After talking to Chair Parsons and reading the pertinent material on the website, I believe that serving on the Board will be personally fulfilling to me while helping San Jose function well. My specific objectives will be to learn what is needed to execute the duties of Appeals Hearing Board member well. I plan to do that within the scope of Board authority and the legal outcomes allowed within City codes, regulations and other pertinent laws, while simultaneously looking for latitude in helping city residents that may be struggling.

Please state any other information which you feel would be useful in reviewing your application

I have learned to work well with others, and to be cognizant of the needs and values of a range of thoughts and opinions. I believe there is strength in all Board members having a voice as we discuss and deliberate. I am good at learning new information, and should be easily able to keep up with the background material for the cases brought to the Board. I am good at following directions, but will be free to share my opinions and thoughts respectfully.

I believe my education and professional experience suit me well to serve on the Planning Board and the Appeals Board. These two boards play huge roles and impact the quality of life in San Jose and ensuring it grows strategically and responsibly, allowing it to remain the best city in the United States to live and work. Whether it is the Planning Board that is instrumental in making educated and responsible decisions for economic growth while minimizing and considering all negative and environmental impact, or the Appeals Boards involving enforcement and adherence to regulatory and civil code for safety, health and quality of life, they are of critical importance.

Please state any other information which you feel would be useful in reviewing your application

I feel strongly about leveraging my experience for the benefit of the community. I am thankful and appreciative of those that served to make San Jose the city it is today. Now that my two children are grown, I have the bandwidth to give back to the community and help shape it for decades to come.

To answer this question from an absolute and global perspective, the only possible answer is yes. However, I believe the intent of the question is if I have a potential conflict of interest, such as a financial interest where I would derive direct benefit, in which case the answer is definitely No. To explain my answer, I am a real estate Broker, in the field of Real Estate Lending, a resident of San Jose, and own real estate investment property. My economic livelihood and financial stability rely on prudent decisions at all levels of government and responsible action from all residents of our city. Therefore, the Planning Commission with responsibility involving the General Plan, land use, development, redevelopment, etc. does make decisions impacting all residents of San Jose, from the quality of life to financial and economic impact. That said, I do not see any conflict of interest nor any ability to impact my personal interests in any way shape or form.

Please describe your experience in serving on a Commission or Board.

I have not served on any City, County or State Commission or Board. I do have experience participating in Chapters and Boards in community and professional organizations such as currently sitting as Board Member of the Silicon Valley Chapter of CA Association of Mortgage Professionals. Our mission is to serve as a resource and advocate for lending professionals, hosting education seminars and networking events.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

My professional experience in real estate, mortgage lending and community involvement should prove beneficial towards qualifying and contributing as a member of the Planning Commission Board or Appeals Board. Both roles are instrumental in proper planning and adhering to code, ordinance and general plan, of which I have a working knowledge. As a real estate and lending professional, active CA DRE 01299745 since 2003 and NMLS 695345 since 2010, I have had the need to stay abreast of the local market and regulatory changes impacting the industry. This includes ongoing continuing education, both required for licensing and voluntary for continual growth. In addition, my roles have provided opportunity to keep the pulse of the community, such as outreach to underserved markets in credit, financial education as a volunteer Junior Achievement instructor, and host for homebuyer education seminars. .

What is your understanding of the purpose of the Commission?

The Planning Commission makes decisions impacting the General Plan, adherence to, changes, considers environmental impact and balances with economic growth and development. The Appeals Board hears appeals from the community involving issues that involve code enforcement, violations of health and safety, nuisance and blight, unpermitted structures or businesses, things of that nature.

Please list three issues facing the City that you feel the Commission should address.

Blight and safety issues in many private neighborhoods and public areas such as freeway offramps and bridges. Unpermitted structures and overcrowding in residential property causing unsanitary conditions and blight. Unpermitted operation of businesses in residential areas impacting traffic and environmental waste

I have had extensive experience in the process of quasi-judicial hearings through participation on numerous securities industry disciplinary hearing panels (District Business Conduct Committee) and significant involvement with the security industry's national appellate apparatus (National Adjudicatory Council). As a result of this industry experience, I believe I am well-qualified to participate in the City's appeals hearing process and would expect to make an immediate contribution. I believe the City's Appeals Hearing Board would benefit from having a new Board member who is well-steeped in a collaborative hearing process and who could "hit-the-deck-running."

Please state any other information which you feel would be useful in reviewing your application

I have both the desire and time to devote to serving on the Appeals Hearing Board and would welcome the opportunity to be able to give something back to the City that has been my home for almost forty years. I believe giving back in this particular manner makes the best use of my background and skills.

What is your understanding of the purpose of the Commission?

The Appeals Hearing Board hears code enforcement cases involving matters such as blighted conditions, illegal building activity, unsafe and unsanitary living conditions, abandoned, dismantled and inoperative vehicles on private property, neglected vacant houses, weed abatement liens, garbage liens and other matters. The Board also hears appeals of police permit denials or revocations, stop sign appeals, sign removal fees, utility billing and graffiti abatement fees.

Please list three issues facing the City that you feel the Commission should address.

The primary issue facing the Appeals Hearing Board is ensuring the continued administration of a fair and unbiased code enforcement program designed to correct violations of municipal codes and land use requirements. In that regard, the Appeals Hearing Board serves as an important arbiter between the City and its citizenry -- an essential function that should support and engender ongoing trust and faith in our system.
