Commission has limited authority to act independently of City Council to issue some types of permits.

Please list three issues facing the City that you feel the Commission should address.

- Urban village development: While the City has adopted quite a few ambitious urban village plans, few projects have actually been built in those urban villages so far. I don't know enough to know why this is the case, but I would hope that there's something the city can do to better promote urban village development. - Walkability and sprawl: For much of San Jose's history, and particularly in the mid-20th century, we built out rather than up. That's given us a city that's geographically large but not particularly dense, and since public transportation only serves some parts of the valley well, it's difficult to traverse San Jose without a car. While there is progress in this direction, I'd like to see the Planning Commission continue to pursue policies that encourage vertical and walkable development. - Preservation: Compared to other cities in the Bay Area, and even across the country, San Jose has thus far done a good job of protecting undeveloped natural spaces, such as Coyote Valley. I think it's important to continue to preserve those spaces, and find a way to reconcile that with the city's development goals.

San Jose was my first landing spot in the Silicon Valley after moving from my hometown in the Central Valley of California. The vibrant, diverse community I found in San Jose was eye-opening and transformational for me personally. I have spent seven out of ten years living in the Bay Area in San Jose. I have long wanted to give something back to this community and I think this is a great opportunity to do that. If appointed to the Planning Commission my focus would be on transforming San Jose into an employment center while increasing the housing stock, with special care given to develop affordability and walkability within the city.

I have never served on a Commission or Board.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

At Silicon Valley Leadership Group in my short time as an intern I drafted policy memos and external communications to governmental bodies on housing and land use issues for projects developed within the Silicon Valley including the Apple Park HQ. My studies at SJSU in political science have primed me to analyze and get to the heart of long policy studies and then apply those findings to practical matters of the day. During my time at Arista Networks I have managed numerous projects which have required deep analysis and understanding of fundamental issues to address. I have excelled at getting results under severe time constraints with limited resources. I believe that my analytical abilities and cool-headed pursuit of policy goals would be of much use to the Commission and the City of San Jose.

What is your understanding of the purpose of the Commission?

My understanding of the Commission's purpose is that it serves as an advisory commission to the City Council on zoning and development matters. The Commission also serves as a body in which applicants can appeal planning decisions and the Commission can issue certain permits.

Please list three issues facing the City that you feel the Commission should address.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

As a Board Member of the Sherman Oaks Neighborhood Association in San Jose, I have worked extensively to serve the residents of our neighborhood in many ways. I have worked with officials from the City of San Jose, the County of Santa Clara, and the Campbell Union Elementary School District to provide meaningful and valuable programs for our residents. As President of the local chapter of the California Land Surveyors' Association. I have developed leadership skills including delegation, inspiration, and coaching.

What is your understanding of the purpose of the Commission?

The Planning Commission is required and established in accordance with the City Charter (Section 1000). The members are residents of the City of San Jose, appointed by the City Council. The Planning Commission has the responsibility of making recommendations to the City Council on: - Adoption or amendment of the General Plan and specific and redevelopment plans for the future physical development of the City; - Adoption or amendment of land use and redevelopment regulations, including zoning and subdivision; - Adoption of the Capital Improvement Program; and - Other duties as provided by the City Council. The Planning Commission also: - Acts as an appellate body on certain Planning Director decisions. - Certifies Environmental Impact Reports.

Please list three issues facing the City that you feel the Commission should address.

Streamlining and Simplifying the application process for small to medium sized projects. Homelessness as it affects the City of San Jose, surrounding Cities, the County of Santa Clara, and the entire bay area. Permitting of existing and proposed accessory dwelling units.

Please state why you want to become a member of this Board or Commission including specific objectives which you would work toward as a member. If you are applying for the Board of Fair Campaign and Political Practices, please indicate any familiarity or experience you may have with campaign laws.

