MISC

Dear San Jose city govt., and community,

To speak a few words, about the mid-year, and yearly budgets, in terms of equity.

I think most, will all be respecting, how equity can be defined, within upcoming, yearly budget ideas.

But I hope the mayors, state of the city speech, will make clear - the ideas of equity, may need to be, a much more open & developed discussion, that will include the everyday public.

Like with the future, of more open & accountable, technology & data collection practices, I hope city govt. will learn, to not be so fearful, of the public. And learn, to better trust, the motives & intentions, of the everyday community.

Although it can be stressful, I hope 2020, can be a year, to develop a bridge, for all sides, of how open community meetings, and input, can discuss the ideas, of both, equity & equality,

So communities, of the eastside, and all of san jose, can feel, they have a more important part, in deciding their own future, that will include, the eventual arrival of Google.

As an example, of the good community meeting process - I think the buddy aspects, of the SAAG meeting process, are starting to be clearly understood and felt.

sincerely,
blair beekman

PUBLIC RECORD 2

Dear San Jose city govt., and community,

To speak a few words, about the mid-year, and yearly budgets, in terms of equity.

I think most will all be respecting, how centralized ideas of equity, can now be defined, within upcoming, yearly budget ideas.

But I hope, the mayors state of the city speech, will make clear - the ideas of equity, may need to have, much more open discussion and understanding.

Like with the future, of more open, accountable technology, & data collection practices, I hope city govt. will learn, to not be so fearful of the public.

And learn, to better trust, the motives, intentions, and contributions, of the everyday community.

Although it can be stressful, I hope 2020, can be a year of bridge building, for all sides, with caring, good ideas.

And how, open community meetings & input, can help understand, how to move forward, as a whole community, with ideas of both equity & equality,

So communities, of the east side, and all of san jose, can feel they have, a more important part, in deciding their own future, that will include, the eventual arrival of Google.

The SAAG meeting process, can be an example, of a good community meeting process.

It can have, an everybody is welcome approach. And tries to make sure, all meeting minutes and notes, are then transferred, to the city public website.

sincerely,
blair beekman
