City Clerk

City of San José Youth Commission

December 11, 2019

To Rules Committee

Re : San José Youth Commission Policy Recommendation.

Dear Honorable Mayor and City Council,

Please accept and add the San José Youth Commission Public Safety Policy Recommendations attached to the Rules Committee agenda.

On October 28, 2019, the San José Youth Commission held a Mental Health Town Hall. Youth throughout the city convened to share their concerns and thoughts around the issues of mental health and the effects it has on their peers. As a result, the District 10 Commissioner and the District 10 Youth Advisory Council conducted further research, analyzed their findings, and created the attached Public Safety Policy Recommendation. This recommendation aligns with the 2019-2020 Youth Commission annual workplan which states, the Commission will address specific issues the Youth Commissioners deem important to address on behalf of their peers.

The Policy Recommendations have been peer reviewed and feedback was gathered at the Youth Commission monthly meeting on November 25, 2019. Members of the public shared their thoughts and showed support for this item. The recommendation has also been vetted by the Santa Clara County Suicide Prevention Steering Committee on December 5, 2019.

Please accept the Youth Commission's Public Safety Policy Recommendation attached.

Sincerely,

San Jose Youth Commission
San José Youth Commission

Policy Team: Public Health

Discussion Area: Policy

Dheerj Jasuja (District 10 Youth Commissioner)

I. Recommendation

Afterschool coordinators, employees of community centers, and staff of other organizations under the City's jurisdiction that interact with children (aged 0-17 years old) be required to undergo mental health training so that they can properly assist children who face mental health issues and/or crises.

II. Background

The youth of today are in the midst of a mental health crisis as millions of kids across the nation from ages 3 to 17 years old are diagnosed with mental illnesses. Our city is no exception. As the pressure of school, social life, sleep-deprivation, and other adverse childhood experiences mounts in San Jose, increasingly kids are susceptible to and are diagnosed with mental illnesses. Unfortunately, many of them may not receive the treatment that they need for a multitude of reasons—for example, cultural norms, lack of access to treatment facilities, and a lack of recognition for their illnesses—which means that it is essential for the adults that do work with youth to know the signs and to help those with mental afflictions.

III. Research

The mental health crisis is a national issue as according to the CDC, “7.1% of children aged 3-17 years (approximately 4.4 million) have diagnosed anxiety. 3.2% of children aged 3-17 years (approximately 1.9 million) have diagnosed depression,” which clearly demonstrates the pervasiveness of mental illness in our country. To make matters worse, Elliot Brenner finds for the Stanford Social Innovation Review that “At least 85 percent of those in need of treatment do not get it.” When looking at mental illness rates a little closer to home, the US Department of Health and Human Services illustrates that 32% of California HS students were depressed in 2017. Considering that there were about 2 million high school students in 2017 (California Department of Education) that means about 600,000 high school students were depressed in California alone. Clearly, mental health illnesses, such as depression, are pervasive in California, and our city isn't simply left out from this epidemic, especially because of the extreme levels of competition present in middle and high schools across the city.

It's also important to recognize the efforts made in order to curtail the prevalence of suicide in schools. Recently, Governor Gavin Newsom signed AB 1767, which extended the power of AB 2246, making suicide prevention efforts mandatory in schools for grades K-12. Therefore, the City of San José is obligated to take efforts to improve the ability of afterschool coordinators to assist

youth who have mental illnesses as the mental health crisis is recognized state-wide. Moreover, it is also important to bring up the issue of teacher mental health training to the Santa Clara County Board of Education as only a few efforts are being made to train teachers about mental illnesses, but there aren't any comprehensive efforts to address this crisis in schools. In fact, Santa Clara County works with only 11 school districts total—Palo Alto Unified School District, Santa Clara Office of Education Alternative Education and Special Education, Los Gatos Union School District, Los Gatos Saratoga High School District, Sunnyvale School District, East Side Union High School District, Mountain View Whisman School District, Milpitas Unified School District, Santa Clara Unified School District, and the Morgan Hill Unified School District—through their partnership with the HEARD Alliance and Kognito, illustrating the need to institute city-wide (and hopefully county-wide) policy that promotes mental health training for educators, and especially for afterschool coordinators and city front line staff from all youth programming.