I want to become a member of the Planning Commission because I want to have some involvement in the development of the city of San Jose. I was born and raised in San Jose. My entire family is here and San Jose is what I call home. I've spent my life working towards my career and now that I have complete stability in my role, I wanted to be more involved in the city I call home and I'd like to do this through this kind of volunteer work. My only objective in this commission is to learn more about the processes in city government while being involved in the development of this city.

Please state any other information which you feel would be useful in reviewing your application

I've attached my resume to this application. You will see that I'm a planner by occupation, which is extremely relevant to the role in the planning commission.

Please state why you want to become a member of this Board or Commission including specific objectives which you would work toward as a member. If you are applying for the Board of Fair Campaign and Political Practices, please indicate any familiarity or experience you may have with campaign laws.

Objectives that would drive my service are knowing the General Plan intimately so appropriate projects can progress, preserving open space and addressing the housing crisis. My first goal is to compare proposals against the General Plan and move them forward if they fit the city's objectives & goals. Secondly, growing up in San Jose in the 70's and 80's I witnessed the transformations of farmland, orchards, and vineyards into housing developments and shopping centers, so I value the preservation of open space, and value building smartly in urban spaces, and near transit so residents can still witness nature, reminiscent of the "Valley of the Hearts Delight". In addition to knowing the plan and preserving the Coyote Valley, hills and park space, my third objective is to support housing for all income levels. When my husband and I decided to raise our family here, my parents sold us their house at a discount. We could not have lived here on two teachers incomes (one is part time) if it weren't for subsidized housing from my parents. I believe people need to be motivated and work diligently to live in this valley, but that housing is a right and housing stock needs to be plentiful enough to welcome current and future workers, whether they be in the tech or service industries.

Please describe your experience in serving on a Commission or Board.

This would be my first time serving on a city Commission. I have served on the Blossom Valley Neighborhood Association Board continuously since 2008 and as President from 2008-2013. I also served on the Oak Ridge Home and School Club board from 2001-2018, and as President during the 2016-17 School year.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

What I have learned in each professional, organizational and social pursuit over the past twenty-five years has shaped me into a servant-leader, ready to assist the current Planning Commission & advise the City Council: Teacher--I taught children (6th, 1st and 4th grades) and managed classrooms in public schools in Washington D.C., rural Utah, the Navajo Reservation (Utah) and for the Department of Defense in Sasebo, Japan. Relevant Experience/Training/Knowledge/Skills: patience, compassion, grit, commitment, adherence to state curriculum (similar to General Plan), public speaking (presenter at Teacher Conferences in 1996 and 1998), collaboration with teachers and parents, time management, appreciation of people from diverse backgrounds, creative problem solving, listening to understand. Small Business Owner--I run a Parent Participation Pre-school in a Licensed Home Family Child Care setting (18 years): Relevant Experience/Training/Knowledge/Skills: more patience working with children ages 3-5 and their parents, ability to recruit and retain students/families, marketing, written and verbal communication, CPR/First Aid Training, Blossom Valley Neighborhood Association--I was the founder of the "Beautiful Yard Award" and later became the President. What is your understanding of the purpose of the Commission?

The purpose of the commission is to know the General Plan, advise the City council on development proposals and also grant some permits.

Please list three issues facing the City that you feel the Commission should address.

1. Housing for all income levels and the next generation 2. Maintaining open space 3. Invigorating low income communities

Question applies to multiple boards

Do you meet the requirements for appointment to this commission?

☒ Yes ☐ No

I would like to say . . .

For the past twenty-one years I have been focused on raising my four children and making a living by building my small business, but I have also allocated time to serve my local community. I will have a lot to learn about the General Plan as a freshman on the Planning Commission, just like when I was a first year teacher and needed to learn the curriculum, but my enthusiasm for San Jose, willingness to serve and research and hard-earned experience will enable me to contribute to the success of the commission and adherence to the General Plan.

I have been involved in land planning, civil engineering, and surveying for my entire career. I was previously a planning commissioner and public works commissioner for the City of East Palo Alto. Given the explosive growth in San Jose, I am excited to bring my skills, knowledge, and expertise into the planning process while advocating for more affordable housing, better traffic management, and more infrastructure improvements for the city.

