

SILICON VALLEY'S AIRPORT

SJC Airport Master Plan

Presentation to City Council – April 28, 2020

SJC's Positive Growth Trend

SJC Master Plan Major Amendment and EIR

- Thorough public engagement
- We have listened to the public
- City Council's decision sets the stage for long-term vision

Summary of Key Points

1. Vision for the Future
2. Environmental Responsibility
3. Financial Prudence
4. City Council Oversight

1. Vision for the Future

- ➔ Increase capacity of the terminal area
- ➔ Continue to provide a high level and quality of service
- ➔ Ensure and enhance safety and security

2. Environmental Responsibility

- ➔ Significant and unavoidable air quality and greenhouse gas impacts related to air traffic emissions
- ➔ Carbon management program consistent with Airports Council International (ACI) standards
- ➔ Continue successful efforts to reduce ground-based emissions
- ➔ Other potential environmental impacts are minor

3. Financial Prudence

- ➔ Master Plan projects will be phased for financial capacity
- ➔ Long-term Revenue Bonds will support the projects
- ➔ Airline activity generates Airport revenues
- ➔ Airlines support the Master Plan Update

4. Ongoing City Council Oversight

- ➔ Master Plan is a strategic framework for City Council approvals
- ➔ No a rigid schedule for specific projects
- ➔ Major projects will require City Council review and approval