IV. Advantages

This is a relatively low-cost (Diaz 2018), highly efficient, and highly effective approach to tackle the mental health crisis. Accepting this recommendation and making it a city ordinance would effectively be stationing, trained mental health trusted adults in every youth program in San Jose, minimizing the potential for mental illnesses to go untreated.

V. Solvency

Training adults to recognize mental illnesses may result in early detection of these illnesses and the youth may receive better treatment sooner. Moreover, training adults in helping those with mental illnesses may result in early intervention and successful recoveries for many youths.

VI. Potential Setbacks

The cost of staff coverage to take this training may be too much to implement across San José's youth programs or individuals who received these training may not employ the knowledge learned.

VII. Closing Statement

The Youth Commission stands in strong support of the efforts of those who have worked to better the lives of millions of children afflicted with mental illnesses and urges the San José City Council to do so as well.

X. Youth Commission Agenda Item:

New Business Item: VII. D

Motion: Passed by the City of San José Youth Commission with a unanimous vote on November 25, 2019.

THE SAN JOSE PROPERTY RIGHTS INITIATIVE – HAPPY NEW YEAR CITY COUNCIL

Let us continue with our lesson plan in basic economics. First of all you don't bite the hand that feeds you new apartment houses. This is what San Jose's infamous rent control laws are doing. You're seeing a pull back of investors right now. When I took down rent control in Malibu for a short time I first took out the handful of institutional investors in mobile home parks. I contacted Wells Fargo located in San Francisco and they already wouldn't lend to rent controlled mobile homes. I filled them in on what was going and in California's mobile home parks. I've been their chief advisor on the subject ever since. Of course I've contacted the chief lenders of apartment house construction and informed them. The lenders of course all think the same as you would if your money was at stake. San Jose is the keystone of rent control in California. San Jose when it considers the situation should take down the rotten edifice of rent controls in California.

San Jose has the largest single mass of price controlled mobile home parks in the U.S. The owners of the land under your regime would have to buy back their own land to get this valuable resource for the production of much needed high density apartment houses for about a billion dollars! I talked to the city council of Milpitas on the phone and look what has happened. Only those who were against rent control are now able to run for a higher office. The mayor of Milpitas who was for control is now trying to start a development company.

Boot rent control out lock stock and barrel. The new state law for universal rent control is so stupid it can easily be outmaneuvered. Build to the highest and best use which will give you much higher taxes which then can be bridge loaned to take care of the truly needy. If not, you'll destroy your political careers in a special election initiative where San Jose's very brainy (now) electorate can enjoy your political posturing. End the pathology of rent control.

George Drysdale initiator and educator

Blair Beekman. _____ Speech to RaOG. 1.22.20. Item A1 - Vision Zero. cl.agnda.itm. 5.2.

b. beekmar

Thu 1/23/2020 11:45 AM

To: Agendadesk <Agendadesk@sanjoseca.gov>

[External Email]

Dear city govt. of San Jose, and community,

Thank You, that have deferred, for two weeks - Item 5.2, the Vision Zero action plan. I feel, its current memos, very nicely speaks to, the same subject matter & statistics, from the Nov. 2019, T&E public meeting.

At that meeting, traffic fatalities, through Sept. 2019, were at 38 - it seemed fair to estimate, there would be about, 50 fatalities, by the end of 2019.

Also at, the Nov. T&E meeting, there were statistics & words spoken, that I felt implied - there are currently about, 32-42, SJPd, traffic enforcement officers. And that, this number could grow to 50+, by the end of 2020.

Meanwhile, the San Jose Mercury & Metro newspapers, have both reported traffic fatalities, by the end of 2019, were higher than 60.

And that, the current number, of traffic enforcement officers, is under 20.

I feel, this recent statistical reporting, of Vision Zero-s.j, from both, the city govt. & local newspapers, should be openly and properly addressed, before we move forward, with any Vision Zero action plan.

To once again offer -

Technology, surveillance, and data collection, public oversight practices & guidelines, from the U.N, the state of Ca. the ACLU, & others, can be mostly familiar, good ideas.

And that can be of simple help, for people to find, their own good understandings, towards, open, accountable, public policies. And how, everyone can be a part of, the tech future, within their own community.