Please state any other information which you feel would be useful in reviewing your application

I am very familiar with the EIR and land planning as well as working knowledge of drainage laws, real estate dealings, and city processes given that this is entirely within my career wheel house.

Please describe your experience in serving on a Commission or Board.

I previously served as a planning commissioner and public works commissioner for the City of East Palo Alto.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

I am a licensed Civil Engineer practicing the area of land planning, entitlements, civil engineering, and design. I have been involved in numerous projects throughout the Bay Area and I have a working knowledge of the EIR process, CEQA compliance, Agency permitting, and land planning.

What is your understanding of the purpose of the Commission?

The planning commission serves as a body addressing zoning, general plan, GP amendments, and project approvals within the City of San Jose. The planning commission has the opportunity to carry and implement the vision of the San Jose general plan as adopted by the city.

Please list three issues facing the City that you feel the Commission should address.

1. Projects coming to the city should take a closer look at the traffic impact analysis from each and every project as well as from a area-wide specific approach. Many projects are myopically reviewed without foresight. 2. Projects should be reviewed for economic reality for both public improvements and private improvements. There needs to be a better nexus when it comes to working with developers by taking into account public interest and developer's economic reality. 3. Affordable housing is a key component that should be incorporated into all projects.

Question applies to multiple boards

Do you meet the requirements for appointment to this commission?

☒ Yes ☐ No

I would like to say . . .

I have a strong working knowledge of land use planning and I have settled in San Jose after getting married as this is the city that we want to raise our family. We are tied to this community as well as our church family.

Starting in graduate school, I have been involved with land use planning and real estate rehabilitation. The land use and requirements for a fair and equitable access plan for all residents and businesses is quite complex in San Jose. The costs are becoming prohibitive but land use must still be equitable. With my history of working on physical issues related to land and human interface including water resources, property rehabbing, weather, and rent control, I am in an excellent position to be able to understand the issues related to growth in an environment of control and free market. With rent control being utilized in San Jose and Google moving in, I would relish the challenge of being involved with developing and monitoring the plan to best use the available land resources within what promises to be an intense political arena.

Please state any other information which you feel would be useful in reviewing your application

Through my work at the Fairgrounds, the direction of the business model is changing. An example is that after 30 years, the County Fair was profitable in 2018. There is also an overall plan for the use of the Fairgrounds underway. The county had been attempting to handle the planning for the last 30 years without much success. I was instrumental in bringing the planning process in-house.

Please describe your experience in serving on a Commission or Board.

As a member of the board and now Chairman for the FMC, I have had to review and push for changes on issues related to planning and finances. In one case there was missing money and I was involved in the beginnings of the investigation. Another was to find ways to raise income for the use of the land overall and individual segments. Currently working with Executive Director, who I was instrumental in hiring, on overall land use plan. He is also the 3rd ED since I got on the board. There were issues with predecessors with which I was involved resolving.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

I always aspire to leadership/management roles. This background has given me the self confidence to know when certain things needed to be pushed without compromise and others need compromise. I have been involved in studying and making land use recommendations on Long Island, New York and the barrier beaches off the South Shore of Long Island. Some of the work required getting background on the use of the land from residents that were extremely agitated by the governing bodies. It was a function of learning about what the residents felt was inaction. I attempted to explain what was perceived as inaction was actually the best action to be taken. Inaction to the residents was how the suggestion to move off the precarious weather beaten islands. I came to accept that as the way to go ahead. Fighting nature is not always do-able or advisable.

What is your understanding of the purpose of the Commission?

The Planning Commission is chartered with examining land use plans as part of the General Plan, monitoring the proper implementation of the plan, and hearing and deciding appeals about permitted use.

Please list three issues facing the City that you feel the Commission should address.

housing in both rent control form and non-rent control making Google's arrival and growth as painless as possible saving open land for appropriate uses
