City Clerk

DATE: February 18, 2020

TO: STATE, CITY AND LOCAL OFFICIALS

**NOTICE OF PACIFIC GAS AND ELECTRIC COMPANY'S REQUEST TO INCREASE RATES FOR WILDFIRE MITIGATION AND CATASTROPHIC EVENTS INTERIM RATES (A.20-02-003)**

**Summary**

On February 7, 2020, Pacific Gas and Electric Company (PG&E) filed its Wildfire Mitigation and Catastrophic Events Interim Rates application with the California Public Utilities Commission (CPUC).

PG&E is requesting \$899 million in this application. If the CPUC approves the proposal, PG&E will increase electric rates over a 17-month period beginning in August 2020.

The application includes costs related to:

- Mitigating wildfire risk, including enhanced vegetation management;
- Upgrading the electric system to be more resilient;
- Responding to catastrophic events, including wildfires and storms;
- Safely restoring utility services to customers after catastrophic events, including repairing, replacing or restoring damaged utility facilities; and
- Complying with governmental agency orders for emergencies declared to be disasters by the state of California or federal authorities.

Costs related to the above total approximately \$1.67 billion mainly over a period of 2017 through 2019. The current application proposes to recover a portion of the total costs in advance of the formal application(s) that will be filed later this year.

**Background**

Wildfire risk mitigation costs included in this application comply with the Wildfire Mitigation Plan approved by the CPUC in May 2019 and the Fire Safety decision approved by the CPUC in December 2017.

**How will the application affect electric rates?**

Most customers receive bundled electric service from PG&E, meaning they receive electric generation, transmission and distribution services.

Based on rates currently in effect, the bill for a typical residential nonCARE customer using 500 kWh per month would increase from \$124.41 to \$130.11, or 4.6%.

Direct Access and Community Choice Aggregation customers only receive electric transmission and distribution services from PG&E. On average, these customers would see an increase of 5.8%.

Another category of nonbundled customers is Departing Load. These customers do not receive electric generation, transmission or distribution services from PG&E. However, these customers are required to pay certain charges by law or CPUC decision. The impact of PG&E's application on these customers is an average increase of 1.9%.

Detailed rate impacts are being sent directly to customers in February and March 2020. Actual impacts will vary depending on usage.

**How do I find out more about PG&E's proposals?**

If you have questions about PG&E's filing, please contact PG&E at **1-800-743-5000**. For TTY, call **1-800-652-4712**. Para más detalles llame al **1-800-660-6789** • 詳情請致電 **1-800-893-9555**. If you would like a copy of PG&E's filing and exhibits, please write to PG&E at the address below:

Pacific Gas and Electric Company  
Wildfire Mitigation and Catastrophic Events  
Interim Rates Application (A.20-02-003)  
P.O. Box 7442  
San Francisco, CA 94120

A copy of PG&E's filing and exhibits is also available for review at the CPUC's Central Files office by appointment only. For more information, contact [ajcentralfilesid@cpuc.ca.gov](mailto:ajcentralfilesid@cpuc.ca.gov) or **1-415-703-2045**. PG&E's application (without exhibits) is available on the CPUC's website at [www.cpuc.ca.gov](http://www.cpuc.ca.gov).

## **CPUC process**

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related information necessary for the CPUC to establish a record upon which to base its decision. Evidentiary hearings (EHs) may be held where parties will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are formal parties in the case can participate.

After considering all proposals and evidence presented during the hearings, the assigned Judge will issue a proposed decision which may adopt PG&E's proposal, modify it or deny it. Any of the five CPUC Commissioners may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted on at a scheduled CPUC Voting Meeting that is open to the public.

The California Public Advocates Office (CalPA) may review this application. CalPA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. CalPA has a multidisciplinary staff with expertise in economics, finance, accounting and engineering. For more information about CalPA, please call **1-415-703-1584**, email **PublicAdvocatesOffice@cpuc.ca.gov** or visit CalPA's website at **www.publicadvocates.cpuc.ca.gov**.

## **Stay informed**

If you would like to follow this proceeding, or any other issue before the CPUC, please use the CPUC's free subscription service. Sign up at: **<http://subscribecpuc.cpuc.ca.gov>**. If you would like to learn how you can participate in the proceeding, have informal comments about the proposal or have questions about the CPUC processes, you may access the CPUC's Public Advisor's Office (PAO) webpage at **<http://consumers.cpuc.ca.gov/paol>**.

You may also contact the PAO as follows:

**Call:** **1-866-849-8390** (toll-free) or **1-415-703-2074**

**TTY:** **1-866-836-7825** (toll-free) or **1-415-703-5282**

Please reference **Wildfire Mitigation and Catastrophic Events Interim Rates Application (A.20-02-003)** in any communications you have with the CPUC regarding this matter. All public comments will become part of the public correspondence file for this proceeding and made available for review by the assigned Judge, Commissioners and appropriate CPUC staff.

DATE: February 18, 2020

TO: STATE, CITY AND LOCAL OFFICIALS

**NOTICE OF PACIFIC GAS AND ELECTRIC COMPANY'S REQUEST TO INCREASE RATES FOR THE WILDFIRE EXPENSE MEMORANDUM ACCOUNT (A.20-02-004)**

**Summary**

On February 7, 2020, Pacific Gas and Electric Company (PG&E) filed its Wildfire Expense Memorandum Account (WEMA) application No. A.20-02-004 with the California Public Utilities Commission (CPUC).

The application seeks recovery of certain costs recorded in the WEMA, including \$498.7 million for insurance costs incurred between July 26, 2017, and December 31, 2019. These costs exceed previously authorized rates for the same period.

If the CPUC approves this application, PG&E will recover costs in electric and gas rates over a one-year period beginning January 1, 2021.

**Background**

PG&E purchases excess liability insurance to protect against claims that may arise in connection with business operations. The program is designed to protect PG&E from significant losses, which could ultimately lead to increased rates for customers. PG&E renews this excess liability insurance on or about August 1 each year.

The cost of this insurance has increased dramatically due to high wildfire liabilities in California.

**How will the application affect electric rates?**

Most customers receive bundled electric service from PG&E, meaning they receive electric generation, transmission and distribution services.

Based on rates currently in effect, the bill for a typical residential nonCARE customer using 500 kWh per month would increase from \$124.41 to \$127.88, or 2.8%.

Direct Access and Community Choice Aggregation customers only receive electric transmission and distribution services from PG&E. On average, these customers would see an increase of 1.8%.

Another category of nonbundled customers is Departing Load. These customers do not receive electric generation, transmission or distribution services from PG&E. However, these customers are required to pay certain charges by law or CPUC decision. These customers will not be impacted by this application.

Detailed rate impacts are being sent directly to customers in February and March 2020. Actual impacts will vary depending on usage.

**How will the application affect gas rates?**

Bundled gas customers receive transmission, distribution, and procurement services from PG&E.

Based on rates currently in effect, the gas bill for a typical residential customer averaging 32 therms per month would increase from \$50.88 to \$52.68, or 3.5%.

Detailed rate impacts are being sent directly to customers in February and March 2020. Actual impacts will vary depending on usage.

**How do I find out more about PG&E's proposals?**

If you have questions about PG&E's filing, please contact PG&E at 1-800-743-5000. For TTY, call 1-800-652-4712. Para más detalles llame al 1-800-660-6789 • 詳情請致電 1-800-893-9555. If you would like a copy of PG&E's filing and exhibits, please write to PG&E at the address below:
