I dont know, if you are still accepting letters, for council packets, beforehand still.

It is before 12 pm. These are my prepared words, for the 4.14.20, city council meeting, at Public Comment time.

- blair.

Dear community, and city govt. of San Jose,

Item 2.7

With this, U.S. Transportation Security item - a simple reminder, our decision making, does not have to be hostile, irrational, or xenophobic, in this time, of a sort of, an inverted 9.11.2001.

Items, 2.9 - 2.12.

I hope current, new street paving, can bring, good Measure T public oversight ideas, by this summer.

Govt and everyday community, may need, an outlet together, in the next few years, for an easier, more clear, public process.

Measure T public oversight, and the city commission process, seems good ways, to do this..

Item 2.14,

Thank you, for the decency, to place on the consent calendar, grant money, for sj flood victims of 2017.

A reminder, that with good accountability practices, this past month, within the RaOG Public Record,

Please place, your April 8, RaOG meeting, on You Tube soon, and it's future of city Wi-Fi.

Item 2.15.

The 2020 Census - and it's long battles, for better civil rights and civil protections, in data collection, has been won.

I feel, there can now be, good examples, of our comprehensive, immigration future.

sincerely,
blair beekman.

Public Comment on Consent Calendar

Public Comment from Blair Beekman

Items, 2.9 - 2.12. I hope current, new street paving, can bring, good Measure T public oversight ideas, by this summer. Govt and everyday community, may need, an outlet together, in the next few years, for an easier, more clear, public process. Measure T public oversight, and the city commission process, seems good ways, to do this.
