Planning Commissioners  
City of San Jose  
200 E. Santa Clara Street  
San Jose, CA 95113

**RE: Support for Zoning Ordinance Amendment File NO. PP20-003**

Dear Planning Commissioners:

Please approve the zoning ordinance amendment to legalize tiny homes on wheels (THOWs). Our friends at San Jose Conservation Corps + Charter School (SJCC+CS) provide transition-age youth (18-27 years old) with a high school education and job training in conservation and construction. Many of their students are having a hard time finding housing and many are homeless adversely impacting their ability to learn and stay healthy. Thus SJCC+CS is proposing to teach its students to build THOWs and place them in homeowner's backyards so they can be rented to its students at very low rents.

As a regional leader in addressing housing instability in older adults, we also recognize the benefit this program could have as a form of passive income for older adult homeowners living on fixed incomes.

***SJCC+CS however, is unable to implement this program without first amending the zoning ordinance to legalize THOWs.***

We need to utilize every possible tool we have to alleviate the housing crisis and house our housing insecure neighbors; through the use of tiny homes on wheels, this program offers that.

Please approve the zoning ordinance amendment to legalize tiny homes on wheels.

Thank you,

**Sam Kennard**  
Program Manager  
Pronouns: he / him / his  
Rebuilding Together Silicon Valley

**From:** Alex Shoor  
**Sent:** Friday, March 20, 2020 10:02 AM  
**To:** engagement@catalyzesv.org  
**Subject:** Community Workshop Report re: Redevelopment of 10+ acres in W. San Jose

Committed to engaging the community more in the development process, [Catalyze SV](#) puts on Community Visioning Workshops in Silicon Valley about major development sites.

These workshops offer community members a distinct opportunity to discuss their ideas for development in an inclusive, welcoming, collaborative, constructive way.

On February 29, 88 people joined Catalyze SV for our latest community workshop & site walk. It focused on 10-acres of the El Paseo de Saratoga site in West San Jose.

Currently an underutilized shopping center, El Paseo de Saratoga is proposed to be [redeveloped as a mixed-use project](#) by [Sand Hill Property Company](#). We planned & facilitated this workshop to help get the community's best ideas on what it wants from the redevelopment into the hands of Sand Hill & the City of San Jose.

A few minutes ago, we [emailed Catalyze SV's list serve](#) our Community Workshop Report. It includes:

1. [Our presentation](#) to the community at the start of the workshop.
2. The [key themes & minutes](#) from what community members said on 2/29 about this site.

As a key stakeholder in our community, we're sharing it with you too, linked above and attached here.

Thanks very much for considering this model of community engagement & the results from it. If you'd like Catalyze SV to consider facilitating a similar workshop about a development site in your neck of the woods, let's chat!

Gratefully,  
Catalyze SV's Board of Directors & staff

Alex Shoor  
Executive Director  
Catalyze SV

Dear community & San Jose govt,

I have noticed, in the Public Record, the past few weeks, several, new or updated, Wi-Fi cell antennae/equipment permits, from Verizon telecomm, that have been approved, for placement within the community.

To respectfully ask, is the process, of non-emergency, Wi-Fi cell antennae/equipment permits & their placement, going to be suspended, at this time.

And for, as long as, community shelter-in-place orders, are in effect ?

We would all like to practice the ideas, of business as usual. But I am worried, s.j. city govt, may take advantage of the public, with more Wi-Fi cell permitting & placement, during this time of emergency.

As san jose city govt, may also take advantage, of good, public accountability practices, in wanting to suspend the Brown Act, and parts of, the San Jose Sunshine Ordinance, at this time, as well.

Meanwhile, there has been, some incredibly good examples, of trust & love, with people from local neighborhoods, coming together, to help each other.

Can city govt, continue these good efforts, to help people develop skills, in how to better work together, as local neighborhoods, while being isolated in their homes, at this time.

And that, in the least, please know how to develop, correspondingly better accountability and public communication, about Wi-Fi & 5g permits and placement, at this time.

I hope someone can write back, how current, Wi-Fi & 5g cell antenna permit policy, will be practiced, during this time, of shelter-in-place.

sincerely,  
blair beekman

letter-2. blair beekman. Wednesday. March 25, 2020.

Dear community of San Jose, and its city govt.

As the Brown Act, asks for public notices of meetings, and its agenda items - 72 hrs., before a public meeting.

In that - items, memos, and statements, will now more often - need to be brought forward by city govt., within the 72 hrs, of the Brown Act public notice requirement.

Instead of - s.j. govt., fully suspending the openness & accountability, of the Brown Act, and parts of, the San Jose Sunshine Ordinance, at this time of emergency.

Why not ask - how the Brown Act, and the S.J. Sunshine Ordinance, can work to declare - legal & specific intentions, in emergency situations - that can simply add, urgent, council item's, memos, reports, and statements, within the remaining, 72 hr period, before a public meeting.

To note - memos, studies reports, etc., for an agenda item, do not have to be covered, by the Brown Act. Only agenda item's.

This can make it easier, to create a good legal language, in how to speak about, unplanned items, that can be legally deemed, 'of an emergency',

Ideas of better openness and accountability, have been specifically developed, in the past several years, to address & ask for, a responsible end, to continual war, and shock doctrine, disaster capitalism practices.

And by using, mostly familiar ideas, guidelines, and practices, in what can be, more open, community democracy.

As I have been trying to state, for over 5 years now, openness and accountability, can be, the most important ideas, of innovation & community sustainability, at this time in history.

I feel, this can very much address, Brown Act & San Jose Sunshine Ordinance questions, for this current emergency situation.

As the work, with the San Jose city budget has proven, there can be, good, open, principled ways, to fight the panic, of this emergency situation.

I hope, the city govt of San Jose, is finally ready to mature, in what openness & accountability, can work towards and accomplish, for a local community, for this country, and for this earth.

sincerely,  
blair beekman

letter-3. blair beekman. Wednesday, March 25, 2020.

Dear community of San Jose, and city govt.,

New York City, is currently proving the predictions, in the rise, of illness, bad health, and death, between mid-March & early April, in local u.s. communities.

In my guesswork, there is also going to be, more testing, and new statistical data coming in, for what may be, many new strains, to help water down the deadliness, of the initial Corona virus, Sars-2.

It has been often stated, around the 2nd week of April, we may get, our first official glimpses, in how well this country is doing, in flattening the curve.

If procedures are going well, at that time, it seems a safe guess, shelter-in-place, will continue, for the month of April.

And to ask for people, to continue a safe distance, To make fully sure, there will not be a resurgence, of the initial virus.

So I hope, we can all be patient. As it seems, we still have, a ways to go.

Food & grocery deliveries, can still be arriving at stores. Just not, wltih quite the same amount, of food & items, as there used to be.

As we will all need, health & safety items, at stores, in the next few months, it will be important, to try to limit, how much we take for ourselves, or for our families.

I feel, we can flatten out & end this epidemic sooner, if the supplies of health and healing, can be available, to more & more people.

Your putting back, the one extra item, when you already have, 2 or 3 - can simply allow better health, for one more person.

And better overall public health.

To limit yourself, with 2, of the same item, seems a good rule of thumb, at this time.

How people, can actually pay for items, in the next few months, should be an important health issue, issue, as well.

It has been hopeful, to learn how people of the community, have organized together, and have been volunteering.

sincerely,  
blair beekman