These sustainable democratic ideas, can actually, well-define, Vision Zero itself - and, may be the key, in how to unlock, the current frustration & over-competitiveness, with Sacramento, with future tech. & surveillance issues.

And hopefully, help re-channel, an possibly over-intense need, in how to develop, green sustainability ideas, in San Jose, at this time.

This can be an awkward situation. I want to learn, how friendly, cooperative words & ideas, can definitely help, to end a confusion, of how to report statistics in San Jose, at this time.

I hope new ideas, in tech. accountability, and other local sustainable practices, can be of help, for more responsible, green sustainability practices, at this time, as well.

sincerely,
blair beekman

Blair Beekman-2. _____ Speech to RaOG. 1.15.20. items H1 & H3. T&E and CED Workplans. Jan. - June 2020.

b. beekman

Thu 1/23/2020 11:46 AM

To: Agendadesk <Agendadesk@sanjoseca.gov>

[External Email]

Dear San Jose city govt.

Items of Jan.-Jun.2020 T&E workplan.

The Airport sustainability plan, in February -

If you haven't already, I hope you can make it clear, to the public, when & how, money will be spent, for a, new, more responsible, neutral study, of downtown height limits.

And, that I had thought, was already agreed upon, in good terms, by city govt. and the airport commission.

Vision Zero action plan, in February -

I hope community sustainability & environmental issues, can be addressed openly & honestly

A thank you, to those of San Jose, who are understanding, the use of technology, & law enforcement, should try to have, only a smaller, more auxiliary role, in the larger questions, of Vision Zero. And its initial ideas, of a greener, more harmonious, sustainable, community future.

A reminder, of the large, versatile future - that new, tiny, Geo-Fence tech., can offer data collection, surveillance, active tech. guidance, and law enforcement.

To better organize communities, to offer equality & equity, and to take the fear out of the future, it is important to practice, open, public policies, with tech.

This can describe, good democratic practices, sustainability, and peace.

Tow Truck Pilot Policy, in February -

I hope, the new Pilot Program, for tow truck companies, in San Jose, will include, good new homeless policies, from Palo Alto.

They have developed, good human & civil rights practices, with homeless issues, that includes, a sensitivity for people, living in cars & RVs.

The Local Community Energy Roadmap, in March -

I hope this is a subject, everyone will want to look into.

As part of, it's initial, good purpose & research, over the past 10 years, I feel local community energy, can very much address, state sponsored war, its disaster capitalism, and its shock doctrine tactics.

And can humbly ask, with so much decent planning, why did PG&E, have to create such a system, the way it has, over the past 10 years.

Annual Report on Wildlife trails, In April -

A reminder, the city of Davis Ca, has created a surveillance & technology ordinance, for its wildlife trails, that San Jose, will no doubt, be studying,

And, what can be, good examples, of a more organized, responsible, sustainable, and democratic process, for the future.

Many items, on transportation, from April through June -

With recent green work, at the state level, I hope we are all ready, to look at, what can be, increased ridership, for mass public transit, here at the local level.

And that, in learning, to better question fossil fuels, into the 2020s, there can be, many other responsible options, available.

The CED workplan, through June 2020 -

With many, CED workplan issues, of housing, through June 2020 - I hope, we all can be, more open, to want to talk about, and work towards - very low income, extremely low income, and mixed income housing.

sincerely,
blair beekman

Blair Beekman-3. _____ Speech to RaOG. Opn.Forum. 1.22.20. ____ San Jose & Santa Clara Co., in 2020.

b. beekman

Thu 1/23/2020 11:58 AM

To: Agendadesk <Agendadesk@sanjoseca.gov>

[External Email]

Dear city govt. of San Jose, and community,

The concepts, of human rights, civil rights, civil protections, and democracy, has been doing important work, around the country, and in Santa Clara Co./ S.F. Bay Area, for years now.

I feel, it is from this, we can all work toward examples, of more honest, responsible, and better reasoned, democratic practices, in 2020.

I feel, it is from this good work, at the local level, that can also work towards, peace & good standards, for intl. dialogue. And an eventual end, to shock doctrine, disaster capitalism practices, and u.s. continual war.

I hope this can remind, local s.j. govt., local newspapers, green sustainability, and all of us, in San Jose, of how we can work, in 2020.

sincerely,
blair beekman
